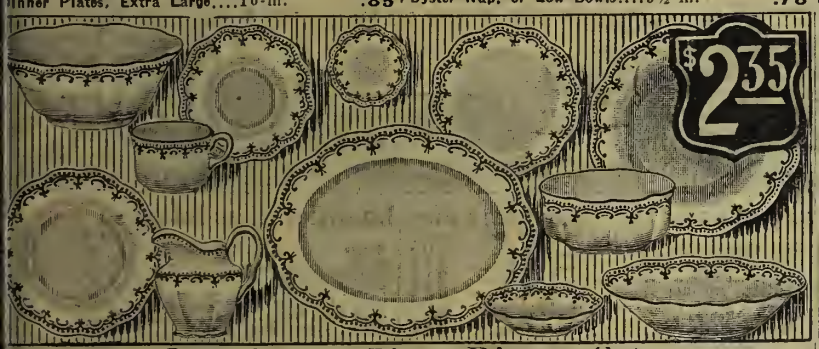
Oregon Plain White Dinner Set



We consider this the finest plain white semi-porcelain china manufactured in this country. It is carefully selected. Every piece is perfectly modeled, and richly and daintily embossed with a combination beaded and scroll design, fancy shaped edges. The ware is white in color, with a glossy glaze. It is the equal of any of the famous English semi-porcelain. The ware is exceptionally light in weight for semi-porcelain, yet strong and durable. We cannot emphasize too strongly the superb quality of our Oregon Plain White Dinner Ware, made by the famous Knowles, Taylor and Knowles China Co. There is no better or more attractive plain white dinner ware made that can be sold at our low price.

Pink Rose, Green and Gold Line Dinner Sets

The decoration on this set consists of two clusters of large pink moss roses and rosebuds, with their dainty green and autumn colored leaves and stems. Out of these clusters of roses, extends a narrow green band, encircling the center of each piece. There is a medium width bright gold band surrounding the edge of every piece. The handles are hand traced with bright gold. This style of decoration upon a new plain edge shape of high-grade white semi-porcelain china, makes this dinnerware one of the handsomest patterns ever offered our customers.

Westover Plain White Dinner Sets

Good judges pronounce this the finest, plain white, semi-vitreous china ever manufactured in America. It is a distinctive ware, and offered at a very reasonable price. It has the distinguishing characteristics of true china, and appeals strongly to those who want a high class dinner service, but who do not wish to pay extravagant prices. The body is white, daintily embossed, and finished with an extra heavy smooth glaze. Thin, but will give the best of satisfaction. Fancy edge shape. Just sufficiently fancy to relieve the severeness of a plain white set. Here is a saving worth considering.

Julia Pink Rose Border Dinner Sets

One of our most attractive decorated border pattern dinner sets. Made of the finest quality semi-china. White in color; light in weight; plain edge shape. The decoration consists of a narrow golden yellow band, on which a black line forms the Greek key. Entwined with this band at intervals is a garland of dainty pink rosebuds, with green leaves and stems. Outside of the border, on the edge of every piece, is a narrow band of rich, yellow gold. The handles are traced with gold. A beautiful set that will appeal to the particular housewife.

English Blue Willow Dinner Sets

Genuine English semi-porcelain. A splendid reproduction of the Blue Willow pattern, in a rich dark blue, under the glaze. Medium in weight. Made in good practical sizes. Especially popular where a service is desired different from the ordinary pattern. This pattern is just as popular today as it was 200 years ago. The design on the ware tells the old, but always popular legend of the Weeping Willow. At these prices these savings will certainly be worth having.

150C410—100-Piece Berain Dinner Set, $40.65

Shipping Weight, 90 Pounds

For List of Pieces of This Set, see top of Page

his exquisite Dinner Set is of the finest quality. Each piece is perfect in shape, light in weight, n and translucent, yet very strong and durable, white in color, with a rich glossy glaze. The decoration consists of delicate sprays of blue corn flowers with green stems and leaves. In addition to the beautiful blue floral spray, there is a medium size band of matte gold around the edge of each piece. The handles are half covered with matte gold. The bese of the covered ware and cups are also ornemented with a matte gold line. The decoration breaks the harshness of the conventional border and lends beauty to a truly high class dinner service. The shape is Haviland & Co.'s famous Derby. What woman wouldn't be pleased with it?

50C1647	8-inch	6 lbs.	$0.98
50C1649	9-inch	7 lbs.	1.08

Casseroles in Frames

This ware is ready for instant use. It doesn't need to be boiled in water before using. Temperature doesn't effect it. It's sanitary.

50C1601—7⅜-inch Round Baking Casserole. Nickel-plated frame. Ship. wt., 7 lbs. Price, each..... **$1.35**

50C1603—8⅛-inch Round Baking Casserole. Nickel-plated frame. Ship. wt., 9 lbs. Price, each..... **$1.69**

cooking china will not craze and absorb moisture even when d. It therefore is certainly more ry for cooking purposes than the rthenware casseroles.

1605—8½-inch Round Baking ole. Nickel-plated frame. Ship. lbs. Price, each..... **$1.89**

1607—9-inch Round Baking ole. Nickel-plated frame. Ship. 1 lbs. Price, each..... **$2.19**

Ink, coloring or anything absorbed by red earthenware cannot be washed out. It stays, and discolors the ware. This is impossible with this new cooking china. Therefore, it is more sanitary than any other baking ware made.

50C1609—8⅛-inch Round Baking Casserole. Nickel-plated frame. Ship. wt., 9 lbs. Price, each..... **$2.15**

50C1611—8½-inch Oval Baking ole. Nickel-plated frame. Ship. wt., 9 lbs. each **$2.45**

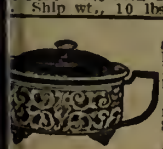
Vitrified China Cooking Ware is eadless glaze, fire-proof and acid- and cannot absorb moisture or . It cannot craze and is the t grado cooking wear in use to-

1613—8⅛-inch Round Baking ole. German silver frame. Ship. lbs. Price, each..... **$2.25**

1615—8⅛-inch Oval Baking ole. German silver frame. Ship. wt., 9 lbs. each **$3.58**

Note its sanitary features. It is the only chinaware in the world in which body and glaze are produced at one firing, thus making an absolutely non-absorbent china. Because of its non-porousness, the samo dish may be used for various foods or beverages without effect upon the flavor.

50C1617—8⅛-inch Round Baking Casserole. Silver-plated frame. Ship. lbs. Price, each..... **$3.89**



1619—8½-inch Oval Baking Casserole. Silver-plated Ship. wt., 9 lbs. Price, each..... **$3.98**

piece of the inside lining or the surface of red earthenware is d off (and it chips easily) it will the dirty and greasy water of the an or the juices in foods just like ter. This liquid will be absorbed he body of the utensil and will here and will undoubtedly cause ration of the utensil; besides be- nsanitary as well as causing the o get this mixed taste of greases and juices. No wonder en't taste right!

1621—8½-inch Round Baking Casserole. Silver-plated Ship wt., 10 lbs. Price, each..... **$4.10**

Red earthenware usually absorbs greases and food juices and acids just like a blotter absorbs ink. This special heat-treated baking chinaware is absolutely non-absorbent, even when chipped.

The FAMOUS *ANGLE* LAMP

Angle Lamps are in a class of their own. Their entire principle of construction and design is radically different from any other Lamp. Gallon for gallon, they will give more light and better light than any other lamp using the ordinary flat wick burner. Of all lamps fitted with flat wick burners, the Angle Lamp is the simplest, safest, most easily operated of them all.

The big drawback of so many ordinary hanging lamps is, that you cannot read when seated directly underneath, on account of the big shadow cast by the fount or oil chamber. The Angle Lamp throws its rays of light equally in all directions.

The oil pot bolder is made from good quality metal, embossed in fruit and floral designs, and highly nickeled. The level of the oil in the pot is automatically regulated. The burner is so simple that there is nothing to get out of order. We send instructions with each lamp. For use in homes, halls, churches, where a good steady light is needed. Four sizes, as described below. **We do not furnish spring extension with these lamps.**

Four-Burner Angle Lamp

150C2560—Price, each, **$9.98** Shipping weight, 50 lbs. Fitted with four No. 3 burners and wicks. Clear glass bottom globes and opalescent chimneys.

Three-Burner Angle Lamp

150C2562—Price, each, **$7.95** Shipping weight, 30 lbs. Fitted with three No. 3 flat wick burners. Oil fount holder and oil chamber nickeled and polished. Fitted with plain crystal glass bottom globes. The chimneys, white opalescent glass. Oil pot holds three quarts of oil, will burn 15 successive hours. Lamp comes complete as illustrated, ready for use, with full instructions.

Two-Burner Angle Lamps

150C2564—Price, each, **$5.85** Shipping weight, 26 lbs. Very similar in design to the three-burner, No. 150C2562, they are finely nickeled and polished, with embossed fount holder. The bottom globes are plain, clear glass; the chimneys are white, opalescent glass. Oil pot holds 3 quarts of oil which will burn 22 hours.

Single Burner Angle, Hall or Kitchen Lamp

150C2566—Price, each, **$3.79** Shipping weight, 18 lbs. This Lamp is designed for kitchen and similar uses. It is a wall lamp, fitted with a alot for a hook or nail. Will give you a much better light than the ordinary hall or bracket lamp at the same cost. Handsomely finished in polished nickel. Oil pot holds 1 quart and will burn for 16 hours. Fitted with plain glass bottom globe, and white opalescent chimney.

Top and Bottom Globes. Shipping weight, 2½ lbs.

335 Candle Power

Powerlight

A Miniature Lighting Plant which Makes and Burns Its Own Gas

8.95

warded the Gold Medal at nternational Exposition fety in 1914.

solutely safe under all itions.

althful and restful to the

easiest to operate.

ll finished — artistic — rative.

ong—durable compact.

chimneys ricks to

ffectly le.

335 Candle Power. The light it gives is intensely bright, yet soft, easy on the eyes, and steady as the sun. It producea a light of 335 candle power. Gives 13 times as much light as the ordinary oil lamp, 7 times as much as gas, and 21 times as much as the standard 16 candle power electric light. Other lamps (beside it), look yellow and dim.

Economy. You can hurn it 2½ hours a night every night in the month on a single gallon of kerosene or gasoline. By actual test it has burned 80 hours at a cost of 10 cents or ⅛ of a cent for each hour of burning.

Burns Kerosene or Gasoline. Either kerosene or gasoline or a mixture of both can be burned without change of burner or mautle. The principal fuel, however, is not oil, but air. It actually consumes but 3% of oil to 97% of air, which explains why the cost of lighting is so small.

Safety. The Powerlight Lamp was awarded the gold medal at the International Exposition of Safety in 1914, and is endorsed by lighting experts all over the world. You can turn it upside down and it will burn just as well as in an upright position. If dropped when lit the light will go out. It can upset without spilling oil, it does not smoke and has no odor.

The Lamp Itself is made of brass, handsomely nickel plated. The design is neat and symmetrical. The shade is very artistic. An ornament to any home.

Simplicity. The Powerlight Lamp is just as simple as it is safe. There is no wick to bother with or chimney to clean. With each lamp we include a pump, wrench, strainer-funnel, extra generator, alcohol can, cleaning needle, four mantles and an instruction card.

Shipping a Plow to Alaska by Parcel Post

In July, 1915, we received an order from a woman customer living in Nolan, Alaska. It amounted to over $1,450.00 and she expressly stipulated that everything was to be sent by Parcel Post. When it was finally packed for shipment there were 160 packages, each weighing 20 pounds or a little less, and the postage on the entire shipment amounted to $350.00. On $3.00 worth of sugar alone the Parcel Post charges were $12.00. In order to get a plow into the shipment we had to take it completely to pieces; in fact the ingenuity of our most experienced packers was severely taxed in order to make as few parcels as possible and still keep within the Parcel Post rate.

The reason for all this was that in Nolan there is only one mail delivery a year and that is in the Summer.

Nowadays Lighting Fixtures Mean Much to the Home

IN DAYLIGHT as well as at night they should contribute to the beauty of the home interior.

The selecting of lighting fixtures—*and the price you pay*—should be considered carefully. For your convenience in obtaining them at lowest cost we have prepared a book,

Lighting Fixtures for the Home

You are Entitled to a Free Copy of This Book. Send for It—We are Sure It Will Interest You

It shows fixtures for lighting by gas, electricity, gasoline or acetylene. Our beautiful, low-priced gasoline fixtures are strongly recommended for those who do not have electricity or gas.

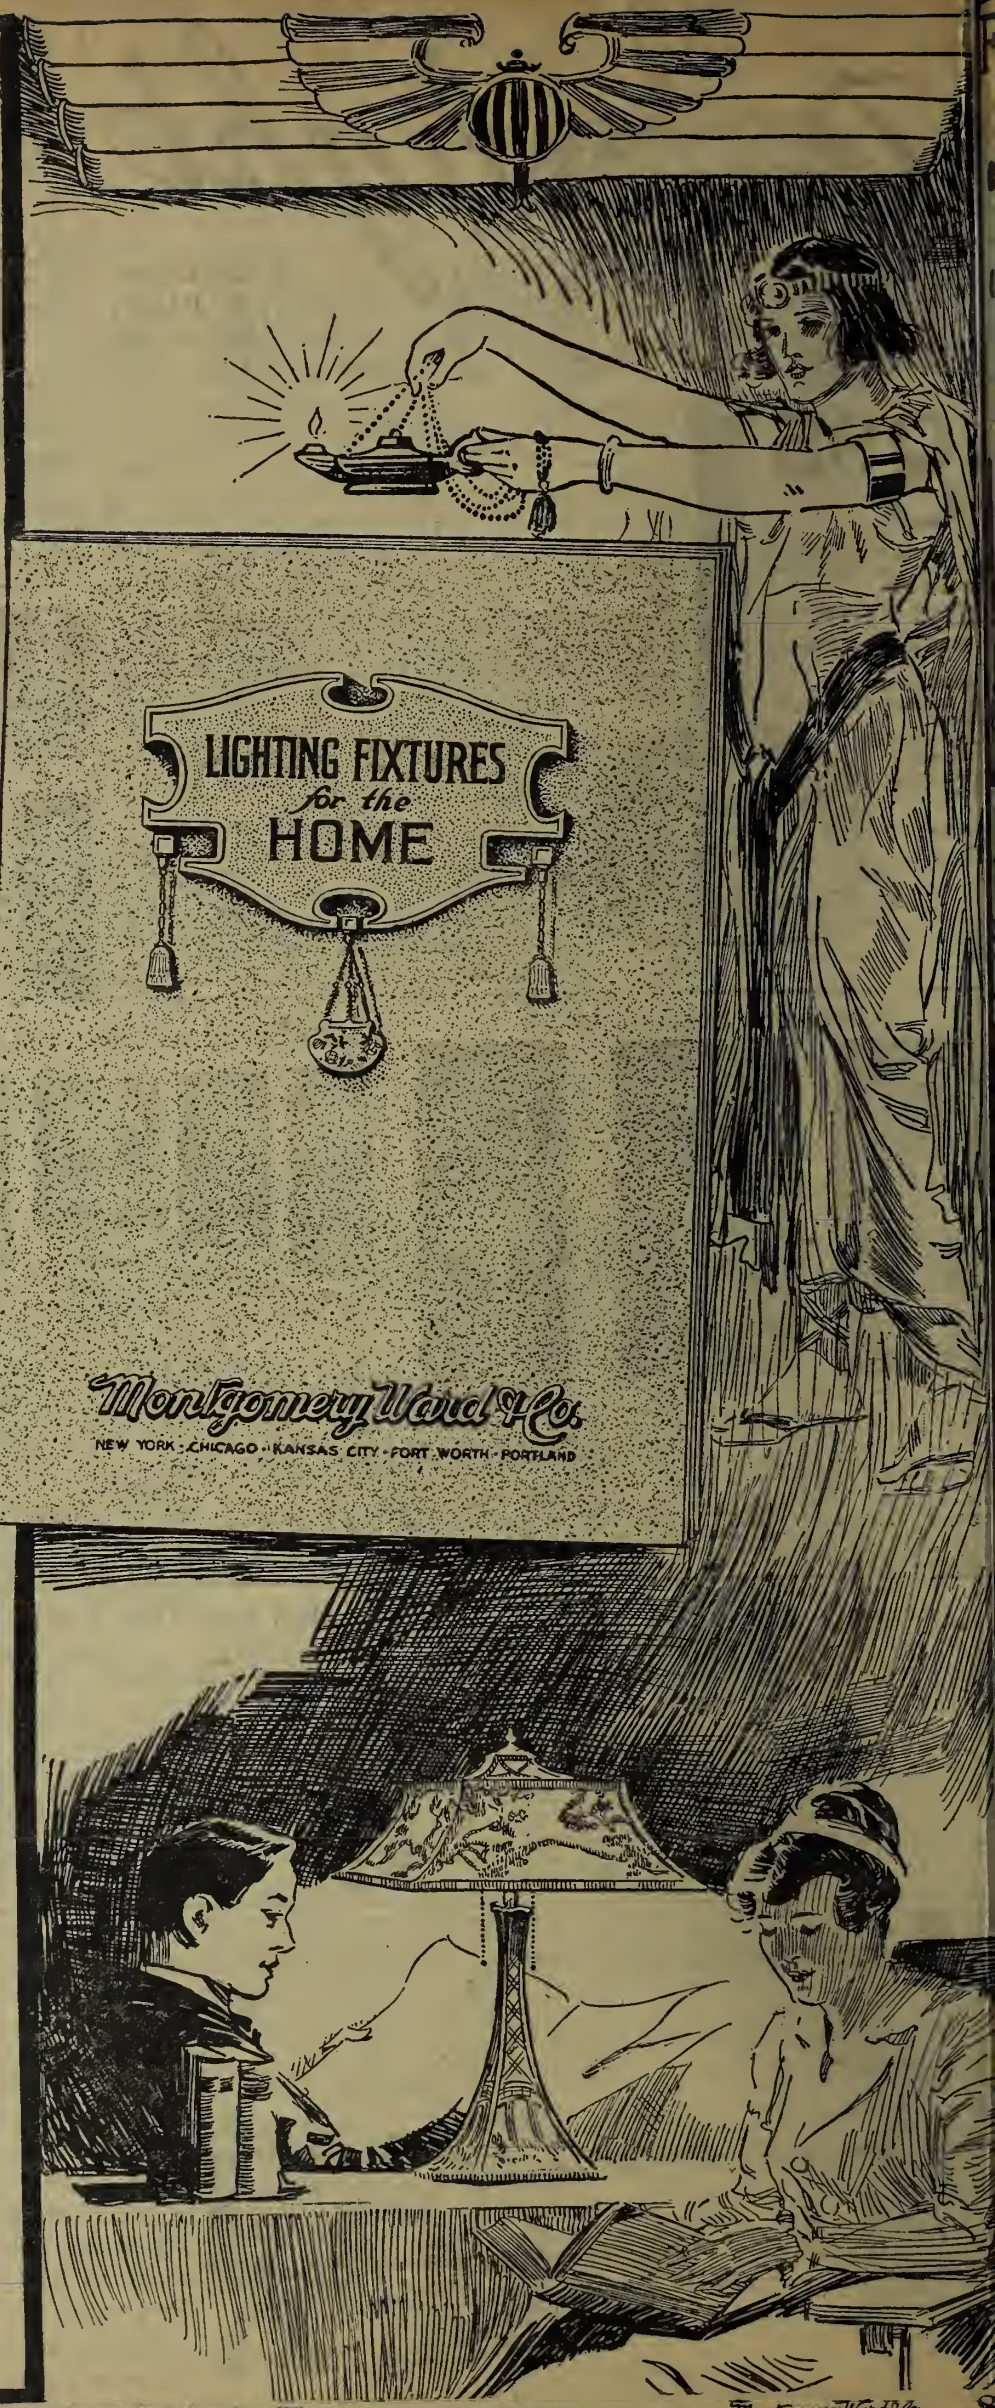
You will find this book full of valuable suggestions. **If you want to save money on your fixtures, you will find its contents a revelation.**

Never before in our history have we published so comprehensive a book on Lighting Fixtures. In it we picture, describe and price all kinds of **Domes, Shower Lights, New Style Semi-Indirect Lights, Inverted Domes, Portable Lamps, Reading Lamps, Chandeliers, Bracket Lamps** of every style, from the most elaborate to the plainest and simplest patterns.

The Prices Quoted Are from 25 to 50 Per Cent Lower than those ordinarily asked for fixtures of equal quality. We let you prove the truth of our statements.

You Can Easily Install Our Lighting Fixtures Yourself

They come to you all wired—ready to hang. Merely attach to wall or ceiling—connect the two fixture wires to your house wires—and the job is done. Anyone can do it. No experience necessary.

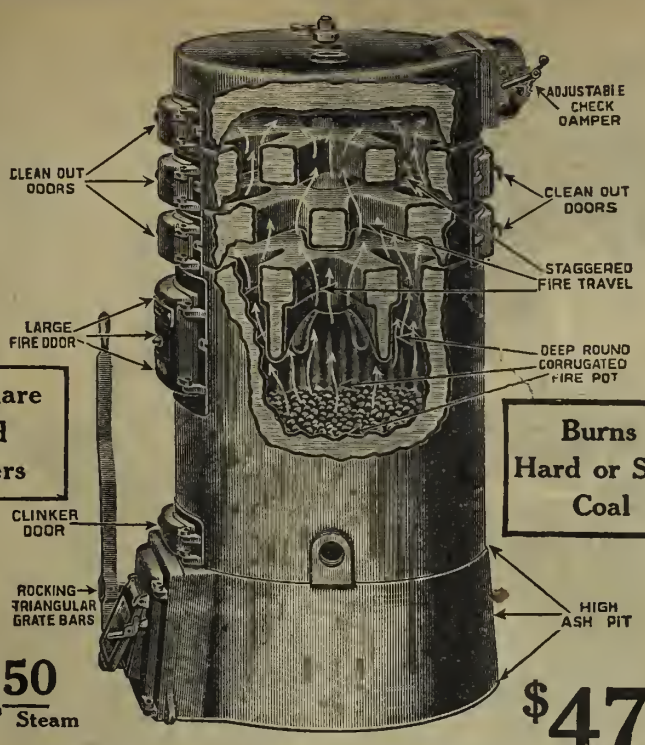


Let Our Experts Furnish You Free Plans and Estimates of Cost of Wiring Your Home, Store or Office for Electricity

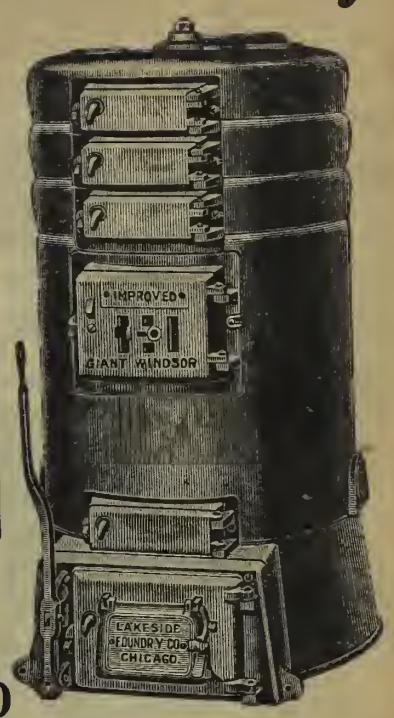
We have a regular department for this work. It doesn't cost you anything nor place you under any obligation. It tells you exactly how much the whole job will cost, before you spend a cent. It shows how much we can save you.

Simply send us a diagram of your building or home. State whether it is now in use or being built. Show position of rooms, their width, length and ceiling height. Indicate where you want fixtures and switches to control them, and wall plates for portable lamps, electric irons, and the like.

Our estimators will send you a complete wiring plan and an itemized list of all material required.



Take advantage of this great offer. Send at once for your free copy of this wonderful money-saving Fixture Book.



For Health and Comfort—Heat the Modern Way

For Steam

Sectional View Showing Construction

For Hot Water

No Square Dead Corners

Burns Hard or Soft Coal

$54.50 Steam

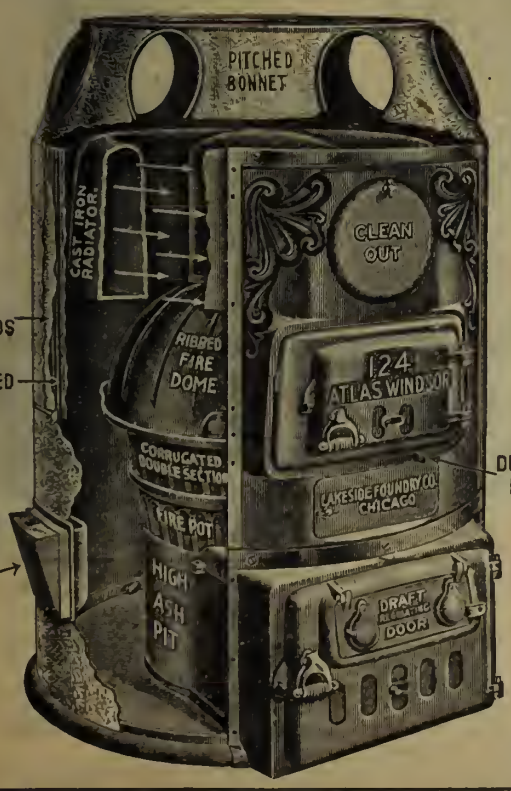
$47.00 Hot Water

A Warm House in Coldest Weather

The great advantage of a round fire pot in a homo heating boiler are so self evident hat they cannot be disputed. The dead corners in the fire with the attendant inefficient eating surfaces and great fuel waste which are inseparable from the square pot boiler re entirely eliminated in these round boilers. The deep round fire pot heavily corrugated n the inside, insures a steady evenly burning fire which will run twelve hours without ttention.

Our Round Boilers Save Coal

We pride ourselves not only in having a round boiler, but in having one of the most perfect and correctly designed round boilers that it is possible to produce. Note the large flue space, easily cleaned and kept clean, liberal number of clean out doors, staggered fire travel, rocking grate bars and high ash pit which insures an even distribution of draft and preserves the grates, the large fire door, clinker door, etc., in fact, every single feature that could possibly be desired.



Note that both Steam and Hot Water Boilers are listed below. Be sure to make no mistake in ordering.

Note—Some boilers have one section above fire pot and others two and three, depending on size. In third column of table below we have indicated number of sections which each boiler has above fire pot.

Atlas Windsor Warm Air Furnaces

$36.75 up with Steel or Cast Iron Radiator

Burns Hard Coal, Soft Coal or Wood

The design adopted for this furnace is the result of many years of experimenting and perfecting by one of the oldest and most reliable furnace manufacturers in the country, and it is offered to you with the absolute assurance that it will give you satisfactory service. In design, workmanship, finish and material, this furnace is unsurpassed.

This furnace is very economical in the use of fuel and will burn hard coal, soft coal or wood. The very deep radiator, highly corrugated fire pot with ribbed fire dome, are features which increase its efficiency to a wonderful extent.

The high ash pit permits the ashes to be easily removed and preserves the grate bars. It is equipped with perfectly designed, three faced, triangular, revolving grate bars.

These furnaces can be furnished with either steel or cast iron radiator. Prices on both types given in table below. The cast iron radiator is, of course, the more durable, and will last a lifetime. A good steel radiator, if properly cared for, should last from 15 to 20 years.

All parts are interchangeable, and parts for this furnace may be procured from us at any time at reasonable prices. Each furnace equipped complete with double lined casing with sheet asbestos between the lining and pitched top bonnet, check damper, etc.

It is all complete, ready for immediate setting up when it reaches you. **For more complete description, send for our special Heating Catalogue.**

Solid Comfort in Your Home with

The Windsor Pipeless Furnace $41.75 Up. Seven Sizes

Here's a furnace for the small house. It's convenient —no pipes—economical and does away with much of the annoyance, work and dirt of stoves. Besides, it costs very little.

The Windsor Pipeless Furnace gives you every advantage of the warm air furnace—furnace comfort at little more than the cost of a stove. The whole plant is in the basement. The warm air from the big furnace drum passes through a register in the living room floor, from where the heat distributes itself throughout the house.

No pipes—just one large register over the furnace. Fire up twice a day and you have a comfortable house at all times. Costs little to install and little to maintain.

No coal, smoke, ashes, soot or dust in your rooms. Full heating returns for every pound of coal you burn. Uses any kind of fuel. Large double door permits burning large chunks of wood. If doors to adjoining rooms and bedrooms upstairs are left open, every part of the house will be comfortable.

Fresh air is heated by the big drum of the furnace—your rooms are supplied with live, invigorating warmed air, kept in constant circulation.

Schools, churches and public halls can also be heated by the Windsor Pipeless Furnace with economy and convenience. We'll be glad to give figures for proper size furnaces for public meeting places.

Send for special circular on the

Windsor Pipeless Furnace

Tell us the number of rooms you wish to heat, give us an idea of the arrangement of your house and we will quote you our low cash price for a furnace of the proper size to heat it. Write today, so that you can have your furnace in ample time.

Have Warm, Snug Rooms at Least Expense With a Windsor Heating System

You Can Install it Yourself

Hot Water Thermometers

Used to indicate temperature of water in hot water heating systems. Usually mounted on boiler. Can also be attached to one of the riser pipes at any convenient point in the system. Bottom stuh is filled with mercury and projects down into water, insuring direct contact betweeu hulh and water. Registers up to 240 degrees Fahrenheit; Accurately tested and adjusted. Shipping weight, 1½ pounds.

8IC7910—Each 70c

Compression Air Valves

For hot water radiators. Opened and closed by hand. For steam radiators we recommend the automatic type of valve listed below. The loose key feature prevents valve from being tampered with hy childrcn. For ⅛ in. pipe tap. Shipping weight, 3 oz.

8IC7912—Valves only, without key. Each 6c

8IC7915—Keys, extra. Each 4c

Automatic Steam Air Valve

For steam heating systems only. Used on radiators, and at end of return lines. Permits free escape of air. Will not get out of order or give trouble. Made of solid brass highly nickel plated. Tapped for ⅛ in. pipe. Ship. wt., 7 oz.

8IC7911—Each 38c

Altitude Gauges

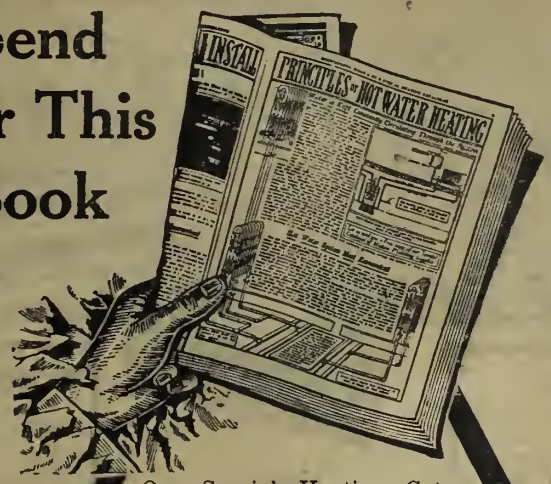
Indicates height of water in hot water heating system at boiler. Avoids necessity of going up to expansion tank to look at water gauge in order to tell when system is filled. Durably constructed. Japanned iron case. Glass is held in place with nickel plated brass ring. Each gauge furnished complete with gauge cock. One of the best altitude gauges on the rket. Ship. wt., 4½ lbs.

8IC7909—Each $1.25

Hot Water Radiator Valves

8IC7900—Made of solid brass, heavily nickel plated. One-half turn opens or closes valve. Allows water to circulate slightly wheu shut off. This prevents radiator from freezing when shut off.

Size, in.	¾	1	1¼	1½
Ship. wt., lbs.	1½	2¼	2¾	3¼
Each	62c	80c	$1.15	$1.60



Steam Radiator Valves

8IC7901—Solid brass heavily nickel plated. Has especial composition Jenkins disc. Not affected hy the high temperature of steam. An easy working, sure-closing valve.

Size, in...	¾	1	1¼	1½
Ship. wt., lbs.	1¾	2¼	3	4¾
Each	85o	$1.05	$1.45	$1.85

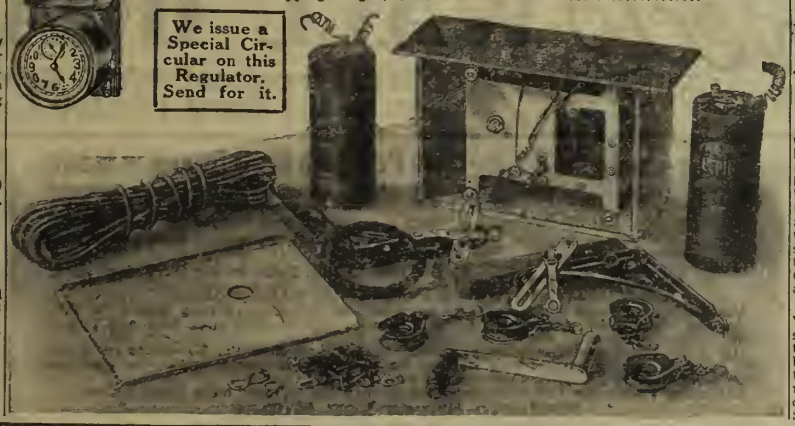
Our Special Heating Catalogue, "Modern Home Heating," tells all about our great home heating proposition. Goes fully into detail, explaining the workings of the different systems and the relative advantages of each; tells you which heating system is best adapted to suit the conditions of your building, so that you can select the best heating system for your home; how to connect the radiators on steam and hot water heating systems; how to set up the boiler; explains the use of the various tools, warm air heating furnaces, best methods of making connections, etc. No one owning or building a home of his own should be without a copy of this valuable book. Why not write for it today? We will send it to you postpaid, on request.

You can Set-up a Heating Plant Yourself

Hundreds of our customers install their own plants without previous experience. We cut and thread all the larger size pipe for you, 2½-inch and larger, so that all you have to do is to fit it together on the job.

This Windsor Heat Regulator Will Save Its Cost in Fuel in One Winter

$18.60 With Clock



Automatically controls the temperature of your rooms so that you can keep your house heated to any desired temperature regardless of changes in the weather. Can be attached to steam, hot water or warm air heating systems and will make a big saving in your fuel bill. Perfect comfort all winter long—never too hot or too cold.

Furnished with or without clock attachment. When furnished with clock attachment the regulator can be set so that the dampers will be kept closed during the night when heat is not wanted. By setting the time attachment at whatever hour you wish, the regulator will automatically open the dampers so that the house will be nice and warm for you when it is time to get up. Full instructions furnished.

8IC7898—Windsor Heat Regulator, without clock attachment. Shipping weight, 27 lbs. $14.85

8IC7899—Windsor Heat Regulator, complete with clock attachment. Shipping weight, 30 lbs. 18.60

We issue a Special Circular on this Regulator. Send for it.

Health and Comfort

Steam and Hot Water Radiators

2 Col. 3 Col. 4 Col.

These radiators are cast from the very best quality of soft gray iron. The sections are smoothly and accurately reamed. All sections are interchangeable. The sections are assembled with tapered steel push nipple joints which eliminate the use of any gaskets whatever in their makeup. For other patterns and sizes see our Special Heating Catalogue.

Hot Water Radiators are Tapped as Follows Unless Otherwise Specified:
Up to 50 ft., 1-inch feed and return.
50 ft. to 75 ft., 1¼-inch feed and return.
Over 75 ft., 1½-inch feed and return.

Steam Radiators are Tapped as Follows Unless Otherwise Specified:
Up to 24 ft., 1-in. supply.
24 ft. to 50 ft., 1¼-in. supply.
50 ft. to 100 ft., 1½-in. supply.
Over 100 ft., 2-in. supply.

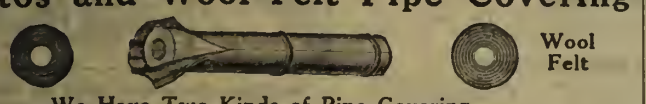
Two and four column radiators same price per sq. ft. as three column. Shipped from factory near Buffalo, N. Y.

Heat Intensifiers

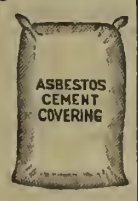


8IC7906—Heat Intensifier for hot water heating systems. This device keeps a constant pressure of about ten pounds on the water of a hot water heating system so that the water can be heated to as high as 235 degrees Fahrenheit, without boiling. This gives a much greater range of temperature within which to operate your heating system, and increases the efficiency of the plant to a very marked degree. Can be attached in a few minutes to any hot water heating system.

Made of solid bronze throughout. Will last a lifetime. Will not rust, stick nor get out of order. Connected to the system near the boiler. Separate branch pipe is carried to expansion tank at highest point of system. For more complete description see our Special Heating Catalogue.

Ship. wt., 5 pounds. Each.. $9.50

Asbestos and Wool Felt Pipe Covering



We Have Two Kinds of Pipe Covering

Air Cell Asbestos Covering for Steam Pipes and a Wool Felt Pipe Covering for hot water heating pipes, etc. Both are highly efficient heat insulators. This covering applied to the heating system of your steam or hot water heating plant will save its cost in fuel in two winters. No steam or hot water heating plant should be without this covering. We recommend the air cell asbestos for steam heating systems and the wool felt for hot water heating systems. Comes in lengths of 3 feet. We do not cut a length.

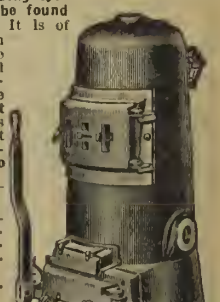
Asbestos Cement For Covering Steam and Hot Water Heating Boilers, Fireproofing, etc.



8IC7931—Asbestos Cement for covering cast iron boilers, elbows, tees, etc., over which the regular sectional moulded covering cannot be applied on pipe systems of steam and hot water heating plants. Makes a very good heat insulator and is fire-proof. Mixed with water to a plastic thickness. Applied with a trowel. Can be used for plastering wooden walls and ceilings which come in close contact with hot smoke pipes. Comes in 100-pound bags. Ship. wt., about 105 lbs.

Price, per bag $1.20

Shipped from factory in Northern Illinois.

Giant Windsor Tank Heaters

For heating water in large quantities for any purpose, such as swimming pools, small apartment buildings, baths, etc., or for small hot water heating systems, our Giant Windsor Tank Heaters will be found highly satisfactory. It is very economical. It is of very substantial construction, equipped with improved rocking grate bars. Has a deep fire pot which will carry a good bed of coal and requires very little attention. The tank capacity given in the table below indicates the amount of water that the heaters will heat per hour from 40 degrees to 200 degrees Fahrenheit. Heaters will take care of about one-half their rated capacity in actual radiation, as it is necessary to make allowance for mains, etc.

Book of Homes

If you are going to build a new house you should certainly have this book. It illustrates and describes more than **60 homes** so that here you can surely find a design that suits you exactly, or that can easily be changed, with help of our architects, to meet your requirements.

Real "homey" homes they are, with all guesswork, all uncertainty left out. When you build one of these homes you know that your plans are complete and correct in every detail; that the bill of material you are using will actually build the house; that the material is ths best kind that can be obtained for each particular purpose; and above all, you know that you have received the fullest value possible for every dollar you have spent. Don't take another step until you get this book. **Write for it today.**

Yours for the asking

Send for these two books TODAY

Building Material Book

Everything you need in building—lumber, lath, shingles, millwork, grilles, buffets, hardware, etc.—shown in this book with latest prices and complete descriptions.

Our factories and lumber plants are located to the best possible advantage, on direct lines of shipment from the source of raw material, and our immense volume of business reduces handling expense to the minimum. No extra yard expense here, no unnecessary freight charges, no extra profits—just one small percentage of profit added to lowest manufacturers' cost. Is it any wonder that we can save you money and still furnish the best grades of material—material that will please you in every respect?

No matter where you live, write us today. Tell us about your building prospects and let us quote you. You will be glad you did.

4 — FEATURE BARGAINS FOR BUILDERS — 4

$1.40 per 100 feet

Genuine White Pine Bevel Siding.

May contain some defects but when price and amount of waste are considered, this is a remarkable bargain. Mixed lengths only, from 4 to 16 ft. To figure amount of siding required, it is customary to add one-third to number of square feet to be covered for 6 inch and one-half to 4 inch width. Ship. wt., about 90 lbs. per 100 feet.

178C3700 — ½ x 3½ (countsd 4-inch) per 100 sq. ft. **$1.40**

178C3701—½x5½ (counted 6-inch) per 100 sq. feet..... **$1.60**

For smaller than 1000 ft. lots add 5c per 100 feet.

$2.16 for a Glazed Front Door

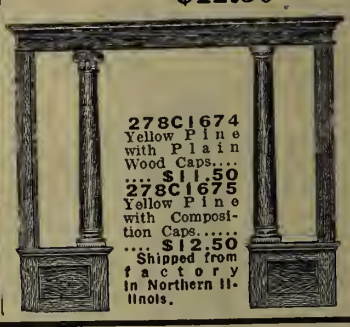
278C281

$1.41 for a 5 Cross Panel Fir Door

278C344

Two remarkable door values. Made of "B" Quality Fir. May contain some defects not found in the "A" Quality doors, but are much better value than the usual second quality doors. Recommended as good serviceable doors at a minimum cost.

Fir can be finished to match Yellow Pine trim. Other doors are shown in our Building Material Catalogue.



Thickness, 1⅜ inches. Raised Panels. Average ship. wt., about 50 pounds.

Order by Size and Number.

SAFETY Protecto STRENGTH WALL BOARD

The Fire-proof Wall Board with the Hard Plaster Core

Can be Papered, Painted, Calcimined Tinted or Decorated in other ways.

Large Sheets—Convenient Sizes—Few Joints

Actual thickness, full ¼ inch.

How Protecto Wall Board is Made

TOP LAYER: heavy, tough, fibre paper saturated with plaster composition and sized or treated with a water-proofing compound.
CORE OR CENTER: of *fire-proof* hard wall plaster composition.
BOTTOM LAYER: Same as top except not sized.

Where to use Protecto Wall Board

Use Protscto for new buildings. No dampness, no delay, no settling cracks, no lath stains, no waiting for plasterers. Equal in service and strength to a lath and plaster wall. Fire-proof.

Use it for attics, for closets, for partitions, for boxing around the furnace to cut down fuel bills; for lining garages and stables; for repairing old plaster walls; for countless other things that will suggest themselves to you.

Use it any place where lath and plastsr can bs used and in many other places besides.

Protecto Saves You Money

No lath to buy, no high priced labor required and, if you want to, you can do the work yourself, and get a lot of satisfaction out of doing it. No expensive repairs.

Easy to Put Up and Decorate

With each order, we furnish complete, easy directions for applying. You don't need a carpenter. The edges are cut true and even. Saw it with an ordinary saw and put it on with ordinary nails.

Unlimited Possibilities for Decorations

Decorats every way that a plaster wall can he decorated. Panel strips can be used for decorations, but are not necessary as in other boards. Panel strips need not follow joints, as in other boards.

The Fire-proof Wall Board

Cannot warp, buckle or shrink. Kiln dried and sized at the factory, ready for decoration. Large convenient sheets. Not a cheap plaster board, but a high grade wall board, ready for dscoration as soon as it is up.

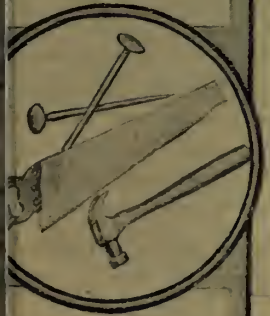
No Plaster Coat—Sized Ready for Decorating



Superb WALL BOARD

The Strong, Pleasing, Permanent, Economical Wall Covering
NO LATH - NO PLASTER - A DECORATION IN ITSELF

Construction of Superb Wall Board

Superb Wall Board is composed of four layers of heavy fibre board joined together by a permanent fire retarding adhesive. The improved process of manufacture gives the finished product a high degree of toughness and strength, with just enough pliability to make it easy to handle and apply. Treated with a prime coating compound which acts as a sizing coat, making the board ready for decoration without any further sizing.

A hammer and saw are all the tools you need. Use ordinary wire nails.

Better Than Ever

Improved methods and specially designed machinery make our Superb Wall Board the best wall board of its kind. Takes the place of lath and plaster and can be put up quicker, more economically and without any muss or dirt.

Kinds of Finishes

Plain Mill Finish, Green, Golden Oak or Natural Oak. The Mill Finish is a tan color and the reverse side of each of these finishes is a Light Cream, which is also suitable for a temporary wall finish. These five finishes offer almost unlimited possibilities in decorative effects, either in combination or singly. Can be painted, calcimined, or decorated in other ways when desired.

Uses of Superb Wall Board

Superb Wall Board is used for new walls, for covering old plaster, for repair work, for attics, basements, summer cottages, garages, poultry houses; for sheathing where not exposed to the weather, etc. Complete instructions sent with each shipment.

The Handy Man's True Friend

Our Superb Wall Board has been appropriately called by this name. Any man who has the knack of doing little odd jobs around the house will find many practical uses for Superb Wall Board. Here are a few suggestions: panels, partitions, drawer bottoms, drawing boards, desk tops, mirror backing, shirtwaist boxes and closets. That isn't half of them, but you will certainly find a place in your home for this useful material. In fact it can be used in practically every place where an ordinary wooden board would be required, and in many other places as well.

Comes Crated and is Easy to Apply

The man who knows how to handle a saw and drive nails is already an expert with Superb Wall Board. Complete easy instructions with every order. Wall Board comes in convenient lengths and two widths, 32 inches or 48 inches. Put up with ordinary hung head, 4-penny nails.

50c for these 3 Large Books

Size 18 X 16 Inches

This Dealers' Set of Three Extra Large

Books of Wall Paper Samples

Shows Full Width of Wall Paper

Your 50c Deposit for these Books will be Refunded or Credited to you when we receive your order for Wall Paper to the amount of $5.00 or more.

For those who wish to sell or see full-width samples of wall paper, we issue this set of three large books that contain actual samples of every pattern in our line, together with borders and ceilings that go with side-walls. Also actual samples of cretonnes made to match many of the wall paper patterns contained in this book. These books will give you a perfect idea of color scheme for any room. They contain room interiors in colors to illustrate the harmonious effects that may be obtained.

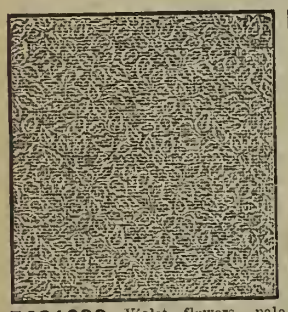
Every pattern of wall paper in our line is selected with reference to its appearance on the wall. With the patterns we offer you, you can be certain that they will look better after hung on your walls, than they appear in sample.

For variety, tasteful designs, quality and low price, our wall papers are unexcelled. Each paper in these books carries the number and we furnish you with the key to the price.

76C50—Set of Three Sample Books, postpaid **50c**

Your 50c refunded on an order for $5.00 worth of wall paper.

Sanitas Wall Oil Cloth is a Washable Wall Covering

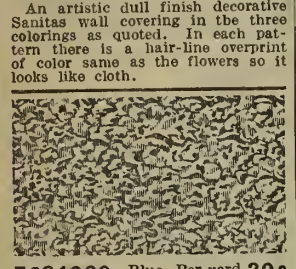


A permanent, washable wall covering. Will not fade. As easy to hang as wall paper. Designs shown here are suitable for any room. **Samples sent on request.**

Plain or Solid Colors

We also furnish Sanitas in plain or solid color. These are in dull finish and in effect look much like leather. These are well adapted for ceilings, wainscoting, or panel work in halls or dining rooms. Also used for sidewall covering. These plain Sanitas come in the following colors:

	Per yard
76C4011—White	**$0.20**
76C4012—Tan	**.20**
76C4013—Light Green.	**.20**
Per full roll of 12 yards..	**2.28**



Width, 47 inches. Weight, per yard, 1 pound.

76C4033—Violet flowers, pale green leaves, tan background. Per yard **20c**
76C4034—Pink flowers, pale gray leaves, gray background. Per yard **20c**
76C4035—Blue flowers, pale gray leaves, gray background. Per yard **$0.20**
Per roll of 12 yards..... **2.28**

Width, 47 inches. Weight, per yard, 1 pound.

An artistic dull finish decorative Sanitas wall covering in the three colorings as quoted. In each pattern there is a hair-line overprint of color same as the flowers so it looks like cloth.

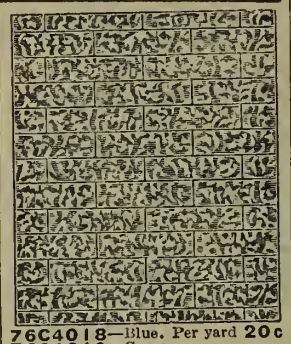
76C4009—Blue. Per yard **20c**
76C4010—Light green. Per yard **$0.20**
Per full roll of 12 yards.. **2.28**

Width, 47 inches. Weight per yard, 1 pound.

This Sanitas has a white background with a mottled or clouded effect, making it especially desirable for ceilings, also well adapted for sidewall covering. Has a glazed, glossy surface. **State color wanted.**

76C4006—Blue. Per yard **20c**
76C4008—Brown. Per yard **20c**
Per full roll of 12 yards..**$2.28**

Width, 47 inches. Weight, per yard, 1 pound.



Glazed Sanitas, especially adapted for use in kitchens and bathrooms. Pleasing design. Mosaic hollow tile pattern. **State color wanted.**

Sanitas Border

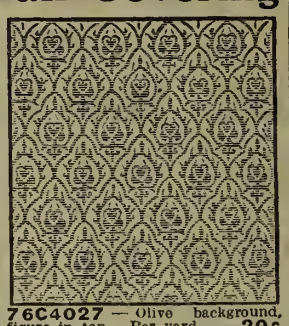
76C4004—Blue. Per yard..**5c**
76C4005—Green. Per yard.**5c**

Width, 7 inches. Weight, per yard, 3 ounces.

76C4018—Blue. Per yard **20c**
76C4019—Green. Per yard **20c**
Per full roll of 12 yards..**$2.28**

Width, 47 inches. Shipping weight, per yard, 1 pound.

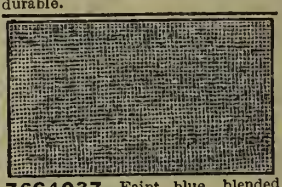
A glazed Sanitas wall covering in a popular dull effect. The background is white, while the lines and mottling is in the colors stated. A very effective design for bathroom or kitchen, for covering entire wall, or may be used for wainscoting only. **State color wanted.**



Sanitas Border

76C4023—Blue. Per yard.**5c**
76C4024—Brown. Per yard.**5c**
76C4025—Green. Per yard.**5c**

Width, 7 inches. Weight, per yard, 3 ounces.

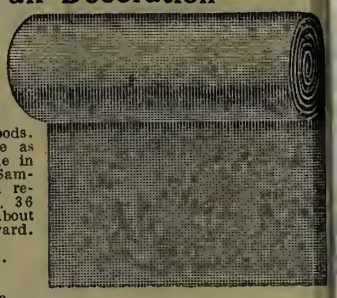


Sanitas Samples Sent on Request

76C4027 — Olive background, figure in tan. Per yard.....**20c**
76C4028—Faint blue and white background. Blue figure. Per yard **20c**
76C4029 — Tan background, figure in brown. Per yard....**20c**
Full roll of 12 yards.....**$2.28**

Width, 47 inches. Weight, per yard, 1 pound.

A very pleasing, dull finished, cloth-like Sanitas wall covering. Effective for living-room, dining-room or any other room. Sanitas is both permanent in color and durable.



76C4037—Faint blue, blended effect. Per yard.....**20c**
76C4038—Faint green, blended effect. Per yard.....**20c**
76C4039—Light tan, blended effect. Per yard.....**20c**
Full roll of 12 yards.....**$2.28**

Width, 47 inches. Weight, per yard, 1 pound.

A dull finished Sanitas in burlap or grass cloth effect. The shades are nicely blended. Splendid for sidewall of any room where the grass-cloth effect is desired. May be used also for wainscoting or paneling.

Samples on request.

Prepared Dyed Burlap for Wall Decoration

Elegant and durable wall decoration. This burlap is of superior quality having a filled backing which gives support and strength to the goods. Hang it the same as wall paper. Made in plain colors. Samples furnished on request. Width, 36 inches. Weight, about one pound per yard.

76C760 Golden Brown.
76C762 Dark Brown.
76C764—Green.
76C766—Red.
Price, per yard, all colors.....**26c**

Fibre Veneer

A Paper to Imitate Fancy Grained Wood

Pattern Nos. 76C1 and 76C2

Looks like genuine wood. The grain is printed in permanent oil colors, on heavy paper. For walls of dining rooms, halls, and other places, including floors, where natural woods are to be imitated. Apply with paste like wall paper. When dry, it may be given a coat of shellac and varnish. Few people can distinguish it from the genuine wood it imitates.

Comes in 8-yard rolls, width, 36 inches. A roll will cover 72 square feet. Samples furnished on request.

76C1 —Quartered Oak, light.
76C2 —Quartered Oak, dark.
76C3 —Plain Oak, light.
76C4 —Plain Oak, dark.
76C15—Plain Grain Mahogany.
76C17—Circassian Walnut.

Per 8 yard roll.....**$0.65**
Per 16 yard roll..... **1.25**
Shipping weight, per 8-yard roll, 2½ pounds.

Lincrusta Relief

A decorative material recognized as one of the very finest wall coverings. Is tough and leathery, impervious to water, and practically indestructible. The colors are fast and may be washed with soap and water, thus being thoroughly sanitary. It may be repainted with ordinary paint or varnished same as wood. Will not crack or shrink on the wall. Splendid for wainscoting in dining rooms, halls, kitchens and bath rooms.

To hang Lincrusta requires no expertness. You put it onto the wall the same as wall paper, using a heavy paste, mixed with about one-seventh glue.

76C780—Tan. Width, 18 inches. Per yard..**13c**
76C782—Brown. Width, 18 inches. Per yard..**13c**
76C784—Red. Width, 18 inches. Per yard..**13c**

Weight, per yard, about 1 pound.
Samples to show quality and colors sent on request.

Heavy Pressed Paper

The most wonderful imitation of oak finish ever produced on paper. It is heavily embossed and is such a realistic imitation of paneled oak, with moulding fitted around the panels, that to the eye it looks just like oak—only an expert, upon very close inspection, can tell the difference. It comes unvarnished so that it may be finished after it is applied to the wall. Varnish it just as you would oak if you wish it to have a gloss finish. It is quite generally used for ceilings, to give a paneled ceiling effect. Also used for wainscoting or in dining rooms to cover the walls below plate rail. Width, 18 inches. Wt., about 2 lbs. per roll.

76C788—Per roll, 8 yards.....**45c**
76C3789—Binder to match. Width, 2 in. Per yard **4c**

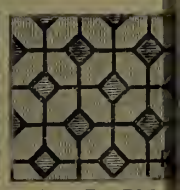
Vitrophane

An Imitation of Art Glass

No Brushes, No Size, No Paste Required

To meet the demand for a transparency for the decoration of windows, transoms, and sash doors, we list Vitrophane. This is a tough paper, treated by a secret process, to render it partially transparent to admit light, and designed and colored to imitate stained glass.

It takes the place of window shades—admits the light in a very pleasing effect but shuts out any distasteful view. For sash doors, the glass, when covered with 76C793 (white), has the appearance of a lace curtain.



Vitrophane will last for many years. It is guaranteed not to blister, peel or fade; nor is it affected by heat or cold. May be cut to fit any glass surface and without waste. Easy to apply—anyone can put it on.

Put up in rolls. Length, 4½ yards; width, 18 inches; containing 20¼ square feet. Also in half rolls. Length, 2¼ yards; width, 18 inches; containing 10⅛ square feet.

76C793—White lace effect. White lines.
76C794—Same, with diagonals in blue.
76C795—Diamonds, alternating red and green.
76C797—Red Roses, green leaves. Black lines.
76C796—Same as 76C797 (no colors). White lines.
76C798—Purple grapes, green leaves. Black lines.

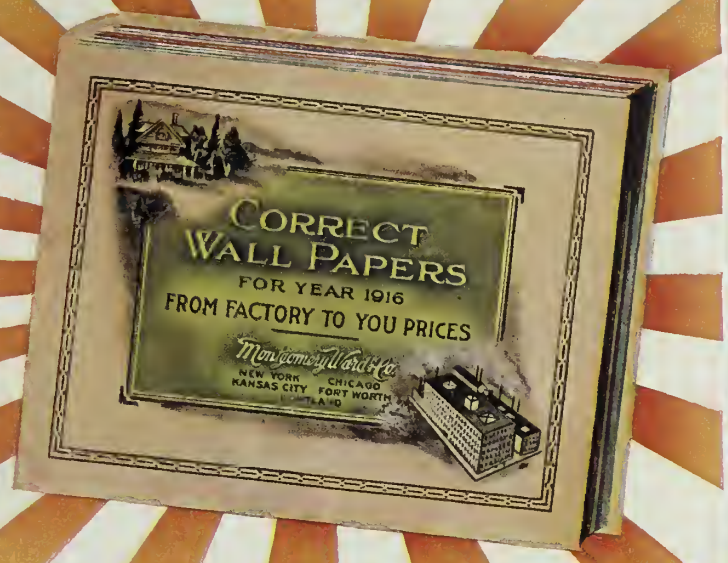
Do Your Decorating This Fall

And Save Money

Prepare now to make your Home more attractive; the long Winter days are coming when you must stay indoors.

Make this WALL PAPER BOOK Your Guide

It explains the proper use of the various patterns; the papers that are best suited for each room.



Over 100 actual samples of wall paper at from 5 to 50c per double roll of 16 yards are bound into this book with descriptions and prices printed on the back of each pattern.

This book also contains reproductions in their full coloring, of each pattern, including border and ceiling, to show you how the paper looks when on the wall.

Many of our borders are interchangeable;—this book offers many valuable suggestions and gives full directions for hanging the paper. You can hang the paper yourself and do a first class job by following directions.

In this book we show floral and conventional patterns, self-tones and richly grounded papers, oatmeals, both plain and printed, tekkos, all-over and plain or fancy striped designs, aerchromes, linerusta, burlaps, pressed papers and sanitas. These are all quoted at From-Factory-to-you-Prices.

76C2569 — 9-inch cut-out border. Weight, 1 ounce. Per yard **2½c**

76C570—Ceiling to match. Weight, 1½ pounds. Per double roll of 16 yards **16c**

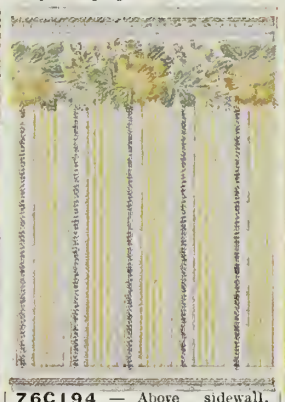
A rich chocolate brown in narrow stripes and beautifully shaded. The cut-out border is an effective empire design.

76C108 — Above sidewall. Weight, 1½ pounds. Per double roll of 16 yards..**6c**

76C2108 — 9-inch border. Weight, 1 ounce. Per yard..**½c**

76C109—Ceiling to match. Weight, 1½ pounds. Per double roll of 16 yards..**6c**

Splendid value in a light tan paper. The chain stripes support small square panels that are ornamented with pink roses.



76C670—Above oatmeal sidewall. Weight, 1¾ pounds. Per double roll of 16 yards **22c**

76C1671 — 18-inch cut-out border. Weight, 3 ounces. Per yard **4½c**

76C1025—Ceiling to match. Weight, 1½ pounds. Per double roll of 16 yards **15c**

Non-fading oatmeal in a shaded stripe pattern printed in warm shades of tan and brown and ornamented with gilt. Border is a conventional design.

76C194 — Above sidewall. Weight, 1½ pounds. Per double roll of 16 yards **14c**

76C2194 — 9-inch cut-out border and base. Weight, 1 ounce. Per yard.....**2½c**

76C195—Ceiling to match. Weight, 1½ pounds. Per double roll of 16 yards **14c**

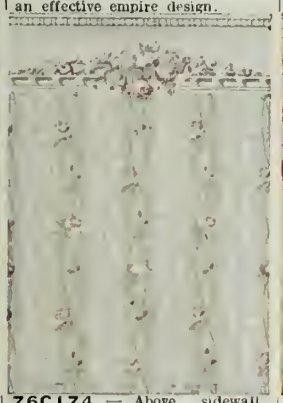
A delightful pattern for living room or bedroom. Small floral stripe is framed in mica stripes making this a very rich pattern.

76C854—Above gilt sidewall. Weight, 1½ pounds. Per double roll of 16 yards **11c**

76C2854 — 9-inch cut-out border and base. Weight, 1 ounce. Per yard.....**2c**

76C855—Ceiling to match. Weight, 1½ pounds. Per double roll of 16 yards **11c**

This paper is both serviceable and pleasing and wears well. The floral stripe is framed by gilt stripes which adds wonderful richness to this pattern.



76C832—Above gilt sidewall. Weight, 1½ pounds. Per double roll of 16 yards **10c**

76C2832 — 9-inch border. Weight, 1 ounce. Per yard..**½c**

76C833—Ceiling to match. Weight, 1½ pounds. Per double roll of 16 yards **10c**

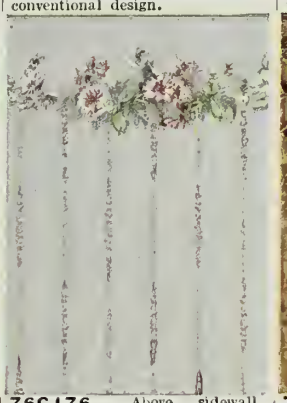
The rich tan coloring in this pattern with the stripes in shaded effect is exceedingly pleasing. The color combination is one that is rarely seen in wall paper.

76C174 — Above sidewall. Weight, 1½ pounds. Per double roll of 16 yards **13c**

76C2174 — 6-inch cut-out border. Weight, ½ ounce. Per yard **2½c**

76C175—Ceiling to match. Weight, 1½ pounds. Per double roll of 16 yards **13c**

A very effective floral pattern with twining roses arranged in stripes on a delicate gray and white background. It will give cheerfulness to any room.



76C562 — Above sidewall. Weight, 1½ pounds. Per double roll of 16 yards **16c**

76C1563 — 18-inch cut-out border. Weight, 2 ounces. Per yard **3½c**

76C1001—Ceiling to match. Weight, 1½ pounds. Per double roll of 16 yards **10c**

An embossed pattern in a rich yellow and mica stripe. A very popular pattern with a border that is very suitable for this paner.

76C176 — Above sidewall. Weight, 1½ pounds. Per double roll of 16 yards **13c**

76C2176 — 9-inch cut-out border. Weight, 1 ounce. Per yard **2½c**

76C177—Ceiling to match. Weight, 1½ pounds. Per double roll of 16 yards **13c**

A daintily colored floral stripe with a mica stripe alternating over a shaded and blended gray background which produces a pleasing effect.

76C270—Above gilt sidewall. Weight, 1½ pounds. Per double roll of 16 yards **20c**

76C2270 — 9-inch cut-out border. Weight, 1 ounce. Per yard **3c**

76C271—Ceiling to match. Weight, 1½ pounds. Per double roll of 16 yards **20c**

A richly colored brown and gold pattern. Is very artistic.

76C984—Above gilt sidewall. Weight, 1½ pounds. Per double roll of 16 yards **20c**

76C1984 — 18-inch border and base. Weight, 2 ounces. Per yard **3c**

76C985—Ceiling to match. Weight, 1½ pounds. Per double roll of 16 yards **20c**

This richly embossed parlor paper has exceptional merit. The light tan background ornamented with delicately shaded roses that are framed in gold.

76C540 — Above sidewall. Weight, 1½ pounds. Per double roll of 16 yards **12c**

76C1541 — 18-inch cut-out border and base. Weight, 2 ounces. Per yard.....**4c**

76C542—Ceiling to match. Weight, 1½ pounds. Per double roll of 16 yards **12c**

An effective gray and blue striped pattern with a richly colored floral border. This is an unusually attractive pattern. Suitable for any room.

76C994—Above gilt sidewall. Weight, 1½ pounds. Per double roll of 16 yards **24c**

76C2994 — 9-inch cut-out border. Weight, 1 ounce. Per yard **3c**

76C1017—Ceiling to match. Weight, 1½ pounds. Per double roll of 16 yards **14c**

An Oriental design in rich coloring. Very much in demand. An imitation of Japanese grass cloth forms the background.

76C192 — Above sidewall. Weight, 1½ pounds. Per double roll of 16 yards **14c**

76C2192 — 9-inch cut-out border. Weight, 1 ounce. Per yard **2½c**

76C193—Ceiling to match. Weight, 1½ pounds. Per double roll of 16 yards **14c**

For bedroom or living room, that is not very light, this paper produces a very cheerful effect. The delicate coloring is very pleasing.

76C318—Above oatmeal sidewall. Weight, 2 pounds. Per double roll of 16 yards **25c**

76C1318 — 18-inch cut-out border and base. Weight, 3 ounces. Per yard.....**6c**

76C1025—Ceiling to match. Weight, 1½ pounds. Per double roll of 16 yards **18c**

This very popular, tan, oatmeal paper is printed in all-over leaf pattern in subdued effect. Very artistic.

76C212 — Above sidewall. Weight, 1½ pounds. Per double roll of 16 yards **15c**

76C1212 — 18-inch cut-out border and base. Weight, 2 ounces. Per yard.....**4c**

76C213—Ceiling to match. Weight, 1½ pounds. Per double roll of 16 yards **15c**

A floral pattern with coloring that is bound to please. Makes a very attractive wall covering.

76C572—Above gilt sidewall. Weight, 1½ pounds. Per double roll of 16 yards **16c**

76C2573 — 9-inch cut-out border. Weight, 1 ounce. Per yard **2½c**

76C574—Ceiling to match. Weight, 1½ pounds. Per double roll of 16 yards **16c**

An excellent pattern that will give splendid service. Especially well suited for sunny room.

Fall is the Best Time to Paint

THIS is what many experienced painters say. There is a reason, the paint dries more slowly than during hot Summer months, producing a tougher and more elastic paint film.

This Free Paint Book Will Interest You

It contains over 160 actual shades and colors of various paints, enamels, and finishes.

You can do your own painting and finishing by following the explicit directions this book contains. It also tells you how much paint you will need; what kind of paint is best suited for every condition. A varnish also is provided for every use.

This book also offers you brushes and painters' and decorators' tools for every purpose.

Select your paints and decorating materials from this book. It means a big saving to you. You also receive products that are guaranteed. You are taking no chances in ordering from us.

Beautify Your Home With Coverall House Paint

Our Great Money-Saving Paint

$1.38 Per Gallon

In 50-Gallon Barrels

Coverall Spreads Easy

Experience is not necessary to apply Coverall Paint. It is ready mixed, but thoroughly ground, so that it spreads very easily. By old methods it was necessary to have the experience of an expert painter to prepare the paint to proper consistency; but Coverall is so carefully prepared that any one following the simple directions on each can will do a first-class job of painting. Coverall is always ready to be applied. You can do your own painting in spare time, thus saving the cost of labor.

You wish your house to appear at its best so as to favorably impress everyone. You want your home to be painted with shades that are attractive, so that at first sight the house may win the admiration of the passerby, with tints that harmonize and prove to be more pleasing the longer the house and surroundings are studied, with colors that will wear well for several years, all this is accomplished with Coverall House Paint.

Increases Cash Value of Your Property

When your house is attractive and pleasing, its real cash value is increased. Add to the value of your house, as well as its beauty, by using Coverall House Paint.

The value of a building is thus often increased far beyond the amount spent for paint and labor. Did you ever notice how hard it is to find a buyer for a house that is in need of a coat of paint?

$13.46 Paints this house, 28x33, with two full coats of Coverall House Paint.

Quality Kept High—Price Kept Low

The necessary qualities of a good paint are not overlooked or sacrificed to secure lower cost or greater covering capacity. Coverall possesses that brilliant luster that attracts the attention of everyone—then the color is uniform.

It is the surface covering qualities, as well as the great durability of Coverall House Paint, that makes it so desirable and such a big seller with us.

Coverall House Paint will outwear many higher priced paints; none will cover more surface or finish with a better gloss. When you buy this paint you have the assurance that it will give you the service you have a right to expect—qualities which are found only in good paint. It dries with a fine, smooth gloss. You are certain to be pleased with it.

Coverall House Paint will not blister, crack, peel, chalk, or scale. Thus your building, painted with Coverall, is thoroughly protected against decay. Coverall is the best protection you can put on your property.

Coverall is a paint made for **Service**—the very best, we believe, that can be made. Each can is exactly as represented. Should **Coverall** paint, properly applied, fail to cover 250 to 350 square feet, two full coats per gallon—should this paint crack, blister or peel off—or should it fail in any way to give you the proper service, we will furnish new paint free.

It costs but little to paint a building with two coats of Coverall House Paint—so little that you will be surprised.

The low price at which we furnish this high-class paint makes it possible for everyone to keep his house looking new.

Full list of shades of Coverall House Paint as follows:

No.	Color	No.	Color	No.	Color
10	Inside Gloss White	22	Black	47	Sea Green
		23	Cream	49	Pink Tint
10½	Inside Flat White	26	Salmon	50	Ocean Blue
		27	Light Buff	52	Deep Blue
11	Outside White	28	Straw	53	Light Brown
12	Light Tan	29	Canary	54	Dark Gray
13	Cherry Red	31	Gray Tint	55	Lead Color
14	Dark Tan	32	Light Slate	56	Ivory White
14½	Fast Red	34	French Drab	57	Light Olive
15	Wine Color	35	Pearl Gray	58	Willow Green
15½	Verde Green	36	Deep Drab	59	Sky Blue
16	Light Wine	39	Brown	60	Gray Stone
18	Green	42	Blind Green	61	Sage
19	Olive	44	Moss Green	62	Pure Gray
20	Buff.	45	Lettuce Green	63	Pea Green
21	Fawn				

Amount of Paint You Will Need

To estimate the amount of paint you need, add the number of feet in width, front and rear, to the number of feet in length (on each side) of your building. Now, multiply the total by the height, to the eaves, in feet. This will give you the total number of square feet of surface. Then divide by 300, and the result is the number of gallons of paint you will require under ordinary conditions. Add to this from one to two gallons (according to style of house) for cornices, gables and porches. One gallon of our Coverall House Paint will cover approximately 250 to 350 square feet, two coats, or about 450 square feet, one coat.

For Illustration

Front	20 feet
Rear	20 feet
Side	30 feet
Side	30 feet
Total	100 feet

Multiply by height, 20, equals 2,000 square feet. Divide by 300, indicates about 7 gallons. Add, for cornices, gables, porches, etc., one gallon; total, 8 gallons of paint required. This rule should be varied according to the condition of the wood. If the building had been painted once, or if the surface is smooth and hard, less than the above quantity will do. If the building is new and the lumber has never been painted, or the surface is old and porous, a slightly greater amount will be needed.

See Color Page opposite for actual colors of the most popular shades of Coverall House Paint.

Tower Brand House Paint

The Paint that Has Served Our Customers Nearly 50 Years

The Paint That Lasts.

You know what you are getting when you buy a brand of known quality, a brand that has stood the test of time on the homes of our customers everywhere in America—in many foreign countries, too—under every weather condition. In buying Tower Brand Paint, you are sure of both quality and low cost, and doubly sure of the wearing qualities when it is backed by Montgomery Ward & Co.

A Formula That Eliminates Paint Faults.

Tower Brand is made under a formula that science and the test of time have proven to be correct. Each ingredient is chosen to perform a definite function.

Every gallon of Tower Brand is uniform and the quality very high. We have our own laboratory where skilled chemists are constantly at work keeping up our high standard of quality.

Value of Satisfaction.

It is worth much to know that you are getting satisfaction. You can be confident of this when you buy of Montgomery Ward & Co. We have complete confidence in Tower Brand Paint because everything in the paint is right. It contains proper proportions of all the ingredients that are needed to make a good paint. The paint film has great strength and gloss which gives it wonderful weather-resisting qualities.

The linseed oil is the life of the paint, but only pure linseed oil is efficient. Then the pure gum turpentine makes Tower Brand Paint spread easily. In buying paint from us, you are getting it direct from-factory-to-you with only one small profit added—much smaller than almost anyone else could do business on.

Covering Capacity—One gallon of Tower Brand House Paint will cover from 300 to 350 square feet. two coats.

Perfect Paint Service Means Paint Economy.

Tower Brand is sold to you with a distinct understanding that it will give you a maximum of service. It is made under the direction of our paint expert—a man who watches every detail. His supervision assures that every gallon of this paint will give you perfect service. You take absolutely no risk when you buy Tower Brand. You get full measure, full value, full service—and a guarantee that makes satisfaction doubly sure.

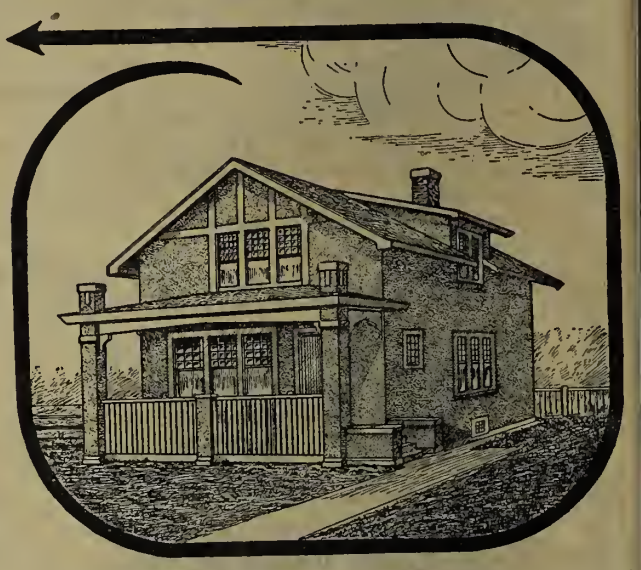
Concrete and Cement Coating

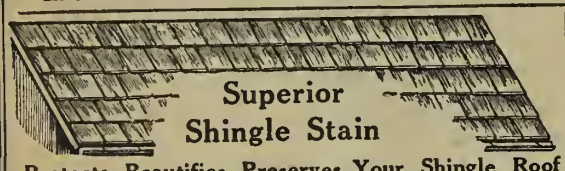
A Permanent Exterior Paint for Coating Concrete, Brick, Stone or Stucco Surfaces

It is Damp-proof, Weather-proof, Alkali-proof

This is a liquid cement coating and is not an ordinary paint. For any building or silo built of the above materials, this coating is of exceptional value.



Cement and Concrete Coating dries flat, giving the surface a stone-like appearance. It prevents water spotting the walls and protects them from disintegration due to the absorption of moisture. While protecting the outside walls, it insures a perfectly dry and sanitary interior.



Use Cement and Concrete Coating for both outside and inside work, as it is equally good for use on plastered walls, basement walls, floors and all damp surfaces. Easily applied with a brush.

In case the surface to be coated is extremely damp, apply first a coat of our Seal-Tight. Over the average concrete or brick surface, one gallon of Cement and Concrete Coating will cover about 100 square feet, 2 coats.

Colors: 101, white; 102, buff; 103, moss green; 104, brick red; 105, cement gray; 106, Manganese brick. State color wanted.

Superior Shingle Stain

Protects, Beautifies, Preserves Your Shingle Roof

Use Superior Shingle Stain on your shingle roofs, sides of buildings, bungalows, etc. Not only will it greatly improve their appearance, but it will protect your buildings from the destructive action of the weather. Our stain contains a good percentage of creosote oil—the best wood preservative known. One of its principal characteristics is its penetration of wood. It prevents decay and produces that soft, mottled finish so much in demand. Shingle etain is easily applied. One gallon will cover 100 square fcet, two coats, if applied with a brush. Two and one-half gallons will be eufficient for 1,000 ehingles dipped two-thirds their length. If applied to the roof when new, Superior Shingle etain is better than paint, because the etain will penetrate eome distance under the lap of each ehingle—a valuable feature. Made in the following eight colors: No. 500, Dark Brown; No. 501, Clover Red; No. 504, Yellow; No. 514, Gray; No. 508, Olive; No. 511, Dark Green; No. 512, Red; No. 516, Grass Green.

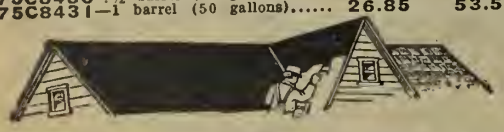
Weight, about 10 pounds per gallon.
Be sure to state in your order the color you want.

Asphalt Roof Coating



In Black, Red and Green

Excellent for composition or felt roofs, shingle roofs or metal roofs

Asphalt Roof Paint has the same good effect on felt and composition roofe that ordinary paint has on wood. The more protection your roof has the longer it will last. Asphalt Roof Paint will give new life to the roof, and, if repeated every two or three years, will preserve, protect and keep the eurface in first-class condition. It is elastic and durable. Has good body. It will prove itself to be a most satisfactory coating. It ie ready to use and is easily applied. Ono gallon will cover from 200 to 250 square feet of eurface, one coat. While considering its covering capacity, this paint is low in price, you will find it very eatiefactory in every way.

Asphalt Roof Coating comes in three colors—black, red or green. The black, if anything, is the more durable color, but the red and green produce very pretty effects and are particularly desirable for residences. **Shipping weight, about 8½ pounds per gallon.**

For Waterproofing

Cement, Concrete, Brick or Plaster Surfaces, use

Seal-Tite

A remarkable water-proofing compound. May be used on damp surfaces. It is scientifically compounded and will fill the pores and render water-proof any cement, concrete, brick or plaster eurface. Just the thing for eilos, cement blocks, concrete or brick buildings. It is a clear, colorless liquid that may be used alone as a coating or as a first coat, preparatory to painting or coating concrete or brick work of any kind that is subject to dampness or moisture. It is excellent for coating concrete or cement floors. It makes the eurface smooth, prevents sanding, and makes it water-proof. Easy to keep clean. This preparation should not be used over paint. Easily applied with a brueh. Flow on freely and brush in thoroughly. One gallon will cover about 150 to 200 square feet on concrete or brick eurfaces, or 200 to 300 square feet on plaster surfaces.

Elastic Rubber Roof Paint

For Felt or Composition Roofs, Metal Roofs and Muslin Roofs. For Iron Fences, Street Bridges, Windmills and Water Tanks

One of the strongest features of this paint is ehown in the repairing of leaky roofs. A leak can be permanently stopped by first painting the eurface over the leak, then laying on a piece of muslin, and finally coating the muslin with this paint. You then have a patch that is water-proof and one that will last indefinitely. Comes to you all ready to apply. Does not need to be thinned. Before applying be sure to thoroughly eweep or ecrape the eurface to be painted. One gallon will cover about 250 square feet one coat. This paint will etand expaneion and contraction caused by weather changes, without cracking or peeling. It will not run in the hottest weather, nor crack in the coldest. Elastic Rubber Roof Paint givee a bright, glossy finish that is sun-proof, water-proof, elastic and durable.

The long-handle brush used in the illustration is our speclal roof brush. 75C703 quoted on this page, but may be used with any wide wall brush.

Barn or Roof Paint Brush

50c

A practical, well made brush for painting roofs, barns and large eurfaces. Metal bound. Width, 6 inches. Brietles, length, 3½ inches. Weight, 8 ounces.

75C705—Price 50c

Heavy Roof and Fence Paint

An Elastic Water-proof Paint for Fences, Water Tanks and Towers, Windmills, Roofs, and any Metal or Wooden Surfaces

A protection and leak preventative for all kinds of roofs—shingle, tin, composition or felt. Particularly adapted for old roofs, where their condition is beyond the aid of ordinary paint. It will render your roof water-proof and serviceable for many years.

Also may be used on bridges, iron or wooden water tanks, emokestacks or other iron work eubjected to heat or outside exposure. Comes ready for use and ie easy to apply. One gallon will cover 200 to 300 square feet, one coat, on a fairly smooth eurface. In most cases one coat will be sufficient. Where the leaks are exceptionally large, first fill the holes with Elastic Cement (eee page 818) then apply the Heavy Roof Paint. Made in two colors—Black or Maroon. Shipping weight per gallon, 10 pounds.

Coverall Barn Paint

Increases the Value of Your Property—Protects Against Decay

77c a Gallon in 50 Gallon Barrels

The Service is Guaranteed

We do not believe there is a barn paint made at any price that spreads better, makes a better finish, or will last longer than Coverall Barn Paint.

Coverall Barn Paint is made from high-grade metallic pigments, or natural oxides, ground by powerful machinery. It is weather-proof, rain-proof, rust-proof, and will not crack, peel or blister under the severest, most trying weather conditions.

It Will Pay You to Keep Your Barn, Silo, Sheds, and Fences Painted

It is unnecessary to tell you that you should keep your barn painted. You know that it is to your interest. It means preserving it against decay. If you neglect to paint your barn, it will in a very few years either have to be replaced by a new building or will require expensive repairs.

Investment in paints is the best insurance you can get.

A Good Investment

For service, protection, economy and beauty of finish, it is the logical paint to use on your barns, out-buildings, fences, tin, shingle and metal roofs. You don't have to be an expert to apply this paint.

Because of the wonderful wearing qualities and durability of Coverall Barn Paint it is wonderfully well adapted to use on other buildings besides barns. In fact, it is perfect paint for use on fences or roofs. The saving effected repays you many times over the actual cost in the paint. You can also use this paint on metal or shingle roofs, on gutters, water tanks, drain pipes, cornices and wind mills.

Its covering capacity, united with its enduring and preserving qualities, makes it one of the best paints it is possible to produce for the purpose, and one of the most economical. One gallon will cover approximately 300 square feet, two coats.

Made in colors—150 Yellow, 157 Red, 155 Princess Mineral, 156 Roof Green, 159 Slate, 160 Lead Color. State color wanted.

Shipping weight, about 15 pounds per gallon.

$15.48 Paints this 40 x 60 Barn and Silo two full coats with Coverall Barn Paint

Trowel Roof Cement

An Elastic, Plastic Compound—One Application Lasts as Long as the Building on Which it is Used. Makes a One-Piece, Leak-Proof Roof Without Seams or Laps

Makes a pleasing jet-black, one piece roof with no laps or seams. May be applied over any roof new or old, in sunshine, rain or snow and sticks to any surface in any position, even on the under side of a horizontal surface.

It will not get hard and brittle in the most extreme cold, neither will it soften or run under the most intense heat of the sun. It stays where it is put, expanding and contracting with the surface and never shows checks or cracks.

It is non-poisonous, tasteless and odorless; will not taint or discolor rain water.

A small sample on a wire screen sent on request.

Trowel Roof Cement is an elastic cement that is tough and will not set brittle. Will therefore never crumble nor is it affected by heat or cold.

Makes no difference where you use it, Trowel Cement will stop any leak or crack and it will stay stopped. Ordinary cement sets hard and dries by evaporation, eventually loosening and drooping out. Trowel Cement does not dry out. It is exceedingly elastic and will last as long as the surface on which it is used. It is very adhesive; so much so that it really becomes a part of the surface on which it is applied.

Where there is only a small leak, plug up the hole the same as you would with putty, smoothing down the edge with a trowel or putty knife. In case of a very large hole, put on a patch of tin or sheet iron, nail the edges down and cover with cement to the thickness of about ¼ inch. Where the roof is in generally bad condition, spread evenly over it a coating of cement about ⅛ inch thick, working out edges smoothly. Unless the roof is in a generally bad condition, Trowel Roof Cement need not be applied more than from a sixteenth to an eighth of an inch thick. When so spread, 40 pounds should be sufficient to cover 100 square feet of surface on a smooth roof.

There are so many uses for Trowel Roof Cement, that you should always have a supply on hand. You never know when you will be in great need of just such an article.

75C7784—5-pound pails	$ 0.45
175C7785—25-pound pails	1.75
175C7786—50 pounds (two 25-pound pails)	3.50
175C7787—100-pound keg	6.00
275C7788—300-pound ½ barrel	15.00

Half barrels shipped from Northern Ohio.

Stops that Valley Leak

Trowel Cement will quickly and permanently seal any leak in metal, wood, tile or slate.

Use it over split or missing shingles, wood or slate; around chimneys and skylights; in leaking eave troughs; also for caulking boats.

Trowel Cement is a plastic compound containing a large percentage of long fibre asbestos and is a good fire protection.

Brick or Plaster Trowels Suitable for this work—See index for Trowels

Liquid Roof Cement

Ready to Use. Apply with a Brush. Only One Coat Required, Even on the Oldest Surface

Water-proof Sun-proof Weather-proof

This is a glossy black plastic compound, that requires no stirring or other preparation—simply apply with a brush. A coating 1/32 inch in thickness is usually sufficient to make any old roof water-proof. Old rusty surfaces that are decayed beyond the painting stage can be coated with Liquid Roof Cement, thus adding years to its service.

This coating contains no coal tar which has a tendency to soften in hot weather and separate from the surface to which it is applied. It will not run, sag, chip, check, scale or blister. It is a plastic composition reinforced by asbestos fibre running in all directions, which holds the coating in place until it sets.

Liquid Roof Cement is well adapted for use on metal roof and siding of all kinds; on silos, tanks, and other structures built of wood, metal or concrete; on structural iron work; on composition, paper, tar, or felt roofs; and on underground work, whether of wood, metal or concrete, to exclude moisture.

Apply with a brush. One gallon will cover about 100 square feet.

75C7800—Gallon can	$ 0.66
175C7801—5-gallon can	3.00
275C7802—25-gallon (¼ barrel)	13.75
275C7803—50-gallons (barrel)	24.50

Shipping weight, per gallon, about 10 pounds

Barrels and half barrels shipped from Northern Ohio.

Used also for preserving Silos, Planking, Sills, Joists, Tanks—in fact any wood subject to decay, or the ravages of insects.

Make Your Fences Last Many Years

Our Wood Preservative Will Do It—The Cost Is Small

When you figure on building a fence, you first decide upon the wire to use. Of course you want it painted or heavily galvanized wire, so it will last for years, but how about the posts? No fence can be better than the posts that support it.

Use **Weed Preservative** on your fence posts; it will preserve them for many years against decay. The cost is small, and the saving is much. Fence posts are increasing in value, as timber becomes more scarce. The cost for **Weed Preservative** is only from 3 cents to 5 cents per post. It doubles the life of posts and in the saving of labor alone you will be well repaid.

How to Preserve Fence Posts

To treat fence posts, or any other timber, first remove all bark, then apply Wood Preservative with a brush, as freely as the wood will absorb it, using two or three coats. To obtain better results, however, apply the preservative hot for it then penetrates the wood more readily, and evaporates the moisture more effectually. In the winter especially, we recommend that Wood Preservative be heated to a temperature near the boiling point. If you have a tank that you can use for a dipping tank, you will obtain the very best results by dipping the posts or timber into the hot oil. If you have no such tank, apply with an ordinary wire-bound paint brush. The timber to be treated should be dry.

Railroads and Steamship Companies Appreciate the Value of Wood Preservative. It Saves Them Millions.

Why Don't You Use It?

Wood Preservative is a Refined Creesote Oil

This oil has been an acknowledged wood preservative from time unknown. The fact that railroads and steamship companies always have and still use it, to preserve and protect against decay, such property as ties, water tanks, bridges, trestles, wharfs, docks, boats and barges, is evidence conclusive of its unquestioned merit. Notwithstanding the many advertised, fancy-named preservatives now being placed before the public, Creosote Oil still maintains its superiority.

Protect Your Chickens Against Lice, Mites and Disease

As Wood Preservative is a strong but harmless disinfectant, it is used with great success for spraying poultry buildings, inside and outside. This oil is fatal to both lice and mites. The use of Wood Preservative will free your buildings of these insects, which sap the life out of your poultry. This oil likewise is a great preventative against contagious diseases.

Rid the hens of lice,—they will be more healthy and profitable.

A Disinfectant for Hog Pens

The disinfecting qualities of Wood Preservative make it ideal for spraying hog pens and barns as well as poultry houses. The liberal use of Wood Preservative in this manner, with precautions taken for cleanliness, is a wonderful preventative of contagion or the spreading of disease.

As Wood Preservative is the enemy of disease germs, and such insects as lice and mites, it is likewise an enemy to the corn weevil. Paint the inside of corncribs and granaries with Wood Preservative to prevent damage by weevil. Mice, rats or ants will not attack or damage woodwork painted with Wood Preservative. Ropes, canvas and nets treated with wood preservative become water-proof, and more durable, yet remain soft and pliable in all seasons. Use it on timbers of any kind that are subject to decay or insects, especially on woodwork, either above or below the ground or water. It is splendid for so many uses. You should keep a supply of this oil on hand all the time.

Give the Shine That Wears and Protects

Superior Varnishes

For Every Purpose and for Every Condition

Durability is found only in good varnishes. Nothing has been spared either in quality, material or skill to make our varnishes the finest the world produces. The prices we quote mean a saving to you of from fifty cents to one dollar per gallon. One gallon of our varnish will cover about 600 square feet of surface on oak or about 400 square feet on pine, one coat.

Each varnish we list is guaranteed to do the work for which it is intended. Full and complete directions on each can of varnish. Shipping weight of varnish, 11 pounds per gallon; 7½ pounds per half gallon; 4 pounds per quart; 2½ pounds per pint.

Miro-Lite Interior Finish

$1.90 a Gallon

For interior work there is no better varnish made than Miro-Lite. It is a pale, brilliant, easy-flowing varnish, that preserves and develops the natural beauty of different kinds of woods to the best possible advantage. It is not affected by either hot or cold water, and will not crack, blister or turn white. Can be rubbed and polished, and is exceedingly durable. Dries dust-proof in six to eight hours, and can be rubbed in forty-eight hours.

75C8611—Quart can	.60
75C8612—½ Gallon can	1.10
75C8613—1 Gallon can	1.90
175C8614—5 Gallon can	9.25

Marproof Floor Varnish

$1.98 a Gallon

A varnish that will stand the wear. You cannot buy a varnish elsewhere, no matter what price you pay, that will prove more serviceable, and at the end more economical, than Marproof.

Water won't hurt floors treated with Marproof. Marproof Varnish makes your floor heel-proof, mar-proof, and positively water-proof. It withstands repeated washings, and gives a tough, durable, and elastic finish. Can be rubbed for dull finish.

Marproof is equal, if not superior in quality, to advertised brands sold by the dealers at three dollars a gallon. Our price, $1.98.

Rubbed Finish Varnish

$2.10 a Gallon

Rubber Finish Varnish, when applied over a varnished surface, produces the effect of a rubbed varnish, without the expense of rubbing down a gloss coat. It is a superior article, and produces a finish that is soft, pleasing, and durable. Will not mar or scratch white. Is entirely free from wax, dried in 24 hours, and should be used like regular varnish.

Makes Your Home Bright and Cheerful

Co-Var-Finish

See Actual Colors of Co-Var-Finish on Color Page facing Page 813

Co-Var-Finish is Prepared Ready to Apply

Co-Var-Finish is a high quality varnish, colored in such a manner that the colors of expensive woods, such as mahogany, rosewood, walnut, cherry and oak, may be produced on new woodwork or over an old finish, whether enameled, varnished, etained or painted. It is not necessary to remove the old finish, but to aee that the surface is dry, cleen and smooth before applying. Co-Var-Finisb is also used with great success ou linoleum and oilcloth.

Previous knowledge or experience with finishes not necessary. There are no intricate directions to follow. It is so easy to apply that a woman can do the work.

Imagine the delight of the housewife when she can, at a trifling expense, change the finish on the floor or any woodwork, to imitate light or dark oak, walnut, mahogany, cherry, or any finish she chooses.

Co-Var-Finish is applied easily, with a varnish brush. It spreads smoothly and dries over night with a glossy finisb, hard as a rock. It will not eoften through usage or wear, nor chip or flake. If you wish to change the finish from a dark to a lighter shade, first apply a coat of ground color.

If some of your furniture has lost its finish, or is not in harmony with the surroundings, no need of throwing it away. A very little Co-Var-Finish will do wonders. You can make furnituro look like new. You can change the color to harmonize with your carpets and curtain hangings.

One gellon will cover about 400 squere feet, one coat.

Colors: 183, Cherry; 184, Mahogeny; 185, Light Oak; 186, Rosewood; 186½, Leaf Green; 187, Antlquo Oak; 188, Walnut; 188½, Ground Color. State color wanted.

		Per Can
75C8110	Pint can. Weight, 2½ pounds.	30c
75C8111	Quart can. Weight, 4 pounds.	55c
75C8112	Half Gallon can. Wt., 7 lbs.	$1.00
75C8113	Gallon can. Wt., 11½ lbs.	1.90

Varnish Stains

Make Furniture and Woodwork Look Like New

Varnish Stain is especially adapted for refinishing woodwork or furniture that has been previously finished with paint, varnish or stains. It is also used on new work where a rich, gloss stained finish is desired. It stains and vernishes with one applicatlon, and dries hard with a fine lustre in from 8 to 12 hours.

To obtain the best results on old work that has been stained or varnisbed, use a shade of Varnish Stain similar to the old work, or a darker shade. One coat is usually aufficient.

Where Varnish Stain is used on an old painted surface, a coat of ground color No. 188½ should first be applied. This gives a solid ground color, of the texture of newly-planed wood. Then apply two coats of Varnish Stain of the shade desired. One gallon will cover 400 aquare feet, one coat. Colors: 183, Cherry; 184, Mahogany; 185, Light Oak; 186, Rosewood; 186½, Leaf Green; 187, Antique Oak; 188, Walnut, 188½, Ground Color. State color wanted.

	Ship. Wt.	Per Can

For a Soft Velvety Finish on Walls or Woodwork, Use

Flat Wall Finish

Thoroughly Sanitary—May be Washed with Soap and Water

See Actual Colors on Color Page facing Page 813

An oil finish that is very artistic and desirable. Being waterproof, it may be washed with soap and water. Thoroughly sanitary. Is essy to apply. Never wears out. Does not rub off on the clothes like many other wall finishes.

Flat Wall Finish dries quickly without gloss. It gives a dainty, velvety finisb, and thoroughly protects the wall. This is an excellont Flat Finish for interior work, for walls, woodwork, plaster board, or metal ceilings. It produces a smooth, soft, and artistic finish, which is so much desired.

An endless number of pleasing combinations may be secured by the use of the various tints. Always remember, however, that to get proper results, the lighter tint must alwaye appear above the darker tint, and not under. All pleasing effects are accomplished by using a lighter tint on the ceiling than is used for the side wall. Then, too, by application of the proper stenciling, wonderful results may be secured.

You cen do all this work yourself; you would enjoy it. Consider the aetisfactiou you will experience in knowing that it is your own work. Flat Wall Finish is made ready for use. When used on smooth plastered walls, one gallon will cover from 200 to 250 square feet, two coats.

Before using on new walls or on old walls that have nover been sized, the eurface should first be given a coat of Fresco Wall Size. Colors are: 120, Ivory; 122, Light Cenary; 123, Light Tan; 124, Golden Brown; 126, Shell Pink; 127, Quaker Gray; 128, Palo Azure; 129, Willow Green; 130, Maple Green; 131, Rich Red. **State color you wish.**

Pur-e-tone

Hot Water Kalsomine

An inexpensive, sanitary wall finish. It gives your walls an elegance and character which will surely please you. It will not rub off, flake, powder, peel or blister. It ie eclentifically prepared and positively sanitary. Anyone can apply this wall finish. It is easily and quickly dissolved in hot water, and requires no stirring after once mixed. Pur-e-tono is so finely ground that it remains in good condition without settling. Will cover as much surface as any kalsomine we know of. Old walls previously kalsomined should be washed clean before applying a new coat. New walls or old walls that have not been previously sized should be given a coat of our Fresco Wall Size. Ouo 4-pound packego will cover about 500 square feet. Colors are: 200, White; 201, Buff; 203, Shell Pink; 210, Canary; 211, Pale Blue; 230, Sage Green; 231, Deep Tan; 254, Alico Blue; 257, Light Buff; 258, Laght Cream; 262, Pea Green. **State color wanted.**

Paint Materials You Can Depend Upon

Dry Colors

Our line of dry colors is complete. For the purpose intended they will positively give satisfaction.

Some of the colors here quoted are frequently used for painting purposes by simply mixing with linseed oil. This we do not recommend. Unless you have facilities for putting the mixture through a paint mill, your paint will lack that fineness and durability that is necessary in good paint. In Coverall or Tower Brand Paint you get fineness, covering capacity, durability and economy.

Dry Colors

175C7881—Lamp Black. Germantown. Barrels (50 lbs.). Per lb.....15c
75C7882—Smaller Quantity. Per lb.....16c

75C7919—Smaller Quantity. Per lb.....2c

Cement or Mortar Colors

The best grade of mineral colors that the market affords for coloring mortar, cement blocks, stucco, concrete and brick work. These colors will not fade.

No. 70—Chocolate Brown, produces a deep, rich brown that harmonizes with and is popular for coloring mortar in which the manganese brick, so much in demand, are laid.

No. 71—Mortar Buff. A soft, medium shade.

No. 72—Mortar Red, will produce a medium red.

No. 73—Red Extra Strong. This red is particularly strong in color and produces a full, rich, brilliant shade. On account of its strength, it requires less of this color to the quantity of cement used.

No. 74—Mortar Black is a good grade of black that will not fade.

175C7962—Colors 70, 71 or 72, 100-lb. drum. Per lb.....2c
175C7963—Colors 70, 71 or 72, 50-lb. drum. Per lb.....2½c
75C7964—Colors 70, 71 or 72, smaller quantity. Per lb.....3c
175C7967—Color 73, 100-lb. drum.....9c
175C7968—Color 73, 50-lb. drum.....9½c
75C7969—Color 73, smaller quantity....10c
175C7972—Color 74, 100-lb. drum.....5c
175C7973—Color 74, 50-lb. drum.....5½c
75C7974—Color 74, smaller quantity....6c

The amount of coloring required depends upon the depth of coloring desired and the amount of cement or mortar to be colored. The more color used, the deeper the shade.

For the brown or buff, use from 15 to 20 pounds of color to each 100 pounds of cement or mortar. Two or three pounds less of the other colors may be sufficient.

Inside Floor Paint

An ideal paint for interior floors. Produces a high brilliant, gloss finish. Does not readily show heel marks or scratches. May be scrubbed repeatedly without injury. One gallon will cover about 250 square feet, two coats. Colors: 148, Reddish Brown; 149, Light Brown; 149½, Red; 151, Slate; 152, Green; 153, Yellow; 153¾, Light Yellow; 153½, Medium Drab. State color wanted.

75C8101—Half gallon cans. Ship. wt., 10 lbs.....65c
75C8102—One gallon cans. Ship. wt., 15 lbs.....$1.20

Hard Drying Porch Paint

A special paint for outside use, on porches and steps. It withstands the wear and tear of constant usage and resists action of weather. One gallon covers about 300 square feet, two coats. Colors: 192, Tan; 193, Light Brown; 194, Olive; 195, Dark Brown; 186, Light Gray; 197, Dark Gray. State color wanted.

75C7735—Quart cans. Ship. wt., 6 lbs..40c
75C7736—Half gallon cans. Ship. wt., 10 lbs.....75c
75C7737—Gallon cans. Ship. wt., 15 lbs.....$1.43

Fire-Proof Cold Water Paint 30c Per Gallon

Pure white. Will not rub. Is a fire retardent. Aporoved by the Fire Underwriters' Laboratories. Apply either with a brush or sprayer.

Our Cold Water Paint is particularly adapted for interior painting of barns, shops, poultry houses and other buildings where a sanitary, fire-proof and light reflecting finish is desired at a small cost.

Five pounds makes a gallon of paint which will cover about 400 square feet.

This paint, however, is not intended to take the place of oil paint.

75C8447—5-lb. packages. Per lb.....6c
75C8448—10-lb. packages. Per lb.....6c
175C8449—50-lb. kegs. Per lb.....5½c
175C8450—100-lb. kegs. Per lb.....5c

Graining Colors in Oil

In paste form. Are prepared for use by mixing to the consistency of paint, or a little heavier, with one part boiled linseed oil and two parts turpentine. Put up in 1 and 5 pound cans. Colors are mahogany, cherry, walnut, light oak, and dark oak. State color wanted.

75C8015—1-lb. cans. Per can.....12c
75C8016—5-lb. cans. Per csn.....57c

Venetian Red—Ground in Oil

A good grade of Venetian Red. Use about one gallon of linseed oil to each 12 pounds of Venetian Red to bring the paint to proper consistency for average use. One gallon of this paint when properly mixed will cover from 200 to 250 square feet, two coats.

75C7853—12½-lb. cans. Per lb.....6c
75C7854—25-lb. cans. Per lb.....6c
75C7855—100-lb. kegs. Per lb.....5½c

French Yellow Ochre Ground in Oil

About one gallon of linseed oil is required to each 12 pounds of the yellow ochre to bring the paint to proper consistency for average use. One gallon of this paint, when properly mixed, will cover from 200 to 250 square feet, two coats.

75C7857—12½-lb. cans. Per lb.....6c
75C7858—25-lb. cans. Per lb.....6c
175C7859—100-lb. kegs. Per lb.....5½c

Old Dutch White—Ground in Oil

An interior white that is whiter than any pure white lead. We recommend it for interior work as it will not discolor, and, being ground very fine in oil, it has a greater covering capacity than pure white lead. It is also much more economical, and being non-poisonous, it is used quite generally for interior finish in hospitals and public buildings. Excellent as an undercoat for enamels.

175C8020—100-lb. keg. Per lb.....8c
175C8021—50-lb. keg. Per lb.....8½c
175C8022—25-lb. keg. Per lb.....9c
175C8023—12½-lb. keg. Per lb.....9½c
75C8024—5-lb. can. Per lb.....12c

To those who wish to mix their own paint, we can furnish two brands of White Lead. The first brand is our own brand, which is strictly pure, full weight and in quality and service the best it is possible to obtain.

Strictly Pure White Lead in Oil

This White Lead is strictly pure and you are certain to be pleased with it. Prices subject to market changes. Full weight. Per lb.

175C7825—100-lb. metal kegs.....9½c
175C7826—50-lb. metal kegs.....10c
175C7827—25-lb. metal kegs.....10c
175C7828—12½-lb. metal kegs.....10½c

Special Brand, not a pure lead, but one that will give good service.

175C7829—12½-lb. keg. Per lb.....9½c
175C7830—25-lb. keg. Per lb.....9c
175C7831—50-lb. keg. Per lb.....8½c
175C7832—100-lb. keg. Per lb.....8c

American White in Oil

American White is not a pure lead. For the purpose intended, however, it will be found entirely satisfactory. It is used by plumbers for piping. Used for priming coat on sash, etc., where a cheap primer is desired, and for other purposes.

Denatured Alcohol Shellac

Our shellacs are made from pure gum shellacs, cut with denaturred alcohol. One gallon will cover from 300 to 400 square feet, one coat. These shellacs are made heavy. If thinning is necessary use denatured alcohol only.

Shellacs are used mostly for the under coat. It is of the utmost importance that you get the best. The under coat is the foundation of the work.

White Shellac

Use where no color is desired. Made of pure bone-dry, bleached shellac, and is clear and white.

75C8676—Pint cans. Shipping weight, 2 lbs. For.....30c
75C8677—Quart cans. Shipping weight, 3 lbs. For.....48c
75C8678—Half gallon cans. Shipping weight, 6½ lbs. For.....88c
75C8679—One gallon cans. Shipping weight, 10½ lbs. For.....$1.65

Orange Shellac

This Shellac is very fine, light in color, and free from sediment found so often in orange shellac. Used the same as white shellac, except on darker surfaces, such as oak. Also used for coating knots and sappy spots before painting.

75C8680—Pint cans. Shipping weight, 2 lbs. For.....27c
75C8681—Quart cans. Shipping weight, 3 lbs. For.....45c

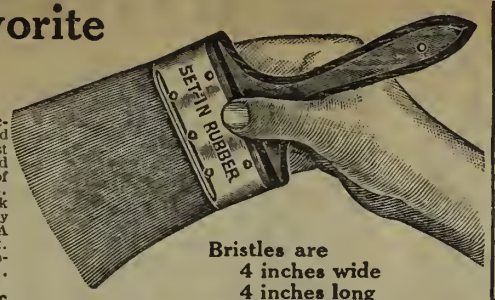
Select Brushes and Tools for the Particular Decorator

No Better Brushes Made

Rubberset Brushes need no introduction. Their auperior quality has won for them a world-wide reputation. The bristles are set in rubber, so firmly imbedded they cannot come out. Brushes set in rubber never shed bristles. It is not necessary to water-soak them before using. Turpentine, benzine, alcohol or water do not affect them. They have successfully passed every test, and have proven their value by actual use in the hands of master painters.



Brushes set in rubber are the best brushes that are made.

The Painter's Favorite

Set in Rubber 95c

The Ideal Brush for House Painting. The practical brush to use. The brush to buy for good service, and long service. Made of the choicest grade genuine black Chinese bristles. Set in solid bed of hard rubber—nickel bound. Width of brush, 4 inches. Length of bristles, 4 inches. The bristles are uniformly tapered. The stock is full, firm and elastic. This brush works easily and spreads the paint smoothly and evenly. A favorite brush among painters for their best work. We claim this brush is equal to any, and superior to many brushes sold by the dealer at $1.50. Shipping weight, packed, 12 ounces.

CARPETS RUGS LINOLEUMS

Care of Rugs

Don't sweep Axminster, Velvet or Wilton rugs very hard at first. Always sweep with the nap, never against it, and with a new broom, if possible. Or better still, use a carpet sweeper. These qualities are sheared, when finished, and some of the shearing falls into the back of the rug or carpet, and will sweep out. The loose shearing is no part of the rug. It is a feature of the fabric, and not a defect. We offer you this explanation so that those unfamiliar with the manufacture of rugs will understand that what appears to be minor defects do not lessen the value or wearing qualities of the rug.

Brussels carpets or rugs should not be swept for at least 10 days after being laid. The loops which form the pattern should be flattened down from wear before being swept. If loop fabrics are swept hard with a stiff broom they are liable to sprout. If loose threads appear on the face of your carpet, cut them off, but never, under any circumstances, pull them out.

All pile carpets, such as Velvets and Axminsters, are liable to shade—that is, show light and dark spots in places. This is caused by unequal crushing of the nap, and cannot be avoided.

Lace Curtains, Draperies, Window Shades, Furniture Coverings, Couch Covers, Drapery, Hardware; Carpet, Rug and Linoleum Sundries

On the following pages, we offer an extensive and complete assortment of up-to-date and attractive merchandise of the different kinds named above. In selecting these articles careful consideration has been given to securing values that are equal to, or superior to those offered elsewhere. Every market has been searched and in many instances new ideas in home furnishing articles have been created. Every item we offer has merit and deserves your attention and consideration. Note especially the extensive line of window shades and large variety of extras described and illustrated on two pages; also the 5 pages, in actual colors, of room-size rugs, splendid range of patterns and fabrics, as well as sizes. One color page shows a variety of patterns in linoleum rugs, each one of unusual attractiveness and remarkable value. The portieres and couch covers, and the page of drapery fabrics, shown in actual colors will all surely interest you if you are going to buy such goods.

Important Linoleum Information

When ordering Linoleum in cold weather, be very careful when you receive it, as it is very sensitive to changes in temperature. It must not be unrolled when cold, or it will crack and be ruined. When thoroughly chilled, roll should be placed where it will have steady heat for forty-eight hours, which is thoroughly sufficient to permit goods to get into fit condition to handle. In very severe weather care and caution are still more necessary.

Linoleum should not be allowed to fall or drop when cold. In extreme warm weather Linoleum will sometimes bulge and stretch, and should be carefully treated when first laid. If a trifle soft, it will harden in a few weeks after it becomes thoroughly seasoned.

On new Linoleums particularly, tilting back in chairs should be avoided.

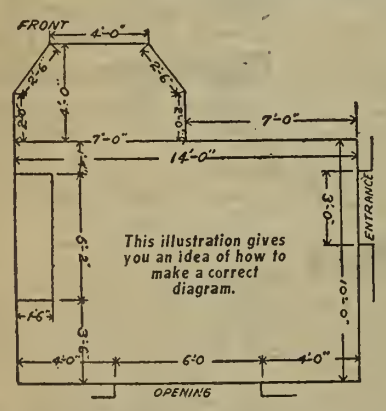
Linoleums should be cleaned with warm suds made with good soap. Use soft woolen cloths. Strong washing powders are injurious. If Linoleum is flooded with water, it will be ruined. Under no circumstances must any quantity of water be permitted to work through the seams and reach the back, as water will loosen the burlap foundation from the goods.

How to Order Carpets and Rugs—Special Instructions

Measure your room, to find how much carpet you need. We know it is a somewhat difficult task to figure out the number of yards of carpet necessary to cover a room. In order to simplify matters for our friends and relieve them of the trouble of figuring out just how much carpet they need, we print on the bottom of this page a table showing the amount of carpet that will be required for various sized rooms. Before you start, it is essential to have the following information:

Brussels, Velvet and Axminster Carpets. The carpet width is about 27 inches. The border width is about 22½ inches.

Ingrain carpets, rag carpets, and hemp carpets, unless specified otherwise, are 36 inches wide.



Measure the length and width of your room in feet. Then refer to the table printed below and you can quickly tell just how many yards of carpet you need.

We always cut carpets to match perfectly, with the least possible waste, and by cutting from a number of rolls at a time this waste is kept down to a minimum amount. But in making your allowances to us it is best to figure about an extra yard-and-a-half for every 25 yards you buy, to allow for matching the pattern exactly. However, if less than a yard-and-a-half will allow for perfect matching, only the necessary amount will be used. We charge you only for what carpet you get. On all carpets with borders, this waste must be cut off in order to make up the carpet to fit your room exactly. On carpets without borders this excess is left on end of carpet, and can be turned under when laid. The necessary waste for matching has been included in the figures given below. In ordering any carpet, if you do not wish us to sew or make it for you, we will cut and match the carpet without charge.

Making a Diagram

To guard against possible errors when ordering, it is best to send us a diagram of each room you wish carpeted. On this diagram mark plainly the length and width of your room, in feet and inches. If your measurements are correct, there can be no errors on our part in filling your order.

In ordering, be sure to state which way of the room you wish the strips to run. Mark the front of the room, so that Velvets and Axminster carpets, which have high pile, may be cut so that you can sweep them the right way of the room. In case there are any bay windows, fire-places, alcoves, or projections, include them on your marked diagram, showing their exact location and be careful to give us exact measurements of such irregular places. If you feel that you cannot figure the exact amount of carpet, if your room is odd shaped, having a bay window, fire-place, or alcove, give us the measurement in feet and inches. Be sure to enclose a diagram. We shall be pleased to quote you the price on any quality of carpet that you may select from our Catalogue.

Prices for Sewing Carpets.

For 2c a yard extra, we will cut, match, and sew ingrain, rag, or granite carpets to fit any room.

For 3c a yard extra, we will cut, match, and sew any of our Brussels, Velvet, or Axminster carpets, without a border, to fit any room.

For 10c a yard extra, we will cut, match and sew any Brussels, Velvet or Axminster carpet ordered with a border.

No Charge for Sizing Carpet Rugs.

We will thoroughly size with a heavy coating of glue the back of any special size carpet rug ordered from us without extra charge. We strongly advise this as it will help your rug to lie flat on the floor, and will not permit it to curl. Remember there is no extra charge for this work.

Table of Room Sizes

Showing the approximate number of yards of 36-inch Ingrain Carpet and the approximate number of yards of 27-inch Axminster, Velvet or Brussels Carpet, made Plain or with Border, that would be required for different sized rooms. If the size of your room is not given, select the next larger size to avoid delay.

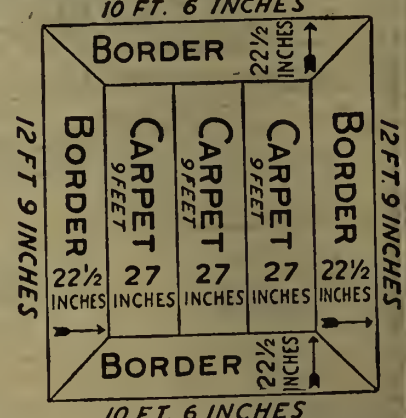
How to Measure for Room Size Rugs or Carpets Made with a Border

We give here a table showing you how to figure a bordered carpet. Measure the distance around the room in yards. This gives the number of yards of border required. To get the number of strips of carpet necessary to go inside of the border, deduct the width of two strips of border (or 45 inches), from the width of the room. Divide by 27 inches (the width of one strip of carpet). This will give you the number of strips of carpet needed. To get the length of strips, deduct the width of two strips of border (45 inches), from the length of room. This gives the length of the strips.

If your rooms should require more than an equal number of strips, and still not over one-half a strip, we can split a strip and cross join it. But if it takes more than half an extra strip, a full extra strip is necessary. If there is any waste, we will send it to you with your carpet.



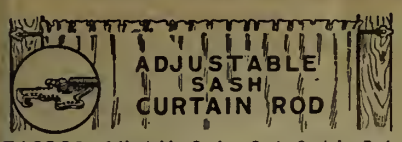


Diagram showing the number of lengths of carpet and border needed to cover a room 10 feet 6 inches wide by 12 feet 9 inches long.

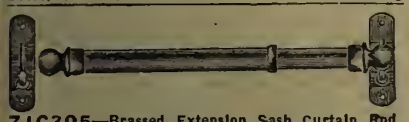
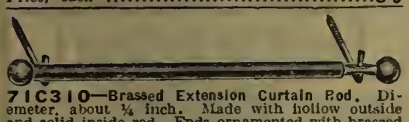
Small Mitered Mats or Rugs.

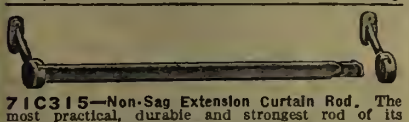


When ordering Carpet and Border, there are always ends of the border left which we will sew up into a small mat or mitered rug, at $1.00 a piece extra. These rugs made up in this way are a great protection to your large rug, or can be used in vestibules, or bedrooms, or any odd corner through your home. Be sure to state when you order a bordered carpet, if you wish us to make up the odd mitred rug. Remit $1.00 extra for each mat.

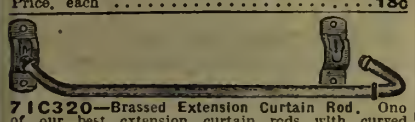
Safety first—For your dining-room table get an Asbestos Pad



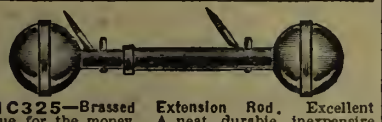
Everyday Needs in Drapery and Upholstery Hardware



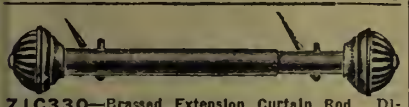
71C300—Adjustable Spring Sash Curtain Rod. This Curtain Spring Rod is mede of nickel plated spiral spring steel wire, and fits windows 26 to 36 inches wide. No screws or neils are needed. Simply place the adjustable clips securely on the side of the window frame. It will not tear or rust the curtain. Weight, each, about 3 ounces.
Price, each 8c



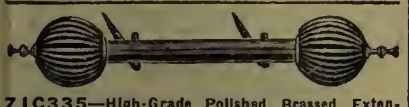
71C305—Brassed Extension Sash Curtain Rod. This is s strong, well made, ¼-inch rod. Can be used on inside or outside of casing. Extends from ebout 23 to 42 inches. Weight, each, about 6 ounces.
Price, each 9c



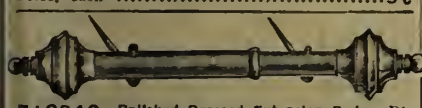
71C310—Brassed Extension Curtain Rod. Diameter, about ¼ inch. Made with hollow outside and eolid inside rod. Ends ornamented with brassed balls. Extends from about 22 to 43 inches. Weight, each, about 4 ounces.
Price, each 4c



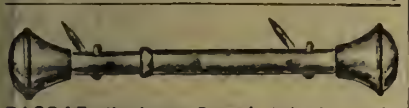
71C315—Non-Sag Extension Curtain Rod. The most practical, durable and strongest rod of its kind on the market. Made of strong steel in such a way that it will not sag even under many times the weight that would cause the ordinary rod to sag. Highly nickeled and will not rust. Eesy to insert in hem of curtain ss these rods ere mede in flat style. Separate the sections and insert one section of rod in hem of curtain. Projection from window frame, about 2 inches. Extends from about 24 to 46 inches. Weight, each, about 10 ounces.
Price, each 18c



71C320—Brassed Extension Curtain Rod. One of our best extension curtain rods with curved ends. Made of about 7/16-inch tubing and has strong siot style breckets, easy to slip ends of rod in. Projects about 2½ inches from window casing. Furnished in one size only. Extends from about 30 to 54 inches. Weight, eech, about 7 ounces.
Price, each 16c



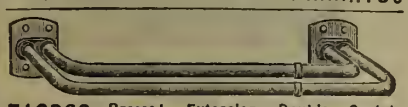
71C325—Brassed Extension Rod. Excellent value for the money. A neat, durable, inexpensive rod. Extends from about 26 to 50 inches. Diameter, about 7/16 inch. Has 1¼ inch brassed ends. Weight, each, about 5 ounces.
Price, each 10c



71C330—Brassed Extension Curtain Rod. Diameter, about 7/16 inch. Is fitted with neat, 1½-inch ends. Extends from about 25 to 49 inches. Weight, each, about 5 ounces.
Price, each 7c

71C335—High-Grade Polished Brassed Extension Rod. Diameter, about 7/16 inch. Fitted with attractive 1¼-inch ball ends of silver composition metal, which will not tarnish. Extends from about 25 to 50 inches. Each rod complete with screw hooks. Weight, each, about 6 ounces.
Price, each 9c

71C340—Polished Brassed Extension Rods. Diameter, about 7/16 inch. Fitted with 1½-inch ends. This is the best rod of its kind made. A very neat style in a durable rod. Extends from about 25 to 49 inches. Weight, each, about 6 ounces.
Price, each 15c

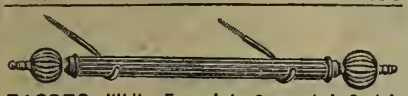


71C345—Handsome Brassed Extension Rods. Tube diameter, about ¾ inch. Has polished ends. Extends from about 26 to 50 inches. Weight, each, about 6 ounces.
Price, each 11c

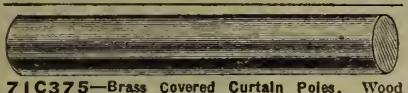
71C346—Same rod as 71C345 above, but extends from about 38 to 74 inches. Weight, each, about 8 ounces.
Price, each 17c

71C355—Brassed Extension Single Curtain Rod. A strong, dureble, inexpensive curtain rod with curved ends. It is made of 7/16-inch brassed tubing and projects about three inches from window casing. Extends from ebout 28 to 46 inches. Weight, eech, about 6 ounces.
Price, eech 9c

71C356—Seme rod as 71C355 above, hut extends from about 40 to 72 inches. Weight, each, about 8 ounces.
Prico, each 15c



71C360—Brassed Extension Double Curtain Rods. The most complete extension double curtain rod on the market. Mede of ebout 7/16-inch brassed tubing, and is strong end durable. A very convenient rod when you wish to use overdrapes. Inner rod projects ebout 2¼ inches from window casing and outer rod ebout 3¼ inches. Extends from about 30 to 54 inches. Weight, each, about 13 ounces.
Price, each 19c



71C361—Brassed Extension Double Curtain Rods. Same es 71C360 ebove, only it extends from ebout 40 to 74 inches. Weight, each, about 1⅛ pounds. Price, eech.....28c

71C365—Cottage Curtain Rods like the illustration. Finished in oak. Diameter, about ¾ inch; length, 4 feet. Furnished complete with ends and brackets. Weight, each, about 10 ounces; per dozen, about 7½ pounds.

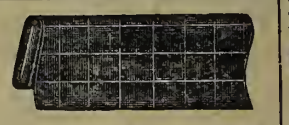
Bamboo Porch Shades

A very popular and useful article where you wish to partly exclude the sun from porches or verandas. Every porch needs at least one. These are the best quality of bamboo porch shades and are made of wide slats of outside strips of bamboo firmly bound together with strong cords. Do not confuse these shades with the cheaper bamboo shades on the market that are made of narrow slats of inside bamboo strips. Furnished complete with cord and pulley, in the following sizes. Come in natural bamboo color only.

Art. No.	Width	Length	Shpg. Wt., Each, About	Price
72C900	6 feet	6 feet	12 pounds	$0.90
72C901	6 feet	8 feet	14½ pounds	1.25
72C902	8 feet	8 feet	19 pounds	1.65
72C903	10 feet	8 feet	26 pounds	2.00

Woodrow Porch Shades

Our Woodrow Porch Shade is the one perfectly practical and absolutely dependable porch shade that will give entire satisfaction. It will meet the most exacting requirements, and is one which we highly recommended. Made of narrow sawed basswood slats, kiln dried, which are strongly woven together with Italian flax twine. The warp is woven about 4 inches apart which allows the curtain to be cut down every 4 inches, thereby fitting any space desired. Colored with creosote wood preserver which will not fade, and which preserves both wood and twine. Will not warp nor get out of shape. Woven so as to exclude sun or rain, but permits free circulation of air. With one of these porch shades, you can add a very pleasant, cool sitting or sleeping room to your home, at a small expense. Comes in dark green color only.



Number	Width	Length About	Shipping Weight About	Price Each
72C910	6 ft.	7 ft. 7 in.	10 lbs.	$2.75
72C911	8 ft.	7 ft. 7 in.	16 lbs.	3.90

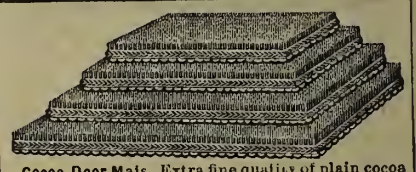
72C925 — Mosquito Netting. Width, about 68 inches. An extra good quality of fine mosquito netting, made of selected cotton. Has a very fine mesh that will exclude the smaller insects. This is an article for those wishing something a little better than the ordinary. Will give absolute satisfaction. Put up 8 yards in the piece. Sold only in the full piece and comes in one color, white only. Shipping weight, per piece, about 1½ pounds.
Price, per piece.....90c

72C930—Bed Canopy. If you are troubled with flies or mosquitos in your sleeping room, one of these canopies will give you solid comfort and protection. Splendid quality white gauze netting, put up complete with pulley, cord and frame as shown in the illustration. Length of shield, about 90 inches. Shipping weight, complete, about 3 pounds.
Price, each, complete $1.60



72C920 — Mosquito Netting. Width, about 56 inches. This is a standard quality of mosquito netting, firmly woven and is much better than you would ordinarily expect at the price. Put up at the mill in full 8-yard lengths and is sold only in that way. Your choice of the following colors: White, pink, blue, green or black. Be sure to state color wanted and mention second choice. Shipping weight, per piece, about 1 pound.
Price, per piece.....72c

Bardwell Tapestry Brussels Seamless Rugs

Number	Size	Shipping wt.,	Each
172C7640	8¼x10½ ft.	About 21 lbs.	$14.85
172C7641	9 x12 ft.	About 27 lbs.	16.87
172C7642	11¼x12 ft.	About 35 lbs.	21.75

The principal feature of this attractively designed rug is in its splendid combination of subdued greens and browns on a tan ground. Made in one of the largest rug mills in this country and as we buy direct, we are able to quote each size at a very reasonable price.

Sheffield Tapestry Brussels Seamless Rug

Number	Size	Shipping weight	Price, each
172C7660	9x12 ft.	About 26 lbs.	$15.75

The design and coloring of this rug is certainly a work of art. Copy of a high class, imported, English pattern which in the original rug of similar fabric would cost a great deal more than our price. Your attention is directed to the beautiful contrast of rich tan and green fields, and the unusually attractive ornamentation of the entire rug, with neat floral clusters.

Banta Tapestry Brussels Seamless Rugs

Number	Size	Ship. wt., About	Price, each
172C7680	8¼x10½ ft.	18 lbs.	$14.35
172C7681	9 x12 ft.	23 lbs.	16.22
172C7682	11¼x12 ft.	29 lbs.	22.97

All-over effect, in colorings of subdued shades of green and tan. Such a splendid color combination as this will stand a great deal of wear without showing soil. This charming rug will harmonize with any furnishings. Has a well covered, durable worsted face.

The Face of All Our Tapestry Brussels Rugs Is Of Worsted Rug Yarn

Kenton Tapestry Brussels Seamless Rugs

Number	Size	Ship. wt., about	Price, each

172C9121	11¼x12 ft.	36 lbs.	22.40

This rug is well woven and has a tufted wool pile. Beautiful parlor rug in attractive pattern and combination of colors. This number will meet every requirement of a low priced rug, combining attractiveness with durability.

Courland Velvet Seamed Rug

Number	Size	Ship. wt., about	Price, each
172C9140	9x12 ft.	32 lbs.	$18.65

An original, and well arranged Oriental design velvet rug. Figures are well proportioned, and properly colored, so as to stand out in splendid contrast. Made with only two seams. Most seamed rugs of this size are made with at least three seams.

Oriole Velvet Seamless Rug

Number	Size	Ship. wt., about	Price, each
172C9160	9x12 ft.	30 lbs.	$17.58

Gorgeous pattern, in a good grade of velvet rug. Floral design with beautiful border. Face is of wool rug yarn. A bargain at the price we ask for it. Equal qualities sell elsewhere today for considerable more than our price.

Barlow Velvet Rugs

Number	Size	Ship wt., About	Price, Feet lbs.	each
172C9180—Seamless	9 x12	32		$23.50
172C9181—Seamed	11¼x12	42		29.00

Very handsome style of parlor rug in beautiful floral and scroll ornamentation on a warm, tan ground work. Rich coloring, unique pattern, and thoroughly reliable quality throughout, makes this rug a desirable purchase. Face is of selected wool rug yarn.

Hubbard Wilton Velvet Seamless Rugs

Number	Size	Ship. wt., About	Price, each
172C9200	9x12 ft.	32 lbs.	$26.00
172C9201	11¼x12 ft.	42 lbs.	35.95

Remarkably attractive style in a small all-over, figured design in a splendid color effect. The light tan ground work is well relieved by small brown and green figures. This rug combines individuality and style of pattern with excellent quality, and makes it a very desirable floor covering for any room.

Punjab Wilton Velvet Seamless Rugs

Number	Size	Ship. wt., about	Price, each
172C9220	8¼x10½ ft.	26 lbs.	$20.60
172C9221	9 x12 ft.	32 lbs.	22.85

Very attractive pattern. A copy of a very fine Kirmanshah imported rug. Exceptionally soft in tone. Rich combination of rose and green figures on tan ground. Just the kind of rug for a living room. Has a good worsted wool, wear-resisting face. Strongly woven and easy to sweep.

Biltmore Wilton Velvet Seamless Rugs

Number	Size	Ship. wt., about	Price, each
172C9240	9 x12 ft.	33 lbs.	$25.85
172C9241	11¼x12 ft.	43 lbs.	35.75

One of those pleasing designs you will always enjoy, whether you select this rug as a covering for your living room, dining room, parlor or library. Exceptionally good quality, as it is made of selected wool rug yarn, on a firm back. Well covered.

Passaic Wilton Velvet Seamless Rugs

Number	Size	Ship. wt. About	Price, each
172C9260	9x12 ft.	30 lbs.	$22.80
172C9261	12x11½ ft.	50 lbs.	36.95

Charming Oriental, all-over pattern, unusually attractive in design as well as in colorings. Heavy, durable quality with thick wool velvet pile. Will give excellent satisfaction. Furnished in two sizes and each size is seamless. Increasing demand is for the seamless rugs as they lie flat and wear evenly.

Lawndale Wilton Velvet Seamless Rugs

Number	Size	Ship. wt., about	Price, each
172C9280	8¼x10½ ft.	26 lbs.	$20.65
172C9281	9 x12 ft.	32 lbs.	22.85
172C9282	11¼x12 ft.	43 lbs.	29.25
172C9283	12 x11½ ft.	50 lbs.	37.00

The design in this rug is very neat and attractive, as it is an unusually good combination of floral and Oriental figures. A style distinctly out of the ordinary. If you wish something in a rich brown and tan coloring, select this rug.

Dovalle Wilton Velvet Seamless Rugs

Number	Size	Ship. wt., About	Price, each

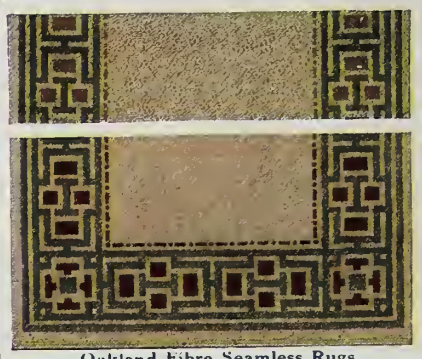
Bangor Seamless Reversible Art Squares

Number	Size	Ship. wt.,	Each
72C7160	6x 9 ft.	About 10½ lbs.	$4.32
72C7161	9x 9 ft.	About 15 lbs.	5.80
72C7162	9x12 ft.	About 20 lbs.	8.64
72C7163	9x15 ft.	About 24 lbs.	10.80

Durable rugs woven like ingrain rugs, but firmer and closer. Made in one piece of hard twisted, selected yarn, with a warp filling. Perfectly reversible. Will stand hard wear. Each size in above colors, **Brown and tan, or green and oak. State color combination wanted.**

Ningpo Chinese Matting Rugs

Number	Size	Ship. wt., About	Each
172C7180	9x12 ft.	25 lbs.	$3.30



Extra heavy and very durable matting rugs. Firmly woven from heavy chinese rice straw on good, strong warp. Made with one seam through the center. Furnished in one color only, similar as illustrated. Very appropriate for dining or bedroom. Can be wiped up with a damp cloth. Will always look bright and fresh, and are the best matting rugs we know of at the price.

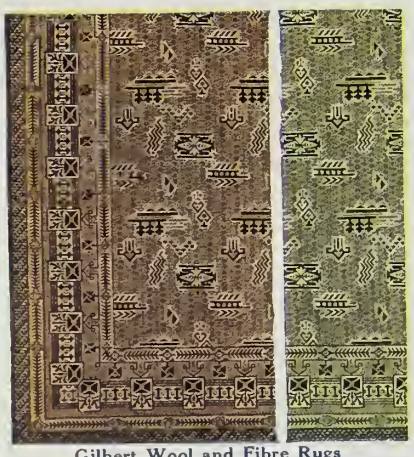
Osaka Japanese Matting Rugs

Number	Size	Ship. wt., About	Each
172C7200	9x11½ ft.	13 lbs.	$2.70
72C7201	36x66 in.	1¼ lbs.	.35

Real imported matting rugs, of very fine quality. Firmly woven from the best hand-palmed rice straw, with a strong, cotton warp. Fine, even, close weave, and smooth finish. The high-grade materials, combined with skillful workmanship, make these matting rug values which will interest shrewd buyers. **One side in similar designs and colors, as illustrated; reverse side, plain tan.**

Oakland Fibre Seamless Rugs

Number	Size	Ship. wt., About	Each
172C7220	6x 9 ft.	18 lbs.	$5.20
172C7221	6x12 ft.	24 lbs.	6.90
172C7222	9x12 ft.	36 lbs.	9.63



The most durable and the heaviest fibre rugs manufactured. Water-proof, and practically wear-proof. The outdoor rug for the porch. Rain only cleans and freshens it. The indoor rug for any room in the house. Close, firm weave of tough, hard twisted and specially treated fibre. Each size in green and brown, or green and red. **State color.**

Mikado Imported Grass Rugs

Number	Size	Ship. wt., about	Each
172C7280	6x 9 ft.	16 lbs.	$3.00
172C7281	9x12 ft.	32 lbs.	5.92

Mikado grass rugs are made in Japan. They are woven of tough wire grass, firmly bound together with strong cotton warp or threads like the American grass rugs. The cost of production is very low, and by importing them direct, we can offer them at unusually low prices. Sanitary, durable rugs. Very popular for summer months, but appropriate at all times. Each size made in one piece. No seams whatever.

Gilbert Wool and Fibre Rugs

Number	Size	Ship. wt., About	Each

In selecting linoleum it makes a big difference to you as to the completeness of the line from which you choose. You are entitled to the widest possible choice. And you always get it here. The great variety of patterns and qualities in linoleums, together with the different widths many of the patterns come in, make ours a very complete line.

Value is next in importance and is given equal consideration. In order to give you the best possible value consistent with durability, quality and assured satisfaction, we have thoroughly searched the markets in selecting the line of linoleums offered on this page.

Note: Read on page 820, **"Important Linoleum Information."** when ordering linoleums.

Colors are boiled into the heart of the fibre. Shipping wt., per yard, about 1½ lbs. Colors may vary from above illustration. **45c A Yard**

No hall carpet made for this stair.

We Make to Your Order, Hall Runners, Room Carpets and Bordered Rugs from Hall and Stair Carpets

Those wishing to have their stair, hall and room carpets all in the same pattern can do so by selecting from any of our stair carpets which have a hall carpet to match. We will make to order carpets without borders, room-sized rugs with borders, or hall runners from any of our stair and hall carpets on this page. Those stair carpets not having a hall carpet to match cannot be made up into a room-sized rug or carpet, but can be made into finished hall runners by having the ends mitered and bordered. In making a bordered rug, the stair carpet is split lengthwise through the center and is used for the border. The price for sewing a rug with border made of stair and hall carpet is 10 cents a yard; for a carpet without border, 3 cents a yard. When ordering hall runners made of stair carpets, allow ¾ of a yard extra for mitering the ends, and add 50 cents to cover cost of sewing. When ordering carpets, note carefully instructions for ordering on carpet introductory page.

372C5320—Woodland Tapestry Brussels Stair Carpet. Width, about 27 inches. Durable quality worsted face yarn dyed before weaving. Well covered and well constructed. The carpet for the man who wants to keep down the cost and keep up the appearance of his furnishings. Shipping weight, per yard, about 1½ pounds. **85c A Yard**

Per full piece of 12 yards .....$2.35 **21c A Yard**

The Lace Curtain Section

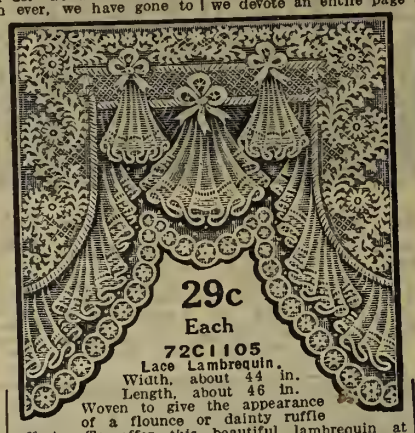
Regarding Colors

In order to make clear the relation between the different shades of color in curtains, we give this explanation: Going from light to dark colors, white is first. Cream is the next shade darker than white. After cream comes ecru, having a slightly yellowish cast. The next in order is beige, a soft, warm shade of light tan. Then champagne, a trifle deeper than beige. The darkest color is Arabian, which is a dull dark tan. These points should be kept in mind when ordering lace curtains.

Our Lace Curtain section this year is greater and better than ever. We make this statement without any exaggeration whatever. When you have noted the large varieties of patterns, weaves and kinds of fabrics on this and the following pages, you surely will agree with us. To attain our aim in making this year's line greater and better than ever, we have gone to foreign as well as domestic markets. On another page we offer some very beautiful imported patterns.

Whether you want to buy one pair of curtains or enough to furnish an entire house, we are prepared to fill your orders promptly. You may depend upon buying your lace curtains satisfactorily here.

In addition to our big line of already made-up curtains in window lengths, we devote an entire page to curtain materials by the yard. You will find a wonderful variety, comprising the most popular weaves and styles of today.



Parcel Post Shipments

Many will find it a great convenience to have their curtains shipped by Parcel Post. When you wish your curtains shipped this way, be sure to include postage extra according to shipping weight given and postage rate in your zone. For other information on Parcel Post rates and shipments, see page 5, "How to use the Parcel Post." To make the greatest saving, we strongly advise you to include your curtain orders with orders for other goods and have them shipped by freight.

24c Each

72C1110—Lace Lambrequin. Width, about 50 inches. Length, about 38 inches. A very handsome window decoration, woven in an attractive floral and bar design. Beautiful Imported English Nottingham and Cable Net Drapes

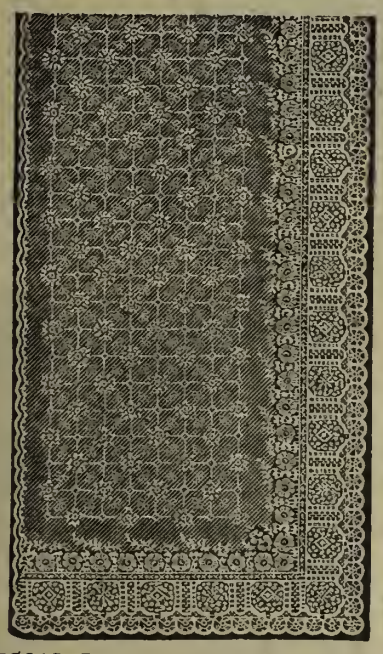
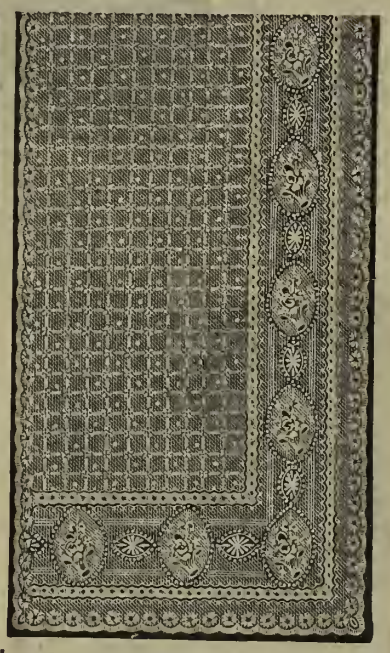
The six offerings of imported lace curtains shown on the upper half of this page represent selections from the line of one of the leading manufacturers in Nottingham, England. Without question every one is a value of unusual merit at our price, as ordinarily these curtains would sell for fully one-third more. In order to secure the greatest price concessions, we had to take this manufacturer's entire output of each article for a certain period of time. This means many hundred pairs of each pattern, but we believe our customers will appreciate this opportunity of securing values in imported curtains such as are seldom possible of being offered. Every pattern is of such remarkable beauty as to surely please you.

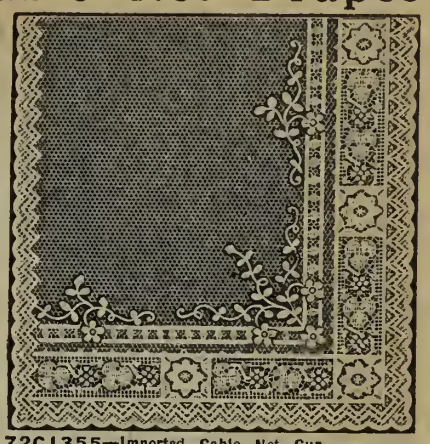
We sell half pairs of any of our lace curtains. The price for half pairs is one-half the price per pair.



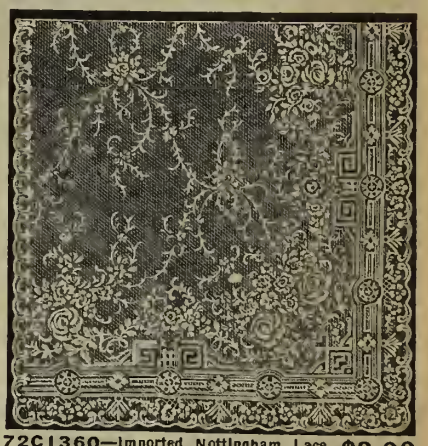
Information regarding colors and parcel post shipments of lace curtains will be found on another page.



72C1335—Imported Nottingham Lace Curtains. Width, about 45 inches. Length, about 2½ yards. The stained-glass-effect ground work is carried out in a very original manner, characteristic of foreign weaving in the home of Nottingham curtains. This handsome curtain will certainly give your windows a very artistic finish. Considering quality, size and the fact that they are imported, these curtains, at our price, are exceptional values. White only. Shipping weight, per pair, about 23 ounces. **$1.50 A Pair**



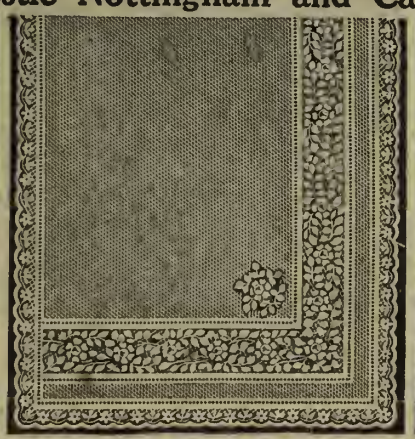
72C1340—Imported Cable Net Curtains. Width, about 50 inches. Length, about 3 yards. This beautiful design will certainly appeal to a great many. The ornamentation is dainty and well balanced and expresses a dignity of character to be found only in the better grade of importations. High-grade and very durable quality. Firm weave, strong thread mesh and perfectly finished. White only. Shipping weight, per pair, about 24 ounces. **$3.50 A Pair**



72C1345—Imported Cable Net Curtains. Width, about 50 inches. Length, about 3 yards. The illustration gives but a fair idea of the rare beauty of this richly designed curtain. At your windows these curtains will be one of the prides of your home. The figured ground work is very unique and harmonizes perfectly with the elaborate border decoration. This pattern is one of marvelous detail throughout. Firm, strong, mesh weave. The size of these curtains permits their use at large windows. White only. Shipping weight, per pair, about 27 ounces. **$2.75 A Pair**

72C1350—Imported Nottingham Lace Curtains. Width, about 50 inches. Length, about 3 yards. Among many styles of attractive Nottingham Curtains with figured grounds this easily takes the lead in point of distinct individuality. The cross-bar effect is brought out in an original and most attractive way. In each oval of the beautiful border appears a neatly-designed basket of flowers, adding charm and greatly enhancing the general beauty of these curtains. White only. Shipping weight, per pair, about 25 ounces. **$1.75 A Pair**

72C1355—Imported Cable Net Curtains. Width, about 45 inches. Length, about 3 yards. The finest illustrations can only bring out a good suggestion of the actual beauty of these imported curtains. The general effect is a wide band with large motifs separated by rich foliage figures. The sprays extending into the center ground have a neat applique effect. White only. Shipping weight, per pair, about 24 ounces. **$2.50 A Pair**



72C1360—Imported Nottingham Lace Curtains. Width, about 50 inches. Length, about 3 yards. We believe this to be one of the choicest Brussels patterns ever produced in Nottingham Curtains of such fine texture and selling at such a moderate price. The well-arranged border and delicate tracery of design on the field, makes these curtains beautiful beyond description. A very fine Nottingham mesh of firm weave. White only. Shipping weight, per pair, about 26 ounces. **$3.00 A Pair**

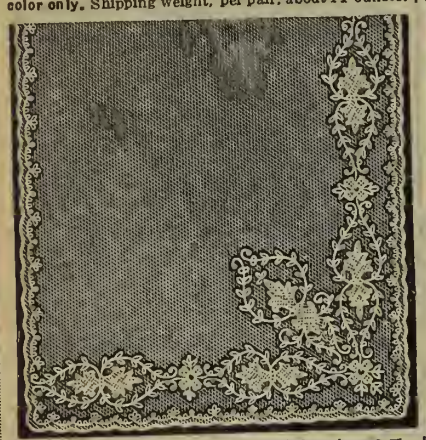
Self-headed at the top, all ready to slip on the rod. **Cream color only.** Shipping weight, per pair, about 11 ounces. **$1.57 A Pair**

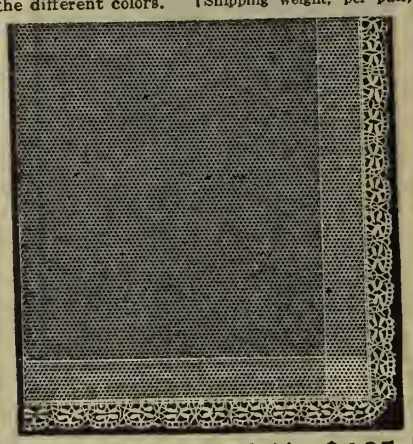
Regarding Colors

In order to make clear the relation between the different shades of color in curtains, we give this explanation: Going from light to dark colors, white is first. Cream is the next shade darker than white. After cream comes ecru, having a slightly yellowish cast. The next in order is beige, a soft warm shade of light tan. Then champagne, a trifle deeper than beige. The darkest color is Arabian, which is a dull dark tan. Keeping these points in mind, when ordering, will eliminate any confusion as to the exact shade of the different colors.



72C1410—Irish Point Lace Curtains. Width, about 36 inches. Length, about 2½ yards. Beautifully made bobbinet and ornamented with elaborate ribbon effect in Irish point work. These curtains will certainly make very attractive window drapes. Come in **white or champagne color. State color wanted.** Shipping weight, per pair, about 12 ounces. **$1.80 A Pair**

Parcel Post Shipments



Many will find it a great convenience to have their curtains shipped by Parcel Post. When you wish your curtains shipped this way, be sure to include postage extra according to shipping weight given and postage rate in your zone. For other information on Parcel Post rates and shipments, see page 5, "How to use the Parcel Post." To make the greatest saving, we strongly advise you to include your curtain orders with orders for other goods, or your neighbor's orders, and have them shipped by freight.

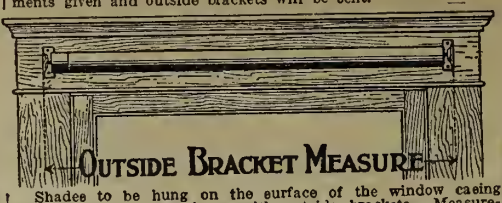
You Can Have Shades Made to Fit Any Size Windows



Our Window Shades Are Made of the Best Materials We Can Obtain. They are all mounted on dust-proof, self-acting spring rollers. We could quote lower prices by using cheaper cloth and rollers, but consider the best to be the cheapest, and believe our customers will appreciate this fact. Each shade is wrapped separately with slat, brackets and nails included. Lengths given on all shades are for the cloth before hemming or putting on the rollers, except 372C3710, 372C3730, 372C3735. Outside brackets will be sent with all shade orders, unless otherwise stated. Always mention the color and size wanted.

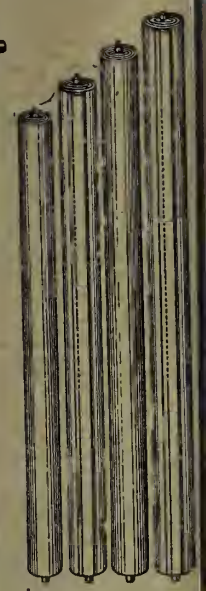
Measuring for Special Size Made-to-Order Window Shades

When giving width of shades be sure to state how measurements are taken. If your order does not state how measurements were taken, the cloth will be cut according to measurements given and outside brackets will be sent.

This refers to shades that are to be hung between the jambs of the window frame as shown above. When measuring for shades to be hung with inside brackets be very careful to give in inches and fractions of an inch the exact distance between the jambs of the window frame.

Shades to be hung on the surface of the window casing as shown above, are hung with outside brackets. Measurements for shades to be hung in this manner should be taken exactly from center of jamb to center of jamb. State in inches and fractions of an inch the exact distance.

We are one of the largest handlers of Window Shades, and are closely affiliated with a fully equipped and model Shade Factory—complete in all its details, being therefore able to fill all orders quickly, and at the very lowest possible prices. By sending us your Shade Orders you will profit by exceptional savings in price and be sure of absolute satisfaction.



We suggest your ordering window shades with other goods or with your neighbors' orders and having the entire lot come by freight. In this way you will make an additional saving to that made by our exceptionally low prices.

Made-to-Order Window Shades for Special Size Windows

372C3710—Made-to-Order Window Shades. These special shades are made of best hand-made, oil opaque, window shade cloth and are mounted on dust-proof, self-acting spring rollers. Each shade is finished with eyelet through slat, and fitted with a mercerized pull. Be very particular to give the correct width and length of each shade. Also state whether your measurements are width of cloth, or length of roller from tip to tip. If inside brackets are wanted, give the length of the roller from tip to tip. If the exact size of shade is not shown on the following list, next largest size will be charged for, but the shade will be made the size wanted. Read carefully at top of page: **Measuring for Special Size Made-to-Order Window Shades.**

Made-to-Order Window Shades No. 372C3710 are furnished in the following colors: Dark Green, Dark Olive, Light Olive, Terra Cotta, or Light Buff. When ordering, be sure to state color and size wanted. Also bear in mind that three or four days' time is required to make up these shades. Remember, the lengths given are for the finished shade. For example: a six-foot shade is long enough for a six-foot window. **These shades cannot be returned or exchanged if sent as ordered.**

Bancroft Sunfast Holland Shades Made to Order

372C3735—These shades are made to order, and cannot be matched in color with opaque shades. In these shade goods, the art of the manufacturer has been brought to a point of perfection far beyond anything heretofore attained in this country or in Europe. The colors of these shades will stand exposure to the sun and will not fade. They are, however, not as opaque, or, in other words, they do not shut out the light as the opaque cloth shades do. They are made to order, and require about three days' time after receiving your order. Furnished in the following colors: **White, cream, linen or olive green. Always mention color wanted. Cannot be returned or exchanged, if sent as ordered.**

Prices, each, including slat, brackets and nails. Each shade wrapped separately. Order these shades by number 372C3735.

Ward-Pakt Window Shades

In the illustration above we give you an idea of our new method of packing all window shades on this page. Window shades packed the Ward-Pakt way come to you in absolutely first-class shape—no soil or dust marks from exposure and handling. The shade has slat cut to exact length and inserted in the hem. Brackets, nails and genuine nickel-plated ring pull are all packed in a special container, which is wrapped around one end of the shade in such a way as to prevent injury to the cloth. The whole is enclosed in a dust-proof wrapper and sealed. The Ward-Pakt feature applied to our shades does not make the shades cost you one cent more. It is absolute protection to our customers against soiled shades and we know it is an idea of such great merit that it will meet with instant approval. How gratifying it is to know that when you order window shades, every one of them will be in perfect condition when you receive them! This is what Ward-Pakt means to you.

Lace Insertion and Fringed, Machine-Made Oil Opaque-Cloth Window Shades

These shades at your windows give a pleasing appearance. Made of the best grade of machine-made oil opaque window-shade cloth. Trimmed with a fancy 2¼-inch lace insertion and a 4-inch fringe. 72C3701—Length, 7 feet. Width, 36 inches. Shipping weight, each, about 1⅞ pounds. Price, each.....**85c**

Outside brackets will be sent with all window shades, unless otherwise stated

A Range Built to Last a Lifetime—the Admiral Windsor

MOST any range will bake well when new. **Many** ranges are economical on fuel. People who consider only these two features are easily pleased. The **Admiral Windsor** is made to not only do these **well** but **do them for life.** Yes, **your** life.

That is a pretty big statement but we mean every word of it. When you put your hard earned money into a range of this price you are entitled to have settled the stove question for life. The fire-box linings of the Admiral Windsor will burn out some day but not soon. This is a small matter. They are easily replaced, but the **range itself will outlast your home.** It will outlast you.

Honestly now, doesn't it pay to buy such an article? May cost a little more at the start but it's the finish that counts. Isn't it a fact that you want a range to bake just as perfectly fifteen years from to-day as the day you buy it?

The **Admiral Windsor** is a very heavy cast iron range, built in a most modern design, but made with the old-fashioned iron such as was used 25 years ago. the kind which is made to last. In this range we have done our best. We cannot say any more. Only years and years and years of hard service in your kitchen will show how well we have built the **Admiral Windsor.**

A few details:

Every piece of nickel is made perfectly smooth. Looks well and is much easier to keep clean. White porcelain is used in the oven door and for the closet back. To keep clean, just wash with soap and water. Cleans like the white porcelain cooking utensils you use. Then, there is the polished top which requires no blackening, but always looks clean.

Fire Box—For coal, 18x9x7 inches. Takes 25-inch wood. If fire back burns out within five years, we replace without charge. Duplex grate, one side for coal, other for wood. Will burn hard or soft coal, coke, cobs or wood. Can be fitted with water front for heating water in range boiler.

Cooking Top—Polished. Three ordinary lids, one 3-piece lid and two Cyclonic Lids over the fire box. Greatest known fuel savers. Top is made in three sections. Front section lifts up with a handle for broiling a steak, for feeding coal. A very convenient feature. Nickeled towel bar.

Oven—Heavy nickeled drop door, steel lined. White porcelain center. Reliable thermometer registers heat. Heavy hinges with strong spring. If it doesn't bake to your satisfaction, we pay freight both ways and gladly refund your money.

Reservoir—Cast iron, white porcelain lined. Holds 15 quarts. Removable. Tight fitting damper. **Will never interfere with baking,** even after being in use 20 years.

The Admiral Windsor is not only built to work perfectly and to last; it is made to look well. It is the handsomest stove you will see in a long time. Best of all it will retain its appearance. It is a range that will not only be a pleasure to you but one of which your friends will say: "We never saw a more handsome range."

Cyclonic Lids Save ¼ of Your Fuel

Heat doesn't slip off as with ordinary lids. With the Cyclonic L the heat must travel around between the ribs before it can escape the flue. The longer heat is retained under a lid the hotter the lid, course. We consider this to be the greatest improvement for saving co that has been invented for many years. Simple, can't get out of ord and it certainly does the work.

Shipment

Shipment—Admiral Windsor with High Closet and Reservoir will be shipped promptly from stock at Chicago, or factory near St. Louis, Mo., or, for northern points, from warehouse at St. Paul, Minn. We ship from point nearest you to save you freight.

It will pay you to give us the opportunity of advising you about buying your stove

Did you ever stop to think that YOUR stove requirements are a great deal different to those of some other people? We want every purchaser to have the exact style of stove suited for their particular requirements. It is not good policy for us to have you buy a stove too large nor yet too small. In neither case will you be satisfied. A satisfied customer is the basis of this business. If you are in doubt, write us. Explain your requirements of a stove, fully. We will gladly advise you. If you are selecting a stove too large for your requirements we will tell you so just as quickly as if you are selecting one too small. Be sure to tell us what fuel you will use.

The highest priced range in this catalogue. You'll find quality equal to every cent paid for a Capital Windsor

THIS range has, for many years, been the largest selling cast iron range in this catalogue. Its simple design, its wonderful baking qualities, together with its polished top, has won for it many staunch friends. It is these friends, who have the Capital Range in their kitchen in daily use, who really sell the range for us. It is the heaviest range we display. This is why it lasts. You'll save at least $10.00 to $15.00 by buying a Capital Windsor.

$40.45 and up

Quality in any stove doesn't mean that it will bake well only when new. If it has real quality, it will bake perfectly with little fuel just as well in fifteen years from today as it does when new. If you believe it pays to buy a range of the highest quality, you will not be disappointed in the Capital Windsor.

Prices of Capital Windsor with Reservoir and High Closet. Blackened, Polished and Securely Crated

Article Number	Price	Range No.	Size of Lids, Inches	Size of Oven—Inches: Width	Depth	Height	Size of Cooking Top with Reservoir Inches	Size of Fire Box for Coal, Inches	Size Pipe, Inches	Average Shipping Weight, Pounds

268C4054	43.60	9-20	9	20	21	12	50½x29¾	18x7¾x7½	7	660

Shipped promptly from stock at Chicago, or factory near Buffalo, N. Y.

THE Body of this range, in fact every part of it with the exception of the warming closet, is made of the A1 grade of cast iron stove plate. This means that every piece of iron is smooth as glass. The weights given below will show you that every piece must be very heavy.

Cooking Top is of very large size. Made in three sectional plates, which together with the short center and covers, are highly polished. It is not a finish put on the iron, but the plain iron ground to a mirror-like finish.

Fire Box: Will burn hard or soft coal, corn cobs, coke or wood. Both fire back and front are made in three pieces for the reason we have found this style to last much longer than the one piece.

Duplex Grate: One side for coal, the other for wood. To change from one fuel to the other, simply turn the grate over. Takes 25-inch wood.

Oven is the ventilated square type, responds very quickly to heat bakes evenly and with a surprisingly small amount of fuel. The oven door has automatic opener, or kicker, very convenient when your hands are full. Thermometer shows the oven heat at all times. No one would attempt to bake without a thermometer after having used one.

Reservoir is heavy cast iron, holds 20 quarts. Is white enamel lined on the inside, removable for cleaning. Outside casing is entirely cast iron.

Warming Closet is of copper-bearing Wellsville polished steel, very heavy in weight. All nickel trimmings are smooth—don't catch the dirt. Takes 7-inch pipe. If your chimney is 6-inch, be sure to purchase a 7-to-6-inch tapering joint.

Legs and Leg Base are all of very heavy cast iron. The weight of this stove is so heavy, these legs and base are made very strong to hold it up.

Nickel Parts are just as plain as it is possible to make them. The same is also true of the iron castings. The Capital Windsor is built solely for quality and yet it is a very handsome stove.

If the Capital Windsor is wanted without reservoir but with warming closet, deduct $3.00 from prices given. If wanted without steel warming closet but with reservoir, deduct $3.00 from prices given. If wanted without both reservoir and warming closet, deduct $6.00 from prices given.

These special models can be shipped only from factory near Buffalo, New York.

All Capital Windsors can be fitted with water front for use with hot water circulating boiler, where water is supplied from an elevated or pressure tank or water works.

268C4055—Water Front. Shipping weight, 25 pounds. Price **$2.75**

The quality cast Range with a hearth

THE Home Windsor is the Capital Windsor as shown above with the addition of a hearth. You will find on the Home Windsor every feature which is outlined above, in describing the Capital Windsor, with the exception of the polished top and this can be furnished for an expense of $3.00 extra, if so desired.

Many people are very partial to a large, deep hearth on a range. If you happen to be one of these, we offer to you the Home Windsor, as the finest range with a hearth in this Catalogue.

You will note, that in design, it is exactly the same as the Capital, in fact, all parts of this range with the exception of the hearth are interchangeable. There is a slight difference in the warming closet, inasmuch as the closet on the Home Windsor has the tea shelves instead of the steel shelf. Both of these ranges are the most perfect cast iron goods that we can possibly turn out. We have sold them for a great many years and know the service they are giving our customers. They are both winning friends for us every day.

For detailed description of the Home Windsor, read over carefully what we say about the Capital and every word with the few exceptions stated can be said of the Home Windsor. All sizes take 7-inch pipe.

If the Home Windsor is wanted with reservoir, but without warming closet, deduct $3.00 from prices given. If wanted without warming closet but with reservoir, deduct $3.00 from prices given. If wanted without both reservoir and warming closet, deduct $6.00 from prices given.

These models can be shipped only from factory near Buffalo, New York.

268C4064—Water front for a range boiler. Shipping weight, 25 pounds. Price..... **$2.75**

price table.

WINDSOR without a Competitor

$37.25 to $41.95

478 women said—

hat they saved $15.00 each by buying a Mon-
rch Windsor Steel Range. We wrote letters to 500 purchasers
f this range asking each one this question: "How much did you
ave by buying your Monarch Windsor?" The following are the
esults: *478 said that "I saved about $15.00"; 14 said "better than $20.00"; and 8 aid "better than $10.00."* These statements were made after comparing the Ionarch Windsor with the **very best steel ranges possible** to buy in **their** home owns.

The Monarch Windsor Range was big success in the first Catalogue in which it was nown. Each year its sales have increased by aps and bounds. It has today reached the point here it is the leader in sales of all of our steel nges.

Many people think that this Cat-
ogue is our only salesman. Not by any means. he success of this company depends upon its rge army of salesmen. You say you have never et one of them? Oh, yes you have. The Mon-ch Windsor Range is one of them. Every one these ranges set up in a kitchen is selling others r us every day.

Any steel range is worth just what
e reputation of the company behind it is worth id no more. Many steel ranges look alike. It n't an easy matter for the average person to find e little defects so often hidden away. When u buy a Monarch Windsor, we put our reputation hind it. Isn't that what counts?

The real workmanship on any steel
nge is on the inside, where it is hard to see. es, and just where it is so easy to slap materials gether in any old way. Read our guarantee. ien you will understand why this company must ild its ranges well.

We promise you that every
stove illustrated in this book will give you entire satisfaction, or you may have your money back without argument, and what's more, we will refund you the transportation charges both ways. Could anything be fairer?

Every day we are asked this question:
"Which will last the longer, a steel or a cast iron range?" There is only one answer—the cast iron range. But when you ask us which requires the most fuel, we must also say—the cast iron range. No matter what anyone tells you, steel will give out in time. Isn't it the truth you want? We know that the Monarch Windsor will satisfy you as perfectly if not more so than any steel range you could buy.

The steel used in the body of the Monarch
Windsor is the highest grade of Wellsville Copper Bearing polished steel and the highest priced range steel we can buy. The copper makes it as **near** rust-proof as is **possible** to make steel. If we knew of any steel which would last longer, we would use it. We have not spared expense to make the Monarch Windsor the most perfect and long lasting stove possible to build.

Set a Monarch Windsor up in your kitchen;
if it doesn't come up to your idea of what it should be, send it back. Under no conditions will we have, if we know it, a range in any kitchen anywhere if the owner is not perfectly satisfied. We will not only refund your money but pay freight charges both ways.

HE Body of the Monarch Windsor is lined throughout with an extra layer of heavy steel. Between this lining and the outer body is a r of thick Canadian mill-board asbestos. These ngs accomplish two things—**prolong** the life of the r body and **prevent** the heat escaping into the n. It stands to reason that the more heat that is ed into the oven, the **less fuel** necessary. Ve have proven this to be the most perfect style onstruction possible to use in the making of steel ges. It enables the housewife to do much quicker ing—it keeps the kitchen **cooler in summer**. Best ll it **saves fuel.**

he Fire-Box is the heart of any range. In the arch Windsor both the front and back lining is in ections. Costs more to build, but we have proven the 3-piece linings give more room for expan-, never bulge out of shape and last much longer. h the 3-piece lining, it is possible to buy the r piece only. Saves buying the entire back or t. The size of the fire box in this range for coal t 8x7 ¾ x7 ¼ inches. Burns hard or soft coal, , corn cobs or wood. With end linings out, takes inch wood.

so desired, the front lining of the Monarch dsor fire box may be taken out and a water t put in its place. These water fronts are for only with circulating range boilers, where water nder pressure, such as from city water works or an elevated or pressure tank.

THE Grate used in the Monarch Windsor fire box is our Windsor Duplex. We have proven to many thousands of customers that this one grate successfully burns all kinds of fuel. It is made with two separate and distinct sides—one with slots for coal and the other without slots, for wood and cobs. Another feature of the Duplex Grate is that turning it backward and forward stirs up the fire quicker than any other style grate. More than this, it allows the **smallest amount of live coal** getting into the ash pan.

The Cooking Top of the Monarch Windsor is made in 3 sections, which are all highly polished —requires no blackening. Sections are interchangeable. The smoothness of the castings will prove to you the quality of this range.

The Reservoir is cast iron, white porcelain lined on the inside. Holds 5 gallons. Is removable for cleaning. The outside casing is also made entirely of iron.

The Oven in every Monarch Windsor is very large. It is 20 ¾ inches deep and 13 ½ inches high. Takes the largest pans you have and yet is very economical for baking a single pan of biscuit, a pie, or a cake. **The Thermometer** shows the temperature of the oven at all times. Does away with guessing.

THE Warming Closet is made of Wellsville Copper Bearing polished steel. So easy to keep clean by simply wiping off with a rag. Takes 7-inch pipe. Secure a tapering joint 7 to 6 inches if your chimney is 6-inch.

Every piece of nickel on this range is perfectly smooth. Has round edges and corners. There is not a **single** crevice nor scroll of any kind to catch the dirt. **This saves you work.** Tho grade of nickel-plating is such that it will look just as good in 10 years from today as it does when new. This is only accomplished by using the highest grade of nickel. This is not only true of the nickel plating, it is true of the entire range. It will be added attraction to your kitchen for many years to come.

Nickel-plated Copper Kettles and Pots are good in looks and wear

A Modern, Sanitary Design with Polished Top, Smooth Nickel and White Enamel Oven Door — A Beauty

Family Windsor

WE find a growing demand every year for a high-grade range on legs and base. We consider the Family Windsor the height of perfection in a steel range of this kind.

It is not only built to give perfect satisfaction in baking and cooking, but to do so with the **smallest amount of fuel possible.** It is built with smooth nickel trimmings, which do not catch the dirt; with a white enamel oven door, which is always clean and sanitary, and with a polished top which requires no blackening. **This range is built to save you work.** It is large enough for the largest family and its small fuel consumption will satisfy the smallest family.

IF we knew of any grade of steel, **if we knew** of any grade of iron or any other grade of workmanship that would improve the Family Windsor in any way, **we would use it.** This range is offered to you as the finest of its kind, possible to build.

The Family Windsor is a range that would cost you $55.00 to $60.00 to duplicate in your town. Not a cent has been saved in the material or workmanship used in this range. It is built for us in a factory whose reputation has been well known over forty years.

There is **no good reason** for any range costing you **one cent** more than the Family Windsor. It is impossible for **any** manufacturer to make a range **any better.** They may add on considerably more profit than we do. Compare this range with any other range you have ever seen.

You will certainly not be disappointed if you will put a Family Windsor in your home. It will not only be a real pleasure to use, but you will derive a lot of pleasure from having as handsome a stove in your kitchen. It is a range your neighbors will greatly admire and you will know that it deserves their admiration.

Don't overlook the smooth nickel, the large sized polished top, the heavy firepot and the copper bearing steel body.

$38.90
and up

Did you ever move a steel range? Nobody could have made you believe there was so much dirt in your kitchen as there was underneath that range. That is the very reason for the Family Windsor being on legs—you can sweep underneath. No chance for dirt to hide.

Body—Is made of Wellsville polished copper bearing steel, a steel that is recommended to us by the manufacturer, to be as near rustproof as is possible to make steel. The inside of the body is lined with an extra layer of steel and interlined with heavy asbestos mill board. This makes not only a perfectly air tight body, but one which keeps all the heat in the stove.

Firebox—Both front and back linings are made in three pieces, and very heavy. Easily replaced whenever they burn out and this will not be soon. Size for coal, 18x7¾x7½ inches. With end linings out firebox takes 25-inch wood.

Duplex Grate—The only grate which successfully burns all kinds of fuel, hard or soft coal, wood or cobs. To change fuel, simply turn the grate over, No extra grates to buy.

Oven—Broad, deep and high. Flue is arranged to give perfect baking in every corner. Bakes with a very small amount of fuel. Will brown to perfection. Heavy nickel cast iron frame, with white porcelain center. Thoroughly reliable thermometer. No guess work about baking. Just watch your thermometer. Saves opening the door which chills your baking. This means a saving in fuel.

Reservoir—Cast iron; white porcelain lined on the inside. Will never rust from steam or moisture. Holds five gallons. Removable for cleaning. Outside casing of reservoir is made entirely of cast iron.

Warming Closet—Is made of a heavy grade of highly polished Wellsville steel. Nickeled pressed steel corners. Heavy steel nickeled bands top and bottom. Nickel tea shelves, in every way heavy and substantial, and yet, attractive. Takes 7-inch pipe. If your chimney is only 6 inches, be sure and secure a tapering joint of 7 to 6 inches.

Legs and Base—Are made entirely of heavy cast iron. Smooth design. No fancy scrolls to catch the dirt.

Polished Top—Without question the most desirable feature ever put on a steel range. Turns blue when heated. Never requires blackening. Just wipe off with a cloth.

Pouch Feed—In front of fire box. Especially convenient for feeding coal, and welcomed by everyone who enjoys a broiled steak or by those who make toast for breakfast.

In front of stove will be found a long nickel-plated steel towel bar. Nickel plated feed door drops down. Nickel-plated ash pit door with circular screw draft; can be screwed up perfectly air tight. This and the air tight construction is what makes the Family Windsor such a perfect fire keeper. Saves getting ashes on the floor. Dampers in plain view. Easily operated.

Specials—If this range is wanted without reservoir but with warming closet deduct $3.00 from prices given below. If wanted without warming closet, but with reservoir, deduct $3.00 from prices given below. If wanted without reservoir and warming closet, deduct $6.00 from prices given below.

268C4205—Water Front for heating hot water boiler, shipping weight, 2 pounds. Price $2.7

What Our Guarantee is and What it Means to You to Buy a Stove from Us

We promise you that every stove illustrated and described in this catalogue will arri in perfect condition—will serve its intended purpose, and will give entire satisfaction. If does not you may have your money back, without argument, and what's more we will fund you the transportation charges both ways. We guarantee that every Windsor Sto or Range is faultless in material and workmanship, and that it will give you the serv you have a right to expect at the price you pay.

Do you honestly want to settle the stove question once and for all? Then put this range in your kitchen—the Advance Windsor

HAVEN'T you often heard people say: "They don't make stoves that last like they used to." But they do. Here is a heavy cast iron range that will last as long as any range you ever owned. The Advance Windsor is made of the same grade of cast iron that was made fifty years ago, the kind you know that lasted so well. With this range in your kitchen you have **settled the stove question for all time to come.**

$36.75 and up

IN the Advance Windsor you will find as good a cast iron range as it is possible to build. It is a very plain design. When you invest your money in this range you know that every dollar of it goes into the stove itself. Not one single cent extra for trimmings of any kind.

It is a very large range and is built to handle heavy requirements perfectly. It is not a range we would advise for small families or small kitchens. It is built exceptionally heavy to stand the hardest usage and to last for the longest possible time.

Notice the large oven. Every Advance Windsor has an oven 20 inches deep and in the larger sizes they are 20 inches wide. This is the real kind of an oven when it comes to handling large pie pans or the largest size roaster. You will find this oven large enough no matter what your requirements may be.

The Cooking Top is not only long, but somewhat deeper than you will find on other ranges. Plenty of room for large cooking vessels and lots of them.

Some ranges are like some people, not exactly beauties to look at but—the longer you know them the better you like them. You can't size up a range by what it does the first thirty days. What it will do in five—yes ten years from now is what counts. Fine feathers may make fine birds but nickel plating doesn't make a range bake any better.

The entire body of the Advance including the reservoir is built of cast iron throughout. The weights given will show you that every piece is heavy. We sometimes wonder if they are not too heavy, but inasmuch as this range is made to last, the heavier the cast iron, the better.

Fire Box: It is necessarily large to meet the requirements of a range of this size. For coal, it is 18 by 9 by 6½ inches. All of the fire box linings are made with cast iron lugs which keep the fire from packing against the iron. These lugs prolong the life of the iron. With the end linings removed, the Advance will take 24-inch wood. Burns hard or soft coal, coke, corn cobs or wood satisfactorily.

Duplex Grate: Is the heaviest used in any of our ranges. Made so as to last the longest possible time. One side for coal, the other for wood, no unnecessary extra grates to have around.

Cooking Top: Is made in sections which are interchangeable, each section weighing about 4 pounds. The front section is equipped with raising device for use with a broiler or for feeding coal.

Doors: All three of the doors are ground by hand to fit perfectly tight. The feed door for wood drops down, prevents any ashes from getting on the floor. A circular draft is located in the ash pit door which can be screwed up tight so as to keep fire perfectly. Cast iron oven door with thermometer in the center. Steel lined and has nickel-plated handle.

Flues: Are exceptionally large. A better soft coal or wood stove could not be found anywhere. The top of the oven is covered with a heavy coating of asbestos cement. Years of experience in handling this range has proved to us that its flue construction is absolutely correct.

The **Warming Closet** is heavy in keeping with the stove. Steel shelf is used in place of the ordinary tea shelves and is found to be much more satisfactory. All trimmings on the shelf are nickel-plated. It requires 7-inch pipe, so purchase a 7-to-6-inch tapering joint if your chimney is 6 inches.

Nickel-Plating: Could be added to the Advance Windsor very easily but it is not the intention to build a highly ornamental range. It is intended to be a plain stove. No matter what we might do, we could not make it bake or cook one whit better.

This range has stood behind this Company's guarantee for many years. It has never failed us. No matter what your requirements of a range may be, we will gladly put an Advance Windsor in your kitchen and let you be the judge. If it does not meet your requirements in every way, you are under no obligation to keep it, send it back to us. We are willing to run all the risk.

Cyclonic Lids Save ¼ of your Fuel

All Advance Windsor ranges are fitted with these lids over the fire box. The heat must travel around the circular ribs before passing into the pipe. This means that more heat passes through the lids and less up the chimney. Doesn't slide off as with ordinary lids.

If a Farmer's Wife Came to Us and said: "What I Could Buy?" We Could Make Only One Reply-

$27.90 and up

Made with 10 and 6 gallon reservoirs

TWENTY-EIGHT years ago gray-haired, old gentleman can into the office of our Stove D partment. He wanted to sell us a ste range. It is very seldom that we hav ever been so favorably impressed wit such utmost sincerity as this kin faced, gray-haired old gentleman showed. H seemed so thoroughly convinced himself that was the best stove that money could build, convinced us.

We will never forget this manufacturer, a are very sorry to say that he has, during t past few years, passed into the Great Unknow but he has left behind him a trail of honesty a square dealing that we most heartily endorse a admire. The young men who have inherited t factory, have inherited far more than just a sto foundry — they have inherited the confidence people who buy their goods—confidence that can ne be shaken,—unless they produce a poorer grade of goo Sons of such a man are too well trained in their ho life to build any other kind of stove than the same have bought from them for twenty-eight years.

In some ways men are like stoves. We form an i pression of their character when we first see them. may form the wrong impression. The real true value any stove like the real true character of any man woman can only be discovered by the test of time.

The real question in buying a stove is: "What wil do in your kitchen ten—maybe 15 years from nov It is a very simple matter to make a stove that will good work for a short time, but when it comes to putt it to the hard test for year after year, that is when weak places begin to show up.

Hardly a day goes by that we do not receive a let from one of our customers who bought one of our Kitc Windsor Ranges. Numbers of these letters state t they have owned the range for 15 or 20 years. We h estly believe that the Kitchen Windsor Range has more to do with gaining the confidence of our custom than any other stove in our stove department.

Just The Same For Fifty Years

Some people might call the Company, who ma this range, "old-fashioned." This stove company made this one steel range for over fifty years. T have made it in the same way, practically withou change. They did not sell the first one until they k absolutely that they were on the right track. T worked under the motto: "Be sure you're right—ther ahead." They have never swerved to one side or other but kept straight in the middle of the road.

Haven't you often made this remark to yourself wish I could buy sueh and such an article like I to buy it?" Don't you remember how things use wear years ago? Isn't it a faet that you don't s to get that same long-lasting service to-day?

The One Great Question

If you should come to us to-day and ask us this question: "What do you consider the best steel r made?" we would have only one answer: "The Kit Windsor." This answer is not based on any guess-w It is based on thousands upon thousands of sales w we have made of this range during the past two eight years. It is based on what our customers te the range has done for them. It is because we k this range is built in the good old-fashioned way a lasts like all good merchandise used to last. It is customers who have really given the range the rep tion that it holds.

On this and the opposite page you will find four tinct styles of this range. The quality of the steel, and the workmanship in eaeh are as identical as ra ean possibly be made. No matter whether you s a four or a six-hole, a body on legs or down to the you will receive the same serviee from this range our customers have received for twenty-eight yea the past.

The Kitchen Windsor is a range that we recom very highly for farm use. We believe that the av farmer believes in buying something good, knowing it pays to do so. In putting the Kitchen Winds your kitehen. you are settling the stove question f time to come. There is no farmer's wife, in fa housewife anywhere, who will not be delighted wit baking that this range will do.

268C4350—L Water Back, to fit any of the above ranges. Shipping weight, 32 lbs. Price.....$2.75

For a Small Kitchen Use a Four-Hole Kitchen Range

This range is exactly the same as the large one shown above with the exception that it has only a four-hole top and is therefore made smaller in every way. The fire-box is the same: the workmanship, steel and quality of iron are identical.

This range is especially adapted for use in kitchens where the space is very limited. Wherever a four-hole range will answer the purpose, there is no reason why anyone should buy a six-hole.

This range has no warming closet under the reservoir, as the larger range shown above. It will handle all kinds of fuel, hard or soft coal, wood or cobs and burn each one satisfactorily. The copper reservoir holds six gallons. Water back can also be furnished for heating range boiler. This particular model of the Kitchen Windsor as shown in this small illustration can be shipped only from the factory near Cleveland, Ohio.

Do You Recommend as the Best Steel Range That THE KITCHEN WINDSOR

[T is only natural for any person who is in the market for a stove to ask the question:—"What makes ıe **Kitchen Windsor Range** do such erfect work and last such a long me?" We'll try to tell you.

The main part of any steel range is e steel body itself. We honestly believe that e steel in the body of the **Kitchen Windsor** from 20 to 30 per cent **heavier** than any nge we have ever seen.

The manufacturer of this range uses only a ll finished steel. May not look quite as good the polished, but it lasts. The steel in the tchen Windsor is coated with a black Japan in just the ne manner that it has been for fifty years. Time has oven that this style of construction has never been ıalled.

Body

The entire inside of the body is lined with an extra ing of heavy dull finish steel, which is made in the ne old-fashioned method as was used in the time of grand-fathers. Between the inner lining and the er lining is a heavy layer of pure asbestos, and when say pure we mean it. These three heavy layers, or lls as they may be called, make the lasting quality of body of the Kitchen Windsor.

Ve wish it were possible for you to take, in your ıds, the fire back used in this range. You would won- if such massive, heavy pieces of iron could ever burn . They don't very often.

Reservoir

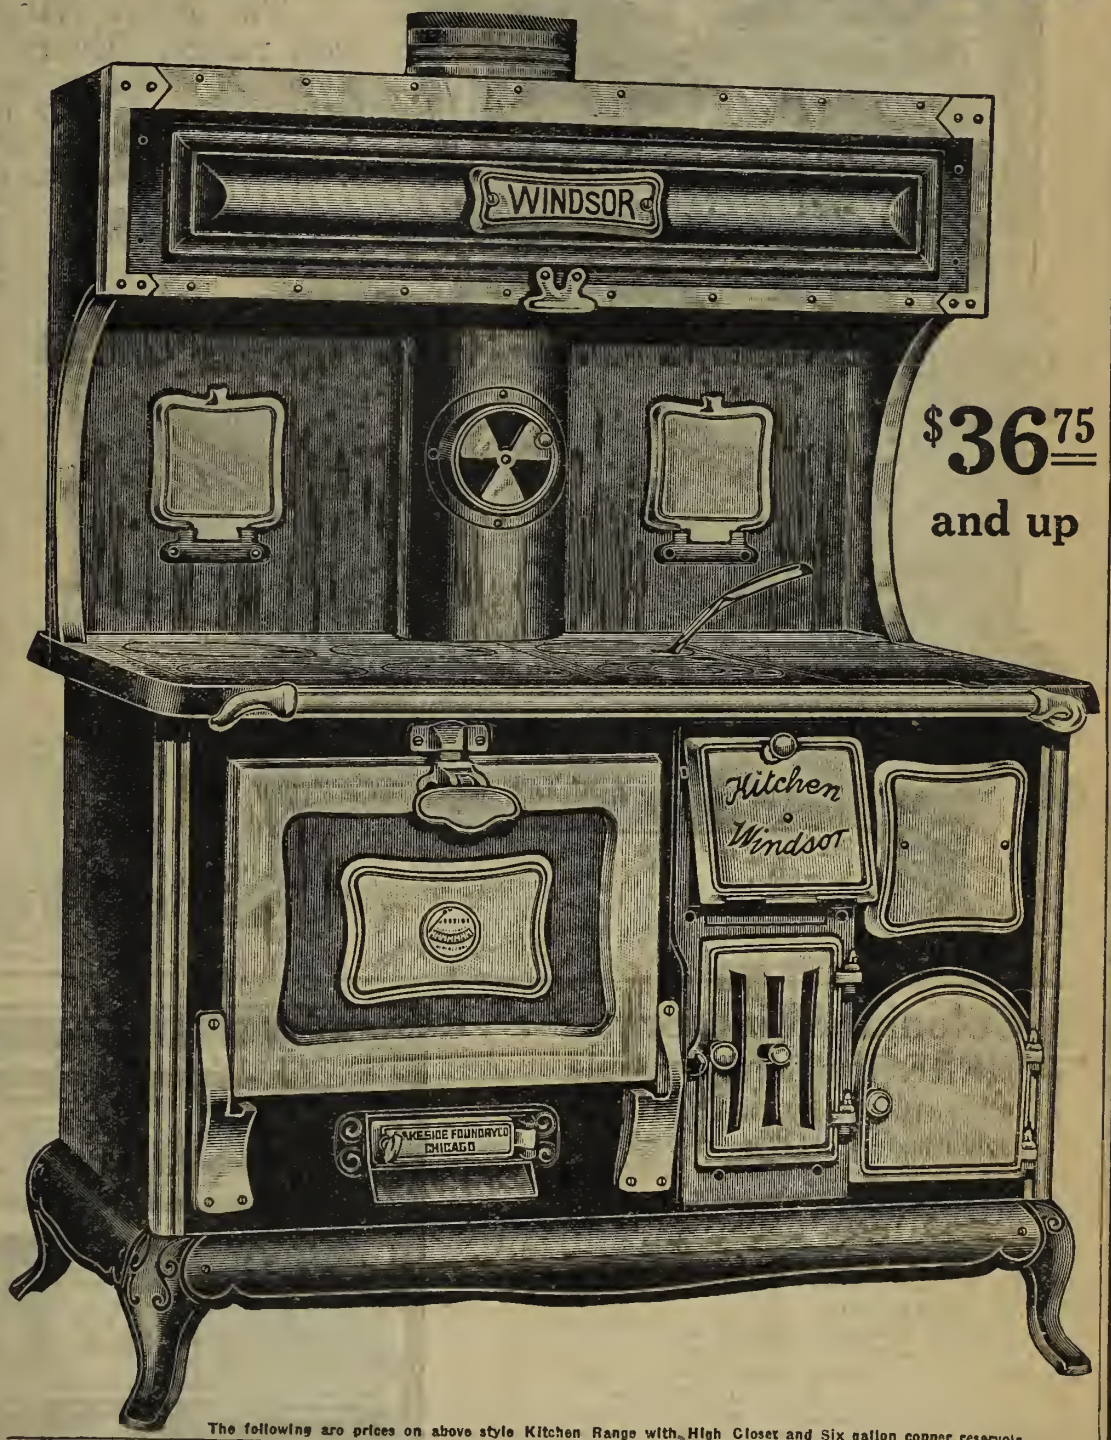
The reservoir is on the right hand end of the stove, against the fire box. If you need a reservoir on your ve at all, isn't it a fact that you want it really to l the water and boil lots of it? It is impossible to a large reservoir next to the oven. It is too far ıy from the fire box to heat up. The reservoir on Kitchen Windsor holds six gallons and it is as hot water in your tea kettle. In the larger size of the chen Windsor the reservoir contains ten gallons. All ervoir tanks are of a heavy grade polished copper, le to last.

Directly underneath the reservoir you will notice a ll closet, just the very place for drying out wood or lling or wet shoes.

Oven

he oven in all models of Kitchen Windsor Ranges are le alike. The bottom is made of ten gauge steel, the viest possible to use. It is also removable. Enables user to clean out the bottom flue underneath the oven roughly without having to scrape it out through a ll clean-out door. A reliable thermometer registers inside temperature correctly at all times. The hinges porting the oven door, are made of malleable iron. y will never break. There is only one damper on the hen Windsor Range. This makes this stove very ple to operate.

Warming Closet



he warming closet extends the full length of the e, including the reservoir. Note the size of the ing top and you quickly see what a very large closet range has.

n the style of Kitchen Windsor on legs and base, the y legs are bolted solidly to the body. The stove not rest on the cast iron base as many other ranges Easy to move this range without fear of breaking or base.

Nickel Parts

very nickel part on the Kitchen Windsor is perfectly oth. The idea is to make the range very plain. We ve that its simplicity really makes it attractive. It range that we are very glad indeed to put into any hen on trial. It will meet your every requirement ectly, or you are certainly under no obligation to it.

addition to the ranges shown on this page, we can ish any one of the four styles of the Kitchen Windsor out the reservoir. The price on such a range would 5.00 less than that given in the price table. When used with a reservoir, a great many people have this e fitted with a water back for heating a range boiler. rever the range is ordered without the reservoir, the is shipped only from the factory at Cleveland, Ohio.

A Perfectly Plain, Heavy Cast Iron Range Built for Service—Not for Looks

The Alert Windsor

The Alert Windsor is a large size 6-hole cast iron range. Every part is heavy and perfectly plain. A range we are willing to put our reputation behind—a range for hard usage.

Study the weights and measurements of this range carefully. It will show you, without a question of a doubt, that this company is able to put on the market stoves and ranges at prices that cannot be equaled by competition.

$29.75 and up

The **Cooking Top** is large—this is also true of the oven. **Fire Box** is deep for coal and long for wood; made of the heaviest gray iron castings. The **Lids**—all of the **Doors**—the **Base**, in fact every part, is heavy.

Fire Box—Width, 9 inches; depth, 7 inches. Takes 24 ½-inch wood. Burns hard or soft coal, wood, coke or cobs.

Cooking Top consists of 3 removable sectional plates, 5 full-size lids and one 3-piece sectional lid—30 inches from the floor. Don't fail to note the measurements of this top. Height from floor to top of warming closet, 60 inches.

Reservoir holds 14 quarts; is made of cast iron, white enamel on the inside. Removable for cleaning.

Warming Closet is polished steel; has a roll front; tea shelf running full width, nickel-plated brackets. Requires 7-inch pipe. **Oven** is full size—no corners cut off. Entire top is cemented; is guaranteed to be a perfect baker in every way. **Base** and **Legs** are cast iron. **Pouch Feed** is very convenient for feeding coal.

If wanted without reservoir and with warming closet, deduct $3.00 from any price given in the price table. If wanted without warming closet but with reservoir deduct $2.50 from price given. If wanted without either reservoir or warming closet deduct $5.50 from prices given. The range can be fitted with water front for use in connection with circulating boiler where water is under pressure from water works or from an elevated or pressure tank.

268C4454—Water Front for Range Boiler. Shipping weight, 17 pounds. Price....$2.25

Colonial Windsor

THERE are many people who are very partial to a cast iron range with a hearth. There seems to be something about a hearth on a range that makes it more attractive. The Colonial Windsor is a very heavy range—built for long-lasting service—for the hardest usage that anyone can possibly give a stove.

The **Colonial Windsor** is offered to you as a range that will settle the stove question forever. There should never be any necessity of your having to buy another one during your lifetime. It is a very plain, simple design made so to save work.

The **Fire Box** in the No. 5820 is 22 inches long, 7½ inches deep, and the same width. In the other two sizes, the fire box is 24x8x8 inches. **Cooking Top** is a convenient height from the floor—30 inches. Plenty of room for all your vessels. **Reservoir** is cast iron, white enameled on the inside. Holds 15 quarts.

The **Colonial Windsor** is fitted with our regular Duplex Grate—one side for coal and the other for wood—no extra grates to carry if you have to change fuel. Will successfully burn hard or soft coal, coke, corn cobs or wood.

Thermometer registers the oven heat. Makes baking a certainty every time. Large pouch feed for feeding coal, toasting bread or broiling a steak.

If wanted without a reservoir and with warming closet, deduct $3.00 from any price given in the price table. If wanted without warming closet but with reservoir deduct $2.50 from prices given. If wanted without either reservoir or warming closet, deduct $5.50 from prices given.

A New Low Priced, Colonial Design Made Especially for Medium Sized Families—the

Corona Windsor

THERE are many families whose kitchen work really does not require a large, heavy range. It is money wasted for a small sized family to buy a range too large. The cost is considerably more and the heavier a range is in weight the more fuel it takes to operate it. If the Corona Windsor is large enough for your purpose, there is no good reason for your putting any more money into a range. You will find the Corona Windsor to be as perfect in detail as any range in this Catalogue. No range could possibly do any better work.

Details of Construction

Cooking Top: Six holes; five full sized, 8-inch lids and one sectional or three-piece lid. Height from floor, 28½ inches.

Reservoir: Holds 12 quarts. White porcelain lined on the inside. Made of cast iron, as is also the casing which surrounds it. The top, or lids, are black enamel. Removable for cleaning.

Fire Box: Takes 18-inch wood, cord wood lengths cut in two. One sawing. For coal, the fire-box is 14½ inches by 7½ inches by 6 inches. The fire back is in three pieces, a very unusual feature in cast iron ranges of this price. No danger of burning through the back and into the oven. This three-piece back can be replaced at any time. The grate is our regular duplex grate, one side for coal and the other for wood.

Pouch Feed: Very convenient for feeding coal to the fire-box, for toasting bread in a toaster, or for broiling a steak or chops.

Oven: Heavy door frame with large hinges supported by a strong spring. White enamel panel will never chip from heat. To clean simply wash with warm water and soap. The name Corona is in blue. Door handle is black ebony with nickel end knobs. Door is fastened with an automatic spring which allows for expansion when the oven is in use, a new and important feature.

Swelled Front: Lets more air underneath the grates. Prevents them from burning out. Gives a much quicker fire; lets a large volume of air in quickly. This feature will be especially appreciated on cold winter mornings when you want to get the fire started up in a hurry. The same is also true on a hot summer's day when you want a quick fire and also want it to die down just as quickly when you are through.

Base: All four legs are cast iron, as is the front base. The balance of the base is steel.

In the Corona Windsor we have not tried to build the cheapest stove possible, but the best stove that we could possibly build for medium sized families.

If wanted without reservoir, but with High Closet, deduct $2.00 from prices given in the Price Table.

If wanted without High Closet, but with Reservoir, deduct $3.00 from prices given.

If wanted without Reservoir or High Closet, deduct $5.00 from prices given.

The above styles can be shipped only from factory near St. Louis, Mo. We ship promptly and assure safe delivery.

Cyclonic Lid Saves Fuel

Heat doesn't slip off as with ordinary lid. Must go around in between the ribs. Keeps heat under lid longer—the greatest fuel saving invention we ever saw.

$23.75 and $24.75

Complete with Closet and Reservoir

WE do not advocate anyone's buying a stove too small. On the other hand, where there are only two, three or four in a family, it would be an exceptional case if a range like this Corona will not answer.

The Corona Windsor is a medium sized **all cast iron** range, a medium weight and sold at a medium price.

WE have no desire to sell you a $40.00 stove if a $23.75 one will do the work. If a light range will do the work you will be **much better satisfied** in the saving of fuel.

In design, the Corona Windsor is the latest improved type. It is a range that will be a real ornament in your kitchen, a range everybody will admire.

Any Corona Range ordered with warming closet and reservoir will be shipped promptly from stock at Chicago or from factory near St. Louis, Mo.

268C4502—Water Front for Range Boiler; weight, 15 lbs. Price.....$2.25

A steel cook stove at a price never before equalled—The Dandy Windsor

WE find a demand for a very light, low priced cook stove. The Dandy is just such a stove. We do not claim that it is in the same class as our steel ranges in any way. We feel certain, however, that any purchaser will be well satisfied with the Dandy Windsor considering the price paid. We will not put it in competition with some of the extreme light weight stoves of this class.

The cooking top, centers, covers, front damper, fire box linings, front, back and ends, grate, oven door and frame, feed door, ash door, reservoir top, front draft slide, front draft door, together with the four legs are **cast iron, the same grade of cast iron used** in our highest priced stoves.

The body is made of steel. Galvanized iron, 20-quart reservoir, if desired, can be lifted off and placed on top of the stove like a tea kettle. Plenty of hot water. Dump grate for coal, also wood grate. The Dandy will bake perfectly. If carefully handled, it is really surprising how long one of these stoves can be made to last.

Burns coal, wood or cobs. Don't forget cobs are very hard on any stove. For light work requiring a light stove, the Dandy will give perfect satisfaction.

Real Quality in a Cast Iron Range for $20.90 and $21.90

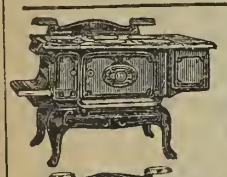
THE Iron Windsor is a medium-size, all Cast iron range, built for medium size families. It will burn hard or soft coal, wood or cobs, and is truly the friend of the housewife who tries to keep down her fuel bills.

The design is a neat mission type, somewhat plain, but attractive on account of its plainness. The workmanship and material are exactly the same as that used in our highest-priced ranges.

There are a great many families who do not need any larger range than the Iron Windsor. It would be very hard for such families to duplicate this range at a considerably higher price.

The Iron Windsor has been in this catalogue for a great many years. We have never seen fit to change it. A very large number are sold every year and we have found it has made us a great many friends and staunch customers.

Iron Windsor



IN the Iron Windsor you will find almost every special feature of all of the highest priced Windsor ranges.

For the medium sized family whose requirements are not large, the Iron Windsor will last **just as long** as the highest-priced range in this catalogue.

If a family whose requirements are too large for such a stove should buy the Iron Windsor, it would not be satisfactory, because it is too light in weight.

We want to see every customer of ours buy the right stove for their purpose. If the Iron Windsor will answer your requirements we have no desire to sell you a higher-priced range. It will not only save you money at the start, but is one of the most economical stoves on fuel possible to build.

In addition to furnishing the Iron Windsor with a high shelf as shown in the large cut, herewith, note also the cut below, showing this same range with a warming closet.

If wanted without high shelf but with reservoir, deduct 75c from price given in price table. **Shipped only from factory or Buffalo warehouse.**

If wanted without reservoir or high shelf, deduct $2.75 from price given in price list. **Shipped only from factory or Buffalo warehouse.**

If wanted without reservoir but with high shelf, deduct $2.00 from the price table. The above styles only **shipped from factory near St. Louis, Mo., or warehouse near Buffalo, N. Y.**

Fire Box for coal is 15x7x5½ inches. Takes 18-inch wood.

Duplex Grate—One side for wood, other for coal.

Fire Back is in three pieces, a very unusual feature in a range at this price.

Cooking-Top—28½ inches from floor. Has five, full-size 8-inch lids and one 3-piece lid.

Reservoir—Cast Iron, White enamel lined; holds 12 quarts; removable.

Thermometer is the same as used on our highest-priced ranges.

Nickel-Plated Swinging Tea Shelves and Oven Door Plate.

Oven has swing door, shelf in front; automatic foot opener.

When furnished with **Reservoir** and **high shelf**, the Iron Windsor is shipped promptly from stock at Chicago. All other styles are shipped from factory near St. Louis, Mo.

A Large Cook Stove at a Small Cost

The Crown Windsor is a heavy cast iron cook stove with a large oven, which is as perfect a baker as you could possibly ask for. If you believe it pays to buy a good cook stove, we gladly recommend the Crown Windsor.

Fire Box is made as heavy as is the balance of the stove. Burns either hard or soft coal, wood or corn cobs; burns each in a satisfactory manner.

Duplex Grate can be used for either wood or coal.

Cooking Top—You will note this stove has a very large size cooking top. In addition to the regular lids, we furnish a 3-piece lid. Very convenient when using small vessels.

Reservoir holds 14 quarts; cast iron, white enamel on the inside.

Oven has a cemented top, prevents overheating. Door on each side; right hand door is fitted with a foot opener—a very convenient feature when your hands are full.

If wanted without the reservoir, deduct $2.00 from prices given.

The Crown Windsor is not intended to be a cheap cook stove. Consider the weight of this stove. Compare it with others of the same weight. You will quickly see that our price is very low.

Forest Windsor
For Wood Only

Do You Burn Wood? Do You Need a Large Cook Stove with a Large Oven?

The Forest Windsor shown here is the greatest success in a wood burning cook stov this company has ever sold. It has been in the catalogue for many years. We don believe it possible to build a better wood burning cook stove.

Years ago these big heavy stoves were very popular. They are yet, with people who know how satisfactory they are. The Forest Windsor is strictly a wood burner. **The fire-box takes 30-inch wood.** Has a very large ash pit. The oven is exceptionally large.

Reservoir holds 5 gallons, is cast iron, white enamel on the inside. Very few nickel parts. If you have plenty of wood and desire a large, heavy stove that will practically last a lifetim order the Forest Windsor. No doubt you ha seen stoves just like this one when you were child. You will remember how satisfactory th were and how long they lasted. The Forest built in the **good old-fashioned** way, and **made last.**

If wanted without Reservoir, deduct $4.0 from the prices given.

Not the Highest Priced Nor the Lowest

Two Medium Weight and Medium Priced Ranges. Made with the Same Fire Box and Body But Each Range with Special Features of Its Own.

Loyal Windsor

$24.50 and $26.50

Princess Windsor

Plenty of water, not luke warm, but hot, yes Boiling hot. 15 Gallons of it.

$31.00 $32.00 $33.00

Complete with Reservoir and High Closet

The **Loyal Windsor** is not a heavy and yet it could hardly he called a light weight, steel range. Look over the weights carefully. The **Loyal** is a medium range in every way. The fire-box, while not as large as in many of our large ranges, is just tho right size for the oven in this range.

The bodies and fire-boxes of the **Loyal** and **Princess** are exactly the same, but each stove has special features all its own. The cast iron bases are especially welcomed by good housewives, because they can sweep underncath. No dirt hidden away under the rango. You'll like the hearth on the **Loyal Windsor**, so handy for toasting bread. We heartily recommend the **Loyal** to peoplo who want a good, low priced steel range and do not really need a large heavy range. Past sales havo proven to us that in these ranges we are giving good value for the price. Surely tho price is very interesting.

General Description of Loyal Windsor Range

Oven—Has removahle rack. Nickel-plated door frame, name plate and handle.

Top—Regular key plate range top, no cook stove top which costs far less to make. Five regular lids and one 3-piece sectional lid.

Fire Box—For coal, 18x7½x7½ inches. Takes 20¾ inch wood. Has duplex grate, one eide for wood, other for coal.

Reservoir—Both casing and reservoir are cast iron, reservoir whito porcelain lined. Removable.

Measurements—Height, floor to top of warming closet, 62 inches. Height, floor to cooking top, 30½ inches. Length of range over all, 54 inches. All sizes take 7-inch pipe.

Shipped from factory near St. Louis, Mo.

Complete with Copper Reservoir and High Closet

In many homes there is need for lots of hot water. In the **Princess Windsor**, you will find sixty quarts of water, in a copper reservoir, square up against the fire-box where every ounce of water gets just as hot if it was in your tea kettle.

Ordinarily we furnish a reservoir of copper, but copper is now very expensivo. If so desired, a galvanized reservoir will be furnished for $3.00 less than prices given below. Be sure and state which you desire.

We do not claim that the **Princess Windsor** will last as long as some of our higher priced ranges. We do not claim that this range nor the **Loyal** will last a lifetime. Considering the price, we feel absolutely sure that any purchaser of a **Loyal** or a **Princess** will be well satisfied with the baking qualities and the length of time that these etoves will last. We have no better operating ranges aud noue which will use less fuel.

General Description of Princess Windsor Range

Key Plate Top—All parts removable. Gives easy access to all parts at top of oven and flue.

Three Section Lid—For convenient use of small utensils directly over the fire.

Fire Box—Constructed to get most heat from the fuel used. Takes 20¾-inch wood. Duplex grate.

Ash Pit—Large and deep with bailed ash pan.

Back Flue—A very important point. Mado of cast iron. Resists rusting or corroding.

Measurements—Height, floor to cooking top, 30½ inches. Sizes of end shelf, 7¼x28 inches. All sizes take 7-inch pipe.

A Four-Hole Cast Iron Range Especially Convenient Where Space is Limited

The **Charm Windsor** is exactly the eame as our large six-hole ranges, only it has four holes. No feature of the six-hole ranges has heen left out. The size of the oven, the height of the rango, the fire-box, reservoir and warming closet have not been changed. The quality of matorial and workmanship is the same as in our highest priced cast iron ranges.

Many people desire a cast iron range of the highest grade and yet do not need a large six-holo range. For a small family who want a perfect operating range and one which will last practically a life-time, wo gladly suggest the **Charm Windsor** as shown here. The entire length of this range over all is only 46 inches, just a little under 4 feet. Requires very little kitchen space and yet the cooking top is plenty large enough to take care of the requirements of an ordinary sized family.

The **Charm** is not offered as a low priced stove. It is built in **exactly the same careful manner** as our highest priced cast iron stoves. We believe that it is just as necessary to build a **good small stove** as a large one. The **Charm** being smaller, weighs less, which makes the price lower. In a nut shell, the **Charm** is primarily intended for medium sized families who want the best range they can buy in just the right size for their needs. The **Charm Windsor** will especially appeal to any family whose kitchen epace is somewhat limited.

Oven—The top plate is coated with cement which prevents burning out. The door has an automatic opener.

Cooking Top—Three plain lids: one sectional lid, that is, three lids in one. The pouch feed door at the left end of the top is especially convenient for feeding coal.

Reservoir—The entire casing is cast iron. The reservoir itself is cast iron, holds fifteen quarts, is white porcelain lined and removable.

Fuel—This rango will satisfactorily burn any kind of fuel. The fire-box takes 18½-inch wood; 36 inch wood cut in two with room to spare.

Body—Entire body is made of cast iron; also base and nickel-plated oven door shelf.

Specials—If wanted without reservoir but with high closet, deduct $2.00 from the list price. If wanted without high closet but with reservoir, deduct $1.50 from list price. If wanted without reservoir or high closet, deduct $3.50 from list price. Where city water pressure is to be used in connection with a range boiler, we can furnish a water front at an extra expense of $2.25.

One of our new Sideboards will brighten up your dining room

We Couldn't Make a Better Four Hole Cast Iron Range

Magic Windsor

$19.95 and up

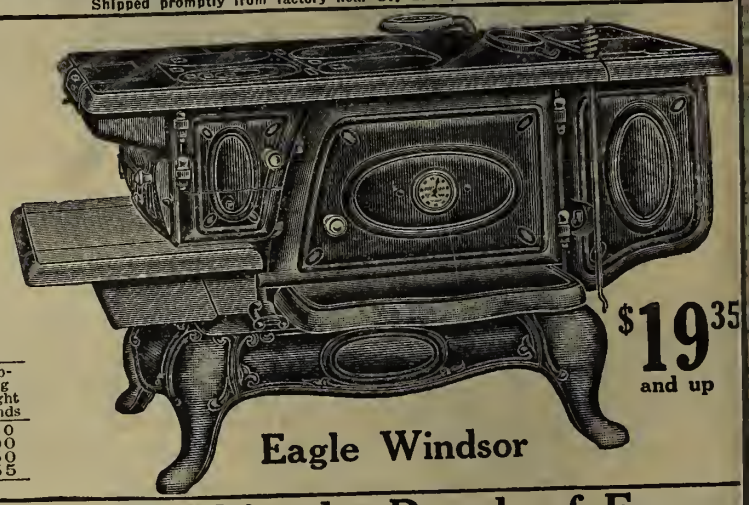
IT is very poor policy for any family to buy a large 6-hole cast iron range if a 4-hole, such as the Magic Windsor, will answer the purpose. There are some families who do not need a large cooking top. If a 4-hole top will answer your requirements, you'll find the Magic Windsor to be a very satisfactory stove.

The Magic Windsor is built in exactly the same manner as our heaviest 6-hole cast iron ranges. It will burn hard or soft coal, coke, corn cobs or wood. It is in reality a duplicate of some of our larger ranges, made smaller. Same quality of iron is used. Same workmanship, and the same style of flue construction.

Fire Box has a flat dumping grate for coal, with extra grate furnished for wood. Hearth is large—plenty of space for ashes. The **oven** is guaranteed to bake in every corner.

Automatic Opener enables you to open the oven door with the foot when your hands are full—a very convenient feature. **Reservoir** is made of cast iron, white porcelain inside; holds 12 quarts; is removable. Cast iron back shelf; very attractive design. The design throughout the entire stove is very plain, easy to keep it clean. The legs are cast iron, and the base is cold rolled steel.

If wanted without reservoir but with the high shelf, deduct $1.50 from the price given. If wanted without high shelf but with reservoir, deduct $1.60 from price given. If wanted without high shelf or reservoir, deduct $3.10 from price given in price table.



Height from floor to cooking top, 27½ inches; fire box will handle 20-inch wood. The Magic requires 6-inch pipe.

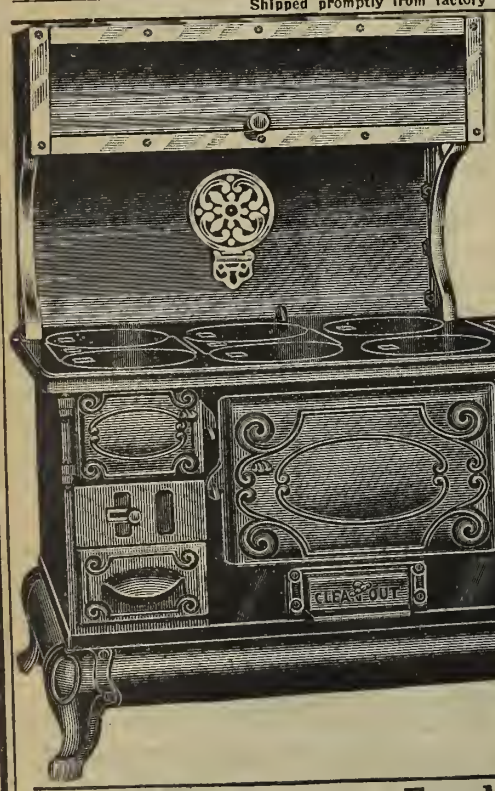
An Exceptionally Well Made Cook Stove

$19.35 and up

Eagle Windsor

IN the Eagle Windsor we offer you the best cast iron cook stove in this Catalogue, the **highest** grade of cook stove we know how to build.



You will not find another cook stove in this catalogue of the same quality as the Eagle Windsor. It is made in exactly the same style of workmanship used in all of our highest priced cast iron ranges. It is fitted with a Duplex Grate, automatic kick for oven door opening, and with the same high grade oven thermometer used on our highest priced ranges. Has a 14-quart white enameled cast iron reservoir.

If you are looking for the highest quality in a cook stove, we can offer you no better. If wanted without reservoir, deduct $2.00 from prices given.

Pilot Windsor

With Reservoir and Warming Closet

Here is a Steel Range Within the Reach of Everybody's Pocket Book

WE have found there is a large demand for a light weight, very low priced steel range. The Pilot Windsor fulfills this want perfectly. We do not claim it to be in the same class with our other steel ranges. It is built light in every way, but you will find it to be a very satisfactory range for the price. It stands to reason that we cannot build a range for $14.95 that will compare with a range which we sell for $35.00, but everything considered, when you see the Pilot Windsor you will say it is the greatest bargain in light weight range you have ever run across.

Pilot Windsor with out reservoir. If the hig closet is not wanted any Pilot Windsor, d duct $1.25 from price given.

Body is steel, electrically welded, making it firm, strong, and perfectly air-tight. No rivets are used.

Cooking Top and Covers are made of cast iron and heavy enough for a stove of this style. Height from floor to cooking top 27¼ inches. **Fire Box** has a cast iron lining with a flat dump style grate. An extra grate is furnished for burning wood. The **Back Smoke Flue** is made of cast iron, something very unusual in a range of this price. Steel flues rust out very quickly. The **Oven** is of a very satisfactory size—is guaranteed to bake perfectly in every way. The oven door is made of cast iron; swings to the right and when closed fits tight.

Warming Closet is of ample size, very useful for warming dishes or keeping late meals warm. Takes 6-inch pipe. **Reservoir** is made of galvanized iron, heats quickly, can be detached and set on top of the stove just like a tea kettle; holds five gallons.

Fuel: The Pilot Windsor will burn coal, wood or cobs. Don't forget that cobs are very hard on any stove, and the Pilot Windsor is light in weight. Fire box takes 17½ inch wood.

Price for Pilot Windsor Range, complete with Reservoir and Warming Closet. Nicely Blackened and Polished. Securely Crated.

Excel Windsor—The Lowest Priced Range We Build

$12.85

$11

The Excel Windsor is the cheapest steel range possible for us to build. Considering its light weight, it will give splendid satisfaction if given reasonable care. It is certainly an exceptional bargain at this extremely low price.

Will burn coal, corn cobs, chips, shavings or wood. Don't forget that corn cobs are very hard on any stove. Entire body is of steel; oven door, ash and feed door are of cast iron as is also entire cooking top, lids and reservoir top. Fire box has flat dump-style grate with extra grate furnished for wood. Cast iron flue back. Height from floor to cooking top, 26¾ inches. Takes 17½-inch wood. Galvanized iron, 5-gallon reservoir, detachable; good size warming closet. All in all, this is without exception the greatest range that could possibly be built for anywhere near this price.

If wanted without warming closet but with reservoir, deduct $1.25 from price given.

Price of Excel Windsor Range with Reservoir and Warming Closet. Blackened, polished and securely crated.

A new style of steel range built to save your back

Bake without bending over. Bake with one-fourth the fuel you now use

City housewives, who use gas, refuse to use the old style, low down oven. They have learned that a high oven does better work and saves bending over or stooping down. Kitchen work is hard enough at its best without making it harder than necessary.

Maybe your grandmother used to bake in the old-fashioned Dutch Oven. Why don't you? Because you've found the range to be far better. If you'll try the new high oven Eclipse, you'll find it to be as far ahead of your range as your range is ahead of the old Dutch oven.

The **Eclipse Windsor** is the housewife's true friend. It not only saves work, but one-fourth of the fuel as well. The natural tendency for heat is to go up. When it has to be forced around the present style of oven, it stands to reason it takes more fuel than when the oven is up above the stove. The **saving in fuel alone** will soon pay for an **Eclipse Windsor** Range.

It is in reality a heating and cooking stove combined. Will keep your kitchen comfortable in winter. Oven heats up very quickly which means a cooler kitchen in summer. While the **Eclipse Windsor** has a four-hole top, it has two wide shelves which makes the cooking top in all 34 inches long and 28 inches deep. It is 28½ inches from the floor.

Fire Box: Burns hard or soft coal or wood. Size of firebox, 9½x6 inches. It is purposely made small because we know that the **Eclipse Windsor** can be operated with far less fuel than is required by the ordinary range.

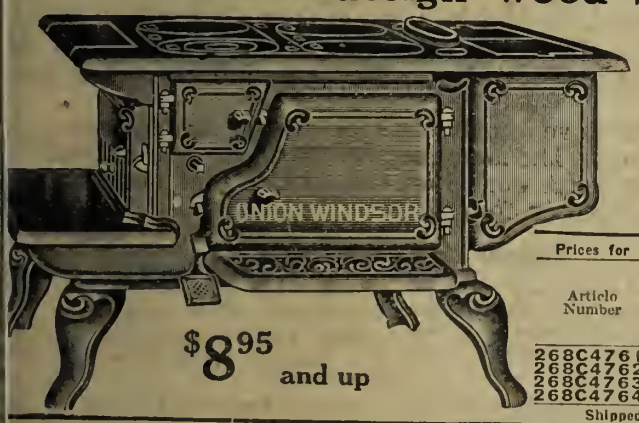
Oven is heated by the two flue pipes in either corner. Heat circulates around the oven perfectly. There is also a direct smoke pipe when oven is not in use. The oven itself is 18 inches wide, and 16 inches deep, plenty large enough for the average size family. Nickel-plated door frame with white enamel panel. Drops down, makes a very convenient shelf for testing your baking.

Body is polished steel with heavy cast iron top and bottom. Entire stove takes up **very little space.** For a quick fire nothing equals the **Eclipse Windsor.** Ash pit is large and gives plenty of space so that the grates will not burn out.

We want you to try the Eclipse Windsor at our expense. Set it up in your kitchen. You'll quickly see that it is superior not only to all ranges, but to any other high oven range on the market today. You will wonder why someone didn't think of making a stove like this years ago. The **Eclipse Windsor** is made in one size only. No Reservoir.

68C4750—Eclipse Windsor High Oven Range No. 100, complete with oven. Shipping weight, 275 pounds. Price.....**$18.50**
68C4751—Water Back for use with range boiler. Shipping weight, 30 pounds. Price.....**$2.25**

Shipped promptly from stock at Chicago or factory near St. Louis, Mo.



HOW often have you bent over when you felt as your back would break? Don't make your work any harder than you have to. You won't get any thanks for it.

When you bake in the Eclipse Windsor you'll stand up straight. After the first baking you will wonder why such a range was not invented long ago. It certainly puts a smile into baking.

Don't forget to try the Eclipse Windsor at our risk. We pay the freight both ways if you are not perfectly satisfied.

A modern design wood burning cook stove at a very low price

The Union Windsor is a medium size, smooth design cook stove. Burns hard or soft coal, coke, cobs or wood.

Fire Box: Is fitted with a dumping grate for coal. Extra grate furnished for wood.

The Union is one of the fastest selling cook stoves in this Catalogue. Its reputation has become well known on account of its oven. A more perfect baking oven could not be made in any stove. Has two doors, one on each side. Right hand door has automatic opener or kicker. Allows you to open door with your foot when your hands are full.

Ash Pit: Is deep and wide. Fitted with a large bailed ash pan. Ashes will not pile up and burn out the grates.

Reservoir Tank: Is white porcelain lined. Holds 12 quarts. Is removable for cleaning.

In making the Union, it was our intention to make a **real good** medium size cook stove to sell at a very low price.

The Union Windsor is furnished in four sizes. Some with reservoir; others without. When stoves are quoted with reservoir, the price is given, otherwise it cannot be furnished.

Prices for Union Windsor. Nicely Blackened and Polished. Securely Crated.

A small sized wood stove at a price within the reach of all

Here is a cook stove, small in size but of real merit, at a price never before equalled.

Fire Box—For wood only. Design is the plain mission type, easily kept clean.

Oven—Has two doors, one on each side; one being fitted with automatic door opener. Enables you to open the oven door with your foot when your hands are full.

Reservoir Tank is lined with white enamel. Holds 12 quarts. If your requirements are not very large and you are desirous of securing a real good little wood stove, we can most cheerfully recommend the Choice Windsor.

This stove is made in four sizes, some with reservoir and others without. Prices clearly show whether the stove can be secured with or without reservoir.

Prices for Choice Windsor. Blackened and Polished. Securely Crated.

When You Want a Range of Real Quality and Yet at a Very Low Price Look Over This Gem Windsor

IN any community where fuel is high in price; in any family where the requirements of a range are not heavy, the Gem Windsor will answer every purpose and answer it to your utmost satisfaction. Its quality should not be judged by the low price. While considerably lighter in weight than our higher priced ranges, it will do the work of any range, and do it with less fuel, no matter what the price may be. If it does not, return it to us.

Gem Windsor

Shipped promptly from stock at Chicago or factory near St. Louis or Warehouse near Buffalo, N. Y., or St. Paul, Minn. We ship from your nearest point

$24.75

Read This Description Carefully

Firebox—One piece fire back, well ventilated to prevent burning out. End linings for coal; removable for wood. Fire box takes 19 ½ inch wood. Size for coal, 18 ½ x 7 ½ x 7 ½ inches. Duplex Grate, one side for coal, other for wood. To change from wood to coal just turn the grate over. A medium sized, medium weight, firebox, just the right size and weight for this range.

Reservoir—Holds 15 quarts, cast iron, white enamel lined. Cast iron casing all around.

Body—Is of smooth, even hammered steel, lined with asbestos. No rivets used, all welding is done by electricity making the joints perfectly tight for all time to come.

Warming Closet—Height, from floor to top, 55 inches. Roll balanced front, same style as on all high-priced ranges. Takes 7-inch pipe.

Base—Cast iron legs of attractive design; balance is reinforced pressed steel, smooth and very easy to keep clean.

Oven—The top of every oven is covered with asbestos. The flues are so arranged to make the oven bake perfectly in every corner. Drop door with spring hinge and heavy cast iron frame with steel center. Handle locks oven door tight.

Design—Plain, yet attractive. No sharp edges or corners to catch dirt.

Nickel-Plating—Is the same quality used on our higher priced stoves. Nickeled parts are: oven door name plate, handle and frame, pipe register, warming closet name plate and the two corners.

Fuel—Burns wood, soft or hard coal, coke or corn cob. It is just as big a mistake for some people to buy too heavy a range as it is for other people to buy too light weight a range. The Gem Windsor is offered to you as a medium weight stove range. If your family is medium size, if you are especially interested in the fuel question, you will be well pleased with the Gem Windsor.

The Gem Windsor is not built for heavy usage such as would be the case on the average farm; such work requires a heavier stove.

For quick baking with little fuel, no range in this catalogue will excel the Gem Windsor.

If wanted without reservoir but with warming closet, deduct $2.00 from prices given. If wanted without warming closet but with reservoir, deduct $2.00 from prices given. If wanted without both reservoir and warming closet, deduct $4.00 from prices given. **These models can be shipped only from factory near St. Louis, Mo.**

Select Windsor

Complete with Reservoir and Warming Closet. Six hole top.

Shipped promptly from stock at factory near St. Louis, Mo., or Warehouse near Buffalo, N. Y.

For a 410 pound 6-Hole Steel Range with Reservoir and Warming Closet

YOU will notice the Select Windsor is only made in one size. There is a reason for this. The price on this range is exceedingly low. The sales are therefore, very large.

By making the stove in only one size, we are able to secure the very lowest prices. The manufacturer buys one size of material only and in very large quantities. It is this that enables us to sell the Select Windsor for $21.25.

Details of Construction

Body is of refined polished steel. All parts exposed to the heat are lined with extra layer of steel with asbestos in between. All riveting is done by electricity, making every joint perfectly tight.

Cooking Top is 29 inches from the floor. Six full sized eight-inch lids together with one three-piece sectional lid.

Oven is square formed. No corners cut off. Back flue is cast iron and not steel so often the case on ranges near this price.

Reservoir is cast iron, white porcelain lined on the inside. Holds fifteen quarts and is removable. Entire outside casing is cast iron.

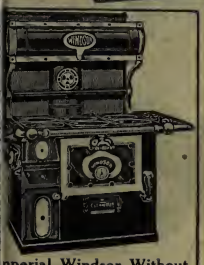
Many People Do Not Need a Big Heavy Range. Their Requirements Would Be Well Taken Care of With Such a Range as the—

Imperial Windsor



THE heavier the range, the more fuel it requires. Some people believe that the heavier a stove is, the longer it will last. This is not always true. The Imperial would last some families just as long as any of our highest priced ranges. You ask why? Their requirements of a range are such that they do not need a heavier stove. On the other hand, if a family needing a heavy range, should buy the Imperial, they would be disappointed in its lasting qualities.

This only goes to show how important it is to select a stove that especially meets your requirements. The **Imperial** is not a farmers' stove, because the average farmer's wife generally has a great many to cook for. Her big bakings, preserving and cooking requires a much heavier stove. But there are thousands of smaller families who will find this range meets their requirements perfectly. It is above the medium class. Yet it is not what we term in the heavy class. It is very attractive in appearance. We have sold them for a great many years, and feel perfectly free in recommending them.

You will find the **Imperial Windsor** an exceptional fuel saver. You will be delighted with the quickness with which the range heats up and bakes. In the summer time when your kitchen is hot, you will especially like the **Imperial** because it heats up so quickly. It will cool off just as quickly. You certainly don't want to stay in a hot kitchen, in the summer time, any longer than you have to. You will be surprised to find what a little handful of chips will get a meal, or do a light baking in this range.

The **Imperial Windsor** is a very carefully made range. The entire body is electrically welded, making it **perfectly air-tight.** The quality of workmanship is just exactly the same as all of our highest priced steel ranges.

$28.75
and up

nperial Windsor Without Reservoir

If wanted without reservoir, but with Warming oset, deduct $2.50 from the ices of size given. This odel of our Imperial Windr is shipped from wareuse near St. Louis only. These Ranges can be uipped with water front r attachment to range cirlating boiler, where water supplied under pressure.
8C4853—Water front, for e with range boiler. Shipg weight, 17 pounds. ice $2.50

A Range That is Built to Save You Work

The body of the **Imperial Windsor** is made of copper-bearing steel to make it as near rust-proof as is possible to make any range. A very convenient broiling door will be found at the end of the stove. This door is also a big help when making toast. There are many such little features in connection with this range that will be appreciated.

The **Imperial Windsor** borders very closely on the plainest of designs. All the nickel parts are perfectly smooth—not a single crack nor crevice to catch dirt. Its plainness is really what makes the **Imperial** as attractive a stove as it is. It is fully intended that this range be a labor-saver in every way. Its main purpose is to bake perfectly but quickly. The top is of medium weight—the lids are not so very heavy. They are made so for the purpose of enabling you to get your meal just as quickly as possible.

The design is made perfectly plain to save you extra work. We believe that every housewife has plenty of work to do without having to polish a stove any more than is really necessary. Why should you wear yourself out doing any unnecessary work? Buy a range that will save you.

In building the **Imperial Windsor** it was our intention to make it as great a labor-saver as possible for the good housewife who really does the hard work in a kitchen. If there is any labor-saving feature that we could possibly add to this stove, we would add it. We have done everything possible to accomplish the purpose outlined.

The cooking top is made in sections so as to perfectly take care of any expansion or contraction. There are 6 lids in all—5 regular lids and one 3-piece lid. The oven is large, square—has no corners cut off, and it will bake perfectly in every corner. The entire inside is coated with aluminum finish. The oven door is balanced with a strong spring—making a very convenient shelf when dropped down. When closed it locks perfectly tight.

The fire box is just the right size for this particular range. For coal it is 18 inches long, 7 inches wide. When wood is to be burned, the duplex grate is simply turned over, the end linings taken out, and it takes wood 20¾ inches long very conveniently. All drafts are controlled by screw draft registers which can be set at just the right opening. When turned tight they prevent even the slightest amount of air getting to the fire. This, together with the air-tight manner in which the range is built, is what makes the **Imperial Windsor** such a splendid fire holder. **Saves fuel,** thereby **saves you money.** The reservoir itself is made of cast iron, white enamel, holds 15 quarts and is removable. The entire casing around the outside is made of cast iron.

The flue at the back of the stove, which connects the flue underneath the oven with the pipe, is all cast iron. We will not consider using a steel flue because they rust out very quickly. The pipe itself is 7-inch, so if your chimney hole is 6 inches, you must purchase a tapering joint of pipe from 7 to 6 inches.

In the oven door you find our regular Windsor thermometer, which we have proven to be thoroughly reliable—no necessity for guessing about your baking when you use a good thermometer. This range will burn almost any kind of fuel—hard or soft coal, coke, corn cobs or wood.

Height, floor to top of warming closet, 55 inches. Height, floor to cooking top, 28¼ inches.

Prices complete with Reservoir and Warming Closet. Nicely Blackened and Polished. Securely Crated.

It Pays to Buy a Stove That Will Burn All Kinds of Fuel

There is one very important feature in connection with practically all Windsor Cook oves and Ranges—They are Fitted With a Duplex Grate. This style of grate is e most satisfactory known today for burning all kinds of fuel. One side is fitted pecially for wood and the other side for coal. To change your fuel, simply turn over your grate. No extra plates necessary—no sending to the factory for extra grates—your Duplex Grate is ready at all times. You may be burning one kind of fuel today and think you always will burn the same, but you never can tell. Why not be safe? See that your new stove is fitted with a Duplex Grate.

Inexpensive Cast Iron Laundry Stoves for Heating or Cooking

These little stoves are real wash-day labor savers. So low in price you don't mind putting one out in the wood shed or down in the cellar. Just large enough for the purpose for which they are intended. Plenty of room for the wash boiler and still leave two front lids for getting dinner. Just the thing for batchers or campers. Made entirely of cast iron. Windsor Laundry Stoves will all burn coal, wood, cobs, chips, in fact, any kind of fuel.

The **Sun Windsor,** which is shown below, is the heaviest and most substantial laundry stove we handle. It has a large size top, 21x22 inches with four full size 8-inch lids. It is a much better stove than is generally to be had in a laundry stove.

The fire pot is larger than the average, being 11 inches in diameter, is deeply corrugated, which to a great extent prevents burning out. The cooking top is just a convenient height from the floor—21¾ inches. These stoves are all made low. You don't want to lift heavy wet clothes out of the wash boiler any higher than is absolutely necessary. Also saves high lifting of the boiler itself. If you are desirous of securing the very best laundry stove of this type, we gladly recommend the **Sun Windsor.**

$4.05

Sun Windsor

Shaking grate is our regular draw center-grate. There is also a deflector plate over the fire bowl which throws the heat to the two front lids. The ash pit is deep—saves the grate. **Don't overlook this fact;** all Windsor Sun Laundrys have cast iron bottoms and pot steel which is so often used. **Draft register** in the door is circular and can be screwed up **tight.** The **Sun** takes 6-inch pipe. **Shipping weight,** 105 pounds. Blackened and polished.

268C4900—Stove **No. 85 Sun Windsor.** Price.....**$4.05**

Shipped promptly from stock at Chicago, from factory near St. Louis, Mo., or from warehouse at St. Paul, Minn.

Twin Windsor

The **Twin Windsor** is a small, light weight, well made, laundry stove. Same size top as the **Sun Windsor,** 21x22 inches, but base and fire bowl are smaller. **Height,** 21¾ inches. Four 8-inch lids. **Draw center-grate,** 9½ inch fire pot. Takes 6-inch pipe. Blackened and crated.

268C4901—Stove **No. 86 Twin Windsor.** Stove only. **$3.75**
Shipping weight, 76 pounds. Price.....

268C4902—Stove **No. 86 Complete with Drum Oven No. 16** (no pipe). Shipping weight, 96 pounds. Price..... **$5.15**

Shipped promptly from stock at Chicago, or from factory near St. Louis, Mo.

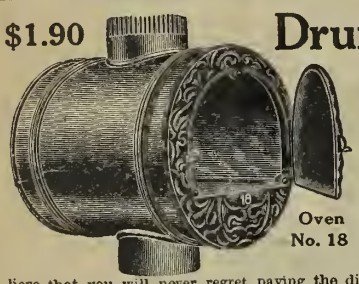
The **Lion Windsor** shown below has exactly the same top, base and legs as the **Sun Windsor.** You will notice that it has an entirely different fire bowl.

The bowl is made in this shape so that the irons can be placed around it, the handles fitting in the V-shaped lugs. On account of bringing the sad irons in such close contact with the fire, they heat very quickly. There are 8 lugs accommodating 8 sad irons. When ironing, the entire top of the stove is clear for other purposes. The **Lion Windsor** is the most convenient laundry stove made for washing and ironing at the same time. Its style of construction makes it a much harder stove to build than the ordinary laundry stove, therefore the price is higher.

$4.95

Lion Windsor

Top is 21x22 inches with four 8-inch lids. Diameter of fire pot, 11¾ inches. Takes 6-inch pipe. Height to top from floor, 23½ inches. **Shipping weight,** 113 pounds. Has draw center grate. Burns any kind of fuel. Deflector plate throws heat to front lids. Cast iron bottom. Circular draft register. Blackened and polished ready for use.



268C4903—Stove No. 85 **Lion Windsor.** Price.....**$4.95**

Shipped promptly from factory near St. Louis, Mo.

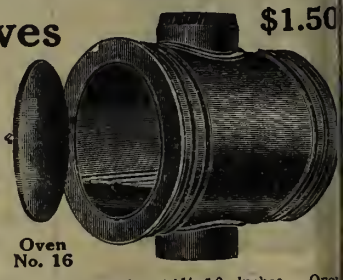
Drum Ovens Bake Perfectly with Laundry Stoves

When ordering a Laundry Stove, don't fail to order a Drum Oven. These ovens will handle small bakings perfectly. You will be very agreeably surprised to see how well they will bake light bread, cake, pies, biscuit, muffins, etc. Bake with your wash-day fire; save fuel. Use the heat that now goes up the chimney.

$1.90

Oven No. 18

The oven shown at the left is really in a class by itself. It is not to be compared with the steel end ovens. The outer and inner walls are made of cold rolled steel—both ends are of **heavy cast iron.** The door is also **cast iron,** and ground to fit perfectly tight, just like the door on a cast iron range. This means **perfect baking.** These cast iron ends hold the steel parts perfectly stiff, so that with reasonable care, this particular oven will last a very long time. It is a few cents higher in price, but we believe that you will never regret paying the difference.



268C4904—Drum Oven No. 18; size of body, 14½x18 inches. Door opening, 8¾x10¾ inches. Shipping weight, crated, 35 pounds. Price **$1.90**

Shipped promptly from stock at Chicago, or from factory near St. Louis, Mo.

The Drum Oven shown on the right is of the same type as is most generally sold with Laundry Stoves. The inner and outer walls are of steel as are the ends. The door is made of steel and is locked tight by a malleable iron button. These all steel ovens bake very quickly.

This oven is of as good a quality as any steel oven in the market, but it is not to be expected that any steel end oven will bake as perfectly or last as long as the cast end oven.

$1.50

Oven No. 16

168C4905—Drum Oven No. 16, size of body, 14½x18 inches. Oven door opening, 10¾ inches. Inside measurements, length 16 inches width 10¾ inches; steel shelf. Shipping weight, crated, 20 pounds. Price **$1.50**

Shipped promptly from stock at Chicago.

How to Order Renewal Parts for Windsor Stoves and Ranges

No matter what anyone tells you, we can furnish any part for Any Windsor stove at Any time. More than that we can furnish it promptly.

The name WINDSOR is the family name of all the stoves this company sells. Every Windsor stove has a first name, such as Iron Windsor, Monarch Windsor and so on. To designate just what stove you have, be sure to give us the first name as well as Windsor. It is the only way we can tell which Windsor you have.

All ranges, cast or steel, and all cook stoves, have a double number such as 8-18 or 82-18. In some case the 8-18 is marked 818, all in one number. At any rate, be sure to give this number. Don't say No. 8 or No. 9. That doesn't give us anything to go by.

All heating stoves also have two names and a number which is generally a single number, such as, No. 14, 16 or 18. Be sure to give full name and number.

If you are in doubt as to the right name of the pieces you want, or if you don't know the price or weight, just say: "Send me a repair order blank for my.....Windsor No..... This order blank gives you not only the name of each piece, the weight and price, but a picture of each piece so there will be no possible chance of you not getting the right part.

Jack Windsor

The small size laundry stoves such as the **Jack Windsor,** can also be used to good advantage as heating stoves. It is well made and well fitted. Will burn practically any kind of fuel. Diameter of fire pot, 9½ inches. Just the stove for small space where you don't care to put much money into a stove. For batchers and campers this little stove is exceptionally well suited. Light in weight. Easily packed. For any place where a good small low priced cook or heating stove is wanted. We recommend the **Jack Windsor,** No. 70 base 7-inch lids; other sizes have 8-inch.

Requires 6-inch pipe

Prices for Jack Windsor, blackened and polished.

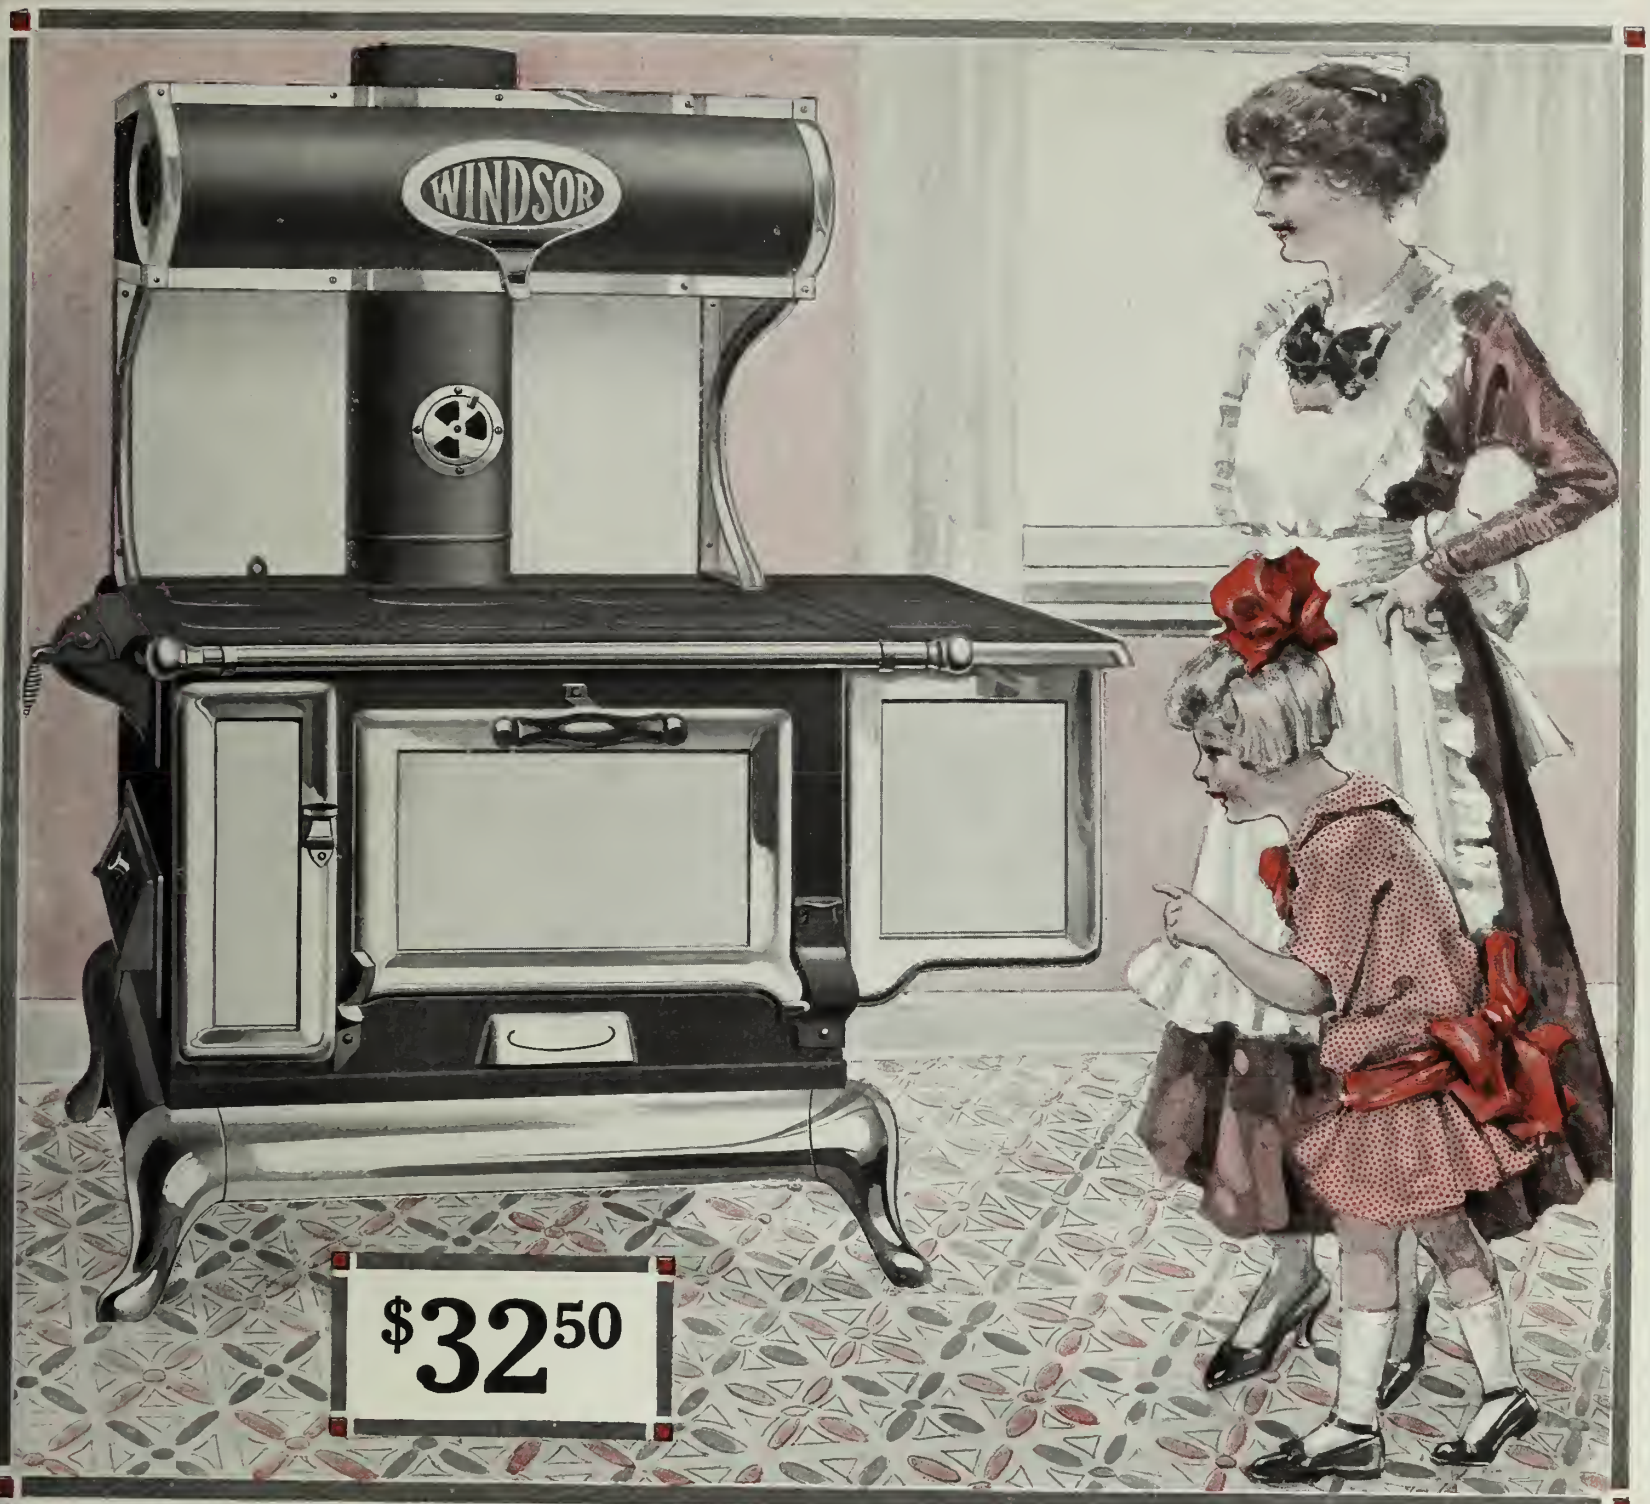
$3.90

Merit Windsor



The **Merit Windsor** is built exactly the same as our **Lion Windsor,** only with a 2-hole top. It is a very convenient little stove for wash day and ironing use, especially so for ironing on account of the sad-irons fitting against the fire pot. Leaves top clear for other purposes. Has places for 6 sad-irons. Sad-irons become hot very quickly. Pouch feed in front of top for feeding coal when the wash boiler is on the stove. In cases where 2 8-inch holes will answer the purpose, the **Lion Windsor** is the best we can possibly offer you.

Requires 6-inch pipe

Prices for Merit Windsor, blackened and polished.

THE white porcelain trimmed steel range is here to stay. There is a good reason for it. It is the housewife's best kitchen friend. Kitchen work is hard enough at its best. The **Sanitaire Windsor** saves you work. Its beautiful white porcelain doors and closet and its smooth nickel make it the easiest stove to keep looking well. To keep clean just wipe it off, once in a while, with a rag.

The white porcelain on the **Sanitaire Windsor Range** is the same as the white enamel ware used in kitchen utensils. It is just as easy to keep clean. It makes not only an exceptionally attractive range when new, but it stays that way. The **Sanitaire Windsor** is not a heavy range and is not intended for large families. It is a medium-sized range, medium weight throughout and for medium-sized families. It is without exception the most attractive range you could possibly put in your kitchen.

The **Sanitaire Windsor** is the result of years of study on our part to produce a porcelain trimmed range at, what we consider, a reasonable price. If you have priced any range similar to this one, you will quickly realize what a big saving you can make by buying a **Sanitaire.** You will find it to be just as attractive a stove as shown here, and as far as the baking and cooking qualities are concerned, it will satisfy you perfectly in every way.

To have a range that bakes perfectly and uses a small amount of fuel is about the only satisfaction the average good range can offer. The **Sanitaire Windsor** offers more. It offers you the most attractive range possible to put in your kitchen. It is a range that will bring forth the most favorable comments from everyone who sees it.

Don't overlook the **Cyclonic lids,** the greatest improvement for the saving of fuel ever invented.

THE following description will convince you that the **Sanitaire Windsor** has practically all the advantageous features of the highest priced ranges. We honestly believe that a more attractive range of quality could not be built at a more attractive price.

Firebox—One piece fire back, well ventilated to prevent burning out. End linings for coal; removable for wood. Firebox takes 19½ inch wood. Size for coal, 18½x7½x7½ inches. Duplex Grate, one side for coal, other for wood. To change from wood to coal just turn the grate over. A medium sized, medium weight, firebox, just the right size and weight for this range.

Reservoir—Holds 15 quarts, cast iron, white enamel lined. Cast iron casing all around.

Body—Is of smooth, even hammered steel, lined with asbestos. No rivets used, all welding is done by electricity, making the joints perfectly tight for all time to come.

Warming Closet—Height, from floor to top, 55 inches. Roll balanced front, same style as on all highest priced ranges. Take 7-inch pipe.

Base—Cast iron legs and front of smooth design; balance is of reinforced pressed steel, smooth and very easy to keep clean.

Oven—The top of every oven is covered with asbestos. The flues are so arranged to make the oven bake perfectly in every corner. Drop door with spring hinge and heavy cast iron frame with steel center. Spring at top of oven door locks the door tight and yet allows for expansion.

Nickel Parts—Oven door and fire door frames, front base and legs, pipe register, warming closet brackets, name plate and the two corners.

Prices for Sanitaire Windsor Range—Blackened and Polished. Securely Crated.

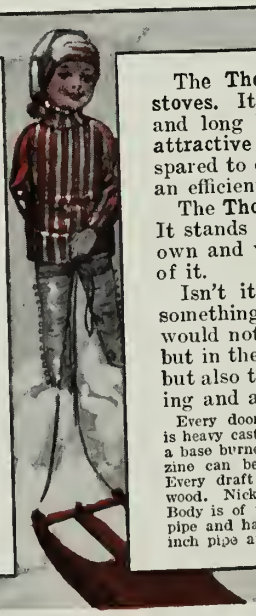
Cyclonic Lid Saves Fuel

Two of these lids are used over the firebox. The heat must travel around between the ribs before it can escape to the flue. This gives a much hotter lid and saves at least 25 per cent of your fuel. No extra charge.

MOST any heating stove will answer the purpose when the weather is mild. But, when the cold, piercing winds whistle around, you'll be glad you have a Viking or a Thorne Windsor in your home.

BOTH of these stoves are made to not only be real warmth giving heaters, but you'll be proud to have either one in your home. Just wait until you hear your friends' comments.



The **Viking Windsor** is a heater that will prove a delight to any home. Of course, you buy a heater for warmth. But if you can secure the maximum amount of heat from a truly handsome stove, aren't you getting more for your money?

The **Viking Windsor** is as perfect a heater as anyone could ask for. At the same time, it is a heater you will never cease to admire. No matter how the blizzard's chilly blast blows around your house, every one on the inside will be just as cozy as can be.

When you set up the **Viking Windsor** in your home, you have the satisfaction of knowing that **no one** has any better, no matter what price they paid. No wonder your friends will want to know where you secured such a handsome stove. Watch the expression on their faces when you tell them the price you paid.

Body: Highest grade refired steel, tightly riveted to top and firebowl. Deeply corrugated firepot radiates large volume of heat. Draw center grate. Air tight fitting doors hold fire and save fuel. All drafts controlled by close fitting screw drafts.

Steel base. Deep ash pit saves grate from burning out. The mica door enables you to see the fire—makes the home more cheerful looking. For $1.50 extra a self-feeding magazine can be furnished for hard coal. The Viking will burn all kinds of coal, wood or cobs. Smallest size takes 6 inch pipe and has only one lower screw draft in ash door. Other sizes take 7 inch pipe and have two screw drafts as shown in illustration.

The **Thorne Windsor** is our master-piece in **heating stoves.** It is intended not only to be a perfect operating and long lasting stove, but it is built to be the **most attractive** heater possible to build. No expense has been spared to create a model of beauty and at the same time an efficient heater.

The **Thorne Windsor** stands out from all other heaters. It stands in a class by itself. It is a design strictly our own and we believe that we have a right to feel proud of it.

Isn't it a great deal of satisfaction to you to own something exceptionally attractive? Of course, you would not buy a heating stove solely with this in mind, but in the **Thorne Windsor** you have not only the beauty, but also the quality, perfect workmanship, perfect operating and a heater surpassed by none.

Every door and every joint is **machine ground** to fit air tight. Base is heavy cast iron, nickel plated. Large size feed door with mica, just like a base burner. Burns soft coal, wood or cobs. For $1.50 extra a magazine can be furnished, making the **Thorne** a self feeder for hard coal. Every draft screws up tight. Draw center grate for coal with disc for wood. Nickel plated parts are smooth mission style. Don't catch the dirt. Body is of refined body steel, no better made. Smallest size takes 6 inch pipe and has only one lower screw draft in ash door. Other sizes take 7 inch pipe and have two screw drafts as shown in illustration.

Just a Little Nickel Trimming on a Whole Lot of Stove for Very Little Money. A Friendly Stove for Your Pocket Book

Victor Windsor
$8.20 and up

The Victor Windsor is built for clear minded, sensible people, who honestly try to make their dollars go as far as possible. Its plain design and its low price are what make the sales on the Victor so large. The large sales are what gives us the low prices to give to you.

THIS new stove was first displayed in our 1915 Fall Catalogue. Its sale was far beyond our expectations.

In building this heater it was our intention to produce an oak heater which would burn hard or soft coal, coke, cobs, or any kind of wood, and burn each of these fuels satisfactorily. We did not attempt to build the cheapest stove of this pattern, nor did we try to build the heaviest. We wanted the Victor Windsor to be a medium weight. To sell it at medium price we used very little nickel trimming, and yet we believe that the Victor Windsor, on account of its plainness, is attractive. One thing we do know: we are giving the best stove possible to be had for the money, a stove that will make good every word of our broad stove guarantee.

We do not claim that the Victor Windsor will last as long as some of our heavier heaters. To anyone who is carefully considering their pocket-book and really desirous of securing an entirely satisfactory stove which will give perfect service, we can recommend no better heating stove than the Victor Windsor.

Details of Construction

Body is of heavy, refined, blue steel, thoroughly riveted to the door frame and fire-bowl.

Every door is ground to fit perfectly tight. Fire is regulated by screw draft which can be screwed air tight. You will have no trouble with the Victor Windsor keeping fire.

The entire bottom is cast iron—we do not use a steel bottom to enable a lower price.

Four Colonial design foot rails help to make this stove very attractive. Our No. 14 has one screw draft in the ash door, all the others have two.

For burning hard coal we furnish a self-feeding magazine for stoves No. 16 or No. 18 at an extra price of $1.50.

Splendid Windsor
$12.75 and up

Stove Number	Size of Feed Door Opening, Inches	Height, Floor to Top of Urn Base, Inches	Floor Space, Inches
114	8 x12¼	44	23x23
116	9 x13¼	47	26x26
118	9½x14½	50	28x28

Do You Believe It is the Cheapest in the Long Run to Buy the Best Heating Stove Money Can Build?

If you do—

You will decide on the Splendid Windsor. We do not know of one single feature that could be added to improve this heater.

We do not believe the addition of one single ounce of steel or iron, or any other system of workmanship could improve it.

The Splendid Windsor is a **very heavy** stove. It is as heavy as we would possibly consider building a heating stove. A heavy stove requires more fuel to get it hot. But after it is once thoroughly heated it will throw out far more heat from the same amount of fuel than a lighter weight stove.

The Splendid Windsor heater is not as elaborately trimmed as some of our others. The cost of building this stove is so high now that if we were to add any more nickel to it, it would bring the price up so high we feel sure it would not sell. The extra heavy weight and quality of steel and iron is used so that this heater will last you as many years as you feel it ought to, and then some more for good measure. In no manner, even in the slightest degree, have we attempted to cut one single cent off of this stove.

We have endeavored to make a heating stove the best we know how. We cannot recommend the Splendid Windsor stove to our customers any stronger than by saying, we have done our best.

Body is made of the highest grade of polished steel with a finish you can see your face in.

Firepot is of heavy cast iron, deeply corrugated, and made to last, in addition to giving out a large volume of heat.

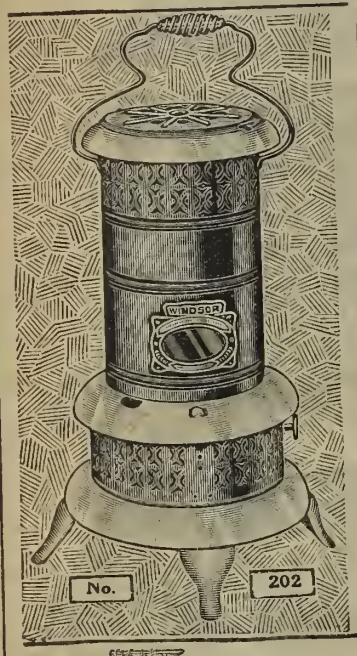
Deflector Ring which sets on top of the firepot is very wide, throws a large volume of heat to the floor. Attached to this ring is a large, wide nickel plated additional deflector ring, which does the same, making the Splendid Windsor the greatest floor warmer ever built.

Grate is a draw-center shaking type, which we have proved to our satisfaction to be the most satisfactory. By use of the small door in the side the grate is shaken without any ashes or dust getting out into the room.

Drafts and Doors: Are all machine fitted, making them perfectly right. Every user of the Splendid Windsor knows that he can go away, at any time, and by locking up the stove, come back and find a good fire.

Feed Door: Inside of the feed door hangs a cast iron smoke curtain so that when the door is open the smoke does not come out into the room.

Fuel: The Splendid Windsor grates will burn hard or soft coal and wood, each with perfect success. At an additional expense of $1.50 we can furnish a self-feeding magazine for hard coal, on sizes No. 116 and 118 only.



The Splendid Windsor you will find will meet your requirements perfectly.

There are 18 good reasons why you should have an oil heater in your home. Does its work quickly and cheaply. Easily moved about. Perfectly safe.

1—Saves getting up in a cold bedroom.

2—If you like to sleep in a cold bedroom that is no sign that you like to undress in one. Take the chill off with an oil heater.

3—If your bath-room happens to be chilly, nothing else will compare with an oil heater.

4—Is your kitchen cold in early morning? Light your oil heater and you have heat instantly, no waiting. When your range gets the kitchen warm, turn out your oil heater.

5—You can't blame children for hating to go to bed or getting up in the cold. Best of all an oil heater is perfectly safe. A child can light it.

6—How about that cold room far from the furnace or heating stove?

7—No need to have frozen water pipes. An oil heater costs so little for oil and does the trick. Saves plumber's bills.

8—Your older children need a quiet place to study their lessons. Why is it that the quiet room is always cold? Give them the oil heater.

9—A frozen auto radiator means a big bill for repairs. An oil heater will save draining and freezing.

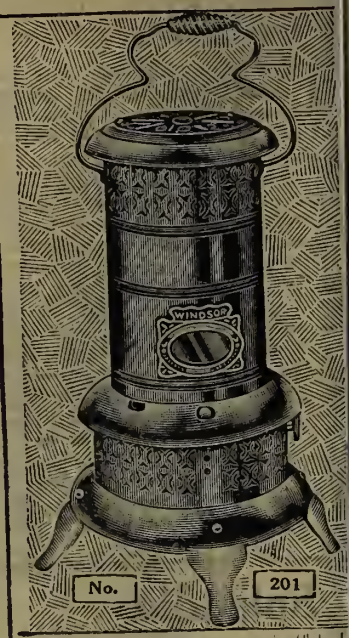
10—For things in your cellar that freeze and burst. Think of the time and money wasted all for a few cents worth of oil in an oil heater.

11—Thousands of parlors are locked up all winter just because they are cold and no housewife likes to have her callers' teeth chatter.

12—No man can do good work in a cold office. The oil heater takes up little room and can be moved easily.

13—When it is hardly cold enough to have the coal or wood fire going, take the chill off with an oil heater.

14—For R. F. D. wagons the oil heater certainly does good work at a very low cost. **Perfectly safe.**



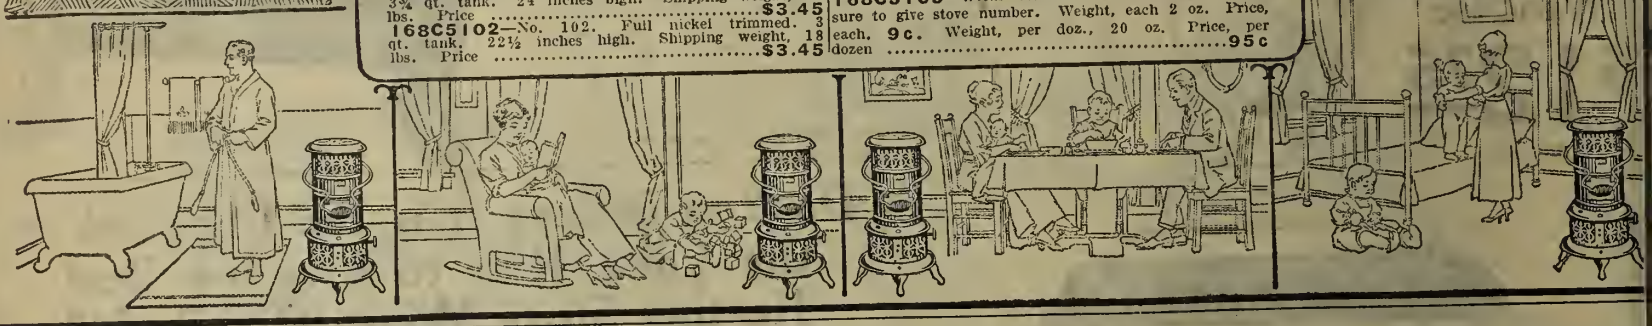
15—When a little hot water is wanted in the middle of the night, and wanted quick, set a pan on top of your oil heater.

16—Many a good farmer's wife catches her death of cold in a cold milk house. An oil heater is the answer.

17—Some farmers will laugh at the idea of heat in a barn. How about cold fingers at milking time? Doesn't need much heat and only for a short time. An oil heater does it.

18—Surely 17 reasons are enough. No doubt you have some other uses for our oil heater in mind that we never thought of. The point is this. An oil heater burns ordinary kerosene (coal oil). Gives out an intense heat for its size. **Heats quickly. Cools off quickly.** No waiting. Light it and you're ready. Turn it out and it is safe to leave. Costs so little to operate. A child can carry it around, even lighted, with perfect safety. **No smoke.** No cleaning like a lamp. Always ready.

There is only one thing to be sure of—**get a good one.** The safest way to do that is not to take any chance, get a **Windsor.** Oil heaters may look alike but they are not. A good one is truly a pleasure, a poor one is a nuisance. More than that, it may be dangerous. So why take any chances; even if a Windsor costs a few cents more at the start?



168C5100—No. 101. Black Japan trimmed. 3 qt. tank, 22½ inches high. Shipping weight, 18 lbs. Price **$2.75**

Vulcan Windsor

$10.70 and up

In the smooth mission design we present a new heater this year the Vulcan Windsor

THE Vulcan Windsor is a large, heavy, coal and wood heater. It is a design that is hard to appreciate until you see the stove in actual operation. Through the mica door the blazing fire is to be seen at all times, giving very cheerful and home-like appearance. The **Vulcan Windsor** is a heater that will attract a great deal of attention when set up in your home.

Every heating stove ought to look well, but it must be backed by real quality. You will find, in the **Vulcan Windsor,** quality equal to any heater offered for sale in your town, no matter what the price may be.

THE general construction of the Vulcan Windsor is very similar to many of the other heating stoves in this Catalogue. The grade of steel and iron is exactly the same as the highest priced stove we offer.

The Vulcan Windsor is considerably plainer in design than some of our others, therefore it is lower in price. Compare it with all others. More than this, you are welcome to put it into your home for sixty days and try it in every manner. If, for any reason, you are not perfectly satisfied, your money will be promptly refunded with freight charges both ways.

Grate—Is our improved Windsor draw center for coal. For wood, an extra wood grate is necessary. See price list.

Air Tight Doors—In every oak stove built for us we demand air tight joints and air tight doors. No stove is worthy of the name unless it is tight. Loose fitting joints and doors make any stove a regular coal eater.

Feed Door—Is very large. Made this way for the purpose of feeding large chunks of coal or knots of wood.

Nickeled Parts—Swing cover, side wing, name plate, screw draft registers and large deflector ring which runs around the stove. (Size 14 has one screw draft register in ash door.)

Deflector Ring—You will note that on a number of the Windsor heaters we are using these large rings this year. These throw the heat to the floor, where it is needed.

Considering the price of the Vulcan Windsor we know you will find it impossible to equal this stove anywhere at the price.

At an extra cost of $1.50 a magazine can be furnished for use with hard coal, making the Vulcan Windsor a very satisfactory stove for burning this fuel. With the extra grates, the Vulcan Windsor will successfully burn any kind of fuel that you care to put into it. It is a heater that you will never regret having bought.

Derby Windsor

A Large Size Oak Heater at a Very Low Price

Heat Your Entire House for $9.95

In the **Derby Windsor Oak** we are offering what we consider to be a bargain never before duplicated, one that our customers are certain to appreciate. The **Derby Windsor** is not to be compared with any light weight oak stove. The castings are very heavy; the stove is well made. Its weight alone will show you that you will never be able to equal it again for such a price.

$9.95

18-inch Fire-Pot

Many low priced oaks are simply thrown together and when it comes to holding fire they are not there. To hold fire perfectly means that the joints must be ground and fitted. You'll find just such joints on the **Derby Windsor.**

This heater is a leader with us. We realize that it is not nearly as attractive a stove as some of our other oak heaters, but it is a stove **of real quality** at a price so low that no family need be without a **good heater,** not just a makeshift.

The Derby Oak is made in one size only and is plenty large enough for any home. In fact, it has a firepot as large as any of our oak stoves. It will do its work well, without crowding.

Body is of polished steel. Not ordinary stove pipe iron like so many low-priced oaks are made of.

Grate is the regular style of draw center used in all of our oak stoves.

Ash Pit is large and supplied with a good ash pan.

Feed Doors are large. Big enough for large chunks of soft coal or knots of wood. Has nickel plated rails.

For 25 cents additional, a special cast iron grate can be furnished for burning wood. Be sure to secure one of these if you burn wood.

Prices for Derby Windsor, nicely blackened and polished. Securely crated.

Carbon Windsor Air Blast

Save Money by Burning the Lowest Grades of Soft Coal—Lignite, Slack or Siftings

In a great many communities it is possible to secure a very low grade of soft coal, such as lignite, siftings and slack. Naturally the price is very low. An ordinary oak stove **will not** burn this grade of fuel satisfactorily. Our main object in building the **Carbon** was to burn this kind of fuel successfully. The **Carbon Windsor** will work just as satisfactorily with the better grades of soft coal as any heating stove.

$10.25 and up

To handle the lowest grades of fuel it has been necessary to construct an entirely different style of firepot. This pot has air slots all around, allowing the air to pass into the fire from top to bottom, giving a most thorough combustion. It is an expensive firepot to build, but we believe the extra cost is well justified if you are in a position to secure this cheap fuel. We have had so much experience with this style of firepot that we replace every one, without charge, which burns out under five years. This guarantee is the same, no matter what grade of fuel you use.

The **Body** of the **Carbon Windsor** is made of good grade polished blue steel, bolted perfectly tight to the cast iron frame. All of the parts of this stove are exceptionally heavy, in fact we sometimes wonder if they are not heavier than is really necessary, but they are built for real service. The base is also very heavy. Every door is machine ground, making it perfectly air tight. There is very little nickel plating on the **Carbon,** just enough to give it a very neat and attractive appearance.

Numbers 12 and 14 take 6-inch pipe. Numbers 16 and 18 take 7-inch pipe. Take our advice and don't buy too small a size. In buying a size larger than you need you'll not only save fuel, but make your stove last twice as long.

Prices for Carbon Windsor, nicely blackened and polished. Securely crated.

Thorne Windsor

A Heater for the Coldest Weather That Can Always Be Relied Upon

The weight of your stove has a great deal to do with the amount of heat that it throws out. An 18-inch firepot in a 150 pound stove cannot be expected to give the same amount of heat that an 18-inch firepot does in a 285 lb. stove. It takes a little more fuel to get a large stove hot, but after it is once heated it will warm a great deal more space than a lighter weight stove.

$10.95 and up

The **Thorne Windsor** is about as heavy a stove as we can possibly build. It has been the standby of this Company for nearly twenty years. **We have never yet found it to fail us.** This, in itself, certainly ought to show our confidence in this heater.

We are not claiming the **Thorne Windsor** to be a cheap stove; not by any means. It is impossible to build a stove of this description and weight at a low price. There is no possible chance for us to reduce the price unless we cut down the weight. Our object in building this heater is to produce a very heavy heating stove, that **will comfortably heat any home.**

We advocate the use of the **Thorne Windsor** for any kind of fuel. At an expense of $1.50 extra to the prices given we can furnish a hard coal magazine, which will make it a good hard coal stove. You will note in particular that the **Thorne** has a very large wide base, the most important feature in any heating stove. It keeps the floor warm, the very place that the heat is needed. In addition to this there is a wide cast iron deflector around the fire bowl which throws the heat down. The entire base and legs are heavy cast iron, nickel plated. The body of the **Thorne Windsor** is made of heavy Wellsville highly polished steel, so it will last. Smooth, so it is easy to keep clean. The firepot is the heaviest used in any of our oak stoves. Made to stand hard usage and last.

Prices for Thorne Windsor, nicely blackened and polished. Securely crated.

Article Number	Price	Stove Number	Diameter of Fire-Pot Inches	Height to Urn Base Inches	Feed Door Opening Inches	Floor Space Inches	Shipping Weight Pounds

Ventiduct Windsor

A Heater with a Double Drum That Cuts Down Coal Bills

The style of construction of the **Ventiduct Windsor** is very hard to show on a catalogue page. The ordinary oak stove has only one steel drum, whereas the **Ventiduct** has two, with a space of about 1½ inches between. The cold air is drawn underneath the rim to which the foot rails fit. It then passes up between the two drums and is heated by the fire, coming out the top through a hot air vent. If desired, this vent can be connected with a pipe and run into a room up-stairs as on a base burner.

$12.85 and up

The quality of the workmanship on the **Ventiduct** is exactly the same as found on the **Thorne Windsor.** In fact, the stoves are very similar in many ways with the exception of this extra heating feature. This one feature on the **Ventiduct Windsor** in itself will add at least 20 per cent to the amount of heat thrown out into the room. Why not cut down your coal bill just as much as possible? This double drum, of course, costs more, but if you had a **Ventiduct** set up in your home and could enjoy the extra heat you would never regret paying the difference.

The mica door in front gives out the same cheerful appearance that is always admired in a base burner. The double doors in front give a large opening. Being double prevents the smoke from coming out into the room when the doors are open.

This heater can be used to good advantage for burning hard coal. For this purpose we can furnish a magazine at an expense of $1.50 in addition to the prices given. On account of the feed door opening being so large, we can also recommend this heater for burning wood. Just the heater for large knots which are difficult to split. A special wood grate disc is furnished without charge with each **Ventiduct.** All sizes take six-inch pipe.

Prices for Ventiduct Windsor, nicely blackened and polished. Securely crated.

Two Coal and Wood Burning Oak Heaters at prices never before equalled

Boss Windsor — Only **$4.60**

Only **$5.60** — Boss Windsor

THE Boss Windsor is the result of a most careful investigation of a large number of small oak stoves. We were determined to offer our customers, this year, an oak stove at a price that had, not only **never been equalled,** but we doubt if it **ever will** be equalled. In the Boss Windsor we have a small, light weight, oak stove of a very satisfactory quality, a stove that we know our customers will consider the greatest bargain they have ever purchased. These heaters are not intended to be in the same class with our heavier stoves, but there are many places in which a small stove of this kind will answer the purpose perfectly.

Body is made of a good medium grade of sheet steel. You will be well satisfied with the length of time this heater will last.

Fire Pot: The real heart of any stove. No matter even if it is a very light weight stove, we have made the fire pot as perfect as possible.

Swing Top is nickel-plated and has a very attractive urn.

Grate is our regular draw center shaking grate which has given such perfect satisfaction in all Windsor oak stoves.

Ash Pan is as large as possible to build it, considering the size of this stove.

Nickel Parts: The wings and foot rails are of attractive design. In addition there is a nickel steel ring around the top and two nickel plated screw draft registers.

The smaller size of this stove will comfortably heat a large size room or two smaller rooms, whereas the large size is suffcient to handle a very large room. These stoves should not be considered in the class with the many extremely small oak stoves on the market which are really too small to do any good. We particularly call your attention to the fire pot measurements.

Price of Boss Windsor. Securely Crated:

Shipped promptly from stock at Chicago

Quality considered, we have never been able to offer such a value for so little money as you will find in the CUBA WINDSOR

THE Cuba Windsor is the result of most careful figuring, in the manufacturing way, on our part. Our object was to build an oak stove, for any fuel, in a plain, yet attractive design, a stove of real merit and yet sell it at an extremely low price.

AT the prices quoted, we know the Cuba Windsor will meet with an enormous sale. Therefore, the size of our order is intensely interesting to the manufacturer. His price to us enables us to make these attractive prices to you.

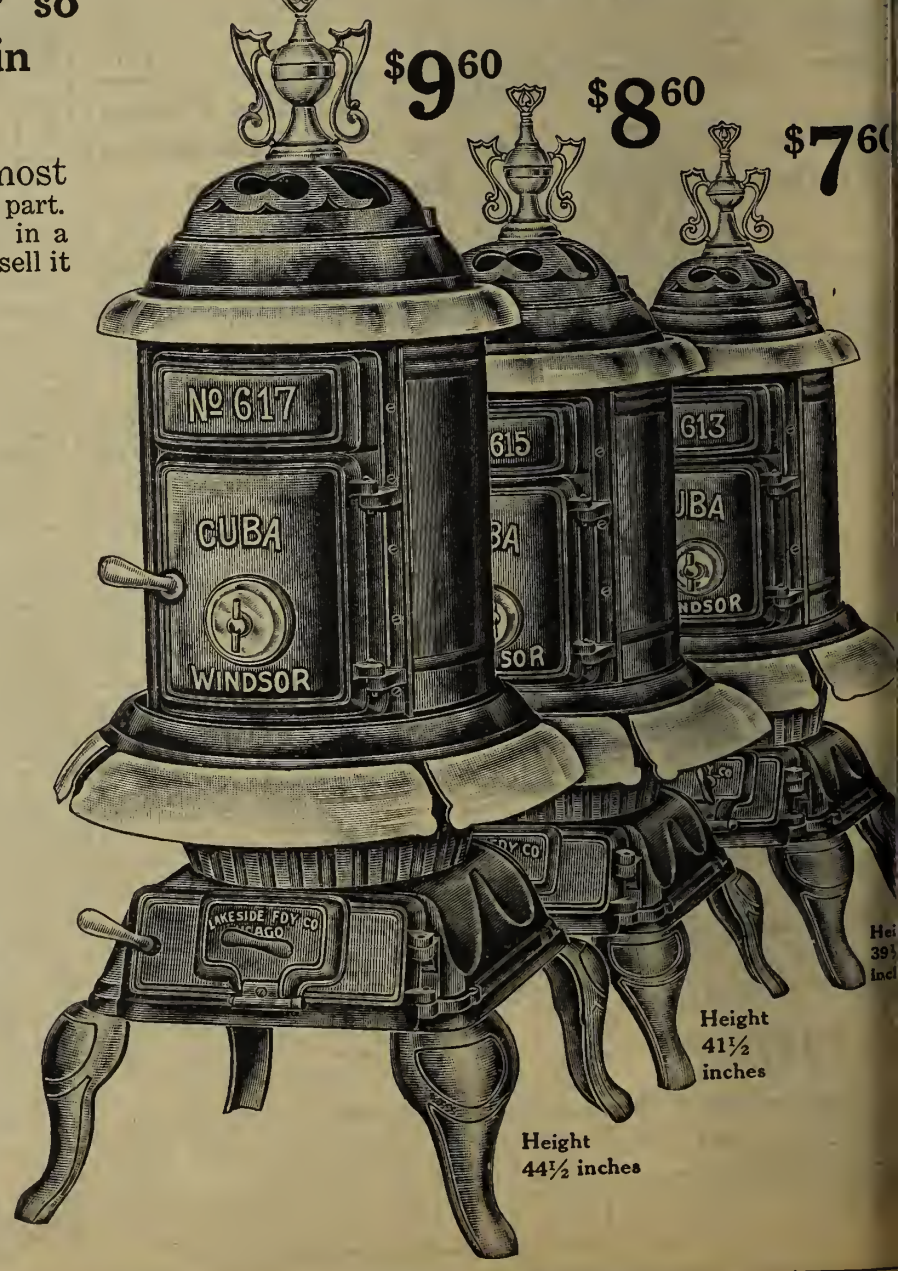
The Cuba Windsor is not a cheaply built stove in any way, shape or manner. In quality it is in the same class as all medium grade oak heaters in this Catalogue. All in all, we consider it one of the best purchases we have ever made in our stove department. We not only have perfect confidence in the stove itself, but in the stove company that makes it for us. We are only too glad to put it out under our broad guarantee. If you are not perfectly satisfied with the Cuba Windsor in every way, you are at liberty to return it at our expense. We will gladly refund your money and pay freight both ways.

The quality of steel used is of a heavy medium grade, a grade very seldom found in stoves sold at these prices.

The entire front is made with a heavy cast iron frame. Every door is made to fit tight. This means that it will hold fire. All registers screw up perfectly tight.

The grate in the Cuba Windsor will handle both coal and wood to your perfect satisfaction. The bottom is made of heavy cast iron. All joints fit tight.

All of the nickeled parts are perfectly smooth. Smooth nickel does not catch any dirt.



We want you to feel perfectly free to send in your order and your money with the understanding that you have not only the privilege of examining this stove but setting it up in your home for sixty days and testing it out thoroughly. If it does not meet your requirements in every detail send it back. We will gladly refund your money and pay the charges both ways.

Cuba Windsor

Most Inlaid Linoleums come 6 feet wide. We have a 12-foot width also

Smoke means money lost—Burn it and save coal

$6.45 and Up

THE Apollo Windsor and the Caloric Windsor are heaters of the type known as hot blast, the principle of which is down draft. Through a cast iron tube in the center of the top of the stove, cold air passes into the stove. The heavy black smoke is forced down against the fire until the gases are burned. Soft coal gas contains heat. The hot blast turns this smoke into heat. Black smoke rolling out of your chimney is a good sign that heat is going up in the smoke. Turn all soft coal smoke into heat. It pays.

The **Apollo Windsor** is a hot blast heater with a refined steel body and bottom, **double seamed together.**

Coal is fed through a lift-up door in the cast iron top. The ashes are taken out of the lift-up door in the bottom. To successfully burn all the gas from soft coal, a hot blast heater must be perfectly tight. This means more heat, from less coal. Better still the **Apollo Windsor** will burn the lowest grades of soft coal, such as slack, lignite and siftings. A big saving with ordinary soft coal but more so if you can secure the lowest grades.

The **Apollo Windsor** is a type that has become widely known and very popular. The **Apollo Windsor** has a draw center grate and deep ash pit. The swing cover, name plate and ash pit door are all nickel-plated as is also the case with the steel foot rail which runs around the stove.

The **Caloric Windsor** is the highest grade type of hot blast made to-day. The body is of heavy steel, fits perfectly tight into a large corrugated cast iron fire bowl.

These two large rings, one nickel-plated, throw the heat to the floor, just where it is wanted.

The entire bottom is made of cast iron. Takes a large size ash pan. Nickel-plated screw drafts and door, when closed, are absolutely air tight. The base is steel. The entire top is cast iron. Has a lift-up door for feeding coal. Swing cover is nickel-plated.

The **Caloric Windsor** is a very attractive stove. For a smoke consumer, burning every grade of soft coal, even siftings, lignite and slack, it has no equal. You will secure every bit of heat out of every pound of soft coal you use. Why let smoke escape? Burn it. Cut down your coal bill. No. 14 has only one screw draft in door.

PEOPLE, **who know,** are demanding stoves that heat the floor. If the floor is warm, the balance of the room is ound to be. The **Elite Windsor** is a low style of coal and ood stove. We have never seen its equal for throwing eat to the floor.

Body: Is made of highly polished steel bolted ght to a heavy cast iron base and a heavy cast on top. The four legs are smooth mission design, crevices or scroll work to catch dirt.

Fire Box: Has heavy cast iron linings all around. o danger of burning out the steel. Is fitted with uplex grate, one side for coal and the other side r wood. Fire box is economical on coal and yet very satisfactory size for wood. This Elite indsor will burn hard or soft coal. For corn bs, coke or big knots or roots of wood, no heater ill equal it. In addition to the front door there the large swing top which saves splitting of large unks.

Pipe Collar: Is reversible. Pipe can be arranged go straight up or run back, as may be desired. llows setting the stove out further into the room an with an ordinary oak stove.

Ash Pit Door: Has two screw draft registers. e are firm believers in this style of register. They can be screwed up perfectly air tight. We do not consider any stove worthy of the name Windsor unless it holds fire perfectly. A nickel-plated extension which hooks onto the base to catch any ashes which might fall out when taking out the ash pan.

Side Wings: Plain design, highly nickeled, but very attractive. Highly nickel-plated which together with the nickel-plated ring around the top makes the Elite Windsor a very attractive stove.

In making this heater, it was our intention to make the most perfect floor warmer possible to build. The large number of purchasers of the Elite Windsor has shown us that we have accomplished our purpose.

The Elite Windsor is not a small stove by any means, as its measurements will show you. It is not intended to be a make-shift in any sense of the word. It will do the work as well as any oak stove.

YEAR after year the Palace Base Burner has been displayed in this catalogue. Its sales have run away up into the thousands. Every one sold has sold others. A quality base burner must be absolutely air-tight. It costs money to build them. Of course you can buy base burners at almost any price. You can buy *one* quality *only* from us—the best—priced as low as we can consistently make it and yet sell you a perfect fitting base burner. We have never bought a base burner on price alone—and we never will.

Palace Windsor
$29.90

Details of Construction

Flue Construction: Is the circular type. The cold air is taken in from the floor at the back of the stove. Passes up behind the fire, becomes intensely hot and then passes out through the register at the top. The heat and smoke from the fire passes down to the base of the heater around the base, until all heat gets out into the room. The smoke then passes up the center flue and into the pipe. You can fully realize what the construction of the Palace Windsor stove is only by using it in your home.

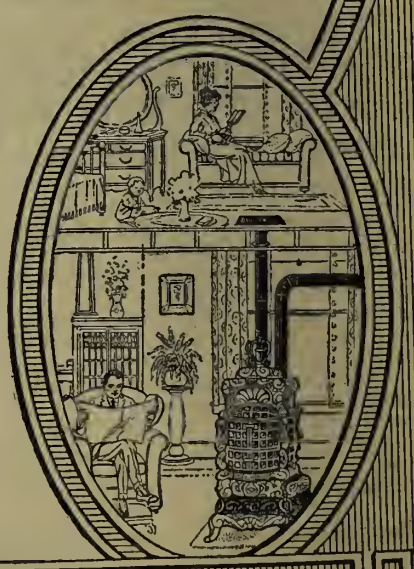
Hot Air Flue: Back of the swing top is a flue which can be connected with a pipe and run to an up-stairs room. No smoke goes up this pipe, just heated air. Just the very thing to heat a bedroom or bathroom up stairs. The register requires 7-inch pipe.

Fire Pot: Is of pure gray iron. Exact measurements given (don't overlook this). Made to last a long time. Easily replaced if it burns out.

Grate: Is our regular heavy Duplex in the center of a shaking rim, as used in all Windsor Base Burners. Together they enable a through stirring of the fire with the least amount of live coals getting into the ash pan. The grates are exceptionally heavy.

Ash Pit: Is made extra deep to prevent ashes from coming in contact with grates, the very cause of their burning out.

Mica Doors are fitted by hand, perfectly air-tight. Ground so that the thinnest paper could not be pulled out of the door when shut. A leaky door in a base burner is not only dangerous, but makes your stove burn more coal.



Castings are all of A1 grade. No pit holes of any kind will be found. Every piece is perfect or it does not go into the stove. This is very noticeable on the nickel-plated parts on the Palace Windsor.

Dampers: Every one is fitted by hand to be perfectly air-tight. Leave your fire at night or whenever you care to, and when you come back, even after 24 hours, you will find it in perfect condition. With the Palace Windsor this will not only be the case the first year but it will be exactly the same in fifteen years from to-day. This fitting is what costs money, but it is very important in a base burner.

Nickel-plating may look like plating on other stoves, but after you have seen both in use for a number of years, you will see why we are so particular about extra heavy plating.

Delivery: Size 213 is carried in stock at St. Paul, Minn., at Chicago and near Buffalo, N.Y. Size 215 is carried in stock only at St. Paul, Minn. and at Chicago. Size 217 is carried in stock at St. Paul, Minn., Chicago, Ill., Fargo, N. Dak., Hannibal, Mo. and near Buffalo, N.Y. This means low freight charges. More than this, we will ship immediately, because we have the stoves in stock. Don't put off purchasing your stove until the last minute. It doesn't pay, but if you should do so you can depend upon us for prompt shipment.

Try a Palace Windsor in your home for 90 days. If it doesn't satisfy you in every way send it back to us.

Be sure to see the wonderful new TABLE-BED, on our furniture pages

THERE is only one way for *you* to know what any base burner will do. Set it up in *your* home for ninety days. Try it out during the bitterest cold weather. See how much coal it uses. See if it keeps your home cozy and comfortable without incessant poking and shaking. A real quality base burner will talk for itself. See if it holds fire perfectly overnight. A good base burner is absolutely air-tight. It costs more money to make them so. You are welcome to try a **Grand Windsor.**

The Grand Windsor

King of Base Burners

Details of Construction

Flue Construction: Is the same style that has been used by the manufacturer for over fifty years. Cold air is drawn in from the floor, heated, forced to the base of the stove, then around the base from which point it passes up through the back of the stove to the top. The largest volume of heat in this stove comes out from under the nickel base at the floor, just where you want it.

Fire Pot: Is of pure gray iron. Exact measurements given (don't overlook this). Made to stand the hardest usage in the coldest weather. Easily replaced if it burns out.

Grate: Is our regular Heavy Duplex in the center of a shaking ring. Together they enable a through stirring of the fire with the least amount of live coals getting into the ash pan. The grates are exceptionally heavy.

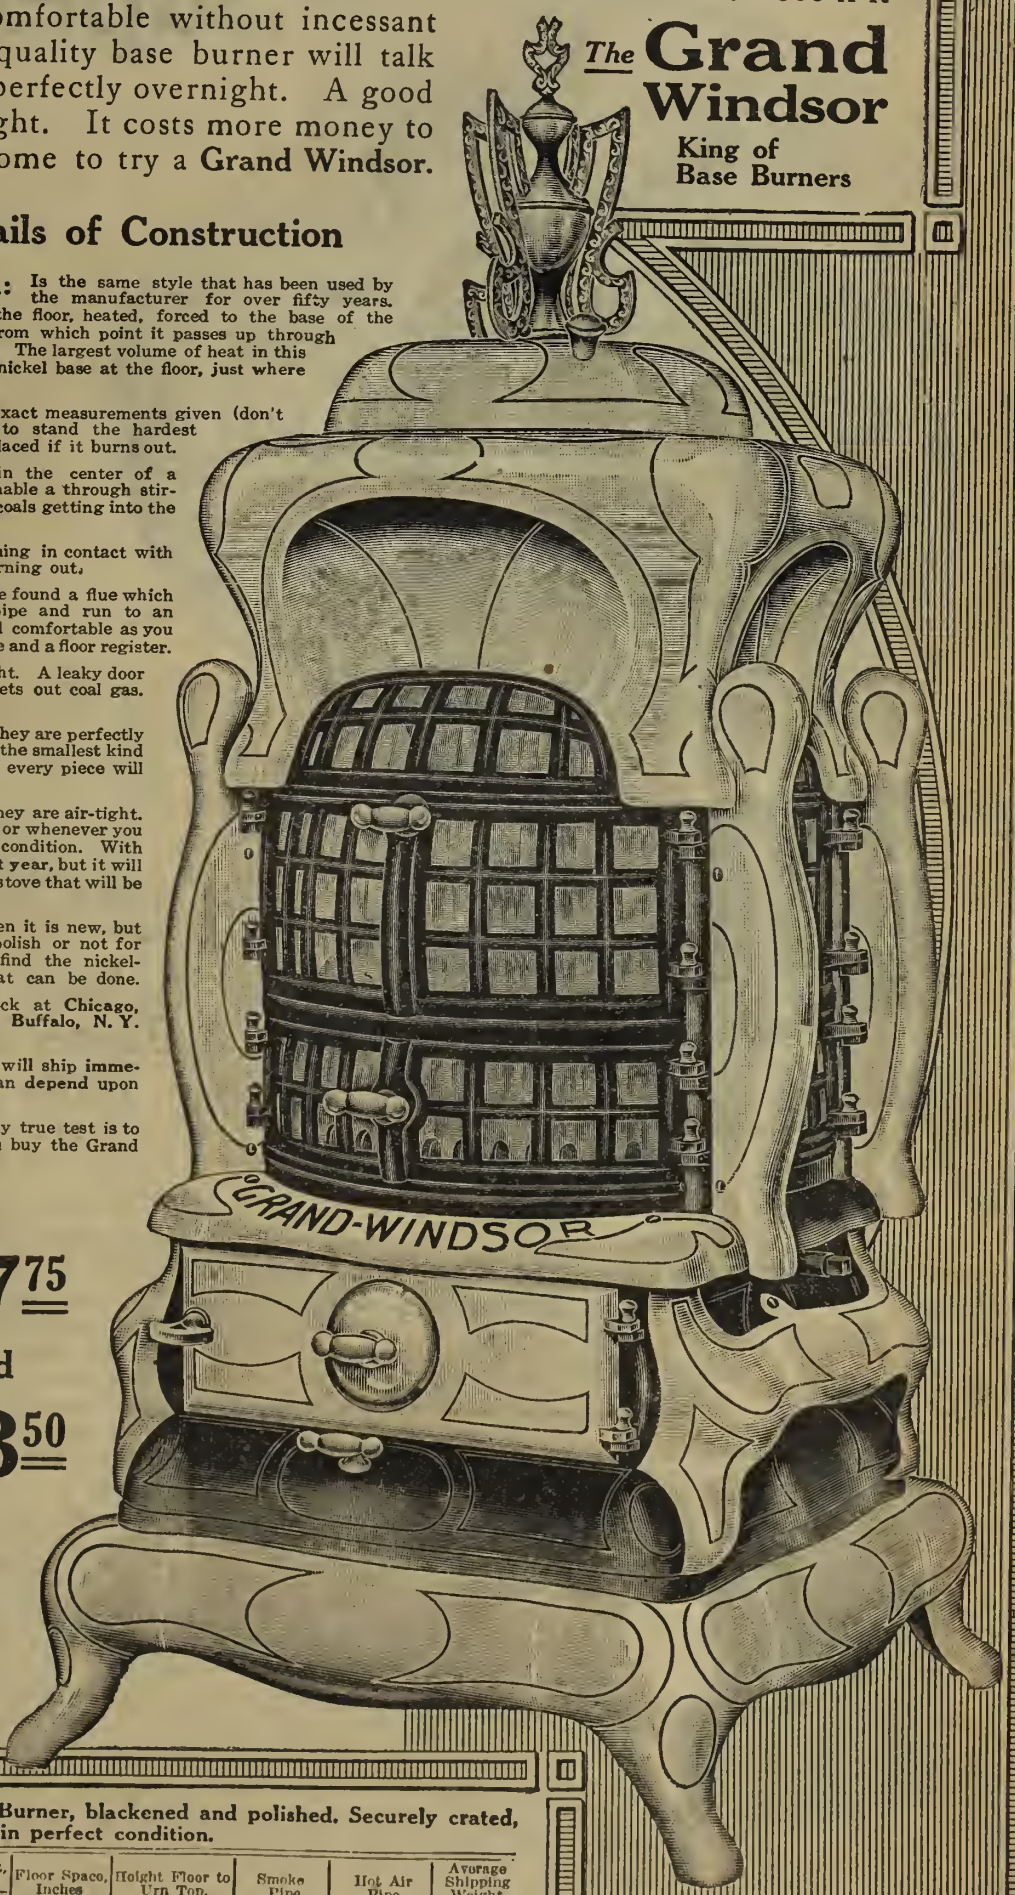
Ash Pit: Is deep; keeps the ashes from coming in contact with grates, the very cause of their burning out.

Hot Air Flue: Back of the swing top will be found a flue which can be connected with a pipe and run to an up-stairs room. Will make such a room as cozy and comfortable as you can possibly ask. All you need is some extra 7-inch pipe and a floor register.

Mica Doors are fitted by hand perfectly air-tight. A leaky door in a base burner is dangerous; lets out coal gas. An absolutely air-tight door saves coal.

Castings are all of a very high grade, which means they are perfectly smooth. You will find no pit holes of even the smallest kind in any of the nickel-plated parts. We assure you that every piece will be perfect.

Dampers are ground so that when they are closed they are air-tight. This enables you to leave your fire at night or whenever you care to, knowing that for 24 hours it will be in perfect condition. With the Grand Windsor this will not only be the case the first year, but it will be **exactly** the same **fifteen years** from to-day. This is a stove that will be absolutely tight every day you use it.



Nickel-plating: All looks alike at first. It is when it is new, but whether it holds its beautiful polish or not for years to come depends on how it is put on. You will find the nickel-plating on this stove to be the equal of any plating that can be done.

Delivery: We carry the Grand Windsor in stock at **Chicago, St. Paul, Minn., and at factory near Buffalo, N. Y.** We ship from the point nearest to you.

This means low freight charges. More than this, we will ship immediately because we have the stoves in stock. You can depend upon us for prompt shipment.

Many base burners look alike. Don't forget the only true test is to **put one in your home and satisfy yourself.** You buy the Grand Windsor with this understanding.

At last a hard coal Base Burner of the highest quality at prices away down low. Don't overlook the

Superb Windsor

Front and Right Side View

Detailed Construction of our Superb Windsor

Fire-Pot is heavy, strong and durable. Easily removed, when necessary, through the front of the heater by removing the front frame.

Grate is the improved combination **shaking** and **duplex pattern** which we have found cannot be excelled in a **hard coal base burner**. The shaking ring makes it easy to clear out the ashes and clinkers. as by shaking it to the right and left they are brought to the duplex center, from where they are easily dumped into the ash-pan below. Leaves a clear, live fire.

Dampers are well constructed and fitted. Easy to understand and operate perfectly. Direct Draft Damper, Check Damper and a Draft Slide Damper in ash-pit door.

Self-Feeding Magazine is strong and well made and has an automatic top cover. Large in size; saves filling often.

Hot Air Circulating Flues are two in number: one located at each back corner of the main bottom, extending into the **Hot Air Chamber** in the **Nickel-Plated Dome.** The cold air is drawn from the floor into these flues and passing upwards along the back of the fire-pot and magazine it becomes intensely heated and is then discharged into the room by circulation through the ornamental cap on main top.

Automatic Cover which is under the Swing Top Cover, fits tightly and does not allow the escape of gas or dust.

Mica Doors are large and eight in number. Permit full and free radiation of heat and a bright and pleasing illumination. In appearance this heater is much more imposing and elegant than other medium priced heaters.

Nickel-plated Parts are as follows: Nickel-plated Swing Top Cover; Large Carved Deflector Dome; Artistic Side Wings; Name Plate; Foot Rails and Brackets; Leg Base and Legs; Turn Keys, Knob and Hinge Pin Tips.

Double Heater Attachment is a very valuable addition to this stove. Enables you to heat the room or hall above where the heater is placed without extra cost of fuel or extra work. Just attach a 6-inch pipe to the Hot Air Circulating Flue at the back of the Nickel-plated Dome.

The **Economical Heater** is the one that gets the most heat from a ton of coal. There are none better made, for the price, than our Superb Windsor. Start your fire in the Fall; there is no necessity for it to go out until Spring, if you regulate the dampers correctly. You can have a big volume of heat or it can be checked down as low as you wish.

Parlor Windsor

$15.75

A wood burning Base Burner

The Parlor Windsor is a wood stove with a Full Return, or Base Circulating Flue which heats the floor like a Hard Coal Base Burner. All doors and dampers are tight fitting. Perfect control of the fire at all times. You can regulate it to burn continuously, day and night.

The square, cabinet style body is built entirely of strong, durable stove plate cast iron. No stove of similar type has a larger amount of direct radiating surface. The fuel is fully burned, none wasted. Uses a small amount of fuel. The flat main top is removable, and has two 8-inch Cooking Holes, which will be found very convenient for heating water, flat irons, or for use with cooking vessels. A very heavy durable stove. No better wood heater could be made.

Will burn large size chunks (will not burn coal). The Parlor is the most solid, substantial wood stove possible to build. It is, in every way, a high class wood stove. It is a very massive stove, costly to build but one that will last for life.

Price for Parlor Windsor, Nicely Blackened and Polished, Securely Crated.

Parlor Windsor Stoves are shipped promptly from stock at Chicago or warehouse near Buffalo, N. Y.

A hard coal Base Burner built especially for the Northwest

$19.80

The Golden Windsor is a plain colonial design of self-feeding hard coal stove, built in exactly the same manner as our highest priced base burners. Not a single cent has been spent for trimmings. It is just a **plain every day** stove. Every joint is as tight fitting as it is possible to make it. Its price is low but it is **not** a cheaply made stove in any way.

Large mica doors. Removable fire bowl. Self-feeding magazine. Tight-fitting joints and doors. Cast iron elbow. Automatic swing cover, prevents the escape of gas. Well constructed dampers, easy to understand and operate. Deep ash pit, saves the grate from burning out. Has our regular style of Duplex grate and shaking ring, the greatest disturbers of clinkers ever known.

This coal stove is made especially for the Northwest States. For many years we have sold it from our St. Paul warehouse and it has given splendid satisfaction. You are welcome to try it and satisfy yourself under our broad stove guarantee.

Water Heaters

For Circulating Boilers

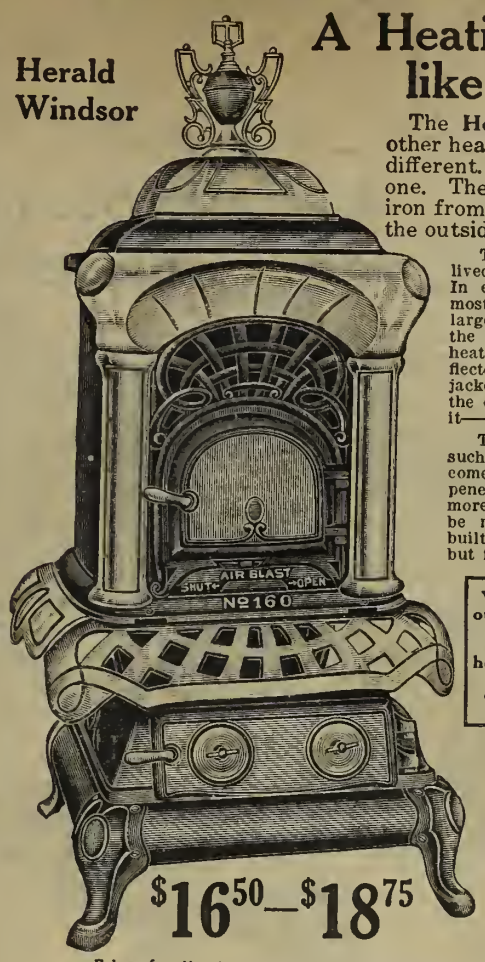
These small size Water Heaters are very effective for use with circulating water boilers. When your furnace or heating plant is not running, one of these Water Heaters will give plenty of hot water at all times. Are also very useful for washday and ironing day.

The **Little Wonder Water Heater** is fitted with a sectional water back in back of fire bowl. Easily detached, cleaned or repiaced. Top is 21x22 inches. Four 8-inch lids. **Height,** 23 inches. **Diamcter** of fire pot, 11½ inches. Threaded for ¾-inch water pipe. Takes 6-inch stovepipe. Steel base with cast iron iegs. Heats thirty gallons of water per hour easily. Just the thing for ali kinds of laundry work. Plenty of heat and plenty of hot water.

268C5450—Stove No. 50; shipping weight, 125 pounds.. Price **$8.00**

Shipped promptly from stock at Factory near St. Louis, Mo.

The **Mogul Windsor** shown here, Number 34, is only one of three styles of this stove.



No. 3 is a very similar stove to this one, only with the exception that it has a two-hole top, but No. 7 is not in the same class. It is a much larger heater, built a great deal stronger in every way, with an exceptionally large fire pot and is capable of heating sixty gallons per hour, whereas the other two **Mogul Windsors** will only handle thirty gallons per hour. No. 7 is what we consider the best water heater possible to build. All sizes require 6-inch stovepipe and are drilled for ¾-inch water pipe. Never put fire in a water heater until water connection is made.

Prices for Mogul Water Heaters, blackened, polished, securely crated.

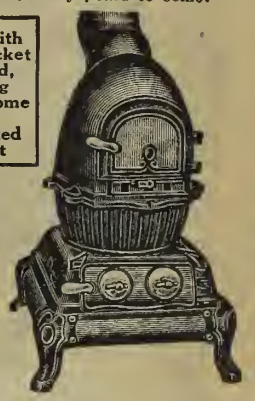
A Heating Stove built like a furnace



The **Herald Windsor** may look like other heating stoves but is built entirely different. It is really two stoves in one. The inside body is of heavy cast iron from top to bottom (see cut below) the outside is a jacket of steel and iron.

The **Herald Windsor** is the iongest lived soft coal stove possible to buiid. In every way it is fitted just like the most expensive furnaces. Notice the large deflectors on sides and front throw the heat on the floor. You can feel the heat two feet away from the big deflectors. By the use of the double jackets the cold air is drawn in between the outer jacket and the fire pot, heating it—then throwing it out.

The **Herald Windsor** will give you such satisfaction that when Spring comes you will wonder how you happened to have so much coal ieft. A more economieal stove on fuei could not be made. Very plain in design, but built for hard work—not only this year but for a great many years to come.

View with outer Jacket removed, showing heavy dome and corrugated fire pot

Prices for Herald Windsor, nicely blackened and polished. Securely crated.

Articlo Number	Price	Stove Number	Diam. of Fire Pot, Inches	Height Floor to Urn Base, Inches	Shipping Weight, Pounds
268C5464	$16.50	140	13½	44¼	235
268C5465	18.75	160	15½	48	280

Shipped promptly from factory near St. Louis, Mo., only.

FOR soft coal sections where a large, cast iron stove is wanted to throw out an enormous amount of heat, we recommend the **Chief Windsor.**

It is a very massive, heavy stove—made to stand exceptionally hard usage. For heating schools, churches, stores, depots, etc., we particularly call your attention to the largest size, the No. 22. This large size will heat any space that can possibly be asked of any stove.

In the **Chief Windsor** you will find a large variety of sizes—from the size to heat the smallest room to the Number 22, which will heat the largest store. This gives you the opportunity of securing the exact size for your purpose. If you are in doubt about the size, write us.

The **body** of the **Chief Windsor,** in fact the entire stove, is made of the best grade of gray iron. Doors aro all ground to fit. The **Fire Bowl** is exceptionally heavy, and at any time it burns out, which will not be very soon cousidering the weight of this firo bowl, it can be very easily repiaced. The **Grate** is built very strong and heavy like a furnace grate. The **ash** pit is extra deep so that there is no danger of ashes banking underneath the grate burning it out, unless they are allowed to run over. The large **slide feed doors** are an exceptionally good feature—easy to put in large chunks of coal, also can be opened wide to cool off the stove quickly. A very important feature in an all cast iron stove. On the top will be found a hole and a lid that can be used for cooking.

We want to call your attention particularly to the fact that the measurements given below are **exact measurements.** Take a word of advice from us—**Don't buy one too small.** A small stove crowded to the limit all the time, will burn up far more fuel than a large stove running with an ordinary fire.

The **Chief Windsor** is not sold on its looks. It is the best stove of this style, possible to build. We know that nearly all **Chiefs** which leave the factory go into exceptionally hard usage, and fully realizing this, we have determined to make it a heater that will stand up under any service.

Our many years in selling this heater and the many satisfied customers has proven what the **Chief Windsor** will do. The **Chief** will burn soft or hard coal, wood or cobs.

The Cable Windsor is a well made, small cast iron heater. It is built on the same principle as our **Chief Windsor,** only on a much smaller scale.

Has front feed, door register, check draft. Entire stove from top to bottom is made of the best grade of gray cast iron. Will burn hard or soft coal, corn cobs or wood, but is especially adapted for the burning of soft coal.

The **Cable Windsor** is a very plain stove. Not one single cent has been spent for nickel trimmings. it is simply a plain stove with real quality behind it. The price is **extremely low.** Considering the fact that it is made **entirely** of cast iron, it is a stove that will give its users splendid service for the extremely small amount paid. In buying any cast iron stove, don't fail to get one size larger than you really need. We tell you this so as to help you save fuel.

WINDSOR HEATING

A Wood Stove That Will Have the Greatest Consideration for Your Woodpile

Rosemont Windsor With Diving Flue

Many people have the idea that a wood stove i just any old kind of a stove that will hold wood and that it doesn't mak much difference.

It is true that it doesn't take much of a stove to burn wood, but how about the amount burned? Where people have their own wood and all they have to do is to go out into the bush and cut it, it is only natural for them not to consider the fuel cost. Even if this is your case, isn't your labor worth something? You certainly don't want to cut one-third more wood than you have to, do you? This is just exactly what you do if you buy a wood stove without a diving flue.

If you buy your wood and use an ordinary wood stove, without a diving flue, **your stove is costing you just one-third more for fuel than it ought to.** When people burn hard coal, they generally burn it in a base burner. A very expensive stove to buy, but one that is used solely because **it saves fuel.** Hard coal is generally so high in price. People are anxious to save it, but when they burn wood, they don seem to pay much attention to the fuel cost just why, we never have understood.

The diving return flue type of a stove, such the **Rosemont Windsor** is, might properly be calle a wood burning base burner. The heat mu travel down the side flue, around the entire botto and up the other side, before it can get o of the chimney. The real place to get heat o of a stove is out of the base. The lower dow the heat comes out, the better it will heat t room. No doubt you have often been in a friend house and found the room to be fairly comfor able, but the floor was cold and you couldn keep your feet warm. Your friend was, no doub burning plenty of fuel, and even more than nece sary, but his stove wasn't throwing the heat dow to the floor. **Too much fuel money going up t chimney.**

The Rosemont Windsor is not an original design; almost every stove manufactur in the country builds one. For years they have been called the Todd Stove. A mo perfect style of burning wood stove was never built. We welcome your comparis our stove of this pattern with any other. Don't overlook the fact that the **Rosemo Windsor is built with the diving return flue.** Some stoves of this style are not.

Body is of smooth hammered, polished steel; thoroughly protected from the fi by heavy cast iron linings. Has reversible collar, can be set for pipe straight up to run at right angles. Swing nickel plated top. Flat top has regular cook stove li Entire front and back of heavy cast iron. A handsome stove, but best of all most economical wood stove on the market today. Don't forget that some stoves this pattern have no diving flue. The **Rosemont Windsor** has such a flue.

Pine Windsor $2.85 and up

Steel Lined Inside

Steel Wood Burning Air-tights Burns Cheap Fuel and Little of It

The **Pine Windsor** is one of the most satisfactory air-tight heaters made. Will burn wood, knots, roots, chips, shavings, corn cobs, in fact anything burnable, except coal or coke.

Positively air tight—lined with sheet steel. An air-tight heater will heat up a room quicker than any other heater made. The screw draft in front enables you to lock it up tight, control the fire and keep fire perfectly over night. A hot blast draft allows the air to pass through a tube on the inside. This air becomes very hot before it strikes the fire. Cold air chills a fire. **To chill a fire means more fuel burned.** To cool the Pine Windsor, open the check draft damper alongside of pipe collar.

If desired, we can also furnish the same stove without the nickel-plated foot rails. Deduct $1.00 from sizes No. 337 or 437, and $1.40 from size No. 537. Prices given below include foot rails.

Prices for Pine Windsor Air-tight, Polished Steel Body, with Foot Rails. Securely Crated.

Cedar Windsor

Steel Lined Inside

Want a Stove to Heat Up in a Hurry? Buy a Cedar Windsor!

A very inexpensive steel air-tight. Burns all fuels, except coal or coke. A much better heater than is to be found in the general run of stores. Can be locked tight by screw draft. You'll find it to be a big mistake if you buy too small a size. Poor policy to have to crowd a stove. Don't overlook the fact that the **Cedar Windsor** is steel lined. Many of this style of air-tight are not lined at all.

Prices for Cedar Windsor Air-tight. Securely Crated.

Cherry Windsor the Lowest Priced Wood Heating Stove Made

Will outlast two unlined heaters of this type. Will give excellent satisfaction. Very convenient and economical for heating small rooms. This Heater is built with four legs. Most stoves of this type use only three.

It is made of sheet steel, with an inside lining half way up. Do not compare this heater with those not lined. The Register Draft is absolutely air-tight and the heater will respond very quickly to the slightest amount of fuel. Pipe collar is 3 in. below top of urn.

Stop Here—If You are Looking for a Wood Stove

The **Dixie Windsor** is the greatest selling wood stove in this catalogue. Manufacturing it in such large quantities gives us an extremely low price. We give you the benefit of it. Look over the dimensions of this stove very carefully. You will be surprised at being able to secure such a stove for such a price.

The Dixie is without exception the greatest bargain we are able to offer you in a wood stove. The prices are well within the reach of everyone, and a splendid stove you will get for your money —one that we feel sure you will be well satisfied with.

Has large swing top, cast iron. Cast iron front, back, ash door, heavy cast iron bottom and legs. Nickel-plated screw draft. Body of smooth polished steel. All sizes take 6-inch pipe. The number of the stove shows length of wood it will burn. For instance, stove No. 22 takes 22-inch wood, etc. Large feed door for big chunks.

Shipped promptly from factory near St. Louis, Mo.

STOVES FOR WOOD

HERE is a wood stove built for your comfort. The **Delight Windsor** is an exceptionally well made wood-burning heater. It is primarily designed for wood. Will not burn coal.

You will note that it is a long-narrow stove; made long for the purpose of taking long wood; made narrow to throw out the largest volume of heat.

The most successful wood stove possible to make is the one that enables its user to have the deepest fire possible. It is this kind of a fire which throws out a steady heat and burns the smallest amount of fuel.

Where is the man, woman or child who does not like to sit around a crackling wood fire on bitter cold winter evenings? Style says you shouldn't put your feet on the stove. Comfort says that is the place for feet. Don't overlook the special shaped foot rail on the **Delight Windsor.** We had your winter evenings in mind when we designed it. We are the originators of it.

Delight Windsor

$6.95 and up

THE body of the Delight Windsor is made of a good grade of refined steel, which will last. This heater is not intended to be a heavy wood stove. It is plenty heavy enough for any average purpose. You will find this wood heater to be as satisfactory as any wood stove of this style possible to buy.

Entire end top, feed and ash doors are made of cast iron. Air is regulated by screw draft, which can be screwed perfectly tight; holds fire perfectly. The front feed door is not only large, but in addition, the entire top swings off, taking the largest sizes of chunks; saves splitting. The cast iron swing cover is of new design, handsomely nickel plated as is also the foot rail. The entire bottom and legs are of cast iron, of a weight that will give splendid, lasting satisfaction. All sizes take 6-inch pipe. Stove number designates the length of wood which Delight Windsor will take.

What good is a wood stove unless it will let you ean back in your chair while doing your knitting r reading your newspaper, and have your feet on ie foot rail. When your day's work is done you ant to get just as comfortable as possible, don't ou? You'll find the Delight Windsor will suit you a "T".

Notice the big foot rest

The above shows a larger view of the foot rail on the **Delight Windsor.** Just the right curve to fit the shoe so that your feet rest on it with perfect comfort. This may seem like a small feature, but when you have the stove in your home and try it out, you will realize how much it adds to your comfort.

Live Oak Windsor

$7.45 and up

Two Up-to-date Patterns in Wood Stoves

Maple and Live Oak Windsor Heaters are built solely for burning wood. They are as heavy and as well made as anyone could possibly ask in a wood stove. The prices are bound to be interesting, considering the quality of the stoves themselves. These heaters are exactly the same, with the exception that the Live Oak has a cast iron end door.

Almost any kind of a stove will burn wood in some manner or other. A really perfect operating wood stove must be of tight construction and at the same time must have draft doors that can be opened wide, if so desired. Our idea in building these two wood stoves was not to build the cheapest stoves possible, but to be able to offer two perfect working, wood stoves. When the fire is almost out, the large doors can be lifted up and the fire will be roaring in a very few minutes. On the other hand, if the drafts are closed, they close air tight, thereby holding the fire, and saving fuel.

Both of these heaters have steel bodies, heavy cast iron tops, bottoms and nickel-plated foot rail. Screw Draft Register on draft door enables you to change a slow, dying fire to a roaring one in a few seconds. Nickel-plated swing cover. Furnished with or without cast iron linings. The **Live Oak** and **Maple** are two sturdy, well-made, plain wood stoves. They are not built to meet competition from the flimsy, light stoves on the market.

On the **Live Oak Windsor,** in addition to the end door, the entire top swings off, to take large chunks. The design is neat—no scroll work to catch the dirt. A very attractive wood-burning heater, which will give you splendid satisfaction.

Large, cast-iron door in end, ground to fit tight. If wanted with full set of cast-iron linings throughout, add 50 cents to prices given.

Fuel is fed into the Maple Windsor entirely through the swing top. Body fits perfectly tight to the cast-iron top and bottom and makes a splendid heat holder. A very attractive wood heater at a very attractive price. Add 50 cents to prices given, if wanted with full set cast-iron linings. Makes the stove last much longer.

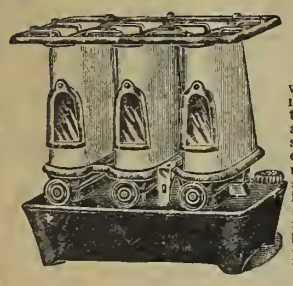
THE city housewife cooks

with gas—why? Because it saves her work and helps her get through quicker. It keeps her kitchen cool in summer.

The **Blue Flame Kerosene Wick Stove** of to-day, is the gas stove for those housewives who have no gas. The **Ever Ready Wick Stove** will do anything that your range will do and do it quicker and with less fuel. Housewives who have an **Ever Ready** use it almost exclusively Only once in a while do they use their coal and wood range. The oil stove heats up much quicker. Saves waiting for any fire to burn up. No drafts to watch—no dirty coal, wood or ashes to bother with. Why use a fuel that causes extra dirt—it means extra work.

There are many grades of oil stoves. If you expect yours to operate as perfectly as the best gas stove, buy a good one. May cost a little more at the start, but its daily work after years of service will tell the tale. A good wick oil stove is a blessing in any kitchen. A poor one is far worse than none at all.

Description of the Ever Ready Windsor Blue Flame Wick Oil Stove



Heavy steel body, ends and back in one piece. Pressed steel bottom shelf and top. Cast iron legs. Glass tank, so you can see the oil. Will not break from ordinary drop on the floor. Handy bottom shelf for vessels and sad irons; also holds frame very rigid. High shelf has cast iron ends; nickel-plated rolled tube in front. Shelf is 9½ inches deep.

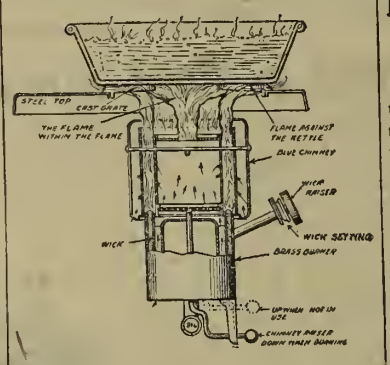
Chimneys are of blue porcelain. Flame touches the cooking vessel. The burners are seamless brass. Do not overlook this fact; brass is the most expensive material possible to use for making burners, but it lasts. One gallon of kerosene will run one of these burners 20 hours. A more economical stove was never made. Brass indicator regulates the wick—impossible to turn too high or too low.

Finished in high gloss snow flake white Japan; the most beautiful finish possible to use on an oil stove. To clean, simply wipe off with a damp rag. Together with the blue chimneys, black tops and shelves, the **Ever Ready Windsor** makes a handsome stove. For description of oven, see oven number 15 on next page.

The **Ever Ready Windsor** has a very rigid body built to stand the hardest wear and give the longest lasting satisfaction. It is a stove that will certainly pay you well in the long run.

The oven shown here is the best possible to build. Has polished steel body. 3 glass panels set in blue porcelain. Peep holes to see fire. You'll find it a perfect baker. Inside measurements 18x13x12 inches.

Lamp Stoves



Very handy where quick heat is needed. Where there is a baby or anyone sick, these stoves are indespensable. Easily regulated. Three sizes, all 8½ inches high.

For Quick Heat Always Look for the Short Chimneys

The short chimneys on all Windsor Wick Oil Stoves bring the fire in contact with the bottom of the vessel. This is not true with other chimneys. The best demonstration to prove the value of the short chimney stove over any other chimney is to try and boil water in an open vessel. It can only be done on the short chimney stove. This demonstrates, beyond any question of a doubt, that this style of burner, such as used on our Windsor Wick Oil Stoves, gives the hottest blaze. More than that, it produces this heat with far less oil, because it consumes a much larger percentage of air. This is a feature to consider carefully. Let us put a **Windsor Wick Stove** in your kitchen on trial. Satisfy yourself that it will meet your requirements fully in every way. If it is not superior to all other stoves of this kind, send it back; we will gladly refund your money and pay the charges both ways.

Wicks and Carrier

For Windsor Wick Oil Cook Stoves. Wicks for use on Windsor Wick Kerosene Oil Stoves are fitted with a perforated carrier.

In ordering Wicks for Windsor Wick Stoves, do not fail to give the number of the stove. It impossible for us to fill your order without this number, inas much as there are two styles Windsor Wick Stoves.

You will find the name of the stove on a nickel plated pla which is on the front of the stov In some cases the number is als given here. If not, it will found on a brass tack at the en of the stove. Be sure to give bo number and name.

Quick-Action Windsor Wick Oil Stove

Finished in Royal Prussian Blue Japan or Black Japan. Specify which desired.

A Model of Kerosene Wick Oil Stove or Legs at an Extremely Low Cost

The Quick Action Blue Flame Wick Oil Stove shown here is exactly the sam principle as a large number of stoves of this kind on the market, all of which a known as the Skeleton Frame.

The construction of all oil stoves with a skeleton frame is such that the cost of manufactu is considerably less than where a solid frame is used. You will find that the majority of stoves on the market today are the skeleton type of stove. It is a style that can not compared with the heavy frame of the **Ever Ready Windsor Stove**, as shown above. The skelet frame of the **Quick Action Windsor** will compare favorably with any frame of this style offer for sale.

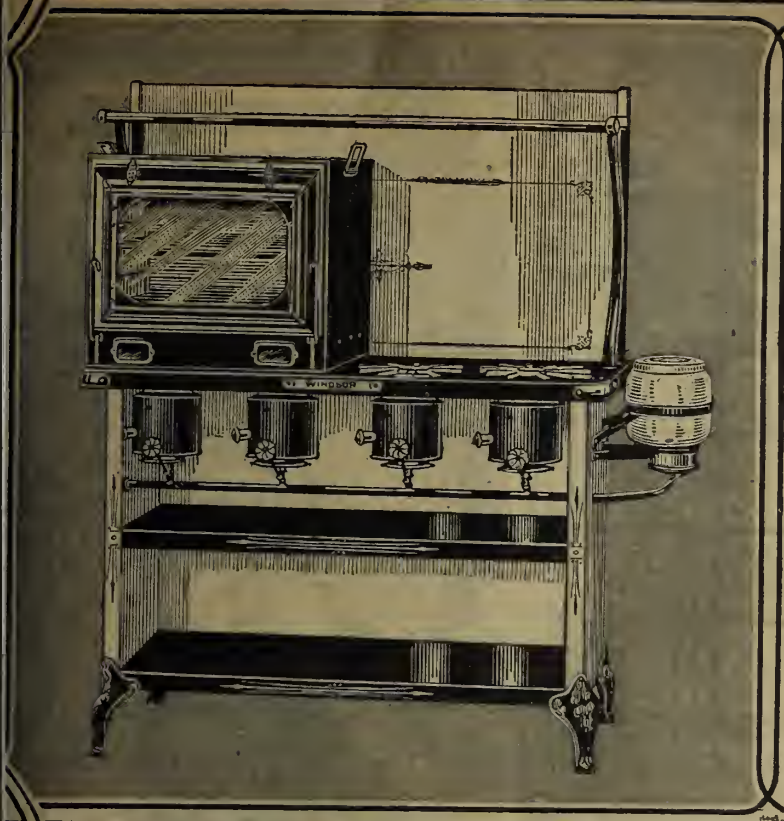
The **Quick Action Windsor** is just what its name implies—does quick work. A more perf baker could not be made. Considering the extremely low price and the perfect satisfaction wh this stove gives, there is **no good reason** why every housewife should not have a Blue Fla Wick Oil Stove in her kitchen. Why not have a **cool kitchen** to work in?

Seldom will you find a Wick Oil Stove of this kind with the short chimneys. This special feature is becoming better known every year. In fact, oil stove users who know the difference are demanding this style of chimney. It is only a question of time until it must be used on every wick oil stove.

The frame of the **Quick Action Windsor** is made of pressed heavy steel. It is as rigid as is possible to make a stove of this style. Legs are cast iron. Glass tank, holds four quarts, with steel shelf over top to protect it. Chimneys are blue porcelain steel; easy to clean. Chimney raising device, which does away entirely with smoking. **One gallon** of oil will run one burner **15 hours.**

Oven has polished steel body, drop glass door, tin lined throughout. Inside measurements: 18 inches long, 12 inches deep and 14 inches high. Two heavy wire racks. Will bake and brown perfectly.

Quick Action Windsors are finished in Royal Pr sian Blue Japan, a beautiful shade of blue. If s cified, can be shipped finished in black. This st **cannot be finished in white like the Ever Rea Windsor.**



Compare this stove with the skeleton style of fra stove over in your local community. Compare it w all other stoves of this particular style. When stop to consider that the **Quick Action** has al chimneys and as solid and substantial a frame sa skeleton frame can be made, you will realize that have a very interesting price on this stove. It is perfect a working stove as any skeleton frame st on the market. We are frank to state that no skel frame stove is in the class with the **Ever R Windsor** as shown above, the wick oil stove tha built like a gas stove.

Finished in Royal Prussian Blue Japan, unless black Japan is specified.

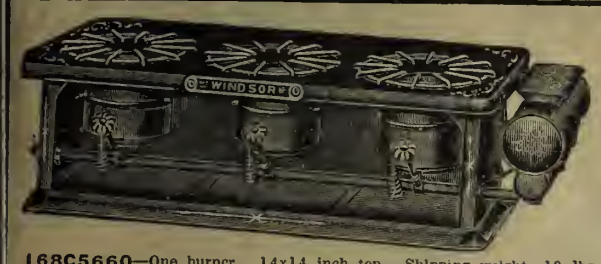
A perfect operating wickless oil stove built like a gas stove. Built to save work.

DO you believe that it pays to buy the best? If you do, we are frank to state the **Windsor Wickless Oil Stove** shown here is the most perfect wickless stove possible to offer. We believe it would be impossible to increase its perfect working or lasting qualities.

The sales of this stove are increasing by leaps and bounds every year. A large percentage of the orders received come from people who have seen the stove in operation in their neighbor's home.

The Wickless Oil Stove with a Reputation

HERE you will find long-lasting brass burners in the most solid, substantial frame possible to offer. This particular style of frame is built for people who appreciate buying goods that wear a long time.



This wickless oil range will do anything that your coal or wood range will do. It will do anything that the most improved gas stove will do, and for much less cost. With its High Gloss Snow Flake Finish, nickel trimmings, blue porcelain chimneys, black legs and shelves, it is, indeed, a handsome range—an ornament in any kitchen.

Pressed steel frame, most substantial possible to build. Brass burners, the kind that last. Three-quart glass tank; brass sub-tank; cast iron shelf brackets. Shelf, 9½ inches deep; height, from floor to cooking top, 30½ inches. For those who prefer a wickless oil stove to a wick stove the one shown here will prove the best possible to buy. Don't overlook the fact that this stove is finished in the beautiful High Gloss Snow Flake finish, unless black Japan is specified. Will be shipped finished in white, unless black Japan is specified. State which desired.

IT was the busiest season of the year on the farm. The weather had been uncertain for several days and Brown had just started, that morning, on the fifty acre field of dead ripe oats. He begrudged even the time required to oil his machine and to change teams.

Bang!

With a jerk he stopped the four-horse team pulling his binder and got down to see what was broken.

A hasty examination showed that the low tilted reel had caught a heavy last year's corn stalk, breaking two wooden arms and twisting off the iron drive shaft. There was nothing to do but stable his team and drive six miles to town.

When he got there the blacksmith was busy. "Sorry," said the smith, "but I can't get at your job before morning."

As Brown drove gloomily away the cheery voice of Neighbor Jones hailed him for a ride. When Jones heard his story he said, "Bring it up to my place. I'll fix it." Jones took him into a small shop containing a few carefully selected machines and tools. Slipping on an apron, he said, "Go over there to the bench and cut out some reel arms to match the broken ones, while I fire the forge and weld the shaft."

Even before the new arms were finished, Jones had made the simple weld. It was a little rough but a file soon made it right.

As Brown drove home he thought of the little work shop, its convenience, and the many dollars and the many worries it could save him in a year. With a little practice he knew he would be as good at repairing as Jones. And his boy would certainly be glad to have something more than a pocket knife and a hatchet to work with.

Ever think about it in that way? A handy repair shop of your own won't cost you much. Write us for full information.

Here's a Practical Farm Shop Outfit, Complete for $98.75

A small repair shop is becoming more and more an absolute necessity on the up-to-date farm We have received so many inquiries regarding complete shop outfits, that we have worked out a Practical Farm Shop Outfit.

The cost of this outfit is extremely low and consists of practical, high-grade tools and machines selected from our big hardware stock. This outfit contains all the tools necessary for general farm repair work. If you find you need a greater variety of tools, you can always order them from our catalogue, with the assurance that they are the same high-grade as those contained in this outfit. But the important thing is to get each tool of high-grade—it is cheapest in the long run. Belting, pulleys, shafting and hangers as well as gasoline engine can be purchased from us at a decided saving, but are not included in the outfit described below.

The following is a list of the equipment contained in our Practical Repair Outfit. A more complete description of each article can be found in the pages that follow. (See index for the various items.)

183C3041—Lakeside Plain Oxy-Acetylene Outfit..... $33.50

Nearly everyone has heard of the wonderful things accomplished with metals by means of the Oxy-Acetylene Blow Torch.

The great value of the Oxy-Acetylene process of welding or cutting metals and removing carbon from gas engine cylinders has caused its adoption in all of the larger garages, repair shops, blacksmith shops, factories, foundries, etc. No more long delays while waiting for broken castings to be replaced. They are now quickly repaired, and even lost parts can be filled in by using the welding torch. Heavy or light steel beams or plates are cut almost instantly, by using ths cutting torch. Carbon deposits in automobilo cylinders are quickly and completely burnod out by using the Carbon Removing Torch.

We have concluded arrangements with one of the largest manufacturers to sell Oxy-Acetylene Outfits under our own Lakeside Brand, at about one-half the regular price.

Anyone who is at all practical can, with little practice, accomplish with our outfits, results that may seem marvelous. All that is necessary is to follow the instruction book furnished with each outfit. And the cost is very low. It takes only a few minutes for ordinary jobs and the gas consumed costs only about 1 to 5 cents per minute, according to the size of ths job and the size of the tip used on the torch. A tank of gas containing 100 cu. ft. will last a small shop about one or two weeks.

Our prices below do not include the gas tanks. The compressed gas you can obtain from the manufacturers for about 2c per ft. For oxygen gas we would refer you to the Linde Air Process Company, with main offices in New York, Chicago and San Francisco, and about thirty service stations. For Acetylene Gas, we would refer you to the Prest-O-Lite Company with main office in Indianapolis, Ind., and about sixty service stations.

Description and Prices of Our Lakeside Oxy-Acetylene Outfits

183C3040—This Outfit contains: 1 Lakeside **Welding Torch** with 5 tips; 1 Lakeside Carbon Removing Torch; 1 Oxygen Regulator Valve with 60-lb. gauge; 1 Acetylene Regulator Valve with 30-lb. gauge; 1, 3,000-lb. Oxygen gauge; 1, 500-lb. Acetylene gauge; 2 12-ft. sections braided Special Hose with connections; 1 Assortment of Fluxes, and Filler Rods for various metals; 1 Regulator Wrench; 1 pair Imported Welders' Glasses; 1 complete Book of Instructions; 1 Packing Box with hinged cover. Ship. wt., 40 lbs. **$49.50**

Price, complete .....

183C3041—This Outfit contains: 1 Lakeside **Welding Torch,** 5 tips; 1 Oxy. Reg. Valve with 50-lb. gauge; 1 Acety. Reg. Valve with 30-lb. gauge; 1 Reg. Wrench; two 12-ft. lengths braided Special Hose; 1 pair Welders' Glasses; 1 Instruction Book; 1 Packing Box with hinged lid. Ship. wt., 25 lbs. **$33.50**

Keep Vehicle repairs on hand and save yourself time and trouble

The Shrewd Blacksmith Will Benefit By These Values

Lancaster Geared Blower

183C3054 — A substantial and well built blower. Has no belt, ratchet or clutches. Runs easily. Crank can be turned in either direction.

Head is adjustable and mounted on a substantial base. Diameter of fan case, 12 in. Produces a strong, steady blast.

With Tuyere Iron and pipe as illustrated. Height, about 46 in. Ship. wt., 116 lbs.

Set, **$11.20**

$11.20

Straight Cut Gears

Champion Midway Geared Blower

183C3052—A substantial direct driven blower, with spiral cross gears all enclosed in a dustproof casing.

The gearings are all accurately machined and run easily. Crank can be turned in either direction. Has no belts, ratchets or clutches; is simple and durable. The head is mounted on a substantial base and takes up but little room in a shop.

Diameter of fan case, 12 inches.

Produces a strong, continuous draft.

With heavy 50-pound Tuyere Iron and pipe, as illustrated. Height, about 46 in. Ship. wt., about 168 lbs.

Set **$13.95**

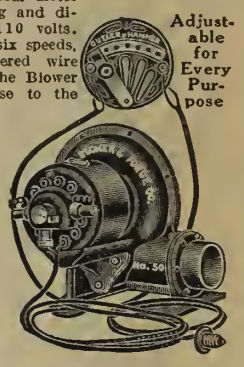
$13.95

Spiral Cut Gears

Famous Champion 400 Blower

183C3050—A fine, strictly high-grade machine, which produces a strong, regular and positive blast, equal to that obtained by power. It has no belts or train of small gears or friction, and is fitted throughout with the highest grade of adjustable ball bearings. The working parts are machined and cut from the solid metal and enclosed in an oil-tight casing. It runs noiseless, smooth and surprisingly easy. Blast is produced by turning crank in either direction. Diameter of fan case, 12 in. The blower is very compact, takes little floor space and can be taken apart for transportation and set up again in a very few minutes. Ship. wt., about 110 lbs. Complete with new Whirlwind Tuyere Iron and piping as illustrated. Height, about 47½ in.

Set **$18.00**



$18.00

Champion Electric Blower

$25.00

183C3062 — Powerful blower, with universal motor for both alternating and direct current, for 110 volts. Has rheostat with six speeds, complete with covered wire cord and plug. The Blower can be placed close to the fire, connected to the tuyere iron by straight pipe, so the fire will receive all the blast, without loss from long pipes and elbows. The six speeds permit easy adjustment of the blast to suit all requirements. A most excellent blower. Total height, 12 in. Ship. wt., about 54 lbs.

Each ...**$25.00**

Adjustable for Every Purpose

Plain Tuyere Iron

183C3074—Single Duck Nest pattern. Made of cast iron. Without blast regulating device. Total length, about 16 inches. Total width, about 12 inches. Height about 3½ inches. Ship. wt., 13 lbs.

Each.....**45c**

Clark's Tuyere Iron

183C3076—Medium size No. 2. Made of cast iron. With blast regulating device. Total length, about 16 inches. Total width, about 12 inches. Height about 4¾ inches. Ship. wt., 22 lbs.

Each.....**95c**

Sutton Tuyere Iron

183C3078—The Sutton Tuyere Iron and Fire Bowl. Made of cast iron, large and heavy. Insures a clean, bright fire. Will give satisfaction. Size of fire bowl, 13¼ x 11½ in. Ship. wt., 41 lbs.

Each.....**$1.85**

Hand and Moulders' Bellows

83C3072—Can be used as a Blacksmith's Hand as well as a Moulder's Bellows. Will give a quick, strong blast. Bellows of good grade leather. Woodwork is thoroughly dried. Width, 12 in. Total length 22¾ in. Ship. wt., 3¾ lbs. Each

$1.10

Standard Blacksmiths' Bellows

Standard Pattern

183C3070—Bellows of special flexible leather. Woodwork thoroughly kiln-dried. Quality and workmanship of the best. Excellent values.

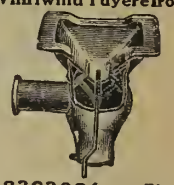
Norton Tuyere Iron

183C3080—Convenient, well made and low priced. Made of heavy cast iron. The blast is regulated by turning the large rod. Ashes removed by pulling small rod. Levers and spring easily changed to right or left-hand side. Length, 28 in. Width, 13¼ in. Height, 6¼ in. Ship. wt., 27 lbs. Each..... **$1.30**



Warren Tuyere Iron

183C3081—A favorite with many. Made of heavy cast iron. Ball with unequal sides attached to upper handle regulates the blast. Lower rod is for removing ashes. Length, 29 in. Width, 15 in. Height, 4½-in. Ship. wt., 31 lbs.

Each.....**$1.48**

Whirlwind Tuyere Iron

183C3084 — Blast comes through three slots. Produces intense heat. Revolving clinker attachment. Length, 10½ in. Width, 8¾ in. Height, 14½ in. Ship. wt., 56 lbs.

Each.....**$4.95**

Many Shops Have Been Economically Fitted Out From These Pages

Geared Tire Bender

$5.95

Turned Steel Rollers

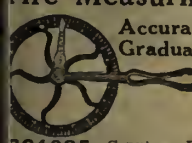
With gear and pinion. Has turned steel rollers, shafts and bearings. Mounted on a heavy cast iron base.

183C4012—Bends a 4¼-in. tire, or smaller, to a circle 24 in. in diameter or larger. Length, about 25 in. Width, about 12 in. Height, about 12 in. Ship. wt., 200 lbs. Each.....**$5.95**

183C4013—Bends a 6-in. tire or smaller to a circle 24 in. in diameter or larger. Length, about 25 in. Width, about 12 in. Height, about 12 in. Ship. wt., 216 lbs. Each.....**$6.60**

New Eureka Tire Bender

$11.25



Adjusting Screws Graduated Indicator Strong and Powerful

83C4018—Adjusting screws at each end of the roll. Graduated indicator on each side shows exact size of tire being bent. The two end rolls have collars to keep the tire in alignment so both ends meet when bent. Two cranks with each roller. Has two speeds. Will bend up to 2-in. tire. Total length, about 15 in. Total width, about 15 in. Height, about 18 in. Ship. wt., 190 lbs.

Each **$11.25**

Tire Measuring Wheel

Accurately Graduated

$1.30

83C4025—Genuine Wiley & Russell tire measuring wheel. The figures and lines are accurately stamped on polished brass, and easily read. Exactly 24 in. in circumference and numbered every inch—from 1 to 24. With index hand. Strong japanned iron handle. Ship wt., 1½ lbs.

Each **$1.30**

Hand Punching Machine

183C4040—Compact and substantial bench punch. Heavy cast iron, with hand lever. Will punch holes in soft steel or iron up to ⅛ in. thickness. Depth of throat, 4 in. Length of lever, 24 in. Complete with one ⅝-in. round punch and die. Weight of machine, 58 lbs. Ship. wt., 70 lbs. Each.....**$13.35**

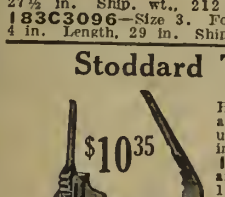
Extra Punches and Dies

83C4041—For round holes. Choice of following diameters: ⅛, ¼, ⅜, ½, ⅝, ¾, ⅞, 1 inch. Ship. wt., 1 lb. Per set.**$2.00**

Mole Tire Shrinker

$5.95

Without Anti-Kink Attachment. Made in three sizes. Strong and substantial, of the best materials, complete with wood lever. It is important that tire be properly heated.



183C3091—Size 1. Width of bed, 2¼ in. For light buggy tires. Ship. wt., 128 lbs. Each.**$5.95**

183C3092—Size 2. Width of bed, 3 in. For medium work. Ship. wt., 210 lbs. Each **$7.95**

183C3093—Size 3. Width of bed, 4 in. For heavy wagons. Ship. wt., 270 lbs. Each.....**$11.00**

Mole Tire Shrinker

$9.75

With Anti-Kink Attachment

Not necessary to remove tire until it is upset as much as required. The patent anti-kinking attachment holds the tire down and effectually prevents kinking or buckling. The pressure can be regulated by the foot. It is important that the tire be properly heated. Complete with 59-inch wood lever.

183C3095—Size 2. For medium work. Bed, 3 in. Length, 27½ in. Ship. wt., 212 lbs. Each.....**$9.75**

183C3096—Size 3. For medium and heavy work. Bed, 4 in. Length, 29 in. Ship. wt., 271 lbs. Each..**$13.00**

Stoddard Tire Upsetter

$10.35

Can be operated by one man. Has only to be bolted to a plank and fixed upright; always ready for use. Will not kink the tire. We include a short lever only.

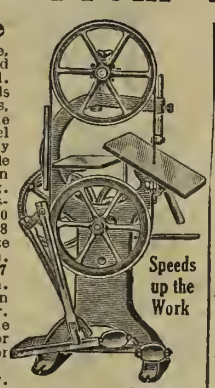
183C4002—Size 2. Will upset any tire up to 4 in. wide. Length, 15 in. Width, 15 in. Height, 18 in. Ship. wt., 245 lbs. Each **$10.35**

183C4003—Size 3. A special 4-in. machine. Has a set of loose jaws, can be adjusted for large and small circles, also for upsetting axles from 1 in. to 1¾ in. square. Length, 24 in. Width, 19 in. Height, 20½ in. Ship. wt., 300 lbs. Each.....**$13.10**

Champion Tire Shrinker

183C4005—Shrinks any size tire up to 4x1 in., or axles up to 1¾ in. square. Place the tire between the jaws, then draw the cams against the tire, and with but a little pressure on the handle you can shrink the tire to suit. Tire must be always properly heated. Heavy cast iron, compact and durable. Length, about 24 in. Width, about 8 in. Length of wood handle, about 45 in. Ship. wt., 150 lbs. Each.....**$9.10**

Lakeside Heavy Tire Shrinker



$25.60

183C4008—Frame of cast iron. Jaws are tool steel, with machine cut teeth, properly tempered, and can be quickly thrown in or out by means of the hand lever. Holds the tire with a perfect grip. Will shrink any size tire from the smallest buggy tire up to round edge tire 4x1 in., and axles up to 1¼ in. square. Work must be properly heated. Total length, about 22 in. Total width, about 9 in. Total height, about 24 in. Length of lever, about 47 in. Ship. wt., 350 lbs. Splendid value.

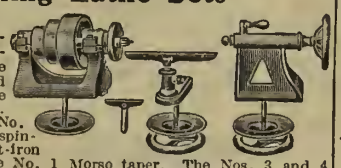
Each.....**$25.60**

Band Saw Machine

Speeds up the Work

The frame is cast in one piece, the arm portion being hollow, and rest of the frame is well ribbed. Wheels are covered with rubber bands and the table is built up of veneers, reinforced with an iron rib. Table can be tilted to an incline for level sawing. The footpower machine may be operated by one or both feet while standing, or the operator may sit on a high stool, which is less fatiguing. Diam. of band wheels, 20 in. Distance between saw and frame, 20 in. Height under guide when up, 8 in. Size of table, 20x24 in. Size of tight and loose pulleys, 7x3 in. face. Total height of machine, 67 in. Length of blades, 10 ft. 1 in. Illustration shows the combination machine for foot and belt power. We include with each machine one blade ¼ in. wide, filed ready for use, and 1 clamp and tongs for joining broken saws.

283C4050—For belt power only. Ship. wt., 275 lbs. Price.....**$33.90**

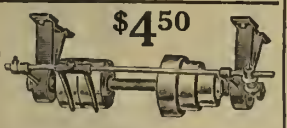


283C4051—For foot power only. Ship. wt., 325 lbs. Price **$38.25**

283C4052—For combined foot and belt power (as illustrated). Ship. wt., 350 lbs. Price.....**$42.50**

Shipped from factory in Ohio.

Turning Lathe Sets



183C4295—Substantially constructed and accurately fitted. The bottoms are planed true to insure the centers being in line. The heads on the No. 1 and 2 have steel spindles running in cast-iron bearings; centers are No. 1 Morse taper. The Nos. 3 and 4 have babbitted bearings, and centers are No. 2 Morse taper. Each set consists of: 1 head stock, 1 tail stock, 2 tee rests, 1 rest socket, 1 face plate, 1 common center, 1 spur center, hand wheel rests, flanges and bolts for fastening to the bed.

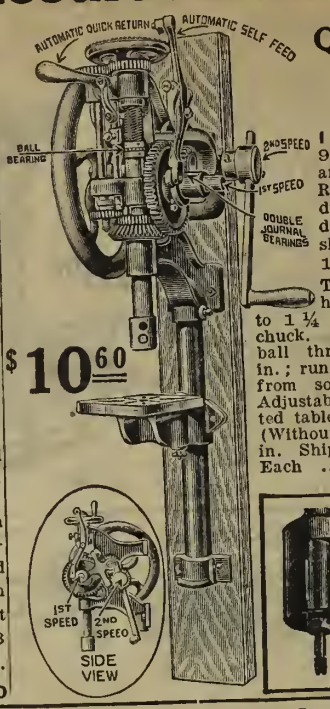
For Quick, Easy, Accurate Drilling Choose a Champion Drill



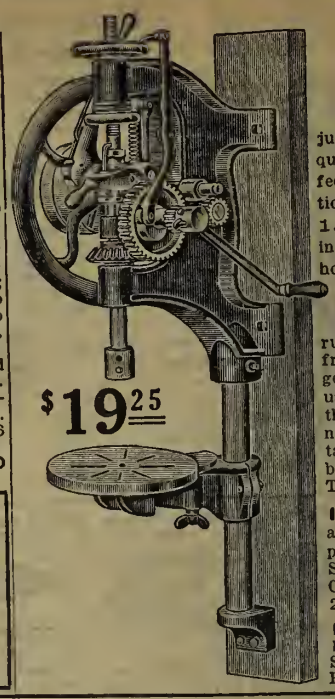
Self-Feed Post Drill

One Speed

$6.30

183C4090 — Champion No. 90. Adjustable self-feed and one speed; ratio, 1.53 to 1. Takes work, diam., 14½ in.; height, 10¾ in. Drills holes up to 1 in. Has ½-in. Neverslip chuck. Spindle has easy-running, ball thrust-bearing. Diam., 1⅛ in., with a run of 3½ in. Bearings accurately ground from the solid metal (no Babbitt used), and need no adjustment. Adjustable crank. Smooth gears. Planed, slotted table, adjustable sidewise and vertically. Mounted on heavy board. (Without drills.) Total height, 43 inches. Ship. wt., 90 lbs.
Each **$6.30**

Quick Return Post Drill



Two Speeds

$10.60

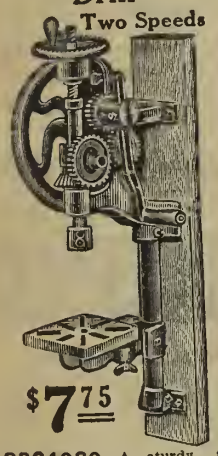
183C4104—Champion No. 96. Adjustable self-feed, and a very convenient Quick Return attachment which draws bit out of hole to the desired height and then unshifts. Two speeds: ratios, 1.53 to 1. and .53 to 1. Takes work, diam., 15 in.; height, 9 in. Drills holes up to 1¼ in. Has ½-in. Never-slip chuck. Spindle has easy-running, ball thrust-bearing. Diam., 1⅛ in.; run, 2¼ in. Bearings ground from solid metal. Smooth gears. Adjustable crank. Adjustable, slotted table. Mounted on heavy board. (Without drills.) Total height, 46 in. Ship. wt., 126 lbs.
Each **$10.60**

The Never-slip Chuck which holds Drill Bits securely and prevents slipping.

Combination Post Drill

Two Speeds

$19.25



Champion No. 200. Adjustable self-feed, and a quick-acting lever hand feed. Has two speeds: ratios, 1.53 to 1 and .53 to 1. Takes work, diam., 16 in.; height, 11 in. Drills holes up to 1¼ in. Has ½-in. Never-slip chuck. Ball thrust-bearing. Diam., spindle, 1¼ in., run, 4 in. Bearings ground from solid metal. Smooth gears. The low gear is not used in high speed, making this drill very easy running. Adjustable, slotted table. Mounted on heavy board. (Without drills.) Total height, 38 in.

183C4113—With tight and loose pulleys, for power. Size, 6x2 in. face. Speed, 250 R. P. M. Crank included. Ship. wt., 205 lbs. Each..**$21.60**

183C4112 — With adj. hand crank; no pulleys. Ship. wt., 195 lbs.
Each **$19.25**

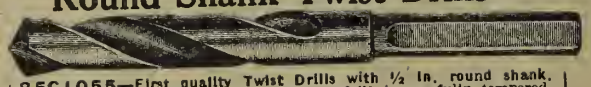
Self-Feed Post Drill

Two Speeds

$7.75

183C4080—A sturdy, two-speed, self-feed post drill. Speed ratios 1.7 to 1 and 1.17 to 1. Attaching crank from one gear to another, changes speed. Takes work, diam., 15 in.; height, 10½ in. Drills holes up to 1¼ in. Has ½-in. Neverslip chuck. Spindle has easy-running, ball thrust-bearing. Diam., 1⅛ in.; run, 3½ in. All bearings ground from solid metal. Smooth gears. Adjustable crank. Planed, slotted table, adjustable sidewise and vertically. Mounted on heavy board. (Without drills.) Total height, 42 in. Ship. wt., 110 lbs. Each **$7.75**

Hand Feed Post Drill

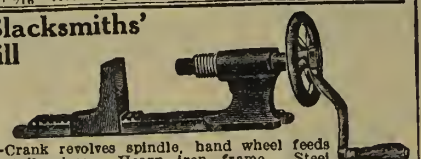


One Speed

$3.75

183C4085 — Champion No. 92. Has hand feed and one speed; ratio, 1.91 to 1. Takes work, diameter, 12 inches; height, 8¼ inches. Drills holes up to ¾ inch. Has ½-inch Never-slip chuck. Spindle has ball thrust bearing. Diameter, ⅞ inch, with a run of 3 inches. All bearings are accurately ground from the solid metal (no Babbitt used), and need no adjustment. Adjustable crank. Smooth gears. Made without balance wheel. Planed, slotted table, adjustable sidewise and vertically. Mounted on heavy board. (Without drills.) Total height, 36 inches. Shipping weight, 55 pounds.
Each **$3.75**

Round Shank Twist Drills



85C1055—First quality Twist Drills with ½ in. round shank. Best grade. For metal or wood. Each drill is carefully tempered, tested and finished. Shank is milled flat one side, to fit the Never-slip Chuck on all our Post Drills. Ship. wts., 6 to 15 oz.

We cannot supply hardies or other anvil tools to fit this anvil. Intended for light bench work only.

Standard American Wrought Anvils

Tempered Steel Face

11½c A Pound

For the Expert Blacksmith

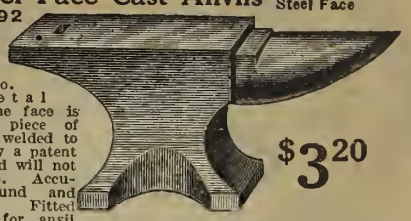
Lakeside Brand

183C4580—Our American wrought anvils are forged from the best and toughest iron, welded at the waist, and faced with the finest quality of high grade tool steel, carefully welded on and will not come loose. Face is hard and true, and tempered by a special process which prevents the edges from chipping, giving a hard surface without being brittle.

Shape is latest improved design, graceful and practical, and each anvil rings true and clear as a bell.

Made by skilled workmen in the best possible manner and thoroughly inspected and tested before leaving the factory.

Should this anvil break at the waist or its steel face become loose within one year from date of purchase, it will be replaced without charge.



We cannot always send exact weight, but will send the nearest we have to size wanted. Ship. wts. are same as weights of anvils. (Give weight wanted.) (Prices subject to market changes.)

Easy-Fit Winter Horse Shoes

18c to 43c Pair

Tapped Ready for Screw Calks

Easy-Fit Prsparsd Winter Shoss are finished and shapsd ready to wear. They are drilled and tapped ready for screw calks and can be re-shaped cold, without destroying the threads. This shoe when fitted with our Steel Center Screw Calks makes a perfect winter shoe and gives your horse a safe footing, even on tho most icy roads.

Note—If necessary to alter the shape of the shoes in any way the best method is to fasten one end of the shoe in a viee and hammer on the other end to the desired shape.

Do not heat the shoe, or sprsad it over the horn of an anvil, but always shape it cold, and in a vise. Oil the screw calks before fitting which will prevent rusty threads and permit easy removal. New calks should not be screwed quite all the way in, allow a little for wear and tighten them again after they have been in uee for a time. (Prices on shoes are subject to market changes.)

Prices do not include the Stael Centar Calks.

Duplex Adjustable Pipe Die Stock

$7.70 up

With adjustable quick-opening dies. Turning back over finished threads is unnecessary. Dies throw open and stock is lifted off, thus saving time and wear on the dies. Adjustment is instantly made to suit any variation in size of pipe fittings. The tempered steel dies also cut easier than ordinary ones, because of the clearance given them. They can be sharpened as readily as a chisel. Adjustable guides center pipe accurately and do away with loose collets. Complete with handles. Pipe taps not included.

Mfrs. Size	For Pipe, Inches	Ship. Wt. Lbs.	83C5110 Without Cut off	83C5111 With Cut off

Bull-Dog Pipe Die Stock

$6.95 up

83C5115—The Oster Bull Dog Die Stock. With new lever controlled setting device, which provides instant and easy release of the dies without backing off. One movement of the lever opens and closes the dies. Duplicate threads can be made without resetting. Are held in position by a positive lever lock.

The Dies are double taper, tempered steel, reducing the labor to a minimum and cutting a smooth, accurate thread. One set of dies cuts two sizes of thread. The bore of the stock is large enough to enter a coupling for cutting close nipples. The chuck has hardened steel jaws which center the pipe, and the adjustment guides do away with set screws and loose bushings. All wearing parts protected from dirt. Complete with handles. Not made with cutting off attachment. (Pipe taps not included.)

Size	For Pipe, Inches	Ship. Wt. Lbs.	Each
101	1/8, 1/4, 3/8, 1/2, 3/4	12	$ 6.95

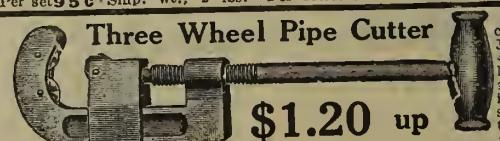
Trimo Pipe Cutter

With one steel cutter wheel and two steel roller wheels. Cuts a square end, smooth and clean.

Give the Art. No. of Pipe Cutter when ordering wheel or roll.



83C5307—Cuts pipe ⅛ to 1¼ in. Ship. wt., 6 lbs. Each $1.65
Extra wheel ..... 14c Extra roll..... .14

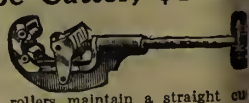
83C5308—Cuts pipe ½ to 2 in. Ship. wt., 6½ lbs. Each $2.20
Extra wheel..... 14c Extra roll..... .14

83C5309—Cuts pipe 1¼ to 3 in. Ship. wt., 10 lbs. Each $3.65
Extra wheel..... 18c Extra roll..... .18

High Quality at a Low Price

Three Wheel Pipe Cutter

$1.20 up



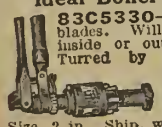
The wheels of this cutter are made of Jessop's best tool steel. The body and handle are of malleable and wrought-iron. Simple and strong in construction and cuts rapidly and easily.

83C5300—Cuts from ⅛ to 1 in. Ship. wt., 3½ lbs. Each..... $1.20
Extra wheels, each, 8c. Give Art. No. of Pipe Cutter for which wheel is wanted.

83C5301—Cuts from ½ to 2 in. Ship. wt., 5¾ lbs. Each..... 1.60
Extra wheels, each, 9c. Give Art. No. of Pipe Cutter for which wheel is wanted.

83C5302—Cuts from 1½ to 3 in. Ship. wt., 9½ lbs. Each..... 2.70
Extra wheels, each, 12c. Give Art. No. of Pipe Cutter for which wheel is wanted.

Roller Pipe Cutter, $1.00

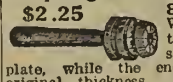


Simple and strong. Working parts are steel. Wheel is same as used in Saunders' cutter. The flat face steel rollers maintain a straight cu causing no side strain on cutting wheel.

83C5304—Cuts pipe, ⅛ to 1 in. Ship. wt., lbs. Each $1.0
Extra wheels. Each..... .0

83C5305—Cuts pipe, ¾ to 2 in. Ship. wt. 7½ lbs. Each..... $1.5
Extra wheels. Each..... .1

Ideal Boiler Tube Cutter



83C5330—Self-feed steel blades. Will cut off tubes either inside or outside of boiler head. Turred by means of a simple ratchet. Size means outside diameter of tubes. Give outside diamcter of tubes.
Size, 2 in. Ship. wt., 19 lbs.
Each $10.80
Size, 2½ in. Ship. wt., 21 lbs.
Each $12.25

83C5331—Extension frame and feed rod complete for boiler tube cutter. Length 22 in. Ship. wt., 9 lbs. Give size.
Each $2.95

Spring Tube Expander

$2.25

83C5322— Will expand the tube on both sides of the tube plate, while the ends retain their original thickness. Made of high-grade steel. Give size—outside diameter of tubes, and thickness of tube sheet.

Size	Ship. Wt.	Each
1¾ in.	3¼ lbs.	$2.25
2 in.	3⅞ lbs.	2.50

Full size Illustration of 1-2 inch Pipe and Fitting

Read This Before You Order

Regarding Fittings

The size of a pipe fitting is determined hy the pips size of the wrought pipe which will fit into it. A glance at the illustration of the ½-inch elbow with a short piece of ½-inch pipe, shown herewith, will make this clear.

It has happened that customers would, without thinking, measure the size of the hole in a fitting, and if, for instance, they found it to be ¾-inch, they would order ¾-inch fitting, whereas it should have been a ½-inch fitting. The same applies to all other sizes. By looking at the table of outside diamsters of pipe shown herewith you will be able to determins the corresponding pipe size of pipe to fit into the hole of any fitting you may wish to match, which will be the pipe size of the fitting you should ordsr.

Regarding Pipe

The size of wrought steel or iron pipe is detsrmined by its inside diameter (not outside). In most casee the pipe size will correspond very closely with the insido diameter of the pipe, with a few exceptions as will be noted from the illustration and from tha table herewith. Figures givan in the table are approximete.

Pipe Size	Ins. diem. dscimal in.	Outs. diam. dscimal in.	Thickness wall, dec.	Ship. wt. per 100 ft.

Accessories that you'll Always Need in the Engine Room

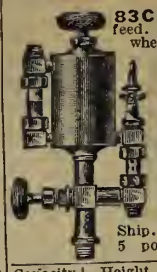
Columbia Sight-Feed Lubricators

$3.70 to $7.35

83C5512—Double Connection Lubricator for stationary and portable engines, finely polished and finished. Brass body, wood wheels and glass body sight feeder. Adapted to feed any clean lubricator oils. Carefully designed, with a view to improving and strengthening the parts which experience has proven weak in other similar lubricators. All sizes are fitted for ½-inch (pipe size) connection. Ship. wt., about 6 to 10 lbs.

Capacity	Height	For Cylinder Diameter	Each
½ pint	11 in.	Under 10 in.	$3.70
½ pint	11 in.	10 to 12 in.	4.10
1 pint	12¾ in.	10 to 18 in.	5.45
1 quart	14¾ in.	18 to 30 in.	7.35

Ajax Sight-Feed Lubricators



$3.90 to $7.50

83C5514—For stationary, traction, and portable engines. A high-grade single connection lubricator. Requires only one tapping in steam pipe and can be easily attached to, in either a horizontal or vertical pipe or in steam chest of engine. Glass sight feed. Brass body finely polished and finished wood hand wheels. Thoroughly tested. All sizes are fitted for ½ in. (pipe size) connections. Ship. wt., 7 to 12 lbs.

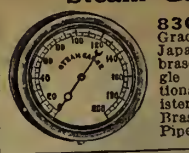
Capacity	Height	For Cylinder Diameter	Each
⅓ pint	13 in.	Under 10 in.	$3.90
½ pint	13½ in.	10 to 12 in.	4.25
1 pint	16 in.	12 to 18 in.	5.80
1 quart	18 in.	18 to 30 in.	7.50

Gas Engine Lubricators

83C5516—With sight feed. Brass body, wood wheels. For gas engines and air compressors. Feed regulation is obtained by a snap lever which can be opened or closed without disturbing the rate of flow when properly set. Regulate the pressure by the valve. The ¼ and ½ pint size, have no gauge glass. Ship. weight, about 3 to 5 pounds.

Capacity	Height	Pipe Size	Each
¼ pint	8 in.	⅜	$2.15
⅓ pint	8¾ in.	⅜	2.35
½ pint	9½ in.	½	3.20
1 pint	10½ in.	½	3.90

Lakeside Force Feed Lubricator

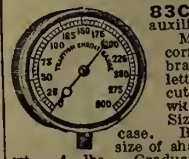


$9.65

Designed for steam engines, pumps, gasoline engines, etc. Has all the good qualities of the ordinary lubricator with a force feed with absolute regularity under all conditions. Iron body with brass sight feed. Lubricator has ¼ in. connections and attachment ⅜ in. connections (pipe size). Shipping weight, 23 lbs. With directions.

83C5518—Complete with Sight Feed attachment as shown. Each....$9.65

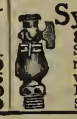
83C5519 — Lubricator without the sight feed attachment. Height, 9⅝ in. Diam., 5 in. Ship. weight., 19½ lbs. Price $6.50



Steam Gauges

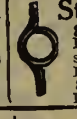
83C5550— High-Grade Steam Gauge. Japanned iron case, brass rim. With single spring for stationary engines. Registers up to 200 lbs. Brass gauge cock. Pipe size, ¼ in.

Mfrs. Size	Ship. wt.	Each
3½ in.	2 lbs.	$1.20
4½ in.	3 lbs.	1.25
5 in.	4 lbs.	1.35



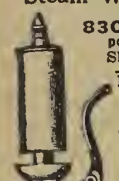
Farm Engine Gauge

83C5552—With auxiliary spring. Movement is non-corrosive. Dial is brass, silvered with letters and figures, cut deep and filled with black enamel. Size, 5 in. Iron case. Brass ring. Pipe size of shank, ⅜ in. Ship. wt., 4 lbs. Graduated to 300 lbs. Each $1.95



Always use a Siphon with steam gauges.

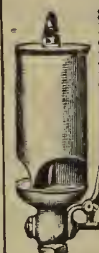
Syphon Gauge Cock



83C5555—For steam gauges. Solid brass. Protects the movement from expansion and secures water in the spring of the gauge. Pipe size, ¼ in. Length, 4½ in. Ship. wt., 1 lb. Each.....95c

Steam Gauge Syphon

83C5556—Made of malleable iron tubing to secure water in spring of gauge. One size only. Pipe size, ¼ in. Length, about 8½ in. Ship. wt., 8 oz. Each 12c



Steam Whistle with Valve

83C5540—Solid brass with polished bell. Heavy cast. Ship. wt., 1½ to 11 lbs.

Each	28c	36c	48c

Important

Pipe Sizes—The size of pipe is its inside diameter, and the size of a pipe fitting is determined by the inside diameter of the pipe it will take. This applies to all engine trimmings and the sizes we give are always pipe sizes.

Rubber Gauge Gaskets

83C5574 — Ship. wt., doz., 3 oz. Outside diam., ½ in. Per doz.....6c

Outside diam., ⅝ in. Per dozen 7c

Outside diam., ¾ in. Per doz.....8c

Metropolitan Injectors Model X

$3.75

83C5581—A high class single tube injector of simple construction. Will start instantly after interruption of steam or water supply. All of the tubes screw directly into the casing of the injector, doing away with the use of tail pipes, and insuring perfect alignment. Will start at 20 pounds and work to 120 pounds. Will lift water 20 feet with 80 lbs. of steam, and will handle hot water as high as 130 degrees F. Takes same pipe connections as Penberty, U. S. and other injectors of this type. Ship. wt., 3 to 9 lbs. Give size.

Metropolitan Injectors Model N

$4.98

83C5582—All brass, nicely finished. A single tube automatic injector. Made with the most improved machinery in one of the best equipped factories in the world. It lifts the water promptly and discharges it into the boiler without waste at the overflow. Reliable under all conditions and feeds steadily without adjustment. Operated entirely by one handle. Complete directions for operating and installing with each injector. Ship. wt., 3½ to 11 lbs. Give size.

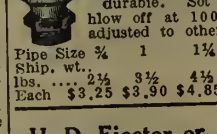
New Judson Engine Governors



283C5586—For traction and saw mill engines. Valve may be raised or lowered and speed changed while engine is running. Fitted with a Sawyer's lever, which can be used as a stop lever or a speeder. Stamped with minimum r. p. m. Tension nut on top of main spring may be screwed down to run any desired speed within reason. Give size. Give full particulars.

Shipped from factory, Northern Illinois.

Send for Our New Tool Book

Tools for carpenters, blacksmiths, masons, engineers, painters, plasterers and workmen of all kinds. Many interesting facts concerning tools.

H. D. Ejector or Jet Pump

83C5579

For water and liquids in mines, pits, wells, tanneries, etc. Adapted as a bilge pump for steam boats. Solid brass. Will lift 24 ft.; for greater distance place ejector near liquid and elevate it. With 65 lbs. steam will elevate 50 ft. 60 ft.; with 100 lbs. 70 to 80 ft. Ship. wts., 1 to 7 lbs.

If you ever need Pump Tools you will profit by using ours. See Index

RUBBER - LEATHER - CANVAS

Our three kinds, Rubber, Leather and Canvas Belting, are the product of old, reliable manufacturers; those who have won an enviable reputation as makers of thoroughly high-grade, reliable goods. We permit no cheapening in the process of manufacturing. Each grade is exactly as represented, and our prices, quality considered, are remarkably low. We carry a large stock and make prompt shipments. We save you 25 to 50 per cent, and Maintain the Quality.

Try Our Belting—You'll Buy from Us Again

Rubber Belting

We handle two reliable grades of Rubber Belting, our Standard and Extra Standard grades. Made of strong cotton duck with high-grade rubber friction between each ply or layer, and a durable rubber cover. We do not handle the cheap competition grades, as their use is not economical. Our Standard grade is a very good quality, and is sold by many dealers as best grade and gives good satisfaction on light farm machinery, etc. Standard grade should not be used as a Thresher Belt with the expectation that it will give satisfaction. Canvas Belting or our Extra Standard Rubber Belting is better for that purpose. Our Extra Standard Belt is suitable for hard service. It can be used as a thresher belt with perfect satisfaction.

Standard Grade

83C5680—2-Ply. Ship. wt., ft., 5 to 9 oz.

Width, in.	1	1¼	1½	2
Per foot	3½c	4½c	5c	7c

Per foot	26c	31c	36c	41c
Width, in.	9	10	12	
Per foot	46c	51c	60c	

Leather Belting

If belts are wanted endless, state actual length of belt wanted after spliced, and allow price of 3 ft. of belt extra for lap and labor of splicing.

We have two good grades of Leather Belting, Standard and Extra Standard. We do not sell the very cheap Competition or Agricultural grades, which are never satisfactory and always dear at any price.

Our Standard Belting is a good medium quality, made up to 4 in. wide. Suitable for ordinary mill, factory and farm machinery purposes, and for this service will give good satisfaction.

Extra Standard Leather Belting is made from selected, short lap, oak tanned stock, cut from the center of the hide. It is recommended for thresher belts, high speed pulleys, and for hard factory or mill usage. It is the best leather belting in the market for the money. Quality always of the best.

Notice—Do not run leather belts in very damp or wet places, but use rubber or stitched canvas belting under such conditions.

83C5704—Standard Grade.
Ship. wt., per ft., about 5 to 10 oz.

Width, in.	1	1¼	1½	1¾	2
Per foot	8¼c	10½c	12½c	15c	17c

Width, in.	4	4½	5	5½	6	7	8
Per foot	43c	49c	54c	59c	63c	82c	93c

Canvas Belting

Best Quality—Full Weight

Our Stitched Canvas Belting is unaffected by atmospheric changes, uninjured by water or steam, and may be subjected to a degree of heat that would be ruinous to other belting. It is therefore the best belting for outdoor use and for damp or hot places. Made of special long fibre cotton duck, carefully and closely stitched. Thoroughly stretched and inspected. Thoroughly saturated in oil, which makes it permanently water-proof and flexible. Painted with a special red paint which gives the belt an excellent, non-slipping surface. Always remains flexible in hot or cold weather.

Four-Ply

Ship. wt., per ft., 2, 2½, 3, 4, 5, 6, 8, 10, 11, 13, 15, 17 oz.

83C5690—Four-Ply Belting.

Per foot	27c	31c	36c
Width, in.	9	10	12
Per foot	40c	45c	54c

Endless Canvas Thresher Belts

Our Stitched Canvas Thresher Belts are made from especially prepared, strong, heavy cotton duck, thoroughly stretched. Saturated in oil and sewed from end to end under heavy tension, making a very strong yet always pliable and water-proof fabric. Painted with a special red paint which gives the belt an excellent non-slipping surface. Not affected by water, heat, steam or atmospheric changes. Especially adapted for threshers, saw mills, and similar severe uses. Each belt is made endless at the factory, and as it requires three feet to make the lap, therefore, each belt will measure just three feet short. For example, the actual net length of a 100-ft. belt will be 97 ft. We carry the following standard lengths in stock and can make prompt shipment: 40, 60, 80, 100, 120, 130, 140, 150 ft. (Actual lengths are 3 ft. less than given.) Special lengths and sizes, other than here listed, have to be made to order at factory and usually cause a delay of two to three weeks. For such sizes, always include the price of 3 ft. extra to cover cost of lap and labor.

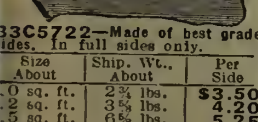
Four-Ply

Number	Width	Ship. Wt., Foot	Price, Foot
183C5693	6 in.	11 oz.	17½c
183C5694	7 in.	12 oz.	20½c
183C5695	8 in.	14 oz.	23½c

Five-Ply

Number	Width	Ship. Wt., Foot	Price, Foot
183C5696	6 in.	12 oz.	22c
183C5697	7 in.	14 oz.	26c
183C5698	8 in.	16 oz.	29½c

Endless Rubber Belts



283C5687—Made to order, which causes a delay of from two to three weeks. We furnish them in Extra Standard grade only. When ordering Endless Belt always allow three feet of the belt you are ordering for the cost of making the lap. Do not include this three feet in the actual length of belt you want, but simply allow money to pay for it. For example, if you wanted endless belt 100 feet long, send money enough for 103 feet. To avoid delay, we recommend the use of our regular belt and belt lacing, which makes an absolutely secure joint, and is less expensive. In this way you also save the cost of three extra feet of belting to make the lap. For prices and weights, see Extra Standard Belt, above.

Shipped from factory in Northern Illinois.

Belt Lacing, Glue and Dressing

Rawhide Side Lace

83C5722—Made of best grade sides. In full sides only.

Size About	Ship. Wt., About	Per Side
10 sq. ft.	2¾ lbs.	$3.50

Steel Belt Lacing

83C5732 Strong and quickly clinched. In boxes of 100 lineal in. Assorted lengths, 1¼ to 2¾ in. Ship. wt., 2 to 4 lbs.

Size 1. For single leather belts. Width, ¾ in. Per box 46c

Size 11. For 3-ply rubber belts. Width, ⅞ in. Per box..... 58c

Size 12. For 4-ply belts. Width 1¼ in. Per box..... 72c

Size 14. For 5-ply belts. Width, 1¾ in. Per box..... $1.10

Lakeside Belt Dressing

83C5710—Our Lakeside stick belt dressing is suitable for all kinds of belts, prevents slipping, and keeps the belt soft and pliable. Applied to the moving belt by friction. Contains nothing injurious to the belt. In 1 lb. paper covered sticks. Each 15c

Leather Belt Cement

83C5734 — Choice Quality. For repairing leather belts, making endless, etc. To be heated in double vessel until thin, and applied to the surface of the leather. Leather should first be washed with hot water. In 1-lb. cans with directions. Each 65c

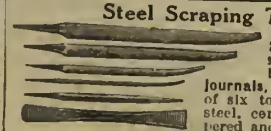
Canvas Pulley Covering

Can be applied to any pulley and effectually prevents the belt from slipping. Will last for many years. Each outfit is packed complete in wooden box and consists of canvas cement for applying, brush for cleaning pulley, brush and scraper for applying the cover.

183C5745—For 10 sq. ft. pulley surface. Ship. wt., 6 lbs. Price $2.20

183C5746—For 20 square feet pulley surface. Ship. wt., 12 lbs. Price $3.60

Steel Ball-Belt Coupler

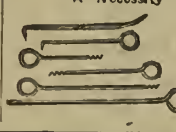


83C5733 Fastened with bifurcated rivets. Connected by steel ball spindles. In boxes of 96 lineal inches. In 12 in. pieces, easily cut. With spindles, rivets, gauge and rivet holder.

Size A. For ¾ in. belt. Ship. wt., box, 2¾ lbs. Per box..90c

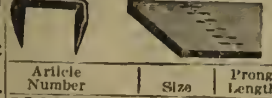
Size B. For ¼ inch belt. Ship. wt., box, 3 lbs. Per box..$1.10

Size C. For 3/16 inch belt. Ship. wt., box, 3¼ lbs. Per box $1.35



Steel Scraping Tools

83C5752— For scraping valves, babbitt metal, journals, bearings, etc. Set of six tools. Made of tool steel, carefully forged, tempered and polished. In convenient oak case. Lengths, 10½ in. to 17¼ in. Ship. wt., about 7 lbs. Per set $2.10

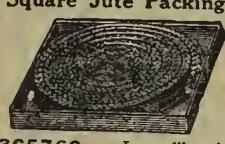


Steel Packing Tools

A Necessity in Every Engine Room

83C5750—Set of six tools, Nickel Plated. Will go in any valve rod, pump, or engine stuffing box. Assorted lengths, 6¾ in. to 18 in. Ship. wt., 2½ lbs. Per set $1.30

Steel Clinch Belt Hooks



Made of best annealed steel wire. Will not break in clinching. For leather, rubber or canvas belting. In boxes containing 200 hooks.

Size, in.	⅜	7/16	½	9/16
Ship. wt., coil, lbs.	1¼	1½	2	2½

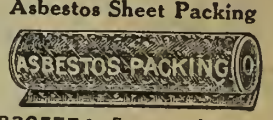
Give size wanted.

Per lb. 98c

Sheet Rubber Packing

83C5770 — With cloth insertion. A tough, durable packing of a good standard grade. In rolls 36 in. wide. We do not cut the rolls lengthwise, but can furnish any quantity 1 yard wide.

Thickness	Ship. wt., per sq. yd.	Per lb.
1/16 in.	6½ lbs.	15c
3/32 in.	9¼ lbs.	
⅛ in.	12½ lbs.	
3/16 in.	20 lbs.	
¼ in.	24 lbs.	



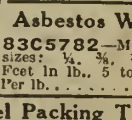
Red Rubber Packing

83C5771—Will not harden under extreme heat. In rolls 36 in. wide. We do not cut rolls lengthwise, but can furnish any quantity 1 yd. wide. Thickness, 1/32 to ¼ in. Shipping weight, per square yard, 5½ to 24 lbs. Per lb. 42c

Rainbow Sheet Packing

83C5772 — In rolls 36 in. wide. We do not cut rolls lengthwise, but can furnish any quantity 1 yd. wide. Thickness, 1/32 to ¼ in. Ship. wt., per sq. yd., about 5½ to 24 lbs. Color, red. Per lb. 68c

Asbestos Sheet Packing

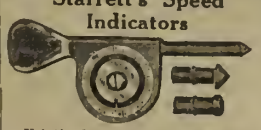


83C5774—For gas engines, automobiles, etc. Made of pure asbestos with a fine brass wire insertion. Will stand any temperature. In rolls 39 in. wide. We do not cut rolls lengthwise, but can furnish any quantity 39 in. wide. Two thicknesses, 1/16 in. Ship. wt., per square yd., about 6 and 12 lbs. State thickness. Price, per lb. 68c

Red and Black Asbestos

83C5776—Made of pure asbestos, with a fine copper wire insertion. For gas engines, automobiles, etc. Surfaced with a high heat-resisting compound, red on one side and black on the other. In rolls 39 inches wide. We do not cut rolls lengthwise but will furnish any quantity 39 inches wide. Thickness, 1/32 in. Ship. wt., per square yd., about 4½ lbs. Price, per pound. 70c

Hemp Packing



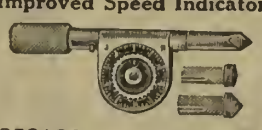
83C5780—Used in stuffing box heads in pumps, etc. Size, 1 in. Four feet to lb. Per lb. 18c

Asbestos Wick Packing

83C5782—Made in following sizes: ¼, ⅜, ½ in. Give size. Feet in lb., 5 to 7. Per lb. 25c

Speed Indicators and Hand Counters

Starrett's Speed Indicators



Frictionless bearing. Two rows of figures reading right or left. Nickel-plated iron. Rubber tips. Case, 5x1½ in. Ship. wt., 10 oz.

85C1858—With iron handle. Each 94c

85C1859—With rosewood handle. Each $1.40

85C1860 — Leatherette Case. 3 oz. Each 47c

Improved Speed Indicator

85C1862 — Goodell Pratt's make. Has two dials. One records the units, one the hundreds. Dial for hundreds has friction ratchet and is quickly reset. Double end spindle. Handle slips on either end for right or left hand shafts. Steel, nickel-plated. Two rubber tips. Ship. wt., about 12 oz. Each $1.75

Tallying Register or Counting Machine

$2.25

85C1855—Tallies from 1 to 1,000 by pressing with the thumb. Can be set at zero at will. Used for checking ties, telegraph poles, passengers, freight, cattle, etc. Glass dial. Nickel-plated. Ship. wt., about 6 oz. Each $2.25

Tiny tots can play in comfort. See serviceable rompers on page 99

Banish Your Water Troubles—Use Our Pumps

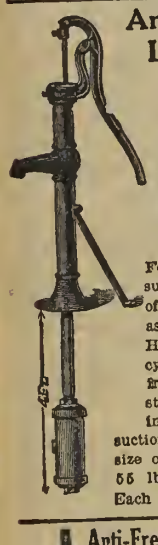
Our pumps are made of the very best material, smooth castings, nicely finished and painted, and intended for long continued use. Easy to install. The necessary parts of a pump are the Pump Standard or Stock; the Cylinder with its plunger valve and its lower check valve; the Suction Pipe and the Plunger or Connecting Rod.

The cylinder or working barrel of a pump should never be more than 25 to 28 feet from the surface of the water or else it will not operate.

A Suction Lift Pump is one that raises the water to the level of the pump spout.

A Force Pump is one that raises the water to the pump, and also forces it to any reasonable altitude above the level of the pump.

A Set-Length Pump is a pump standard fitted with 4 ft. of pipe and a cylinder (see 183C5800, etc.), and such a pump is ready for use in a well not exceeding 30 ft. in depth. It is only necessary to screw on the requisite amount of pipe to the bottom end of the cylinder. For instance, if the well is 30 ft. deep, you will need 26 ft. of pipe, as the cylinder and set-length will take up 4 ft. of the distance.

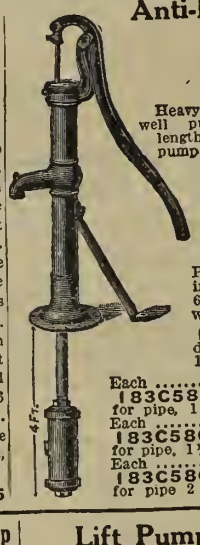


The object in putting the cylinder at the end of 4 ft. set-length is to place the cylinder below the frost line. A small drip hole (about 1/8 in.) is drilled in the pipe just above the cylinder, which drains off the set-length and thereby makes the pump anti-freezing.

For wells deeper than 30 ft. it will be necessary to use a Pump Standard (see 183C5840), etc., and then fit the cylinder down within at least 25 ft. of the water; or place the cylinder beneath the surface of the water, as this will always insure an easy acting outfit and the pump will never need priming.

Fitting Pumps Complete.

For fitting pumps complete for wells deeper than 30 ft., we make a nominal charge to cover the cost of plunger rod and labor involved, as follows: For fitting cylinder down 10 ft. or less, 50c; for each additional foot, 5c per foot. This charge does not include the suction pipe which is extra, depending upon the size and kind. Estimates cheerfully furnished.



Anti-Freezing Lift Pump $3.25

183C5800—Anti-freezing well pump with a 4-ft. set length. A medium weight, well made pump for wells not over 30 ft. deep. For deeper wells we suggest the use of one of our heavier pumps as shown on this page. Has a 3x10-inch iron cylinder with wrought iron set length and steel rod. Stroke, 6 in. Fitted for 1¼ in. suction pipe. Made in one size only. Shipping weight, 55 lbs.

Each $3.25

Anti-Freezing Lift Pump $3.60

Heavy Pattern anti-freezing well pump, with 4-ft. set length. A good durable pump for wells up to 30 ft. deep. For deeper wells order our pump standard, with cylinder and pipe as explained at top of this page. The set length is wrought iron and connected under spout. Prices are for pump with iron cylinder. Stroke, 6 in. Average ship. wt., 63 to 75 lbs.

183C5804 — Cylinder, 2½ in.; for pipe, 1¼ in.

Each $3.60

183C5805—Cylinder, 3 in.; for pipe, 1¼ in.

Each $3.65

183C5806—Cylinder, 3½ in.; for pipe, 1½ in.

Each $4.00

183C5807—Cylinder, 4 in.; for pipe 2 in. Each.....$4.95

Anti-Freezing Hand Force Pump $5.65

Heavy Force Pump, with air chamber in top of stock and a 4 ft. set length. Has a brass stuffing box, polished piston and is substantially made throughout. For wells up to 30 ft. deep.

Prices are for pumps with iron cylinders. Stroke, 6 in. Complete with ¾ in. hose connection. Back of spout is tapped for 1¼ in. pipe. Average ship. wt., 80 to 95 lbs.

183C5810 — Cylinder 2¾ in.; for pipe 1¼ in. Each $5.65

183C5811 — Cylinder, 3 in.; for pipe 1¼ in.

Each $5.70

183C5812—Cylinder, 3½ in.; for pipe 1½ in.

Each $6.10

183C5813 — Cylinder, 4 in.; for pipe 2 in.

Each $7.00

Anti-Freezing Lift Pump $4.70

With 4 ft. set length. A substantial pump for windmill or hand use. Adapted for either open or dug wells up to 30 feet in depth. For deeper wells order our pump standard with cylinder and pipe, as explained at top of this page. Prices are with iron cylinder. Stroke, 6 in. Average ship. wt., 70 to 80 lbs.

183C5820 — Cylinder 2½ in.; for pipe 1¼ in. Each $4.70

183C5821 — Cylinder 3 in.; for pipe 1¼ in.

Each $4.75

183C5822—Cylinder 3½ in.; for pipe 1½ in.

Each $5.10

183C5823—Cylinder 4 in.; for pipe 2 in.

Each $6.00

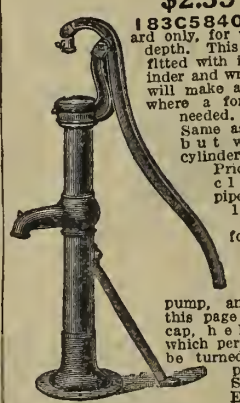
Anti-Freezing Force Pump Windmill Top $7.20

With 4 ft. set length. For wells up to 30 ft. deep. Has cock spout with ¾ in. hose coupling so that water can be forced in tank or discharged at spout. Back of spout tapped for 1¼ in. pipe. Stroke, 6 in. Average ship. wt., 85 to 90 lbs.

183C5828—Cylinder, 2½ in.; for pipe 1¼ in.

Each $7.20

183C5829—Cylinder, 3 in.; for pipe 1¼ in.



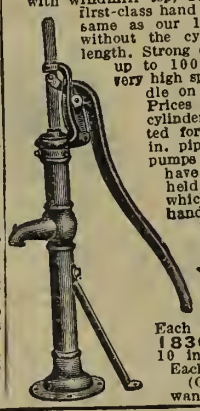
Each $7.25

183C5830—Cylinder, 3½ in.; for pipe 1½ in. Each $7.60

183C5831—Cylinder, 4 in.; for pipe 2 in.

Each $8.60

Lift Pump Standard $2.35



183C5840—Pump Standard only, for wells of moderate depth. This standard can be fitted with iron or brass cylinder and wrought pipe, which will make an excellent outfit where a force pump is not needed. Stroke, 6 in. Same as our 183C5804, but without set-length cylinder or plunger rod.

Price does not include cylinder or pipe. Fitted for 1¼, 1½ or 2 in. pipe. For further information regarding cylinder and pipe, see explanation at top of this page. This pump, and all pumps on this page have revolving cap, held by set screw, which permits the handle to be turned in any desired position. Ship. wt., 40 lbs.

Each $2.35

(Give pipe size wanted.)

Lift Pump Standard Windmill Top $3.85

A good lift pump standard fitted with windmill top, but also makes a first-class hand pump. It is the same as our 183C5820, etc., without the cylinder and set-length. Strong enough for wells up to 100 ft. deep. Has very high spout. Long handle on adjustable cap. Prices do not include cylinders or pipe. Fitted for 1¼, 1½ or 2 in. pipe. This and all pumps on this page have revolving cap, held by set screw, which permits the handle to be turned in any desired position. Ship. wt., about 60 lbs.

183C5842 With 6 in. stroke.

Each $3.85

183C5843 — With 10 in. stroke.

Each $4.30

(Give pipe size wanted.)

Lift Pump Standard For Hand or Windmill $3.25

A substantial lift pump standard, that may be used as a hand pump, or in connection with a windmill. Made in two sizes of stroke. Strong enough for wells up to 100 ft. deep. Has regular spout with good size openings. Prices do not include cylinders or pipe. Fitted for 1¼, 1½, or 2 in. pipe. This pump and all pumps on this page have revolving cap, held by set screw, which permits the handle to be turned in any desired position. Ship. wts., 52 and 60 lbs.

183C5848 With 6 in. stroke. Each ..$3.25

183C5849—With 10 in. stroke.

Each $3.70

(Give pipe size wanted.)

Force Pump Standard Windmill Top $5.00

Force Pump for windmill or hand use. Bolted top cap. Extra large solid piston rod. A strong, durable pump and a great favorite. For wells up to 100 feet deep. Prices do not include cylinder or pipe. Fitted for 1¼, 1½ or 2 in. pipe. With ¾ in. hose connection at spout. Back of spout tapped for 1¼ in. pipe. This pump and all pumps on this page have revolving cap, held by set screw, which permits the handle to be turned in any desired position. Ship. wts., 64 and 71 lbs.

183C5850 — Stroke 6 in. Each $5.00

183C5851 — Adjustable stroke. Each $5.50

Give pipe size wanted.

Force Pump Standard Windmill Top $5.45

Has long oscillating fulcrum link, pivoted at base instead of at the top. This relieves the cap from strain, eliminating danger from breaking and making a very strong pump which will give excellent service. For wells up to 100 ft. deep. Back of spout tapped for 1¼ in. pipe.

Prices do not include cylinder or pipe. Fitted for 1¼, 1½ or 2 in. pipe. With ¾ in. hose coupling on spout. On this pump the cap cannot be turned, owing to the fulcrum link being pivoted at the base. Handle is set at slight angle. Ship. wts., 66 and 75 lbs.

183C5854—Stroke 6 in.

Each $5.45

183C5856—Stroke 10 in.

Each $5.95

Give pipe size wanted.

Force Pump Standard Windmill Top $4.90

A neat, solid and compact force pump standard. Same as our 183C5828, but without cylinder set-length. For wells up to 100 ft. deep. Prices do not include cylinder or pipe. Fitted for 1¼, 1½ or 2 in. pipe. Spout has ¾ in. hose connection. Back is tapped for 1¼ in. pipe. Shipping weight, 63 to 74 lbs. Furnished with either plain or faucet spout.

With Plain Spout

183C5858—Stroke 6 in.

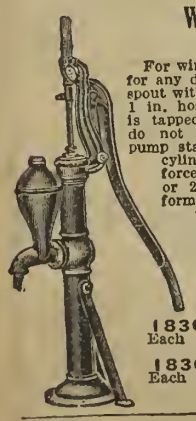
Each $4.90

183C5859—Stroke 10 in.

Each $5.35

With Cock Spout

183C5860—Stroke 6 in.



Each $5.75

183C5861—Stroke 10 in.

Each $6.25

Give pipe size wanted.

Heavy Force Pump Standard Windmill Top $7.70

For windmill or hand use. Extra strong for any depth well. Large air chamber on spout with top outlet. Spout is fitted with 1 in. hose coupling. Top of air chamber is tapped for 1¼ in. iron pipe. Prices do not include cylinder or pipe. This pump standard should be used with large cylinder, or where water is to be forced some distance. Fitted for 1½ or 2 in. iron pipe. For further information regarding cylinder and pipe, see explanation at top of this page. This pump, and all pumps on this page have revolving cap, held by set screw, which permits the handle to be turned in any desired position. Ship. wt., 90 lbs.

183C5865—With 6 in. stroke.

Each $7.70

183C5866—With 10 in. stroke.

Each $8.15

Give pipe size wanted.

Geared Pump Standard Windmill Top $4.40

An easy acting pump standard of large capacity. Strong and substantial. One of the easiest working pumps on the market. The geared handle head working in cogs on slide bar, gives a direct leverage. Roller at back edge of sliding bar, lessens the friction. Suitable for wells up to 100 ft. deep. Stroke, 6 in. Fitted for 1¼, 1½, or 2 in. pipe. Price is for Pump Standard only. Order pump cylinder pipe and pump rod extra. In two styles. Lift or Force pump. Shipping weight, 66 and 70 lbs.

183C5863 — Lift Pump Standard as above. Ea..$4.40

183C5864 — Force Pump Standard as above. Tapped at back of spout for 1¼-in. pipe, with ¾-in. hose coupling.

Each $5.35

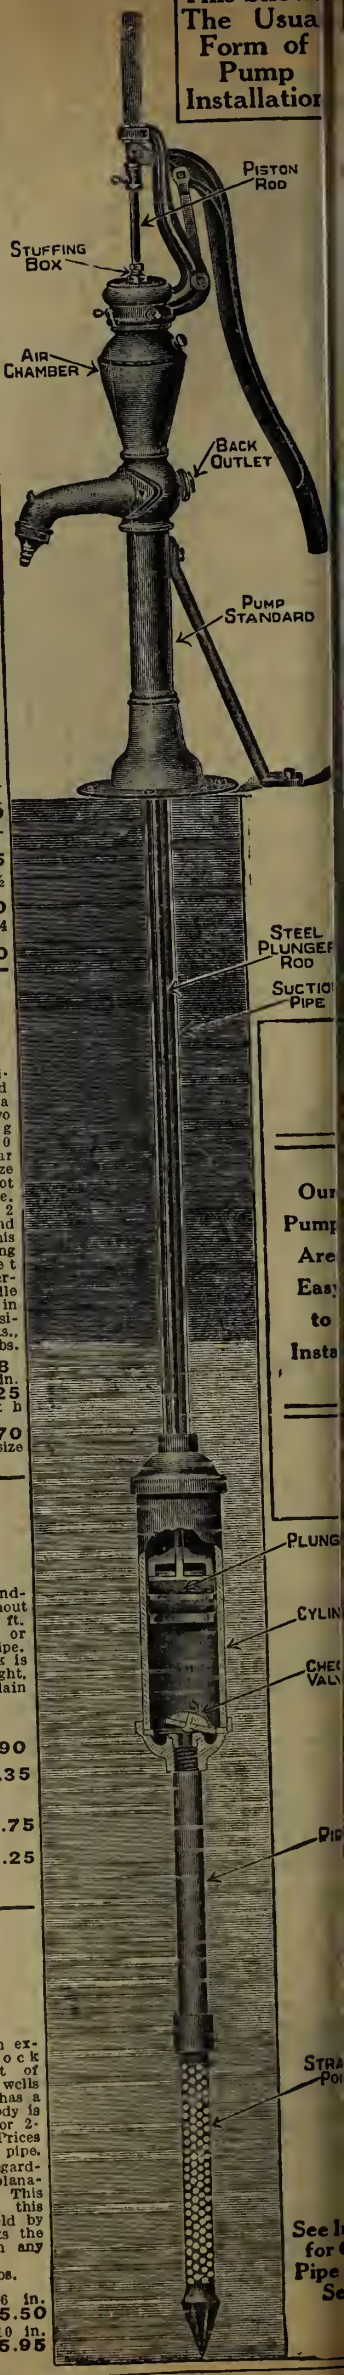
Give pipe size wanted.

Heavy-Lift Pump Standard Windmill Top $5.50

Heavy lift pump standard with extra large spout, designed for stock pump or where large amount of water is required. Suitable for wells up to 100 ft. deep. The spout has a full 2-in. opening, and the body is large in proportion. Tapped for 2-in. or 2½-in. suction pipe. Prices do not include cylinder or pipe.

For further information regarding cylinder and pipe, see explanation at top of this page. This pump, and all pumps on this page have revolving cap, held by set screw, which permits the handle to be turned in any desired position.

Ship. wt., 83 and 88 lbs.



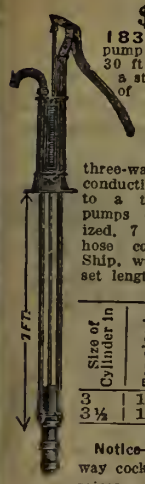
183C5846—Stroke, 6 in.

Each $5.50

183C5847—Stroke, 10 in.

Each $5.95

Give pipe size wanted.



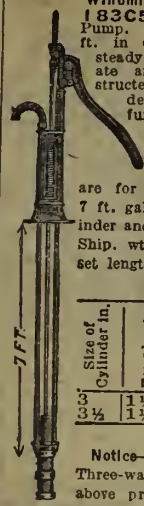
Our "Climax" Seed Graders are guaranteed to be big crop producers

Pumps and Water Systems That You Can Install Yourself

Double Acting Force Pump

Stroke 6 in.

$9.60



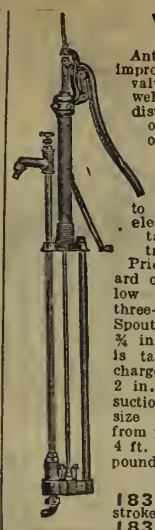
183C5870—Anti-freezing pump for wells not exceeding 30 ft. in depth. Will throw a steady stream and is easy of operation. Solid and substantial in construction. Small upper cylinder of brass. Can be furnished with a three-way cock if desired, for conducting water underground to a tank. Prices are for pumps complete with galvanized. 7 ft. set length, ¾ in. hose coupling and cylinder. Ship. wt., 105 lbs. Width of set length, about 8 in.

Size of Cylinder In.	For pipe In.	With Iron Cylinder	With Brass Lined Cylinder
3	1¼	$9.60	$11.25
3½	1½	10.35	12.25

Notice—If wanted with three-way cock, add $2.00 to above prices.

Double Acting Force Pump

Windmill Top. (Stroke 6 in.)



183C5872 — Anti-freezing Pump. For wells not over 30 ft. in depth. Will throw a steady stream. Easy to operate and substantially constructed. Small upper cylinder of brass. Can be furnished with a lower three-way cock if it is desired to conduct water underground to a tank. Prices are for pumps complete with 7 ft. galvanized set-length cylinder and ¾ in. hose coupling. Ship. wt., 115 lbs. Width of set length, about 8 inches.

Size of Cylinder In.	For pipe In.	With Iron Cylinder	With Brass Lined Cylinder
3	1¼	$10.25	$11.90
3½	1½	11.00	12.75

Notice—If wanted with lower Three-way cock, add $2.00 to above prices.

Windmill Force Pump Three Way Valve

Anti-freezing Pump. With improved vertical distributing valve. Can be used in wells of any depth. The distributing lower valve is operated the same as an ordinary globe valve, and by turning wheel handle the water may be directed through the underground pipe to water supply system or elevated storage tank, distant stock watering trough, etc.

Price includes pump standard only, with extension below pump base including three-way valve as shown. Spout of pump is fitted with ¾ in. hose coupling. Pump is tapped for 1¼ in. discharge pipe and 1¼, 1½ or 2 in. suction pipe. Size of suction pipe determined by size of cylinder. Length, from platform to lower elbow, 4 ft. 10 in. Ship. wt., 100 pounds.

183C5875—With 6 in. stroke. Each.....**$9.40**
183C5876—With 10 in. stroke. Each.....**$9.80**

Double Acting Force Pump

$7.60 Three Way Valve

Windmill Top

Complete with upper and lower cylinders. Has a quick acting cam lever shifting device, and lower three-way valve. Water can be forced through underground pipe to storage tank or from the spout as desired. The spout and three-way cock have 1 in. dischargo. The upper cylinder is of drawn brass tubing. Has a large waterway and a spacious air chamber, and will work easily against heavy pressure. With 6 in. stroke. Hose coupling on spout. Ship. wt., 81 to 85 lbs.

183C5880—With 3 in. Iron Cylinder for 1¼ in. Pipe. Each **$7.60**

183C5881—With 3½ in. Iron Cylinder for 1½ in. Pipe. Each **$8.10**

183C5882—With 3 in. Brass-lined Cylinder for 1¼ in. Pipe. Each **$8.15**

183C5883—With 3½ in. Brass-lined Cylinder for 1½ in. Pipe. Each **$8.50**

We can fit this pump complete for any depth well by adding the cost of pipe and 5c foot extra for plunger rod and labor.

Contractors' Diaphragm Pumps

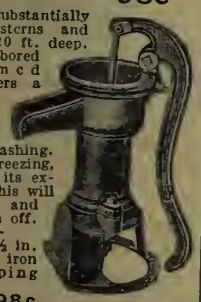
$8.95

For pumping water from mines, cellars, ditches, and for irrigation purposes, where the water is not more than 20 feet (vertically), from pump. Will easily handle large quantities of sewerage, mud, sand and gravel, etc. Extra heavy, with best grade rubber diaphragms. Heavy wrought-iron handle. Illustration shows Bottom Suction.

With Bottom Suction

183C5940—Size 1. Capacity per stroke, ¾ gal. Takes 2½ in. pipe or hose. Ship. wt., 75 lbs. Each..**$8.95**
183C5941—Size 2. Per stroke, 1½ gals. Takes 3-in. pipe or hose. Ship. wt., 150 lbs. Each.....**$12.90**

With Side Suction



183C5942—Size 1. Per stroke, ¾ gal. Takes 2½-in. pipe or hose. Ship. wt., 75 lbs. Each.....**$10.65**
183C5943—Size 2. Per stroke, 1½ gals. Takes 3-in. pipe or hose. Ship. wt., 155 lbs. Each.....**$13.60**

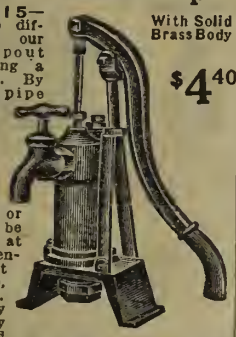
Extra Rubber Diaphragms

83C5946—Size 1. Ship. wt., 1 lb. Each **$1.00**
83C5948—Size 2. Ship. wt., 2 lbs. Each **$1.40**

Pitcher Spout Pump

Standard Type **98c**

Heavy and substantially built. For cisterns and wells not over 20 ft. deep. The cylinder is bored out and reamed smooth. Delivers a large volume of water with little exertion. Top is closed to prevent splashing. To prevent freezing, raise handle to its extreme height. This will trip the valve and water will drain off.



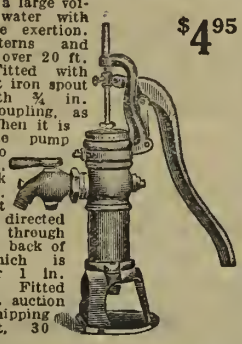
183C5910—Size 1. Bore, 2½ in. For 1¼ in. iron pipe. Shipping weight, 20 lbs. Each **98c**

183C5911—Size 2. Bore, 3 in. For 1¼ in. iron pipe. Shipping weight, 22 lbs. Each.....**$1.25**

183C5912—Size 3. Bore, 3½ in. For 1¼ in. iron pipe. Shipping weight, 28 lbs. Each.....**$1.35**

183C5913—Size 4. Bore, 4 in. For 1½ in. iron pipe. Shipping weight, 30 lbs. Each.....**$1.65**

Kitchen Force Pump



With Solid Brass Body

$4.40

183C5915—This pump differs from our Pitcher Spout Pump, being a force pump. By connecting pipe to top outlet, water may be pumped to elevated storage tank in attic or elsewhere; or it may be drawn off at sink by opening faucet on pump, as preferred. Pump is very strongly built, and well finished. Cylinder is 3 inches in diameter. Seamless tubing, nicely polished. For wells and cisterns not over 20 ft. deep. Fitted for 1¼ in. suction pipe and 1 in. discharge. Faucet threaded for ¾ in. hose connection. One of the finest little hand pumps on the market for kitchen use. Shipping weight, 20 lbs. Each.....**$4.40**

Kitchen Force Pump

Heavy Design

$4.95

Throws a large volume of water with very little exertion. For cisterns and wells not over 20 ft. deep. Fitted with heavy cast iron spout cock, with ¾ in. hose coupling, as shown. When it is desired to pump water to attic tank, spout cock is closed, so that water is directed to tank through opening in back of spout which is tapped for 1 in. iron pipe. Fitted for 1¼ in. auction pipe. Shipping weight, 30 pounds.

183C5918—Kitchen Force Pump, with 3 in. iron cylinder. Each..**$4.95**
183C5919—Kitchen Force pump, with 3 in. brass lined cylinder. Each **$6.00**

Iron and Brass Well Cylinders

Made heavy and strong, bored smooth, and fitted with best valves and leathers. The proper size cylinder to use must be determined by your own good judgment, but for ordinary hand use we suggest the following:

	Size Cylinder, In.
For wells 20 to 40 feet deep	3½ to 4
For wells 40 to 80 feet deep	3 to 3½
For wells deeper than 80 feet	2½ to 3

For windmills a somewhat smaller cylinder should be used, but this will depend on the size of your mill.

The larger cylinders raise more water per stroke, but require more power.

The 10 inch and 12 inch cylinders have a 6 inch stroke, and the 16 inch cylinders have a 10 inch stroke. They are usually fitted 1¼ inch pipe for all cylinders smaller than 3½ inch, and 1½ inch or 2 inch pipe for cylinders 3½ inch to 4 inch. Give pipe size when ordering.

183C5956 Iron Well Cylinders. Smooth iron ground and polished inside. Ship. wt., 9 to 25 lbs.

183C5957 Brass Lined Cylinders. Body is made of iron with polished brass lining, iron caps. Ship. wt., 9 to 25 lbs.

183C5958 Brass Well Cylinders. Made with heavy seamless brass body; iron caps and plunger. Ship. wt., 9 to 25 lbs.

Note—Be sure to give pipe size when ordering.

Horizontal Force Pumps

Geared Head Force Pump

Shipping Weight. 58 lbs.

$9.60

Easy working, compact and substantially designed. For pumping water from cisterns, shallow wells, etc., to elevated tanks, pneumatic water supply systems, etc. Also adapted for fire protection, filling boilers, as a deck pump, and for many other purposes. Has a geared drive. A smooth, easy operating pump. Has a cushion air chamber, brass piston rod and valve seats. Tapped for 1¼ in. suction pipe, and 1 in. discharge. Mounted on board base, about 7½x24 in. Ship. wt. 58 lbs.

183C5937—With 3-inch brass lined cylinder. (Without air attachment.) Each **$9.60**

With Air Attachmsnt.

183C5938—With 3-inch brass lined cylinder and air attachment as shown above. Will pump water and air, or water only, as desired. For pneumatic water supply system. Ship. wt., 60 lbs. Each.....**$12.00**

Lakeside Water Supply Systems

$35.25

Running Water in Your Home

You Can Easily Install it Yourself

A Great Convenience at a Small Cost

Our Lakeside Pneumatic Water Supply Systems are furnished complete, ready for assembling. The only tool you need to set one of these outfits up complete, is an ordinary pipe wrench. Outfit consists of tank, water gauge, pressure gauge, combination air and water pump, gate and check valves, and fittings to connect pump and tank. Suction pipe from well not included. Furnished with tank, either black or galvanized, to stand vertically or lie horizontally.

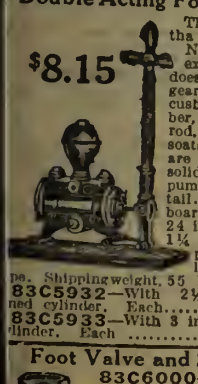
281C8188 — Complete outfit, as above. With tank galvanized inside and outside. Price **$62.90**

Pump and fittings shipped promptly from our store.
Tank shipped from factory in Northern Illinois.

Automatic Hydraulic Ram, $5.45

183C5950—This wonderful little machine will pump water continuously to a tank, or reservoir, many feet above and beyond it. No engine or motor is necessary; it needs no attention. The only thing necessary is that there be a fall of 2 feet or more between the source of water supply, lake or stream, and the location of the ram. The ram will then automatically deliver a large proportiou of the water a great distance.

The amount of water delivered by the ram depends upon the height of tha fall and the height of the delivery. Where there is an abundance of water supply, large size rams are best.



Thousands of these rams are furnishing farms and residences with fresh water every day at practically no expense—in this country and abroad. Each ram is strongly constructed, made of best material and will last a life time. Just think of having fresh water, night and day, in the house, stable, garden or watering trough without the slightest inconvenience or trouble.

Write for our Hydraulic Ram Circular giving full details of efficiency, if you wish to knew more about these wonderful machines.

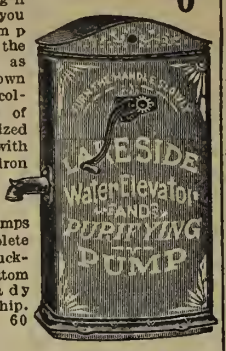
Why Fuss with an Old Cistern Pump? These Save Money

Lakeside Purifying Pump

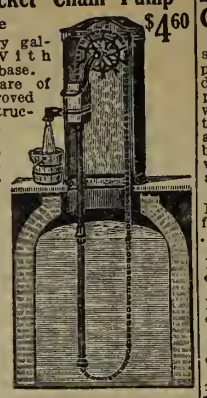


$4.75

Water is brought up in galvanized buckets which, when passing down, carry air into the water, purifying it. For wells over 18 in. diam. and up to 40 ft. deep. Made from selected, seasoned lumber, painted and decorated. With chain buckets and bottom wheel. Ready for use. Ship. wt., about 80 lbs.

183C6100—For 10-ft. well $4.75
183C6101—For 15-ft. well 5.70
183C6102—For 20-ft. well 6.60
183C6103—For 25-ft. well 7.50
183C6104—For 30-ft. well 8.45
183C6105—For 35-ft. well 9.35
183C6106—For 40-ft. well 10.25
For iron platform see 183C6136.

Lakeside Purifying Pump Steel Case $6.65



Circulates pure air through the water you drink. Pump operates in the same way as 183C6100 shown in the first column. Made of heavy galvanized sheet steel, with heavy cast iron base. One of the neatest and strongest pumps made. Complete with chain buckets and bottom wheel. Ready for use. Ship. wt., about 60 lbs.

183C6110—For 10-ft. well $6.65
183C6111—For 15-ft. well 7.60
183C6112—For 20-ft. well 8.60
183C6113—For 25-ft. well 9.55
183C6114—For 30-ft. well 10.50
For iron platform, see 183C6137.

Rubber Bucket Chain Pump

Steel Case $4.60

Made of heavy galvanized steel. With heavy cast iron base.

The fixtures are of the latest improved pattern. In construction, material and workmanship this pump cannot be surpassed. Handsomely decorated with two coats of paint and one coat of varnish.

Complete with galvanized steel tubing, chain and rubber buckets. Ship. wt., about 47 lbs.

183C6120 For 10-ft. well. $4.60

183C6121—For 12-ft. well $4.95
183C6122—For 15-ft. well 5.40
183C6123—For 18-ft. well 5.90

The Most Modern Manufacturing Methods Are Employed in the Making of Lakeside Tools

What Fred Healy Learned about Lakeside Tools

IT was an exceptionally busy Spring in Grainville. Everyone seemed to have the building fever. Gus Barnes was building a new house. Tom Brown had just started on his new barn. Everywhere the sound of hammering and sawing was heard. Grainville was booming. There was work for everybody and everybody was busy.

Fred Healy had planned all winter to build a new barn on his place that Spring. But when the time came to build he found that it was impossible to get a carpenter for at least three months. It looked as though the only way he could build his barn would be to do it himself. This he finally decided to do.

Naturally the first thing for him to do was to buy a set of tools. Fred didn't know a great deal about tools so he consulted an old carpenter who knew tools from A to Z. After discussing the leading advertised brands at some length the old carpenter finally turned to him and said:

"Now Fred, I'm going to give you some advice. Don't buy cheap tools. They always fail to do the work when you need them most. Cheap tools always look cheap and they don't last long. But you've got to pay too much money for most good tools nowadays, buying in the ordinary way.

"Now I know how you can get tools, just as good as the best tools you can buy at a price about as low as the cheapest. Here's a little book that will tell you more about these tools than I can," continued the old carpenter as he handed Fred a catalogue from Montgomery Ward & Co. entitled "Superior Tools." "That little book contains everything that you want to know about Lakeside Tools."

In due time Fred ordered a set of Lakeside tools and with the help of his son built a model barn. Since then he has found many uses for his Lakeside tool set. He has made improvements about his home that can't be figured in dollars and cents. He is so well pleased with his set of Lakeside tools that he says it is the best investment that he ever made.

Our New Model Tool Chest is a Typical Example of Lakeside Quality Tools

CARPENTERS, Mechanics, in fact everyone who uses tools, is highly enthusiastic about our new model Tool Chest. It's just the kind of a chest that workmen have wanted for years. Completely equipped with a large assortment of our famous Lakeside tools. Open the cover of the tool chest and every tool is right before you. No more rummaging through a topsy turvy chest for some mislaid tool. Now you can find every tool at a glance.

Chest is made of fine selected ash, thoroughly seasoned and finely varnished. Has two drawers in the bottom, with brass pulls, a saw rack, good lock and substantial end drop handles. Inside measurements of chest, 32x18x18 inches.

Every chest completely equipped with 95 first class tools. Here is what the chest contains:

1 Lakeside Hand Saw, L-100, 26 in.
1 Lakeside Rip Saw, L-100, 26 in.
1 Lakeside Back Saw, 12 in.
1 Keyhole Saw.
1 Steel Hack - Saw Frame, nickel-plated and blade.
1 Lakeside Iron Smooth Plane, No. 3 8 in. corrugated bottom.
1 Lakeside Iron Jack Plane, No. 5, 14 in. corrugated bottom.
1 Compass Saw, 12 in.
1 Lakeside Iron Fore Plane, No. 6, 18 in. corrugated bottom.
1 Lakeside Iron Jointer Plane, No. 7, 22 in. corrugated bottom.
1 Nickel-plated Block Plane.
1 Iron Bull - Nose Rabbet Plane.
1 Wood Mitre Box.
1 Iron Saw Vise.
12 Socket Firmer Chisels, bevel edge, ⅛ to 2 in.
13 Auger Bits, ¼ to 1 in. Jenning's pattern, in wood box.
1 Clark's Expansion Bit, ⅞ to 3 in.
8 Gimlet Bits.
1 Counter Sink.
1 Automatic Hand Drill, with 8 drills.
1 Ratchet Brace, nickel-plated, ball bearing.

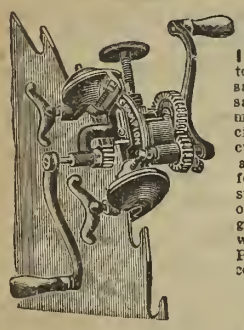
Made from the finest grade of crucible steel, patent ground and tempered, and in toughness, elasticity, workmanship, and durability they are excelled by none. Set and sharpened ready for use. The greatest care and diligence is taken in each process of their manufacture, from the selection of the raw material to the smithing, hammering, tempering, grinding, filing and setting.

Each process is under the direct supervision of an expert, and before leaving the factory each saw is given a final test and inspection, thus securing the absolute perfection of our product.

We list and carry in stock for immediate shipment saws in standard gauges and regular sizes of holes, as listed, but can supply special gauges and odd size holes as promptly as anyone. It usually takes from 10 to 30 days to make up special saws at the factory. Prices on saws larger than 36 in. and on inserted tooth saws named on application. We save you from 25 to 50 per cent over usual retail prices.

Lakeside High Speed Rip Saws



Extra quality. Prices are for saw set and sharpened ready for use. Be sure to give size of hole.

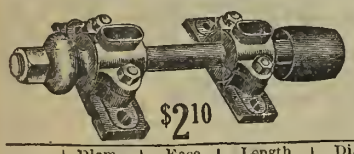
Eclipse Saws Speed up the Work

Eclipse Cordwood Saws



$2.38 up

185C264—These popular low speed saws are giving excellent satisfaction on pole sawing and cordwood machines, and for similar rough work. Made from better steel than most of the cordwood saws now on the market, and are correctly tempered, filed and set ready for use. They have our Special Cordwood Crosscut Teeth, filed sharp, with deep, round gullets and set, ready for use. (For high speed sawing and smooth cutting we recommend our famous Lakeside Circular Saws, made of finest crucible steal, of which there are thousands in daily use.) Our Eclipse Cordwood Saws are made cross-cut only. Made only in the sizes listed below (give diameter and hole). Securely crated.

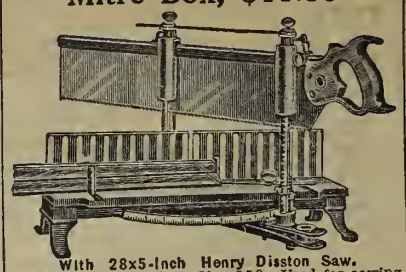
A mackinaw makes a comfortable all around winter coat

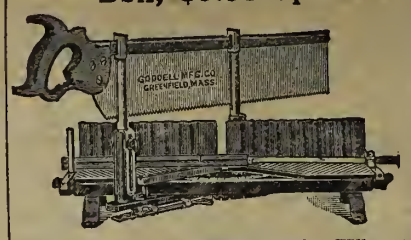
A Well Set and Filed Saw Means Perfect Work at All Times



Lakeside Saw Set

68c

85C310—Has eccentric anvil and indicator, giving the number of teeth to the inch, which enables you to always hold the set in your eaw. The lever is placed helow the body of the Saw Set where it is operated by the fingers only, doing away with the motion of the entire hand. For all kinds of handsaws. The Revolving anvil covers the required bevel and length of all saw teeth, ranging from 4 to 16 points to the inch. The figures on the dial indicate the number of teeth to the inch.
Highly nickel plated. Hardened anvil and plunger, tempered steel spring. Length, 7 In. Malleable handle. Ship. wt., 1 lb.
Each.....68c

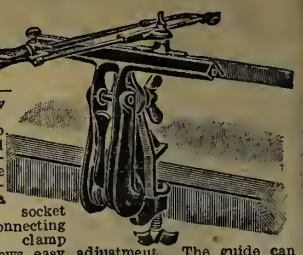


Stanley Perfect Mitre Box, $11.50

With 28x5-Inch Henry Disston Saw.

185C370—Stanley's No. 358. Used for sawing square ends or any angles, or duplicate lengths from boards, moldings, etc. Built with the greatest care, strong and durable. It embodiee many exclusive and important features which appeal strongly to the user. Back and Frame, graduated Quadrant and Swivel Arm bearing are in one piece, accurately machined. Quadrant is accurately graduated. Detachable malleable Legs. No play in Swivel Arm. Can be clamped at any point. Swivel Arm has Second Socket for front saw guide, permitting use of a shorter saw or a much longer stroke with the regular saw. Saw Guide Uprights are steel rods, holding the saw guide cylinders, and may be adjusted to hold the saw without side play. Automatic Catches at the top of saw guides. Movable Stops for regulating depth of cut. A Removable Tie Bar gives great rigidity. Two Adjustable Spurs in the back hold work from slipping. Narrow Opening in the back of the frame is especially valuable for narrow work. Iron frame. Japanned finish. Length, 20½ in. Width, 4½ in. Capacity, Right Angle, 9½ in. Mitre 45, 6½ in.; 30 degrees without guide, 4⅛ in. With 28x5 in. fitted Henry Disston saw. Ship. Wt., 35 lbs.
Each $11.50

Goodell Steel Mitre Box, $9.95 up



Made entirely of Wrought Steel. Will not break—a feature which will be appreciated by all mechanics. Has Steel bottom plate with angular serratures. The arms can be Instantly set and locked at any angle. Hss a graduated arc in front, with the various degrees plainly marked. allowing the operator to use both hands in placing the work. The guides are made long, thus holding the saws very steadlly when raised to the extreme height. Will take work 10½ in. wide at right angles, and 7¼ in. at mitre. Total length of bed, 21 in. A strictly first-class mitre box. Complete with extra angle attachment by which the angle can be increased above 45 degreee, and a gauge, for sawing duplicates. Pricee include a high-grade saw. Saws are measured the extrsme length of the blade, not by the toothed edge.

Hard Wood Can't Stop a Lakeside Plane

Lakeside Iron Planes

Each Lakeside plane is carefully inspected and tested and we offer our Lakeside planes to you with the full assurance that there are no better tools on the market.

Cutters are of best quality tool steel —thin enough to be easily sharpened by honing or grinding, and thick enough to totally overcome all tendency to chatter in the hardest woods. This feature is a distinct advantage, and one fully appreciated by the expert workman. Cutter is adjustable endwise and sidewise.

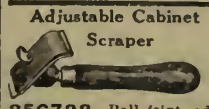
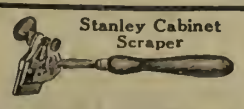
Angular Boring Machines

Standard Boring Machine
$3.95



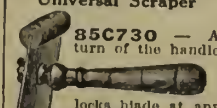
85C1378—Strong and well made, with graduated ways, swinging racks, malleable crank. Can be used to bore at any desired angle. Chuck has ½ in. round hole. Base and uprights are seasoned hardwood. Average shipping weight, 26 lbs. Without augers.
Each **$3.95**

Millers Falls Boring Machine
$7.95



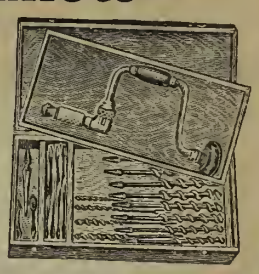
85C1380—A high-grade, finely finished machine. Uprights are ½ in. round steel shaft, adjustable by a set screw to bore at any angle. Chuck has ½ in. round hole. Average shipping weight, 41 lbs. Without augers.
Each .. **$7.95**

Adjustable Cabinet Scraper



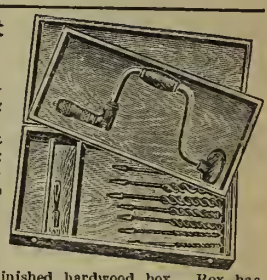
85C728—Ball joint, adjustable to any angle. Extra quality steel blade. Hardwood handle. Length, 9 in. Width, 3 in. Ship. wt., 2 lbs.
Each **65c**

Stanley Cabinet Scraper



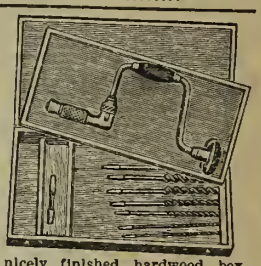
85C729—Blade clamps in any position. Japanned iron frame. Length, 14½ in. Maple handle and knob. Tool steel, 3-in. cutter. Ship. wt., 2¼ lbs.
Each **78c**

Universal Scraper



85C730 — A turn of the handle locks blade at any angle. Steel blade. Polished hardwood handle. Length, 9 in. Ship. wt., 2 lbs.
Each **$1.00**

Lakeside Special Brace and Bit Set



85C1014—Set consists of the following tools: 1 nickel plated steel Lakeside ratchet bit brace, 10 in. sweep (our 85C1230). With full set of 13 Lakeside solid stem auger bits (our 85C918), one each, ¼ to 1 in. Set of 8 German gimlet bits, 1/16 to 5/16 in., one square reamer, one flat countersink, one snail countersink, one auger bit file. All high grade, extra quality tools. Complete, in a neat hardwood box with hinged cover, as illustrated. Box has separate tray for brace. Ship. weight, 13 lbs. Per set **$5.95**

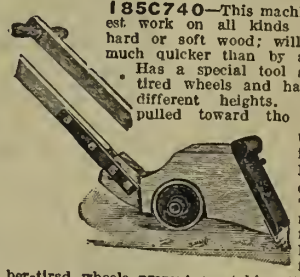
Brace and Bit Set

85C1018—Set consists of the following tools, as illustrated: 1 nickel-plated ratchet bit brace, 10-in. sweep; 7 Lakeside, extra quality steel auger bits, one each, ¼, ⅜, ½, ⅝, ¾, ⅞, 1 in. (our No. 85C915); and 1 screwdriver bit. Packed complete in a nicely finished hardwood box. Box has separate tray for brace. Ship. wt., 8 lbs.
Per set **$2.95**

Brace and Bit Set

85C1020—Set consists of the following tools as shown herewith: 1 ratchet brace, polished steel, 10-in. sweep; 7 Standard steel auger bits, one each, ¼, 5/16, ⅜, ½, ⅝, ¾, ⅞, 1 inch; and 1 screwdriver bit. A good outfit for general use. Packed complete in a nicely finished hardwood box, as illustrated. Box has separate tray for brace. Ship. wt., 6 lbs. Per set **$2.25**

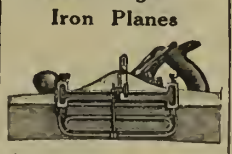
Forstner Bit Sets



85C932—Set of 6 bits, especially adapted for fine and delicate patterns. A remarkable set of bits, demanded by the best carpenters. Bits guided by rims instead of center. In plain box. Sizes, ⅜, ½, ⅝, ¾, ⅞, 1 in. Ship. wt., 1¼ pounds.
Price, per set **$4.26**

85C933—Set of 9 Forstner bits. In neat box with hinged cover. Sizes, ⅜, ½, ⅝, ¾, ⅞, 1, 1⅛, 1¼, 1⅜. Ship. wt., 1¾ lbs.
Price, per set **$7.44**

Rapid Floor Scraper



Will do the Work of three Men with Hand Scrapers **$8.75**

185C740—This machine will do the finest work on all kinds of flooring, either hard or soft wood; will do it easily and much quicker than by any other method. Has a special tool steel knife, rubber tired wheels and handle adjustable to different heights. The machine is pulled toward the operator, working upon the floor similar to a plane, leaving the surface smooth and level. The weight of the machine prevents it from jumping and leaving a wavy effect, and the rubber-tired wheels prevent scratching the floor. Does the same good work as many machines sold at a much higher price. Width of machine, 6 in., and the same knife extends across the entire width so it is possible to get close to the wall or base board and into corners. Shipping weight, 130 lbs.
Each (with two knives) **$8.75**
85C741—Extra knives. Ship. wt., 8 oz. Each.. **40c**

Plane Gauges

Plane Gauge for Iron Planes

85C710—Readily clamped to any iron plane, to accurately plane bevels of any angle. Does away with the use of a try square or bevel. Japanned iron, nickel finish. Ship. weight, 2 lbs.
Each **70c**
(Plane not included.)

Plane Gauge for Iron Planes

85C714—Stanley's No. 386. For accurately planing bevels between 30 and 90 degrees or for squaring up edges of boards. Clamps on either side of plane. Nickel-plated. Ship. wt., 2½ lbs.
Each **$1.30**
(Plane not included.)

Plane Gauge for Wood Plane

85C712—Will fit any wooden plane. Attached with screws. By its use either beveling or jointing may be accurately and quickly accomplished. Ship. wt., 2 lbs.
Each **58c**
(Plane not included.)

Use Drills That Don't Need Frequent Sharpening

Bit Shank Twist Drills

For Metal Boring

85C1050—With square taper shank and will fit any ordinary bit brace. Each drill is carefully tempered, tested and finished. Standard high quality. None better made. Suitable for either metal or wood. Lengths, 3½ to 7¾ in. Shipping weights, each, 1 to 9 oz.

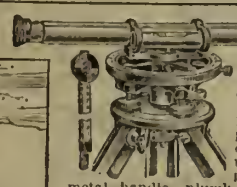
Make Your Waste Land Pay

$21.90

Drainage or Farm Level with Telescope

85C1954—An instrument constructed for the use of farmers, ditchers, landscape gardeners, etc. Has a fine telescope, 12 inches long, magnifying power of 16 diameters; graduated level vial, which is sensitive enough to tell a variation of ⅛ inch in 100 feet distance after being leveled up. Instrument revolves on a spindle and is always kept in a level plane. Constructed of bronze metal and packed in neat hardwood box. Shipping wt., 22 lbs.
Price, each (complete with tripod)..... **$21.90**



85C1955—Drainage Level, like above, but with horizontal circle reading to degrees for turning angles. Shipping wt., 22 lbs.
Each (complete with tripod)..... **$26.75**

You can get your own price for land that is properly terraced, ditched, tile drained or irrigated. If you don't care to sell, your big increase in yearly profits is just like turning waste land into spot cash.

Every well-managed farm should have one of these levels. Our levels are easy to operate. No special knowledge of surveying required. Design your own drainage system, lay out a road or building site. There are many jobs that you can find for a level. Our circular on surveying instruments will show you how to make your spare days the big pay days. Write for it.

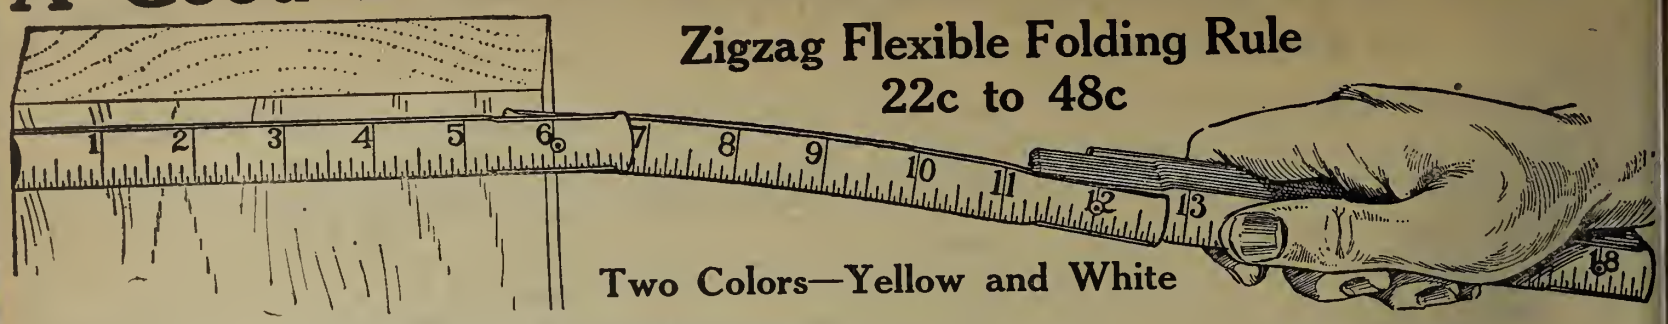
Drainage or Farm Level

85C1951—For farm lands, drainage ditches, roadmaking and similar uses. Provided with 10¼-in. sighting tube, level vial mounted in tube, pinhole eyepiece, front closed by a glass, with cross-hairs, 4-in. horizontal circle graduated to degrees. Clear directions. Complete in neat wooden case, hooks and metal handle, plumb bob key for center, wood levelling rod, strong hardwood tripod. Ship. wt., about 10 lbs. Price..... **$14.95**

Farm Levels

$10.95

85C1958 — Starrett's No. 101. For architects, contractors, carpenters, millwrights, masons, surveyors, etc.



Tripod is of iron, and has improved extension legs, adjustable from 2½ to 4½ ft. The sight tube is brass, twelve inches long, and in one end is a small eye aperture, while the other end has the usual cross wires. Handsome nickel and japan finish. This instrument is adapted to use on a farm because of its strength and simplicity. Ship. wt., 14 lbs. Price (complete with tripod and directions for use, packed in neatly finished wood case) **$10.95**

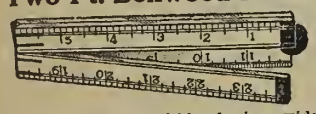
22c to 48c

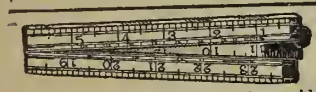
Two Colors—Yellow and White

This rule has become very popular among carpenters and for general household use. Its flexibility makes it a handy rule in awkward places and for measuring curved surfaces. Made of hardwood, 5/8 in. wide, with enameled finish, either yellow or white and distinct black markings. Folds are 6 in. long. Steel riveted special spring joints hold rule straight and firm. Metal tips. Spaced in 16ths of an inch.



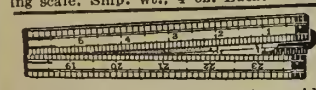
85C1840—Yellow Rules:

Length, ft.,	4	6	8
Shipping wt., oz.,	5	7	9
Each	22c	32c	42c

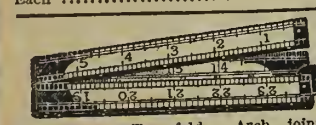


85C1841—White Rules:

Length, ft.,	4	6	8
Shipping wt., oz.,	5	7	9
Each	24c	35c	48c



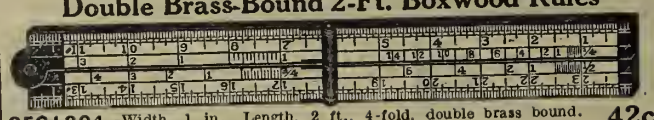
Two Ft. Boxwood Rules



85C1800—Four-fold, 1 in. wide, round joints, middle hinge plates; marked in 8th and 16ths. Ship. wt., 4 oz. Each..... **10c**

85C1801—Four-fold, 1 in. wide, square joint, edge plates marked 8ths, 10ths, 12ths, 16ths, in., drafting scale. Ship. wt., 4 oz. Each. **20c**

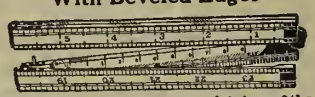
85C1802—Four-fold, 1 in. wide, arch joints, middle hinge plates, marked 8ths, 10ths, 12ths, 16ths, in., drafting scale. Ship. wt., 4 oz. Each **18c**



85C1808—Four-fold. Arch joints, spaced in 8ths, 10ths, and 16ths of in., drafting scales. Width, 1⅜ in., double brass bound. Ship. wt., 6 oz. Each **62c**

85C1810—Width, 1⅜ in., length, 2 ft., 4-fold, square joint, middle hinge plates, marked 8ths and 16ths with drafting scale. Ship. wt., 4 oz. Each **20c**

85C1811—Same style as above, except that it has brass edge hinge plates. Not full brass bound. Each **25c**



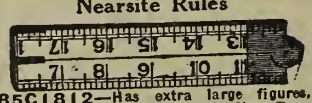
Double Brass-Bound 2-Ft. Boxwood Rules

85C1804—Width, 1 in. Length, 2 ft., 4-fold, double brass bound. Ship. wt., 5 oz. Each **42c**

85C1805—Width, ¾ in. Length, 2 ft., 4-fold, square joints, brass bound, marked 8ths, 10ths, 12ths, 16ths of in. Ship. wt., 5 oz. Each **42c**

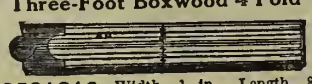
Architects' Rules With Beveled Edges

85C1814—Has arch joints; 8ths, 10ths, 12ths and 16ths inches, with inside beveled edges and architects' drafting scale. Width, 1 in. Length, 2 ft. Ship. wt., 4 oz. Each.... **42c**



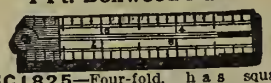
Stanley Extension Rules

85C1845—Hard maple, 1 in. wide. Spaced in 8ths. Brass trimmed. When extended to required length, the sections may be secured by the set screw. Ship. wt., 1 to 3 lbs.



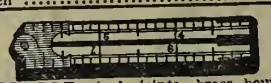
Size, ft.	2 to 4	3 to 6	4 to 8	5 to 10
Each	48c	55c	63c	78c

Nearsite Rules



85C1812—Has extra large figures, easily read where the light is dim. Boxwood, width, 1⅜ in., 2 ft., square joint, brass edge plates on hinge, marked in 8ths and 16ths. Ship. wt., 4 oz. Each **58c**

Three-Foot Boxwood 4 Fold



85C1816—Width, 1 in. Length, 8 ft., spaced 16ths of inch on one side and yard stick on the other side. Ship. wt., 4 oz. Each..... **32c**

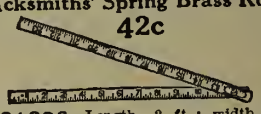
1 Ft. Boxwood Rule

85C1825—Four-fold, has square joints and is marked in 8ths and 16ths. Width, ⅝ in. Ship. wt., 3 oz. Each **14c**

85C1827—Arch joints, brass bound, marked in 8ths and 16ths. Width, ⅝ in. Ship. wt., 3 oz. Each **32c**

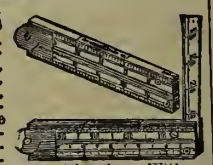
Stanley Rule Tool

85C1832—May be used as a Plumb, Level, Square, T-Square, Mitre-Square, 30 degree Square, Depth Gauge, or Marking Gauge, by attaching to any two-foot rule that is one-inch wide. Light and very useful. Cast iron, nicely nickel-plated. Ship. wt., 5 oz. Each **42c**



Flexible Steel Rule

85C1834—Thin steel 1-ft. rule, ⅝ in. wide. Three folds. Graduated in 16ths. Ship. wt., 3 oz. Each (in leather case) **22c**



Blacksmiths' Spring Brass Rule

42c

85C1836—Length, 2 ft.; width, ⅝ in. Made with a stiff spring joint which holds the rule rigid when open. Graduated 8ths on one side and 16ths on the other side. Made of Spring Brass which will not rust nor break. Ship. wt., 8 oz. Each..... **42c**

Combination Rule

85C1828—Boxwood full brass bound. Combines a carpenters' rule, spirit level, square, plumb, bevel inclinometer, brace scale, draughting scale, T-square, protractor, right angle triangle. With a straight edge it can be used as a parallel ruler. Length, 1 foot. When folded, length, 6 in.; width, 1⅜ in.; thickness, ⅝ in. Ship. wt., 8 oz. Each..... **$1.70**

Standard Log and Board Rules

Made of the best second growth hickory and shaped by hand, so they will retain their flexibility after use. To scale logs 8 to 20 ft. long. The figures are burned in the wood. Ship. weights range from 1 to 2 lbs.

85C1848—Hickory Log Rule, square head; Scribner's scale figured, 48 in., with 6 in. handle. Each..... **$1.25**

85C1849—Same with Doyle scale. Each..... **$1.25**

85C1850—Hickory Log Rule, square head; Scribner's scale figured, 36 in., with 6 in. handle. Each..... **$1.08**

85C1851—Same with Doyle scale. Each..... **1.08**

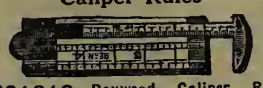
Hickory Board Rules

85C1852—Board Rule, 3 tier, 3 feet long, extra heavy brazed head. It is the rule for regular yard work and the one most commonly used. To measure 8, 10, 18 feet, on one side, and 12, 14, 16 feet on the other side. Ship. wt., 1 lb. Each **$1.20**

Wood and Metal Caliper Rules

Combination Caliper Rule
Solid German Silver

$1.10



Comprises a caliper rule, protractor, triangle, try-square and hook rule. A finely finished rule. Accurately graduated in 16ths and 32nds. Protractor is divided to five degrees and the vernier reads to one-half degrees. Ship. wt., 3 and 6 oz. (In leather case.)

85C1830—Length, 6 in. Each **$1.10**

85C1831—Length, 12 in. Each **1.80**

Caliper Rules

85C1818—Boxwood Caliper Rule. Square joint, 2-fold, spaced in 8ths, 10ths, 12ths and 16ths. Length, 6 in. Width, ⅞ in. Ship. wt., 3 oz. Each..... **23c**

85C1819—Solid Ivory Caliper Rule. German silver trimmed, 2-fold. Length, 6 in. Width, ⅞ in., spaced in 8ths and 16ths of an inch. Ship. wt., 3 oz. Each..... **95c**

Caliper Rules

37c

85C1822—Boxwood Caliper Rule. Length, 1 foot, arch joints, 4-fold, spaced in 8ths, 10ths, 12ths and 16ths. Width, ⅞ in. Ship. wt., 4 oz. Each..... **37c**

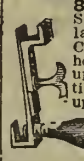
Butt Gauge

85C2330—Graduated to 2 inch. Two bars with steel cutters. Outer cutter for gauging on edge of door; inner cutter for gauging from back of jamb. Nickel-plated. Ship. wt., 10 oz. Each. **58c**

Stanley Butt Gauge

85C2331— Stanley's No. 94. For door hanging and mortising. Nickel-plated iron. Steel markers. Length, 3 in. Ship. wt., 14 oz. Each..... **73c**

Butt Gauge

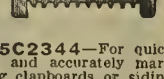


85C2332— Hardened double edge spurs. Nickel-plated iron. Length, 3½ in. Ship. wt., 12 oz. Each..... **64c**

Steel Butt Gauge

85C2334—Steel, nickel-plated. Use knife point as a marker. Size, 5 in. Ship. wt., 3 oz. Each..... **20c**

Clapboard Gauge



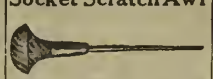
85C2340—Slips under the last clapboard. Clapboard can he placed on the upper gauge until nailed. Sets up to 4½ in. to the weather. Ship. wt., 1 lb. Each **39c**

Clapboard Marker

85C2342—For right or left hand. Cutters are parallel with the guides and beveled on one side only, insuring a close joint when sawed. Length, 8 in. Ship. wt., 20 oz. Each..... **92c**

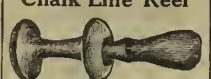
Clapboard Marker

85C2344—For quickly and accurately marking clapboards or siding. Steel with wood handle. Moving marker half inch makes a full line over edge of corner board. Length, 8½ in. Ship. wt., 18 oz. Each..... **35c**



Steel Roofing Bracket

85C2349 — Stanley Brackets. Hold firmly. Quickly moved. Spring steel, japanned. Have steel prongs which imbed themselves in the roof, requiring no nails. Excellent for shingling. Size, 9x9 in. Ship. wt., each, 2 lbs.



Each	$0.27
Per doz.	3.20

Socket Scratch Awl

85C2305 — Polished steel blade, with socket for hardwood handle. A high-grade attractive tool. Length, about 6 in. Ship. wt., 4 oz. 15c retail value. Each..... **9c**

Chalk Line Reel

85C2303 — Beechwood reel; length, 3 in., with steel scratch awl, length, 3½ in. Ship. wt., 6 oz. Each..... **8c**

Note—For Chalk Lines, see index.

Hollow Handle Tools

Hollow Handle Tool Set

Polished Cocobolo

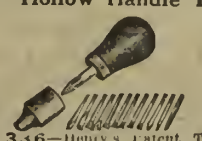
35c

85C1330—A very useful tool. Hollow polished cocobolo handle. Holds 10 good sized tools as illustrated, all solid steel, hand-forged. Length of handle, 5¾ in. Shipping wt., 9 oz. Each....**35c**

Hollow Handle Tool Set

75c

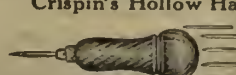
85C1332—Extra quality, large hollow cocoholo handle. With a superior thumb nut and grip, nickel-plated. With 9 tools as shown. Tools are made from high grade steel. Length of handle, 7 in. Ship. wt., 1 lb. Each..... **75c**



Lakeside Hollow Handle Set

$1.10

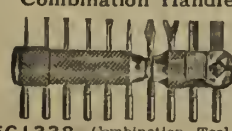
85C1334—Our Lakeside Extra large handle. Made of polished cocoholo. Ten tools. Best quality tempered steel. The chuck is nickel-plated and constructed with special regard to strength and durability. Length of handle, 7½ in. Ship. wt., 22 oz. Each..... **$1.10**



Hollow Handle Tool Set

40c

85C1336—Henry's Patent Tool Handle. With a solid Cocobolo handle and nickel-plated metal cap. Contains 12 tools of extra tool steel. Length, 4¼ in. Ship. wt., 10 oz. Each..... **40c**



Crispin's Hollow Handle Awl

37c

85C1340—Ebonized hardwood hollow handle, length, about 5 in. Contains 50 feet of best waxed linen shoe thread; 3 awls and 5 needles. For quick mending in the house, stable, field or camp. A well made, useful tool. Ship. wt., 5 oz. Each **37c**

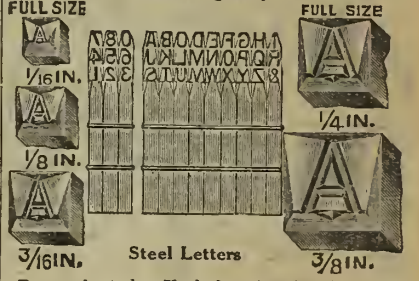
Combination Handle Tool Set

78c

85C1338—Combination Tool Handle, pin vise, and end tap wrench. Made entirely of steel, nickel-plated. Handle is hollow, with a screw cap. Contains 10 forged steel tools as illustrated. Ship. wt., 1 lb. Each..... **78c**

Hand Made Steel Stamps

28c



285C2724—These steel stamps are made to order especially for stamping names, numbers or initials, on tools, wood, leather, etc. Each is hand-made of best tool steel. Prices are for one line stamps with any letters or figures desired. Mailed direct from factory, postage paid.

Size, 6 in. Each...55c

Steel Hook Rules

85C2554— Starrett's No. 419. Convenient in taking measurements from round corners, through hubs of pulleys, etc. Thickness of rule, 3/44. Spring tempered, graduated in 6ths, 16ths, 32ds, and 64ths and in 32ds on opposite sides of one end. Give size. Lengths, 6 in.; width, ¾ in. Ship. wt., 3 oz. Each 75c
Length, 12 in.; width, 1 in. Ship. wt., 6 oz. Each... $1.35

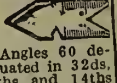
Narrow Hook Rules

85C2556— Starrett's No. 422. For use in taking measurements through holes. Measures as small as ⅜ in. width of rule 3/16 in. thickness. No. 16 gauge, spring tempered, graduated one side in 32ds and the other in 64ths in. Ship. wt., 3 and 4 oz. Give size.

Length, in... 6 9
Each 68c 98c

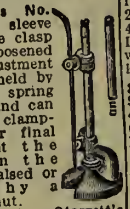
Marking Awls

85C2577 — Made of steel, twisted with polished points. Length, 7 in. Ship. wt., 2 oz. Each..... 22c



Caliper Rule

Solid German Silver. Graduated to 16ths and 32ds. Protractor reads to ½ degree.



85C1830—Length, 6 in. Ship. wt., 4 oz. Each $1.10
85C1831—Length, 12 in. Ship. wt., 6 oz. Each $1.80

Center Gauge

85C2560 Starrett's No. 390. Spring tempered. Angles 60 degrees, graduated in 32ds, 24ths, 20ths and 14ths in. Length, 1¼ in. Ship. wt., 1 oz. Each 23c

Surface Gauge

Starrett's No. 52. The sleeve and needle clasp when loosened for adjustment are both held by a slight spring friction, and can be rigidly clamped. For final adjustment the spindle in the base is raised or lowered by a knurled nut.

85C2568— Starrett's No. 52A. Height, 6 in. Without extension. Ship. wt., 2 lbs. Each $1.75
85C2569— Starrett's No. 52C. Height, 12 in. With 6 in. extension. Ship. wt., 3 lbs. Each $2.85

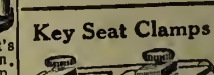
Improved Scriber

85C2576— Starrett's No. 67, nickel-plated, with long and short points. Length, with long point, 12½ in. Ship. weight, 5 oz. Each 44c

Pocket Caliper

85C2558— Starrett's No. 425. Polished steel. Grad. 32d and 64ths. Size, 3 in. Ship. wt., 4 oz. Each $2.20

Screw Pitch Gauge



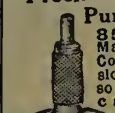
88c

85C2572— Starrett's Improved, No. 40. Has 22 pitches. Sizes, 9 to 40 threads to the inch. Length, 2½ in. Ship. wt., 3 oz. Each 88c

85C2573— Starrett's Screw Pitch Gauge, No. 4. Has 24 pitches. Sizes, 0 to 30. Length, 2½ in. Ship. wt., 5 oz. Each.... $1.10

Key Seat Clamps

85C2586 — Convert any common steel scale into a key seat rule. Case-hardened steel accurately ground. Size, 1x¾ in. Ship. wt., pr. 4 oz. Per pair..... 53c



Steel Clamps

85C2584—Case hardened steel, designed for toolmakers. Give size.

First Impressions are Lasting. Give Visitors a Good Impression at the Door

Artistic hardware is not nearly as expensive as you would suppose. Besides lending a touch of refinement to your home lasts for years, and always appears attractive. Comparison will show our prices on these trimmings to be extremely low, quality and finish considered. Knobs, escheons and all trimmings are beautifully finished. All its are strongly made and easy working.

Our prices permit you to have the most up-to-date Hardware, of pleasing designs, for much less money than you would ordinarily have to pay. In order to simplify the ordering of Builders' Hardware the different finishes are designated by letters. Letters **A** to **E** indicate **Solid Bronze**; and **G** to **P** represent **Plated** iron and steel. A harmonious, tasteful and elegant appearance is obtained by selecting all of the trimmings of the same finish.

Solid Bronze is the most attractive, durable and satisfactory to choose. There is no metal that combines such an air of richness and refinement as Bronze. Much of our iron and wrought steel hardware is also very ornamental and finished to resemble the solid bronze, and gives very satisfactory service for interior use. We do not recommend any but solid bronze finishes for outside work.

We furnish screws for all items on this page that require them.

Sizes given on this page are approximately correct but may vary slightly.

Description of Finishes

Solid Bronze Hardware

A Finish—Polished Bronze, natural color, highly polished and lacquered.

B Finish—Raised Surfaces, polished bronza finish; sunk background black finish.

C Finish—Polished Antiqua Copper, dark color, relieved by partial polish.

D Finish—Sanded Antique Cooper, dark color, partially brightened, with dull sand blasted surface.

E Finish—Lamon Brass, rich brass color, dull satin finish; lacquered. (C and E finishes are the most popular.)

Iron and Steel Hardware

G Finish—Garman Bronzed. Lacquered brown color, not polished.

H Finish—Raised Surfaces polished bronza finish; sunk background black finish.

K Finish—Polished Bronze. Plated with bronze and highly polished and lacquered.

L Finish—Polished Antique Copper. Plated dark color, relieved by partial polish.

M Finish—Sanded Antiqua Copper. Plated dark color, partly brightened and with dull sand blasted surfaces.

P Finish—Lamon Brass. Plated brass color, dull satin finish. (For longest wear, choose the solid bronze hardware.)

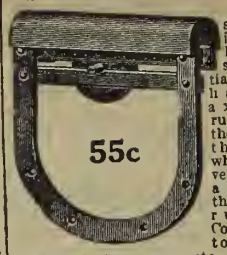
Don't Overlook This Page When Planning to Fix Up Your Barn

Roller-Bearing Barn Door Hangers

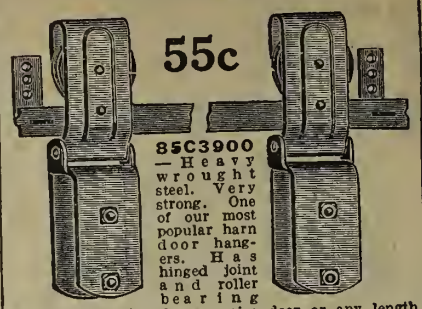


Heavy wrought steel. Wheels are roller bearing, making the hanger anti-friction, on any length of track. (Without screws or bolts.)

85C3904—Medium size, 1. Width, 5 in. Length, 10¾ in. Diameter of wheel, 3½ in. Ship. wt., pair, 6 lbs. Per pair..... **38c**

85C3905—Large, size 2. Width, 8 in.; length, 12 in. Diameter of wheel, 4 in. Ship. wt., pair, 9 lbs. Per pair..... **48c**
(For suitable track, see 185C3908.)

Steel Barn Door Hangers



Wrought steel black japanned. Heavy and substantial. Wheels have steel axles and run in a slot the width of the hanger, which prevents wear and makes them easy running. Covered top to protect the wheels from snow, etc. Screws or bolts not included.

85C3906—Size, 9x10¼ in. For doors having run of 6 ft. Ship. wt., pair, 9 lbs. Per pair..... **55c**

85C3907—Size, 11½x11½. For doors having run of 10 ft. Ship. wt., pair, 11 lbs. Per pair.... **70c**
(For suitable track, see 185C3908.)

Hinge Joint Barn Door Hangers
Roller Bearings

85C3900 — Heavy wrought steel. Very strong. One of our most popular barn door hangers. Has hinged joint and roller bearing wheels. Suitable for any size door or any length of run. The hinge joint prevents the door from binding when it is swung in or out. It cannot be thrown off the track, as it has a guard that runs under the track. Will not run on ordinary track. For suitable track, see No. 185C3901. Complete with bolts. Diameter of wheel, 3¼ in. Ship. wt., pair, 7 lbs. Per pair..... **55c**

Improved Trolley Barn Door Hanger

85C3919 The latest and best hanger. Heavy wrought steel. Built for hard usage on the heaviest doors. Has a hinged joint so door will not bind when swung out. A detachable door strap makes it easy to hang the door. Lateral adjustment to fit doors 1¾ to 2½ in. thick. Easy running Roller Bearing Wheels. Heavy steel track and brackets. A pair consists of two hangers, two end brackets and one center bracket with bolts and screws. Ship. weight, pair, 10 lbs. Per pair.. **$1.32**

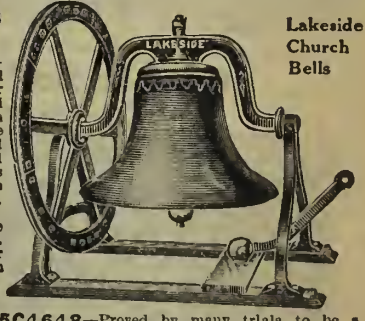
Lakeside Church and School Bells



Fully Guaranteed for 5 Years

Lakeside Bells for Schools and Factories

Since our High-Grade Lakeside Bells have been perfected, solid brass or bronze bells are no longer considered the only satisfactory kind for schools and churches. Our Lakeside Bells are made of a special composition metal low in price, and produce a rich, pleasing sound which always improves with age. Thousands in use. The size and weight of the bell controls the tone, and the depth and purity of tone is increased as the weight is increased and the size enlarged. For less than the cost of a small brass bell, you can buy a larger Lakeside Bell with a much larger volume of tone, and which produces a deep sweet, melodious, far-reaching sound.

We will replace, without expense to you, any Lakeside Bell that breaks within five years after date of purchase. It is a rare thing for one of our bells to break, and after the first year the chances for its breaking are very much decreased, and the bell improves in mellowness with use.

Lakeside Church Bells

285C4645—The best sounding, low priced bell for schools, small churches, fire houses, factories, etc. Can be heard at a great distance. Prices are for bells complete with wood sills and iron wheel. Give size.

Let Your Roof Beautify as Well as Protect

Radio—Our Most Popular Roll Roofing

Real Crushed Slate Surface—Will Shed Water and Retain its Color for 15 Years or More

$2.35 Per Roll

Red or Green Slate Surface Guaranteed 15 Years

Radio Roofing is an Extra Quality Roofing

Our Attractive, Colored Radio Roofing is first quality roofing which will stand the test of time and which we guarantee for fifteen years.

Radio Roofing is extra heavy, double-service roofing in every respect. Made of long fibre wool felt, treated with special high-grade, genuine asphaltum. The natural slate is pressed into the surface under heavy pressure and will not come loose, as is often the case with inferior roofing. Contains no tar or inferior oils. Will not dry out, shrink, crack nor warp. Needs no painting. Is weather-proof, water-proof and fire resisting. The surface is covered with fine crushed slate, in the natural colors (Red or Green). These colors will not fade, but will retain their pleasing appearance permanently.

Radio Roofing is not affected by heat or cold. It will not absorb moisture, or become soft and spongy in damp weather.

Radio Roofing is Easily and Quickly Laid

The ease with which Radio Roofing may be laid one of its great advantages. It comes in convenie rolls, width, 32 inches; length, 40½ feet.

In the center of each roll are packed large he galvanized nails, a can of liquid cement for t same, and simple directions for laying. One edge left smooth a width of two inches, to facilitate maki the lap. May be laid directly over old shingles, th saving the bother of ripping off the old shingl You simply use longer nails, which we will furn with the roofing, if so ordered. Once properly la Radio Roofing needs no further attention. Its fi cost is the only cost.

Covering Valley With Narrow Sl

Burlap Radio Slate Surface Roofing

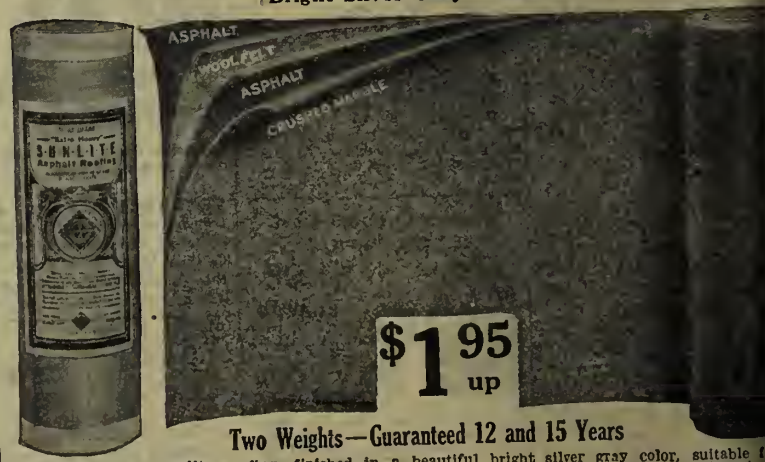
Resists Severe Hail

Red or Green—Guaranteed 15 Years

A very tough, flexible roofing fabric, constructed of the best material throughout. Made similar to our Radio Slate Surface Roofing, but with the addition of a burlap insertion under the felt. This greatly increases its tensile strength and weather-resisting qualities. Extensively used in localities where hail occurs. Made from tough, long fibre felt, saturated and covered with genuine asphalt. Below this is a layer of strong burlap. Being below the asphalt saturated felt, the burlap will not rot or lose its strength. Contains no tar and does not affect the rain water. One edge is left smooth a width of 2 inches to facilitate making the lap.

The slate surface will not fade. Each rain washes it clean. Pressed into the surface and will not come loose. Made in separate layers and the whole fabric is bound together under great pressure, making a strictly high-grade water-proof, weather-proof, and hail-proof roofing that will give many years of satisfactory service. Adapted for any kind of roof. Width of roofing, 32 inches. We include with each roll a liberal quantity of large head galvanized nails, a can of cement for the laps, and full directions.

Garnet Red Color



180C46—Surfaced with crushed Red Slate. Rolls containing one square, or 108 square feet. Shipping weight, 90 lbs.

Rubberslate Roofing

$2.00 Per Roll

High-Grade Roofing

with smooth slate-like surface

Guaranteed 12 years

A slate-colored roofing, with smooth surface, tough and flexible, and presents a fine appearance when put on the roof. Made from selected long fibre wool felt, saturated with mineral rubber, and genuine asphaltum. It is weatherproof and fire-resisting.

Contains no tar or volatile matter, will not dry out, crack or shrink, and is not affected by changes in temperature. Suitable for any climate. Has a fine, smooth, slate-like surface, the same on both sides, and does not require any top coating. But after a few years, if covered with our Asphaltum roof coating, the roofing will be assured of longer life. Our Asphaltum coating has the same good effect on prepared roofing as paint has on the wooden surface. Each roll is packed complete with large head galvanized nails, and a liberal quantity of liquid cement for the laps and seams. Requires no special tools and is easy to apply. Width of roofing, 32 in.

180C80—Rubberslate Roofing. Heavy grade. Roll containing 1 square or 108 square feet, complete with nails, cement and directions. Shipping weight, 55 lbs. Per roll..... **$2.00**

Here's Roofing That Guarantees Tomorrow's Satisfaction—And at Low Cost

Atlas—Economical, Durable Smooth Surface Roofing

Smooth Rubberlike Surface

$1.30 to $2.00 Per Square

Guaranteed 7 to 12 Years

Adapted For Any Climate

Approximate Thickness of 1 Ply

Approximate Thickness of 2 Ply

Approximate Thickness of 3 Ply

Made from long fibre wool felt, saturated with genuine asphalt, which will not dry out or evaporate. Coated on both sides with crushed mica. This allows the roofing to unroll freely and aids its weather resisting qualities. Contains no tar or other evaporative matter. Nothing to ooze out, even in the hottest weather, and will not crack in the coldest. Absolutely weather-proof. Suitable for either flat or steep roofs. Will not crack, or discolor rain water, and is free from odor. Requires no special tools. Each roll is packed complete with large head galvanized nails, liquid cement for the laps and simple directions for laying. Width of roofing, 32 in. In rolls of 108 and 216 sq. ft. Made in three different weights, all the same high quality, the only difference being in the thickness and weight. We do not increase the weight by the addition of clay or other cheap mineral substances, a plan frequently resorted to in ordsr to get heavier rolls regardless of the wearing qualities of the roofing. Each step of manufacture is subject to an unusually rigid inspection.

Standard (1 Ply)

Guaranteed for Seven Years.

180C20—Rolls containing one square. With regular nails. Average ship. wt., 35 lbs. Per roll of 108 sq. ft... **$1.30**

Three Low Priced Roofings—Fine for Temporary Use

Combination Rubber Roofing

Sold without a guarantee for a definite period, but is good enough for temporary buildings, where a long-lived, durable fabric is not absolutely essential. Made of wool felt, saturated with asphaltum. Finished on one side with a smooth mineral asphalt coating, resembling rubber, and on the other side with fine sand or flint. Can be used with either side up, as proferred. Width of roofing, 32 in. Put up in rolls containing 108 square feet, or enough to cover 100 square feet. Complete, with large head nails and liquid cement for the laps.

180C87—One-Ply. Ship. wt., 35 lbs. Per roll **95c**

180C88—Two-Ply. Ship. wt., 45 lbs. Per roll **$1.25**

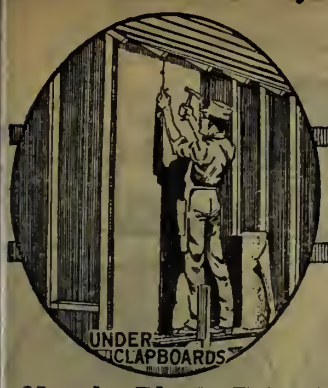
180C89—Three-Ply. Ship. wt., 55 lbs. Per roll **1.60**

Note—If you want a rcally good roof buy our specially Guaranteed Roofings. They are the choapest in the end.

Tarred-Felt Roofing

180C249—A good grade Felt. Thoroughly saturated with best distilled coal tar. Largely used on flat roofs, whers it is applied in from 3 to 6 layers. Each layer and the top surface should be coated with tar or our ready roof coating, and the top surface thoroughly covrsrsd with gravel. Also used extensively for roofing lumber camps and temporary buildings. For temporary work, order tin caps and roofing nails, as well as Roof Coating, with this felt, as they are not included. Use 1½ lbs. tin caps, 1 lb. nails and 2 gallons Ready Roof Coating to each roll. For permanent work, we recommend the use of tar. Put up in rolls 36 in. wide, containing about 350 square feet. Shipping weight, 50 lbs. Per roll (subject to market changes)..... **$1.40**

Banner Ready Roofing



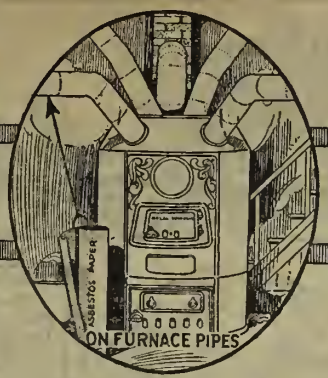
A competition grade of roofing for those who do not care to pay price of a heavier and more serviceable roofing. Good enough for houses, tool sheds and temporary buildings, but not recommended wh a serviceable roofing is needed. Each roll contains 108 square fe Width, 32 inches. Our price does not includs nails, caps, or roof coati all of which should be ordered at the samo time. To properly ap this roofing, requires 1½ lbs. tin caps, 1 lb. nails, and 2 gallons Ready Roof Coating to each roll. Should be given a fresh coat ev few years.

180C105—Banner Two-Ply Roofing. Average shipping weight, 40 lbs. Per roll (subject to market changes)..... **7**

180C106—Banner Three-Ply Roofing. Average shipping weight, 65 lbs. Per roll (subject to market changes)..... **$1.**

Sales of Building Papers are increasing steadily. Merit with low prices

Save Coal, Avoid Discomfort—Use Good Building Paper



Stop that annoying sound of footsteps on the floor above.

Keep your rooms warm in winter and cool in summer.

Drive dampness from your home.

Shut out rats, mice, bugs and other vermin.

Make your house a more comfortable place to live in by lining your walls with good building paper. Building paper will quickly save enough on your coal bill to pay for itself.

Herald Black Felt Sheathing

$1.10

180C226 — Made from wool felt thoroughly waterproofed with distilled tar. Water-proof and wind-proof. Strong and durable. Better than ordinary building paper. Clean to handle. Moisture and vermin-proof. Will unroll freely without sticking. It is air tight, will not shrink or dry out and will withstand all weathers and temperatures. The faint tar odor of this sheathing is of great value in dispelling mice, rats, bugs, moths, etc. Put up in rolls containing 500 square feet. Width, 32 inches. Average shipping weight, 45 lbs. (Subject to market changes.) Per roll.... **$1.10**

Red Rosin-Sized Sheathing

72c

Made for us of the best pulp stock with a hard, smooth surface. Tough, clean, durable paper. Damp-proof and vermin-proof. Made in three different weights or thicknesses, but all the same quality. Put up in rolls containing 500 square feet. Width, 36 in. (Prices subject to market changes.)

180C220—Standard Lakeside Sheathing. Ship. wt., 30 lbs.
Per roll **72c**

180C221—Medium Lakeside Sheathing. Ship. wt., 35 lbs.
Per roll **84c**

180C223—Heavy Lakeside Sheathing. Ship. wt., 40 lbs.
Per roll **96c**

Standard Wool Deadening Felt

$1.85

180C237—An excellent, cheap non-conductor for deadening of sounds. Also an excellent protection against frost, or for insulation of heat, etc. For use between floors of buildings. Adds greatly to the warmth and comfort of a home. Nothing is more annoying than to hear every footstep or sound from the floor above. This felt overcomes this trouble. Our Wool Felt is thick and heavy, and the best material of the kind on the market. Put up in rolls containing about 450 square feet. Width, 36 inches. Nine square feet weight 1 lb. Average shipping weight, 50 lbs. (Subject to market changes.)
Per roll **$1.85**

Asbestos Building Felt

$1.75

180C244—Standard Asbestos Sheathing. An excellent insulator for heat and cold. For lining buildings, refrigerator cars, ice houses, etc. To go between floors or for general building purposes. Extensively used for covering warm air pipes from furnaces, etc. It is absolutely fireproof. Will not burn if brought into contact with flames. Makes an excellent sound deadener. A comparison of quality and price will convince you of the excellent value we are offering. Put up in rolls containing 450 sq. ft. Width, 36 in. Average shipping weight of rolls, 50 lbs. (Subject to market changes.) Per roll..... **$1.75**

Extra Quality Blue Plaster Board

80c

A strong, durable, thin cardboard, extensively used in place of lath and plaster on walls and ceilings. It can be used over boards or fastened direct to the studding and is the best material made for sheathing and insulating. Usually applied with large head tacks and then painted, covered with wall paper or covered with wood panel strip at the seams. Has a purple blue color. Width of rolls, 36 inches. (Prices subject to market changes.)

180C234—Rolls of 250 square feet. Ship. wt., 30 lbs.
Per roll **80c**

180C235—Rolls of 500 square feet. Ship. wt., 60 lbs.
Per roll **$1.60**

The roof that's laid with these accessories is well made

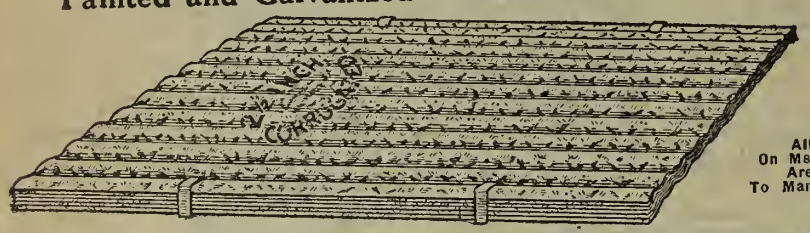
You won't have to hire a painter if you get our paint book. It tells how

Steel Roofing and Siding That Stands the Weathe

We believe it unnecessary to impress you with the wide usefulness of good metal roofing. You see it every day on up-to-date barns, warehouses, factories, garages and residences. But it is important that you buy your metal roofing from a house that has gained a reputation for square dealing and superior quality. We know we have such a reputation.

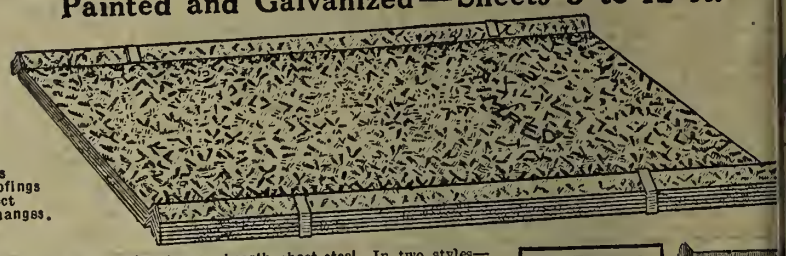
Our roofing is all made of clean, smooth sheet steel, free from splits or defects. We furnish it in two thicknesses, the Standard No. 28 gauge, and the Extra Heavy, No. 26 gauge, in either painted or galvanized finish. We do not handle the flimsy No. 29 gauge roofing sold by some.

If you want a good, durable roofing that will give you many years of satisfactory service, we recommend the No. 26 gauge.

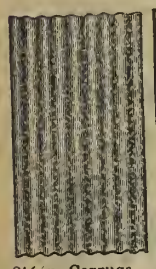


A square means 100 square feet of metal, no allowance being made for side or end laps.

Corrugated Steel Roofing



Painted and Galvanized—Sheets 5 to 12 ft.



All Prices On Metal Roofings Are Subject To Market Changes.

V Crimped Steel Roofing

Painted and Galvanized—Sheets 5 to 12 ft.

2½ in. Corrugations

$2.70 A Square

Made of open hearth Sheet Steel in two different size corrugations, 2½ in. or 1¼ in. (measuring from center to center). The 2½ in. corrugated sheets are 26 in. wide and the 1¼ in. corrugated sheets are 25 in. wide (covering width, 24 in.). The painted roofing is red and covered with a coat of mineral paint (on both sides), but should receive an additional coat after being laid. We also recommend that the galvanized roofing be painted as soon as laid. When ordering by the square, be sure to allow enough extra for the side and end laps, and give length of sheets wanted.

1¼ in. Corrugations

$2.70 A Square

This roofing is made of open hearth sheet-steel. In two styles—sheets with a V-crimp at both edges, and with crimp in center and on edges. Can be laid over sheathing, old shingles or direct to the rafters and is suitable for any roof having a pitch of 2 in. or more to the foot. The sheets have a covering width of 24 inches after lapping one crimp over the other and should be nailed through the wooden V-strips which we list below. The painted roofing is red, and should have an additional coat of mineral paint after being laid. We also recommend that the galvanized roofing be painted as soon as laid.

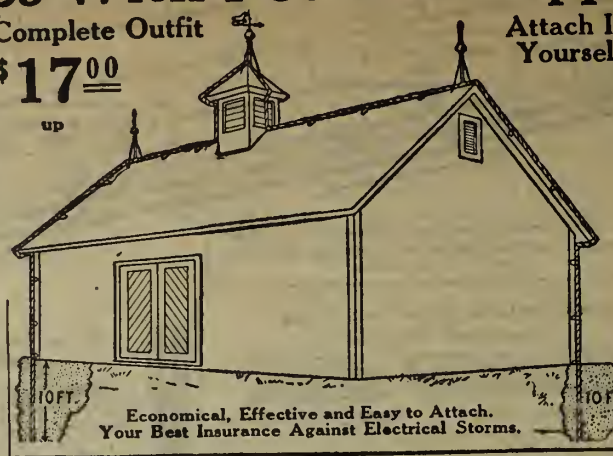
Protect Your Crops With Peerless Copper Lightning Rods



Simple, Strong and Durable Construction

Every part strictly first-class, and most modern, approved construction. Uprights, five feet high, strongly constructed. Plain upright consists of three-legged, galvanized steel brace, for attaching to roof. Brace holds strong, heavy copper tube, with tee at lower end, for attaching cable, and seamless copper point at top, with silvered tip.

The Extra Heavy 32-wire Copper Cable, diameter, 7/32-inch, (we furnish purest copper obtainable), safely carries most powerful discharge. Copper Clips and Copper Nails with cable. They should be fastened directly to the building, about every 3 feet without insulation.

Complete Outfit
$17.00 up

Attach It Yourself

Economical, Effective and Easy to Attach.
Your Best Insurance Against Electrical Storms.

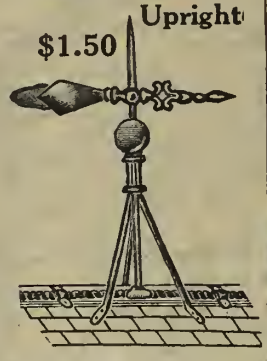
You Can Easily Figure the Outfit You Need

Place Uprights on highest points of building, beside chimneys, on top of cupolas, gables, etc., not over 20 feet apart, at least three on every building.

Tacking with staple every few feet, to serve as guide. Run atout cord up one cornsr of building to roof, then along all ridges and to all points where tops are to be placed. Then branch to everything of metal on or near roof, guttera, cornices, etc., and then down on opposite end of building. Pull out string and measure, adding enough to make sll bends and rounding (not sharp), and add 10 feet for each end grounded.

Plain Upright

95c $1.10



Complete 5-foot Upright with copper tube and tee clamp for cable, silvered tip and galvanized brace.

83C7220—With glass ball, opal, blue, ruby, silver, or gold. Give color wanted. Ship. wt., about 10 lbs. Each....**$1.10**

83C7221—Without ball. Each **95c**

Arrow Vane Upright

$1.50

83C7222—Complete 5-foot Upright, with copper tube and tee clamp for cable, silvered tip and galvanized brace. Has handsome Arrow Vane and ornamental Glasa Ball—opal, blue, ruby, silvar or gold. Give color wanted. Ship. wt., about 10 lbs. Each.....**$1.50**

Extra Heavy Genuine Copper Cable

32 Wires. 98-99% Pure

Full Size with Fastener

Per Foot **9c**

With Copper Fasteners and Nails

183C7200—Genuine heavy 7/16-inch cable. Has ample capacity for the heaviest stroke of lightning, gives effective protection at lowest cost. Lasts longer than the average building. With copper fasteners, and copper nails to fasten cable directly to your building, about three feet apart. Measure building with a string. Ship. wt., per foot, about ¼ lb. Per foot (subject to market changes).....**9c**

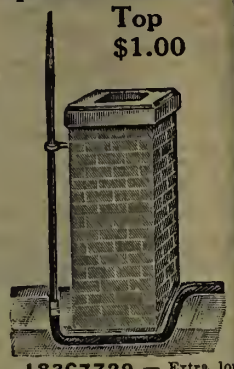
Straight Cable Connector

83C7212—Solid brass. Two screws clamp the two ends of cable to be joined. Ship. wt., about 2 oz. Each.....**6c**

Branch Cable Connector

83C7210—Solid brass prongs hook over the main cable where desired and fasten by hammering shut. Branch cable clamped by a screw. Ship. wt., 3 oz. Each **8c**

Animal Vane Upright



$2.25

83C7225—Complete 5-foot Upright with copper tube and tee clamp for cable, silvered tip and galvanized brace. Has handsome gilt Animal Figure (horse, cow, or rooster; state which). Give color of ornamental ball wanted. Ship. wt., about 10 lbs. Each..**$2.25**

Special Chimney Top

$1.00

183C7729 — Extra long copper upright tube with cable clamp and silvered tip. With eye-bolt for attaching to chimney. Used beside chimneys, where 5-foot uprights are not high enough to reach about 1½ ft. over top. Ship. wt., 5 lbs.

Lgth., ft.	6	8	10
Each	$1.00	$1.35	$1.75

Fresh Air Without Draught Makes Healthy Stock

Galvanized Ventilating Cupola

Suitable for Small Barns, Cattle Sheds, Etc.

$15.10

180C778—Large, attractive cupola. So constructed as to continually draw out foul air and replace it with fresh air without creating a draught. The barn is kept free from odors, and the air inside is as clean and wholesome as outdoors. Keeps temperature at a point where animals will not catch cold when taken out of barn. Animals will thrive better with the added fresh air.

Made of heavy galvanized steel, all bolts galvanized, rust-proof rivets. Holes punched on four sides for connecting lightning rod to a standard ⅝-inch galvanized iron rod in the center extending through the top with a nice acorn top piece, large animal vane and ball on top. A well made cupola that will last a lifetime. Shipped taken down and nested. Securely crated. Ship. wt., 90, 110 and 135 pounds.

Size of Base	Diam. of Flue	Height Feet	Each
28x28 in.	18 in.	7½	$15.10
31x31 in.	20 in.	8½	17.00
37x37 in.	24 in.	9½	19.80

Galvanized Steel Ventilating Cupola

Suitable for Large Barns

$23.50

180C776—Extra large, ornamental cupola. Much more attractive, effective and durable than a wood cupola. Considered the best looking cupola on the market. Has efficient ventilating arrangement, mechanically arranged to draw off all foul air, and replaces good pure air without draught. Keeps temperature at a point where animals will not catch cold when taken out of barn.

Made of heavy galvanized steel, rust-proof galvanized bolts, non rustable rivets. Edges are reinforced with ⅝-inch iron rods, and so arranged that rain, snow or wind cannot get in. Cupola is screened with galvanized bird-proof nettling. Base molding cut in four corners, strongly braced and riveted. Easy to attach and will not break down. Holes punched on four sides for connecting lightning rod to a ⅝-inch galvanized iron rod in the center extending through the top with a nice acorn top piece, large animal vane and ball on top. Suitable for barns from 30 to 60 ft. long. For barns over 60 feet, use two cupolas. Shipped taken down, and securely crated. Ship. wts., 180, 210 and 220 lbs.

Double Jet Gasoline Brazing Torch

$5.95

80C807 — Gasoline Torch with double jet burners, will burn in any position, and generates an intense heat of about 3,000 degrees (Fahrenheit). The burners are easily adjusted to produce either a large or a small, pointed flame. A fine torch for all light brazing, tempering, etc., and is capable of doing work heretofore deemed impossible with a blow torch. All parts of this torch are made of heavy brass and bronze, the pump is contained in the handle of the torch, and full directions for operating are attached. Capacity of tank, 1 quart, height over all, 9 in. Ship. wt., about 4 lbs. Each..... **$5.95**

Study Our Prices on These Standard Gasoline Torches and Furnaces

Gasoline Torch and Sprayer

80C800—A most useful combination with two interchangeable nozzles. One throws a fine stream of gasoline for cleaning machinery, destroying roaches, bed bugs, etc. The other produces an intensely hot, blue blast for soldering, paint burning, etc. Brass body, pump and nozzles. Steel soldering copper holder. Well made and finely finished. Capacity, 1 quart. Height, 9 in. Shipping weight, about 5½ lbs. Each **$2.95**

Gasoline Auto Torch

80C805—With flat shaped body, for use in narrow places, especially for automobile work. Has a swing support which prevents it from tipping when placed on the bench or floor. Fitted with soldering iron holder. Pump is contained in the handle and has a powerful burner. Capacity, 1 pint; height over all, 9 in. Ship. wt., about 4 lbs. Each **$3.90**

Standard Gasoline Blow Torch

One of the finest and most popular torches on the market. Made of polished brass with special bronze metal burner, and improved air pump. Produces a solid blue flame, generating about 1,500 degrees (Fahrenheit). It is easily regulated and indispensable for paint burning, soldering, thawing out pipes. Used by plumbers, tinners, electricians, etc. Has an adjustable solder iron holder, which can be easily removed if desired. Every torch is tested and is perfect.

80C802—Capacity, 1 pint. Height, 7 in. Ship. wt., about 3 lbs. Each **$2.75**

80C803—Capacity, 1 quart. Height, 9 in. Shipping weight, about 4 pounds each **$3.2**

Standard Gasoline Furnace

180C820—Unexcelled by any other at a similar price. Produces a very hot flame. Constructed in a first class, durable manner. Has shield to hold a melting pot. Melting pot not included. With heavy galvanized iron gasoline tank. Substantial rubber pressura bulb. All small castings are mada of malleable iron and brass. The coil or burner is mado of extra heavy copper pipe. Every pot is tested before leaving factory. Consumption, 1 pint of gasoline per hour. Height over all, 17¾ in. Diameter, 8¼ in. Shipping waight, about 10 lbs. Each **$3.15**

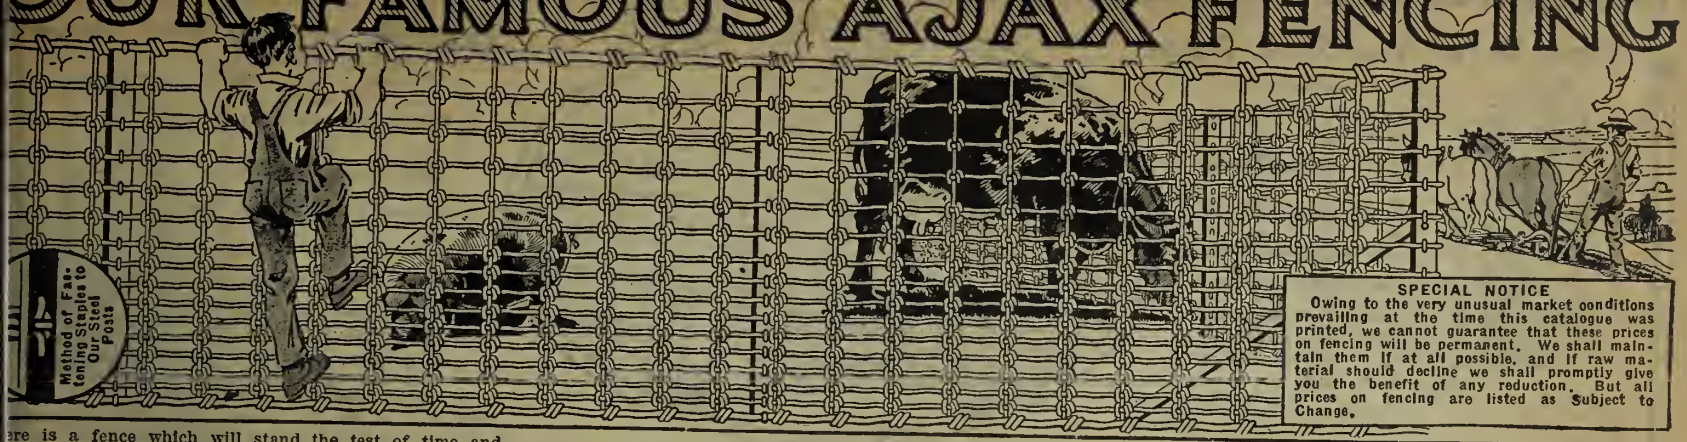
Tinners' Charcoal Stove

180C825—Extensively used as an economical means of keeping soldering coppers at a working heat. Burns regular lump charcoal. With a shaking grate, hinged hearth door, reversible flue and double dampers. Thoroughly well made, and nicely finished in black japan. Height, 15 in. Diameter, 7 in. Shipping wt., about 17 lbs. Soldering coppers not included. Each... **$2.50**

Charcoal

86C2593—Lump Hardwood Charcoal. Ship. wt., 8 lbs. Per 7-lb. bag..... **12c**

Small Gasoline Torch

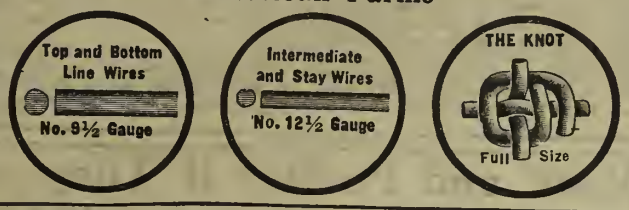


80C810—A compact little torch for small work. Made of brass, nickel plated. Will burn about three hours with one filling. It is heated and lighted with a match and is quickly started. Produces a hot blast, about half the volume of our larger torches. Operates without a pump. One of the handiest little torches ever made. Should be in every householder's tool set. Often saves its cost in making one quick repair job. Total height, 6¼ in. Diameter, 1¾ in. Ship. wt., 8 oz. Each..... **95c**

Combination Gasoline Furnace

180C822—Combination plumbers', tinners' and roofers' gasoline furnace. With steel gasoline tank, painted red. Burner is mounted on a swing joint, enabling the operator to use the flame in any position. Produces a hot flame. Will heat a pot of lead and a pair of soldering coppers at the same time. The hood can be taken off and tank with burner used separately. Burner is not affected by wind or weather. Well made and durable. Capacity, 3 quarts. Height over all, 12 in. Diameter, 8¼ in. Ship. wt., about 12 lbs. Each..... **$5.25**

OUR FAMOUS AJAX FENCING

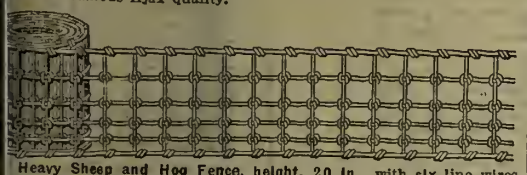


SPECIAL NOTICE

Owing to the very unusual market conditions prevailing at the time this catalogue was printed, we cannot guarantee that these prices on fencing will be permanent. We shall maintain them if at all possible, and if raw material should decline we shall promptly give you the benefit of any reduction. But all prices on fencing are listed as Subject to Change.

ere is a fence which will stand the test of time and h is giving perfect satisfaction on thousands of Ameri- farms. The real cost of fencing is not the first cost. the cost per year of service. Our **Heavy Ajax Fencing** longer than ordinary fencing and it will give you the service. **The wire in our Ajax Fence** is made of basic hearth steel, is hard, tough, and springy; of a temper quality best suited for making a high-grade, durable . Open hearth steel resists rust and decay better than made by any other process; therefore, we use it ely. We do not use the common, soft wire, which rusts, stretches out of shape, and is never satisfactory. l wires are heavily galvanized with a good coating of spelter, to prevent rust. The line wires are coiled, low for expansion or contraction due to changes in the erature.

Over 4000 Miles Put Up Each Year on American Farms



Upright stay wires or cross bars are the same size as the line wires, which give you a real stiff stay fence that always stands up and can be erected with fewer posts than any other style of fence. In the design of our Ajax fence we avoid all sharp bends or twists in the line or stay wires. The upright stays are in one piece (no twisting around the line wire) and are fastened with our Ajax circular knot. This knot or tie never lets go, and the more you stretch the fence the tighter it grips. It holds every wire firmly in place, and every wire in the fence stands its share of the strain.

Ajax fence is built on simple and correct principles—stands stiff, erect and firm; combines great strength and durability.

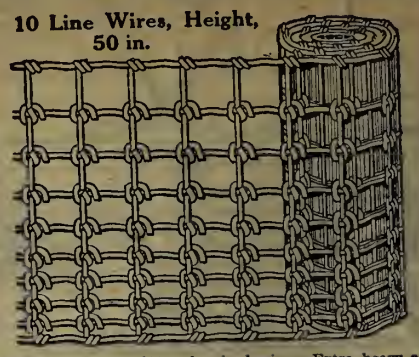
Special Notice.

Owing to the vsry unusual markst conditions prevailing at the time this catalogue was printed, we cannot guarantee that thsse prices on fencing will be permanent.

We shall maintain them if at all possible, and if raw material should decline we shall promptly give you the benefit of any reduction. But all prices on fencing are listed as Subject to Change.

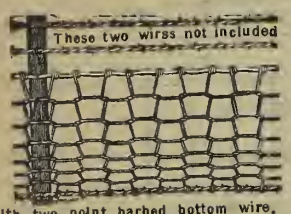


Here's some of the Heaviest and Strongest Wire Fencing made. It is made like our regular Ajax Fencing, but in this case all the wires are No. 9½ gauge (about 5/32-inch thick). When this heavy wire is used throughout the fence, experience has shown that it is not necessary to have very close stay wires. Fence posts can also be further apart.

The steel wire used is the best that is made. Extra stiff and durable, and heavily galvanized. The wires are held in place by our Extra Heavy Ajax Knot. If you want the utmost in all-around fence satisfaction, give our Extra Heavy Ajax Fence a trial.

Extra Heavy Ajax Stock Fence

10 Line Wires, Height, 50 in.



Made entirely of No. 9½ galvanized wire. Extra heavy and strong. Outlasts by far ordinary weight fencing. Close bottom meshes. Spaced 3 in. at bottom, gradually widening to 8 in. at the top.

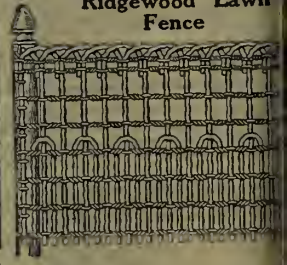
Nothing will make your home more attractive, whether it be in the city or country, than a neat ornamental lawn fence. It is an addition, once erected, which will last a life time.

Our ornamental steel and wire fences are made with two ends in view,—to give a neat appearance and to last a life time. Our prices enable you to add this touch of originality to your home at an extremely low cost. We issue a special circular which describes our Ornamental fences in detail. We bslieve it will pay you to send for it.

Fernwood Lawn Fence



280C1175—An excellent fence at a low price. Made of high quality galvanized wire. The uprights, or pickets, are heavy No. 9 gauge wire, evenly spaced 3 inches apart, evenly corrugated their full length. The twisted cable line wires are twisted tightly around each picket, and spaced about 6 inches apart, except at top, where strength is most needed, they are only 2½ inches apart.

Height	No. of Cablss	Ship. Wt. Per foot	Price Per Foot

Shipped from Factory in Central Indiana.

$5.50 to $7.40

One gate has a spring catch at bottom, to use other side as a single gate if desired.

GALVANIZED WIRE POULTRY NETTING

Two Grades—Galvanized Before, and Galvanized After Weaving

Both grades are among the best of their class. Made of tough steel wire, with heavy twisted top and bottom line wires. So formed as to stretch evenly, stand rigidly and present a neat appearance. An excellent, economical enclosure for any poultry yard. Will roll out flat and straight, and will not sag or bulge out when put up, as do many inferior grades. If you have ever had any experience with netting made of cheap, soft wire, galvanized with low grade metal, worthless as a rust preventive, you will appreciate the high quality of our netting to the fullest extent.

Netting Galvanized After Weaving has ever been held to be superior to netting galvanized before weaving, and, formerly, when the price of both are about the same, we sold only netting galvanized after weaving. But now, when the high price of zinc spelter has made considerable difference in the price of the two kinds, we have decided to list both kinds and give our customers their choice. Netting galvanized after weaving requires more zinc, as the twists take up a great deal of this metal in galvanizing, thereby firmly soldering the meshes, insuring strength, firmness, and long life.

Netting Galvanized Before Weaving is made from steel wire of the same grade as that used in the netting galvanized after weaving, but it is galvanized before weaving, thereby losing some of the advantages of the other kind, such as the soldering of twists, as mentioned in the foregoing.

Both grades are made in three sizes of mesh: 2-inch mesh, which is the standard and the size in common use; 1½-inch mesh and 1-inch mesh. Sold only in full bales of 150 lineal or running feet.

Prices are subject to market changes.

Special Notice

Owing to the very unusual market conditions prevailing at the time this catalogue was printed, we cannot guarantee that these prices on fencing will be permanent. We shall maintain them if at all possible, and if raw material should decline we shall promptly give you the benefit of any reduction. But all prices on fencing are listed as Subject to Change.

Barbed Fence Wire

A perfect wire. Thoroughly annealed. We recommend the two-point single twist barbs shown above. Much neater than four-point barb, easier to handle and just as effective. Two strands regular No. 12 gauge wire. Ship. wt., per rod, about 1 lb. Cattle wire has barbs about 5 in. apart. Hog wire has barbs about 3 in. apart.

Standard Galvanized Two-Point Barbed Wire

280C1456—Cattle Wire. Reel of 100 lbs.....$3.75
280C1457—Cattle Wire. Spool of 80 rods..... 3.05

Standard Galvanized Four-Point Barbed Wire

C1460—Cattle Wire. Spool of 80 .....$3.15

280C1461—Hog Wire. Spool of 80 rods $3.45

Shipped from factory in Northern Indiana.

Eclipse 80-Rod Barbed Wire

A medium weight fence wire, preferred by many to the regular standard barbed wire. Easy to handle. Tough and elastic. Cable wires are No. 14 gauge. Put up on spools containing 80 rods. Ship. wt., per spool, 56 to 58 lbs.

280C1471—Galvanized Hog Wire. Per spool.....$2.35

280C1473—Galvanized Cattle Wire. Per spool 2.25

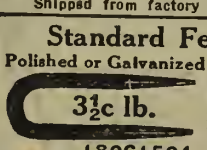
Shipped from factory in Northern Indiana.

Twisted Cable Fence Wire

280C1481—Made of two strands of No. 12 gauge galvanized smooth steel wire (no barbs). Preferred to single-strand fence wire because of its greater strength. No barbs to catch and tear the clothes or injure animals. Ship. wt., 100 lbs. Galvanized. Reel of 100 lbs.....$3.75

Shipped from factory in Northern Indiana.

Smooth Fence Wire



Smooth Steel Fence Wire. Prices given are for 100-lb. bundles. We do not break bundles. All wire prices are subject to market changes, so we cannot guarantee them, but will always bill to you at the very lowest market rates. (Give size.)
